344,288	7/ 6/40	P. Gilli	Cab for fireless locomotives.
344,295	7/ 6/40	P. Fries	Method of manufacturing electronic tubes.
344,300	7/ 8/40	P. Schuttler	Screw-nut.
344,417	7/ 8/40	F. Eisenlohr	Combined carpet sweeper and dust exhauster.
344,418	7/ 8/40	O. Barthelmes	Accounting machines.
344,438	7/ 8/40	O. Engler	Method and apparatus for the demagnetizing of small steel bodies.
344,454	7/ 8/40	R. Martin et al	Calculating machine.
344,455	7/ 8/40	O. Conradty	Insulated carbon body.
344,512	7/ 9/40	P. Sobek	Driving device for rotary piston machines.
344,568	7/ 9/40	K. Krauze	Electrical discharge apparatus.
344,769	7/10/40	B. Engels	Refrigerator.
344,790	7/10/40	H. Kietz et al	Device for directed reception of wave motions.
345,052	7/12/40	W. Welker	Flat knitting frames.
345,066	7/12/40	P. Schonfeld et al	Warp machines.
345,132	7/12/40	E. Florian et al	Variable pitch air propeller.
345,176	7/12/40	J. Haag	Method of producing chromiferous steels.
345,177	7/12/40	H. Basler	Method of producing hard fibre boards.
345,235	7/12/40	H. Schmidt	Process of manufacturing tetrachlorcethylene.
345,240	7/12/40	E. Latscher-Latka	Turnspring.
345,336	7/13/40	H. Schumacher	Controlling mechanism for lathes.
345,362	7/13/40	H. Fischlmayr	Fuel injection nozzle.
345,366	7/13/40	W. Michael et al	Process for the thermal treatment of carbonaceous material.
345,367	7/13/40	W. Michael et al	Process for the thermal treatment of carbonaceous material.
345,771	7/16/40	A. Berger	Multi-throw crank shaft.
345,833	7/16/40	K. Thom	Circuit arrangement with secondary emission electron multiplier.
345,834	7/16/40	K. Thom	Photoelectric signal amplifier.
345,841	7/16/40	E. Weidner	Disinfectants.
346,060	7/17/40	G. Klein	Method of manufacturing finely graded helical electric resistors.
346,541	7/20/40	K. Bruckersteinkuhl	Signal amplifier.
346,568	7/20/40	O. Zima et al	Compounds having vitamin B_1 activity.
346,569	7/20/40	O. Zima et al	Process for the manufacture of derivatives of pyridine.
346,900	7/23/40	W. Pfost et al	Selectivity control in broadcast receivers.
346,924	7/23/40	W. Nallinger	Fastenings of instruments.
346,964	7/23/40	W. Berg	Reservoirs for fluid filled cable.
347,040	7/23/40	W. Moschel et al	Process of producing magnesium oxide.
347,120	7/24/40	W. Heimann	Electronic television transmitters.
347,311	7/24/40	H. Von Philipp	Insecticides.
347,406	7/25/40	W. Schwenecke	Drill.
347,464	7/25/40	H. Moller et al	Bookkeeping machines or the like.
347,517	7/25/40	F. Steinbach	Electric motor control.
347,519	7/25/40	E. Toenniessen	Drawing frame.
347,559	7/25/40	J. Meyer	Conical belts.
347,565	7/25/40	R. Brandt	Method for the removal of carbonic oxide from gases or mixtures of gases containing sulfur compounds by a contact process with steam catalysis.
348,079½	7/29/40	K. Freudenberg et al	Process for the preparation of products from lignin by hydrogenation.
348,121	7/29/40	K. Steffens	Drill.
348,274	7/29/40	A. Lauer et al	Method and apparatus for contracting the ends of hollow bodies.
348,340	7/30/40	O. Eppenstein	Interpupillary distance gauge.
348,410	7/30/40	J. Buchhart	Universal joints.
348,492	7/30/40	E. Ruska	Magnetic lenses for electronoptical apparatus.
348,503	7/27/40	F. Hansgirg	Process of producing gas mixture for synthetic purposes.
348,520	7/30/40	H. Grabener	Closures for containers.
348,524	7/30/40	F. Weigend	Sluicing devices for corpuscular ray apparatus.
348,726	7/31/40	M. Hirst	Internal combustion engines.
348,782	7/31/40	W. Voit	Liquid fuel injection system for multicylinder internal combustion engines.
348,988	7/31/40	K. Tuchscherer et al	Thread carrier bars.
349,179	8/ 1/40	P. Becker	A machine for the production of bags and the like.
349,194	8/ 1/40	H. Ehrenberg	Feed apparatus for moving the feeler pin holder of copy milling machines.
349,256	8/ 1/40	G. Aschenbrenner et al	Spinning method.
349,286	8/ 1/40	B. Habraschka	Production of hardenable orthocresol aldehyde condensates.
349,437	8/ 2/40	F. Siedlanowski	Production of hydrogen by electrolysis.
349,542	8/ 2/40	H. Albers	Heavy duty presses.
349,853	8/ 2/40	W. Breitschneider	High pressure steam generator.
350,065	8/ 2/40	J. Loeffler	Process for the production of cadmium red.
350,452	8/ 3/40	J. Hartmann	Hydraulic brake for power driven vehicles.
350,576	8/ 3/40	H. Huhn et al	Fluid seals.
350,734	8/ 3/40	F. Fiedler	Hydraulic brake.
351,241	8/ 3/40	R. Weiner	Electroplating bath.

SERIES OF 1935—Continued

Serial No.	Filing date	Inventor	Title
351,243	8/ 3/40	K. Vieweg	Process for the conversion of natural fibres.
351,470	8/ 3/40	M. Aurig	Disintergratorlike devices.
351,493	8/ 5/40	R. Kern	Method and apparatus for the loosening of matted fibrous materials.
351,556	8/ 5/40	K. Bielfeld	Manufacture of nonmetallic electric resistance materials.
351,560	8/ 6/40	H. Westerkamp	Art of producing sound films.
351,561	8/ 6/40	H. Westerkamp	Film container for endless films.
351,621	8/ 6/40	R. Becker	Process of and apparatus for degasifying etc.
351,640	8/ 6/40	W. Dyckerhoff et al	Hydraulic cement.
351,747	8/ 7/40	J. Kunert	Paper fastening devices.
351,815	8/ 8/40	E. Allstadt	Internal combustion engines.
351,934	8/ 9/40	W. Dillenburger	Television transmission system.
352,006	8/ 9/40	G. Daumiller et al	Production of aromatic vinyl compounds.
352,031	8/ 9/40	O. Worm	Device for drawing off welts.
352,040	8/10/40	H. Gonningen	Electric leading-in arrangements.
352,072	8/10/40	A. Guggemos et al	Process of producing butadiene.
352,080	8/10/40	R. Schleicher	Pillion saddle for motorcycles.
352,111	8/10/40	F. Fornbacher	Automatic dial changing recorder.
352,145	8/10/40	H. Molly	Hydraulic starter.
352,146	8/10/40	H. Molly	Axial piston pump.
352,147	8/10/40	H. Molly	Pump, more particularly an axial piston pump with adjustable stroke.
352,156	8/10/40	P. Endres	Dispensing scales with a needle moving over a scale and instantaneously indicating the weight in units.
352,305	8/12/40	J. Krudewig	Liquid change-speed gearing.
352,325	8/12/40	F. Kulz	Therapeutically active tetrahydro isoquinoline compounds and processes.
352,513	8/14/40	B. Ossan	Method of and apparatus for operating shaft furnaces for roasting and the like.
352,618	8/14/40	S. Wiechowski	Cosmetic for hair and skin.
352,623	8/14/40	E. Mazur	Fluid-pressure brake apparatus.
352,808	8/15/40	A. Guter et al	Claw couplings with synchronizing device.
352,972	8/16/40	H. Cordt	Multiple counter calculating and registering machine.
353,001	8/17/40	G. Hohn	Welding appliances.
353,130	8/17/40	F. Martin	Process for removing oxygen out of industrial gas mixtures.
353,296	8/19/40	R. Golicke	Stabilized electron discharge device circuit.
353,321	8/20/40	F. Gieffers	Variable resistors.
353,396	8/20/40	M. Steenbeck	Metallic vapor discharge devices.
353,337	8/20/40	E. Ruska	Electronic microscopes.
353,408	8/20/40	W. Heszler et al	Calculating or bookkeeping machines.
353,418	8/20/40	O. Conradty et al	Collector.
353,425	8/20/40	H. Hunsdiecker	Process of manufacturing cyclopentenone derivatives.
353,551	8/21/40	A. Schutte	Gas turbine.
353,552	8/21/40	A. Schutte	Casing for gas turbines.
353,554	8/21/40	H. Weidtke	Nozzle assembly for diesel motors.
353,644	8/22/40	H. Klaue	Disc brake for use in motor-cars, aeroplanes and the like.
353,685	8/22/40	A. Rappold	Television transmitter.
353,745	8/22/40	H. Tannheim	Process of electric welding.
353,760	8/22/40	H. Wildermuth	Screw gauge.
353,931	8/23/40	E. Laubmann	Production of stereoscopic motion pictures.
353,973	8/23/40	E. Horn	Track for toy vehicle.
353,974	8/23/40	C. Becker	Leveling the characteristic of photographic emulsions.
353,978	8/23/40	R. Ruhnau	Method and device for producing wax ribbons for mechanical sound recording.
353,982	8/23/40	P. Halbig et al	Process for the polymerization of alkoxybutadienes.
354,016	8/24/40	W. Buschbeck et al	Broad-band antenna.
354,220	8/26/40	H. Straub	Method and device for measuring the thickness of light transmitting layers.
354,410	8/27/40	F. Riedel	Control device for once-through vapor generators.
354,459	8/27/40	C. Becker	Producing sound records in half-wave records.
354,460	8/27/40	C. Becker	Controlling the exposure of photographic sound records.
354,461	8/27/40	C. Becker	Electric connection for reproducing sound records.
354,580	8/28/40	H. Witthoft et al	Variable self-inductance with a core of magnetic material.
354,743	8/29/40	H. Bahring	Saw-tooth oscillator.
354,762	8/29/40	A. Holzhey et al	System for disbarking trunks.
354,771	8/29/40	H. Pachr	Light modulating screen.
354,898	8/30/40	R. Lang	Roller bearings.
355,270	9/ 3/40	H. Strah et al	Production of metallized dielectric materials.
355,289	9/ 4/40	F. Reimspiess	Springing mechanism for vehicles.
355,299	9/ 4/40	F. Gieffers	Variable resistors.
355,373	9/ 4/40	G. Zieber	Measuring device.
355,383	9/ 4/40	K. Kiel	Selecting mechanism for calculating machines.
355,390	9/ 4/40	O. Conradty et al	Connection of carbon bodies.
355,391	9/ 4/40	O. Conradty	Connection for carbon segments of collectors.
355,392	9/ 4/40	O. Ahne	Apparatus for forming filter plugs adapted to be introduced into cigarette paper tubes.
355,401	9/ 4/40	G. Cordes	Method for aerodynamically braking aircraft in flight.
355,402	9/ 4/40	O. Moldenhauer et al	Method for the production of polycondensation products etc.

SERIES OF 1935—Continued

Serial No.	Filing date	Inventor	Title
355, 522	9/ 5/40	W. Howaldt et al	Process for electrolytically producing bright deposits of zinc on other metals, for example on iron.
355, 565	9/ 6/40	A. Rappold	Television device.
355, 567	9/ 6/40	W. Kuhlmann	Portable radio equipment.
355, 599	9/ 6/40	P. Deserno	Arrangements for measuring frequency characteristics.
355, 620	9/ 6/40	F. Kober et al	Optical system for taking stereoscopic photographs.
355, 621	9/ 6/40	L. Iglnck	Loud speakers.
355, 657	9/ 6/40	G. Spiess	Device for conveying sheets of paper.
355, 680	9/ 6/40	K. Lanninger	Pipe couplings.
355, 709	9/ 7/40	F. Schneider	Electric storage batteries.
356, 093	9/ 9/40	J. Dichter	Apparatus for producing articles from artificial materials.
356, 108	9/ 9/40	W. Machu et al	Method for decreasing or preventing the actions of pickling acid on metals, especially iron and metal alloys.
356, 112	9/ 9/40	W. Gartner	Process for the manufacture of cigarette paper.
356, 113	9/ 9/40	W. Gartner	Method for the preparation of superior cellulose.
356, 190	9/10/40	F. Hausleiter	Method for the production of printing plates, especially flat printing and offset printing plates.
356, 260	9/11/40	B. Von Borries et al	Electrostatic lenses for corpuscular ray apparatus.
356, 273	9/11/40	F. Dietrich	Rear lights for road vehicles, principally for automobile vehicles.
356, 349	9/11/40	H. Beck	Electric searchlight.
356, 395	9/11/40	E. Meier, Jr	Method of manufacturing tubular composite metal.
356, 455	9/12/40	M. Dressler	Type wheel for telegraph apparatus.
356, 524	9/12/40	W. Rudolph	Treatment of dried peas.
356, 697	9/13/40	F. Hell	Circulating pump for pasty masses especially for concrete.
356, 818	9/14/40	H. Links et al	Regulating device, specially for fuel injection pumps of internal combustion engines.
356, 856	9/14/40	A. Amann et al	Conversion products of rubber.
356, 857	9/14/40	A. Amann et al	Process of purifying conversion products of rubber.
356, 882	9/14/40	W. Frey et al	Press & tool structure for forming cavities in metal plate.
357, 175	9/17/40	L. Meyer	Heaters.
357, 483	9/19/40	K. Haase	Diesel power rams.
357, 498	9/19/40	K. Freudenberg et al	Process for the preparation of products from lignin by hydrogenation.
357, 504	9/19/40	E. Weiss et al	Spring mechanism for the release of a firing pin or similar movable part.
357, 533	9/20/40	E. Rossberg	Connection for teleprinters.
357, 588	9/21/40	R. Hintze et al	Refrigerating apparatus of the compression type.
357, 765	9/21/40	F. Lucan	Circuit arrangement for electric discharge tubes.
357, 784	9/21/40	M. Auwarter et al	Guide for molten silicates.
357, 822	9/21/40	H. Neumann et al	Method of manufacturing permanent magnets.
357, 839½	9/23/40	W. Minner	Track for toy vehicle.
357, 954	9/23/40	W. Gleissner	Shoe-lip tacking machine with punching device.
357, 967	9/23/40	H. Horack	Adjustable jaw for skis.
357, 976	9/23/40	W. Rossmanith	Firing and carriage frame for large calibre shoulder rifles especially for tank rifles.
357, 987	9/23/40	H. Ewald	Printing calculating machines.
357, 989	9/23/40	H. Brendlein	Process for producing catalysts.
357, 993	9/23/40	P. Pfeiffer	Regulating device for pile-driver monkeys.
358, 023	9/23/40	E. Toennessen	Drawing frame with adjustable holder for the pressure rollers.
358, 024	9/23/40	E. Toennessen	Leather tape drawing frame with drawing guide.
358, 067	9/24/40	F. Herriger	Sealing compounds.
358, 109	9/23/40	H. Links	Tappet guide, specially for plunger pumps.
358, 118	9/24/40	K. Froehlich	Spring suspensions for road vehicles.
358, 173	9/24/40	H. Dorn	Tube rolling system.
358, 175	9/24/40	W. Avenhaus	Method and apparatus for the production of ceramic shaped bodies, especially clay tiles.
358, 181	9/24/40	R. Heinrich	Process of electrostatic separation of mixtures.
358, 182	9/24/40	W. Kerstan	Process for the production of white opaque enamels.
358, 184	9/24/40	M. Kollmar	Production of silver preparation.
358, 267	9/25/40	H. Gruss	Method of controlling the moisture, etc.
358, 277	9/25/40	W. Stahlecker	Guiding arrangement for top rolls.
358, 278	9/25/40	F. Grandel et al	Process for the production of substances expediting the growth of cells.
358, 279	9/25/40	F. Grandel	Production of vitamin-F preparations.
358, 320	9/25/40	F. Gutzmann et al	Cable terminals.
358, 511	9/26/40	H. Strubig	Methods and means for producing television images.
358, 561	9/26/40	J. Wilberz	Device for actuating an automatic lathe, especially a spar bench.
358, 562	9/26/40	J. Wilberz	Lathe or similar tool and a method and device for putting the same together.
358, 686	9/27/40	K. Schwarzer	Roentgen tube with anode turning about its longitudinal axis.
358, 938	9/28/40	H. Kallmann, et al	Method and device for depicting the intensity distribution in beam of slow neutrons.
358, 939	9/28/40	H. Kallmann, et al	Device for the production of visible photographic images with the aid of a beam of neutrons as depicting radiation.
358, 942	9/28/40	H. Schmidt	Bleaching process for fluids.
359, 003	9/30/40	H. Nerwin	Photographic cameras.

SERIES OF 1935—Continued

[General Order No. 5]

PART 503—GENERAL ORDERS

REPORT OF PROPERTY OR INTEREST OF AN ENEMY COUNTRY OR NATIONAL

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned hereby issues the following regulation:

§ 503.5 *General Order No. 5.* (a) All designated persons shall file a report of any property or interest in which there is reasonable cause to believe a designated enemy country or a designated national has an interest.

(b) Such reports shall be submitted in duplicate on Form APC–3, which is hereby adopted and made a part of this order,[2] shall be executed under oath and shall contain complete information in the manner provided in Form APC–3.

(c) For the purposes of this order the terms:

(1) "Designated persons" shall mean persons or officers acting under judicial supervision, or in any court or administrative action or proceeding, or in partition, libel, condemnation or other similar proceedings, including, but not by way of limitation, (i) executors, (ii) administrators, (iii) guardians, (iv) committees, (v) curators, (vi) trustees under wills, deeds or settlements, (vii) receivers, (viii) trustees in bankruptcy, (ix) assignees for the benefit of creditors, (x) United States marshals, (xi) sheriffs, (xii) commissioners, (xiii) persons acting under trust agreements, and (xiv) all other persons or officers acting in a similar capacity;

(2) "Designated enemy country" shall mean any foreign country against which the United States has declared the existence of a state of war (Germany, Italy, Japan, Bulgaria, Hungary and Rumania) and any other country with which the United States is at war in the future;

(3) "Designated national" shall mean any person in any place under the control of a designated enemy country or in any place with which, by reason of the existence of a state of war, the United States does not maintain postal communication.

(d) Upon the execution of such report it shall be forwarded on or before October 1, 1942, to the Office of Alien Property Custodian, Estates and Trusts Section, Washington, D. C.

(e) Subsequent to October 1, 1942, such report shall be filed on Form APC–3 by any designated person within thirty days from the date upon which such designated person qualifies. (E.O. 9095 as amended; 7 F.R. 5205)

PART 503—GENERAL ORDERS

SERVICE OF PROCESS UPON ANY PERSON WITHIN ANY DESIGNATED ENEMY COUNTRY OR ANY ENEMY-OCCUPIED TERRITORY

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned hereby issues the following regulation:

§ 503.6 *General Order No. 6.* (a) In any court or administrative action or proceeding within the United States in which service of process or notice is to be made upon any person in any designated enemy country or enemy-occupied territory, the receipt by the Alien Property Custodian of a copy of such process or notice sent by registered mail to the Alien Property Custodian at Washington, D. C., shall be service of such process or notice upon any such person, if, and not otherwise, the Alien Property Custodian within sixty days from the receipt thereof shall file with the court or administrative body issuing such process or notice, a written acceptance thereof.

(b) Such process or notice shall otherwise conform to the rules, orders or practice of the court or administrative body issuing such process or notice.

(c) This order shall not be construed to limit the authority of the Alien Property Custodian to take any measures in connection with representing any such person in any action or proceeding as in his judgment and discretion is or may be in the interest of the United States.

(d) For the purposes of this order the terms:

(1) "Person" shall mean any individual, partnership, association or corporation;

(2) "Designated enemy country" shall mean any foreign country against which the United States has declared the existence of a state of war (Germany, Italy, Japan, Bulgaria, Hungary and Rumania) and any other country with which the United States is at war in the future;

(3) "Enemy-occupied territory" shall mean any place under the control of any designated enemy country or any place with which, by reason of the existence of a state of war, the United States does not maintain postal communication. (E.O. 9095 as amended; 7 F.R. 5205)

Using the terms "oil painting," "Portrait painting," "hand painted" or "hand painted portrait," or the word "painting," either alone or in conjunction with any other words or terms in any way to designate, describe or refer to colored or tinted pictures, photographs, photographic enlargements or reductions or other pictures produced from a photographic base or impression;

3. Representing that pictures being sold in the regular course of business at the usual and customary prices therefor are being or will be sold only to a limited number of customers, or as an "introductory offer" or at an "advertising price" or at a "reduced price" or representing in any manner that a purchaser is receiving an advantage in price or other consideration not ordinarily available;

4. Representing that any specified sum in excess of the actual cost of production is merely the "cost of production";

5. Representing that the picture to be made and delivered will be a reproduction or duplication of the sample displayed to the customer unless in fact the picture thereafter delivered is of the same quality, design and workmanship as said sample;

6. Using the trade names "Art Studios," "Art Institute," "Art Company," "Art Association" or any other fictitious name of similar import unless the respondent so using such name or names actually owns, operates, conducts or controls an organization or establishment of the character indicated and comprehended by the trade name so used;

7. Misrepresenting, or authorizing, permitting or cooperating in the misrepresentation of, the financial responsibility, prestige or standing of the respondents or the character and extent of their business by falsely claiming to be a subsidiary or business affiliate of an operating, established house, or by deceptively using the business address of such established house as and for business allegedly operated by them, and from misrepresenting through the use of fictitious trade names and misleading street and post office addresses the place, character and extent of the business actually conducted by them;

8. Representing that respondents maintain art studios, art institutes or art academies in which art classes are held for the purpose of giving experience to young artists and that such students will paint by hand portraits and miniatures from photographs furnished to sales agents by customers;

9. Using a "draw," "draw contest" or so-called "lucky" blanks, numbers slips, coupons or certificates, or any other device, plan or scheme, or any prize contest or special introductory or advertising offer, so as to represent, indicate or imply that any customer will obtain a financial advantage thereby or be entitled to receive any picture free or to receive a substantial discount or reduction in the price of any picture or pictures;

10. Using the terms "field artist" or "instructing artist" or similar terms to designate, describe or refer to operators or salesmen delivering pictures or "sketches" of pictures or selling frames;

11 Concealing from or failing to disclose to customers at the time pictures are ordered that the finished picture when delivered will be so shaped and designed that it can only be used in a specially designed, odd-style frame which can be procured only from respondents;

12. Failing or refusing, in cases where a picture ordered has been completed and paid for, to return to the customer the completed picture or the photograph or snapshot previously loaned by the customer for use in producing the picture;

13. Representing as the customary or regular prices or values for frames, prices and values which are in fact greatly in excess of the prices at which said frames are customarily offered for sale and sold in the normal and usual course of business.

It is further ordered, That this proceeding, insofar as it relates to C. A. Hicks, individually and trading as H. B. Art Company, Ruth Attix, Henry Acie Barrentine, Earl Bigby, Lloyd Brown, H. V. Caton, L. Clark, O. D. Clayton, Robert Dodd, George F. Donehue, J. F. Evans, Thos. Gaddis, V. Gantt, Jimmy Greenwood, L. H. Marsden, Thelmar Marshall, J. H. McCoy, J. W. Parker, T. E. Savage, Lillian Shepard, John G. Tierney, Stella Timmerman, Kay Harriet Whitten and Chester Wofford, be, and the same hereby is, closed without prejudice, the Commission being unable to effect service of complaint upon said respondents.

It is further ordered, That all of said respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1334]

PART 324—MINIMUM PRICE SCHEDULE DISTRICT NO. 4

ORDER GRANTING RELIEF

Order granting relief in the matter of the petition of District Board No. 4 for definition of vessel fuel in the Schedule of Effective Minimum Prices for District No. 4 for All Shipments Except Truck and marketing rules and regulations to include coals shipped to railroad and unloading piers and shipped to docks which are not such piers.

A petition having been filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 by District Board 4, requesting that the presently effective vessel fuel coal prices for District 4 be made applicable to all shipments for vessel fuel use regardless of the manner of unloading such coal into the bunkers;

Petitions of intervention having been filed by District Boards 1, 2 and 6 and a Notice of Appearance having been filed by Bituminous Coal Consumers' Counsel;

A hearing in this matter having been held, pursuant to Order of the Acting Director and after due notice to all interested persons, before Travis Williams, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a Report by the Examiner having been waived and the record therein having been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That the Statement (No. 39) of the Director dated August 25, 1941, entitled: "Statement of the Director Concerning Minimum Prices on Bunker Coal and Distributors' Discounts Thereon," be and the same hereby is approved and confirmed.

It is further ordered, That § 321.1, § 322.1, § 323.1, § 324.1, § 325.1, § 326.1 (*Price instructions and exceptions*—(b) *Price exceptions*), § 327.1 (*Low volatile and high volatile coals, price instructions and exceptions*—(b) *Price exceptions*), and § 328.1 (*Price instructions and exceptions*—(b) *Price exceptions*) in the respective Schedules of Effective Minimum Prices for Districts Nos. 1, 2, 3, 4, 6, 7 (high volatile), and 8 (high volatile) For All Shipments Except Truck be and the same hereby are revised and amended by the addition of a special price exception to read as follows:

Vessel Fuel Prices shown herein apply on shipments of coal to the Detroit and Cleveland Navigation Company at its 9th Street dock, Cleveland, Ohio, for vessel fuel use.

Dated: July 31, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

PART 628—APPEAL TO THE PRESIDENT

[Amendment 69, 2d Ed.]

APPEALS ON GROUNDS OF DEPENDENCY ONLY

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 628.2[1] to read as follows:

§ 628.2 *Appeals on grounds of dependency only.* (a) The registrant or any person who claims to be a dependent of the registrant, at any time within 10 days after the mailing by the local board of the Notice of Classification (Form 57) or the Notice of Continuance of Classification (Form 58), may appeal from the classification of the registrant by the board of appeal provided (1) the appeal is made upon the grounds of dependency only; (2) the registrant was classified by the board of appeal in either Class I-A, Class I-A O, Class I-B, Class I-B-O, Class IV-E, or Class IV-E-LS; and (3) one or more members of the board of appeal dissented from such classification. The local board may permit any person who is entitled to appeal under this paragraph to do so, even though the 10-day period herein provided for appeal has elapsed, if it is satisfied that the failure of such person to appeal within the 10-day period was due to a lack of understanding of the right of appeal or to some cause beyond the control of such person. Unless the local board permits such an appeal, the right of such persons to appeal shall terminate at the end of the 10-day period herein provided.

(b) Whenever the government appeal agent is convinced that it is in the interest of the United States or necessary in order to avoid great and unusual hardship to the dependents of a registrant, he may file in the registrant's file a request that the State Director of Selective Service appeal to the President from the classification of the board of appeal. The registrant's file shall be forwarded to the State Director of Selective Service. If the State Director of Selective Service is convinced that an appeal to the President should be taken, he shall execute a certificate, in writing, as follows:

Upon the recommendation of the government appeal agent and being convinced that it is in the interest of the United States or necessary in order to avoid great and unusual hardship to the dependents of the registrant, I hereby appeal to the President from the classification of the board of appeal and recommend that the registrant be placed in Class III-A or Class III-B.

If the State Director of Selective Service determines not to take an appeal to the President, he shall return the file to the local board together with the statement that he does not intend to take an appeal. During the time that any registrant's file is being forwarded to or considered by the State Director of Selective Service, the registrant shall not be inducted.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 971—ETHYL ALCOHOL AND RELATED COMPOUNDS

[General Preference Order M-30, as amended August 8, 1942]

Section 971.1 *General Preference Order M-30*[1] is hereby amended to read as follows:

§ 971.1 *General Preference Order M-30*—(a) *Definitions.* (1) "Ethyl alcohol" means ethyl alcohol of 160 proof or more, denatured or undenatured, and from whatever source derived, but shall not include ethyl alcohol produced for beverage purposes.

(2) "Related compounds" means acetic acid, ethyl ether and ethyl acetate from whatever source derived.

(3) "Producer" means any person engaged in the production of ethyl alcohol or related compounds, and includes any person who has ethyl alcohol or any related compounds produced for him pursuant to toll agreement.

(4) "Distributor" means any person who has purchased or purchases ethyl alcohol or any related compounds for purposes of resale.

(5) "Calendar quarter" means the several three month periods of the year commencing January 1, April 1, July 1 and October 1.

(b) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(c) *Restrictions on use and deliveries of ethyl alcohol.* Anything in Priorities Regulation No. 1 to the contrary notwithstanding, and except as hereafter may be otherwise directed by the Director General for Operations:

(1) No person shall, during any calendar quarter commencing January 1, 1942, accept delivery of ethyl alcohol for any purpose not specified in paragraphs (c) (2), (3) and (4) hereof in excess of 100% of the quantity of ethyl alcohol which he used (distributed in the case of a distributor) for such purpose during the corresponding calendar quarter in the twelve months period ended June 30, 1941.

(2) No person shall, during any calendar quarter commencing January 1, 1942, accept delivery of ethyl alcohol for a purpose set forth below in excess of that percentage, set opposite such purpose, of the quantity of ethyl alcohol which he used (distributed in the case of a distributor) for such purpose during the corresponding calendar quarter in the twelve months period ended June 30, 1941:

Purpose	*Percentage*
Hair and scalp preparations	75% during the calendar quarter commencing January 1, 1942.
Bay rum	70% during each calendar quarter thereafter.
Shampoos	
Face and hand lotions	
Body deodorants	
Toilet waters	
Perfume and perfume tinctures	
Toilet soaps (including shaving cream)	
Mouth washes	
Tooth cleaning preparations	
Perfume materials and fixatives	
Rubbing alcohol	
Witch hazel	
Deodorant sprays	
Candy glazes	
Shoe polish	

(3) No person shall, during any calendar quarter commencing July 1, 1942, accept delivery of ethyl alcohol for the manufacture of vinegar in excess of 110% of the quantity of ethyl alcohol which he used (distributed in the case of a distributor) for such purpose during the corresponding calendar quarter in the twelve months period ended June 30, 1941.

(4) Persons may, subject to Priorities Regulation No. 1, accept delivery of ethyl alcohol for the purposes set forth below without limitation:

Military explosives
Acetic acid (except vinegar for food use)
Ethyl acetate
Ethyl chloride
Other ethyl esters
Plastics and resins (manufacture of)
Acetaldehyde
Ethyl ether
Basic medicinal chemicals not in compounded form
Glycol and other ethers
Fulminate of mercury
Ethylene dibromide
Xanthates
Flotation reagents
Ethylene gas and ethylene oxide
Dyes and intermediates (manufacture of)
Nitrocellulose (dehydration)
Nitrocellulose (dissolving and as diluent)
Diethylamine (for the manufacture of synthetic rubber)
Hydrosulfites
Pectin
Shellac, natural resins and gums (dissolving)

(5) No producer shall, during any calendar quarter commencing January 1, 1942, use ethyl alcohol in excess of the quantity of ethyl alcohol, delivery of which he may accept pursuant to paragraphs (c) (1), (2) and (3) above.

(6) No producer or distributor shall deliver any ethyl alcohol to any person during any calendar quarter unless, prior to such delivery, the deliveree shall have submitted to the deliveror a certificate, properly filled out and manually signed by a duly authorized official, in substantially the following form:

The delivery, during this calendar quarter of ---- gallons of ethyl alcohol, which the undersigned requires for a purpose set forth, either specifically or otherwise, in paragraph (c) of General Preference Order No. M-30, as amended, and in connection with which this certificate is submitted, will not be, taking into consideration ethyl alcohol received and to be received during this calendar quarter from all sources, in excess of ---- percent of the quantity of ethyl alcohol which the undersigned used for the same purpose during the corresponding calendar quarter in the twelve months' period ended June 30, 1941, and will not be in excess of the quantity of ethyl alcohol to which the undersigned is entitled pursuant to said order, with the terms of which the undersigned is familiar.

Date ----------

---------- (Name of Deliveree)

By ----------

---------- (Duly Authorized Official)

(7) The restrictions and requirements hereinabove set forth with respect to the use and delivery of ethyl alcohol shall not apply to delivery to:

(i) The Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development.

(ii) The Government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies and Protectorates, and Yugoslavia.

(iii) The government of any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(iv) Persons holding permits issued by the Bureau of Internal Revenue permitting them to acquire undenatured ethyl alcohol tax free.

(v) Fill orders bearing a preference rating of A-1-j or higher for such ethyl alcohol.

Quantities permitted hereunder shall be in addition to quantities permitted under paragraphs (c) (1), (2) and (3) hereof.

(d) *Small order exemption.* The restrictions and requirements set forth in paragraph (c) hereof shall not be applicable with respect to deliveries of quantities of ethyl alcohol of fifty-four gallons, or less, to any one person in any one month (less any quantities delivered to such person during such months from other sources).

(e) *Manufacture of anti-freeze.* The quantity of ethyl alcohol that may be used in the manufacture of anti-freeze shall be controlled by the provisions of General Limitation Order No. L-51, as amended from time to time.

(f) *Restrictions on production of ethyl alcohol.* Except as may be otherwise directed by the Director General for Operations, no producer shall, after January 15, 1942, produce ethyl alcohol from molasses (as defined in General Preference Order No. M-54, as amended) unless his equipment and facilities capable of producing ethyl alcohol from corn or grain are being utilized to the fullest extent possible in the production of ethyl alcohol from corn or grain.

(g) *Reports.* Reports shall be made at such times, on such forms and with respect to such matters as shall be prescribed by the Chemicals Branch of the War Production Board.

(h) *Notification of customers.* Producers shall, as soon as practicable, notify each of their regular customers of the requirements of this order, but the failure to give such notice shall not excuse any person from the obligation of complying with the terms hereof.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of ethyl alcohol and related compounds conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board, Reference M-30, attention Chemicals Branch, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. PART 982—MINES

[Amendment 3 to Preference Rating Order P-56, as Amended March 2, 1942]

Preference Rating Order P-56 (§ 982.1)[1] is hereby amended as follows:

1. Paragraphs (c), (d), (e), (f), and (g) are hereby revoked.

2. The following new paragraphs are hereby adopted:

(c) *Assignment of preference ratings.* Subject to the terms of this order the following preference ratings are hereby assigned to deliveries to operators, but nothing herein contained shall prevent the use of any other or higher rating to which any person may be entitled by reason of any other preference rating, certificate, or order.

(1) A-1-a and A-1-c to deliveries of repair parts for machinery and equipment of the types listed in Schedule A hereto: *Provided,* That such repair parts are for use in a mining enterprise less than 30 percent of the production of which in dollar value for the previous calendar quarter was derived from any one or more of the following:

Sand (except foundry sand), gravel, crushed stone and slag including all commercially recognized forms of these products;
Clay of all types, except those used for refractories and ceramics for electrical use;
Building and ornamental stone of all types;
Gypsum, talc, soapstone, slate (except for electrical use), and all raw material for the manufacture of lime and calcareous cements;

Such ratings shall be applied by an operator only to deliveries in any calendar quarter of a quota for each such rating consisting of such dollar value of repair parts as may be expressly authorized by the Director General for Operations after application by such operator in the form prescribed by the Director.

(2) A-8 to deliveries of material for other repairs to, for maintenance of, and for operating supplies for, property and equipment used in and essential to the operation of a mining enterprise.

(3) A-10 to deliveries of material for all other repairs, maintenance and operating supplies.

(d) *Other preference ratings assignable.* The Director General for Operations may also, upon written or telegraphic request, assign the following ratings to deliveries of material to operators in particular cases. In acting on such requests the Director General will consider the importance to national defense of the material to be produced by the machinery, equipment or other material for which the rating is requested and the consumption of scarce material in the construction thereof.

(1) Such ratings as may be required to obtain deliveries of material for repair of property or equipment used in and essential to the operation of a mining enterprise when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts and the like, and the essential material is not otherwise available. Requests for this rating must describe the material needed and the nature of the emergency.

(2) A-1-a and A-1-c to deliveries not rated under paragraph (c) (1) of repair parts for essential productive facilities up to the minimum required to make reasonable advance provision to avert actual breakdown or suspension. Requests for these ratings must describe the material needed and the reasons why advance provision is necessary to avert breakdown or suspension.

(3) To deliveries of essential material and equipment whether or not included in Schedule A, such preference ratings as the Director General may assign to particular orders for such equipment. Requests for such rating must describe the material needed and the reasons why it is essential for the proper operation of the mining enterprise.

(e) *Application and extension of preference ratings.* (1) Preference ratings assigned by or pursuant to this order shall be applied by an operator and extended by his suppliers in accordance with the terms of Priorities Regulation No. 3, as from time to time amended. An operator in applying such a preference rating shall also endorse on his contract or purchase order his serial number hereunder.

(2) No preference rating assigned by or pursuant to this Order shall be applied or extended to deliveries of material to be used primarily to reduce operating costs rather than primarily to maintain or increase production.

(f) *Restrictions on inventory.* In addition to the restrictions imposed by Priorities Regulations Nos. 1 and 3, as from time to time amended, an operator shall not accept deliveries (whether or not rated hereunder) of material for repair, maintenance, or operating supplies which will increase the inventory available to the operator for such purposes to an amount greater than the minimum necessary to sustain the current level of operations of the operator and the ratio of such inventory to current production shall in no event exceed the ratio of average inventory to average production for the years 1938, 1939, and 1940.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 8th day of August 1942.

AMORY HOUGHTON,
Director General for Operations.

PART 1047—PETROLEUM MATERIAL CONSERVATION

[Supplementary Order M-68-4]

WELLS IN CERTAIN COUNTIES IN ARKANSAS

§ 1047.9 *Supplementary Order M-68-4*—(a) *Wells located in the Smackover Field, Ouachita and Union Counties, Arkansas.* Pursuant to the provisions of paragraph (c) (10) of Conservation Order M-68, as amended,[1] it has been determined that the use of the material required to plug-back any well which is located in the Smackover Field of Ouachita and Union Counties, Arkansas, from the formation or formations from which such well is producing to any shallower formation or formations and to recomplete such well in such shallower formation or formations is necessary and appropriate in the public interest and to promote the war effort. Therefore, any operator, engaged in production in the Smackover Field of Ouachita and Union Counties, Arkansas, is hereby authorized to use the material required to plug-back any well which is located in such field from the formation or formations from which such well is producing to any shallower formation or formations and to recomplete such well in such shallower formation or formations. PART 1133—MOLYBDENUM

[Amendment 1 to General Preference Order M-110]

Section 1133.1 *General Preference Order M-110*[1] is hereby amended as follows:

1. By changing the words "Director of Industry Operations" wherever they appear in the body of said order so as to read "Director General for Operations".

2. By deleting from the caption of paragraph (c) of said order, the period immediately following the word "Deliveries", and adding the words "and Processing"; and by further adding to paragraph (c) thereof a new subparagraph (3) to read as follows:

(3) *Processing restrictions.* Hereafter, no person shall melt or otherwise process molybdenum except pursuant to approval of his melting schedule under the provisions of Supplementary Order M-21-a, as the same may be from time to time amended, or pursuant to specific authorization by the Director General for Operations.

3. and by amending paragraph (f) of said order to read as follows:

(f) *Effective dates.* This order shall take effect immediately upon its issuance and shall continue in effect until revoked by the Director General for Operations.

PART 1188—RAILROAD EQUIPMENT

[General Limitation Order L-97-b]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials entering into the production of industrial cars for defense, for private account and for export; and the following order to provide for the orderly scheduling of production, repair, rebuilding, and delivery of such industrial cars is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1188.4 *General Limitation Order L-97-b*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Industrial cars" means cars of the railroad type (including cane cars) which are used in intra-plant service.

(3) "Railroad type" car means any car, except units which are self-propelled, falling within the "Classification of Cars, Definitions and Designating Letters Of", as adopted in 1910 and revised in 1942 by the Mechanical Division, Operations and Maintenance Department, Association of American Railroads.

(4) "Producer" means any person engaged in the production or delivery of new or used cars for sale as industrial cars.

(5) "Produce" means to produce new industrial cars, or to repair, rebuild or convert used cars for sale as industrial cars.

(6) "Repair", "rebuild" or "convert" means to repair, rebuild or convert used cars for sale as industrial cars, but shall not include the repairing, rebuilding or converting of used cars by or for the owner thereof for use as industrial cars.

(c) *Restrictions on production and delivery of industrial cars.* On and after the effective date of this order, irrespective of the terms of any contract of sale or purchase or of any other commitment, no producer shall produce or deliver any industrial car except as authorized pursuant to the provisions of paragraph (d) hereof.

(d) *Production and delivery schedules.* (1) Each producer shall schedule (or reschedule, if necessary) his production and make deliveries of industrial cars in accordance with such specific directions as may be issued from time to time by the Director General for Operations.

(2) The production and delivery schedules established by any specific direction issued pursuant to paragraph (d) (1) above shall be maintained without regard to any preference ratings already assigned or hereafter assigned to particular contracts, commitments, or purchase orders and without regard to production schedules in effect on the effective date of this order, and may be altered only upon specific direction of the Director General for Operations.

(3) If it becomes impossible for any producer to maintain production and delivery of industrial cars in accordance with any such schedule, he shall immediately notify the Director General for Operations, and, unless otherwise directed by the Director General for Operations, he shall continue to produce and deliver industrial cars in the order set forth in such schedule and shall postpone production and delivery of any such industrial cars only to the extent required by the circumstances causing his failure to maintain production and delivery as required by such schedule.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales of industrial cars, which records shall be available for audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Communications.* All communications concerning this order should be addressed to War Production Board, Transportation Equipment Branch, Washington, D. C., Ref: L-97-b. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 8th day of August 1942.

PART 1199—METAL HAIRPINS AND METAL BOB PINS

[Amendment 1 to General Limitation Order L-104]

Paragraph (a) of § 1199.1 (General Limitation Order L-104) is hereby amended by adding at the end thereof a new paragraph (a) (5):

(5) During the period from July 24, 1942 to September 15, 1942, inclusive, no manufacturer shall produce more metal hairpins or metal bob pins than 54 times 50% of the daily average of pounds of metal hairpins or metal bob pins, respectively, produced by him during the calendar year 1941.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 8th day of August 1942.

AMORY HOUGHTON,
Director General for Operations.

PART 1245—WOOD UPHOLSTERED FURNITURE

[General Limitation Order L-135]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate for the public interest and to promote the national defense:

§ 1245.1. *General Limitation Order L-135*—(a) *Definitions.* For the purposes of this order:

(1) "Wood upholstered furniture" means upholstered furniture containing less than 5% of metal in the net weight of the finished product, other than metal contained in steel upholstery springs and such minimum amount of iron or steel as is required for nails, nuts, bolts, screws, clasps, rivets and other joining hardware; but not including furniture designed for dual sleeping and seating purposes, such as day beds, studio couches and sofa beds.

(2) "Steel upholstery springs" means any type of upholstery springs, intended for use in wood upholstered furniture, whether flat, coiled or otherwise formed, made of steel, including but not limited to, upholsterer's seat springs, spring cushion units, pillow springs, flat or formed under constructions, spring constructions, spring supporting bars, edgewire and edgewire clips.

(3) "Steel upholstery springs manufacturer" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not, engaged in the production of steel upholstery springs.

(4) "Wood upholstered furniture manufacturer" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not, engaged in the production of new wood upholstered furniture.

(b) *General restrictions.* (1) On and after August 8, 1942, no steel upholstery springs manufacturer shall accept delivery of any steel wire or flat steel to be used in the production of steel upholstery springs from any source whatsoever, except from the inventories of other steel upholstery springs manufacturers.

(2) On and after November 1, 1942, no wood upholstered furniture manufacturer shall process, fabricate, work on or assemble any new wood upholstered fur-

niture which contains any iron or steel other than joining hardware.

(3) The sales specified below shall be expressly permitted within the terms of subparagraph (c) (2) (iii) of Priorities Regulation No. 13 (Part 944):

(i) Sales by steel upholstery springs manufacturers of steel wire or flat steel to be used in the production of steel upholstery springs to other steel upholstery springs manufacturers;

(ii) Sales by wood upholstered furniture manufacturers of steel upholstery springs to other wood upholstered furniture manufacturers.

(c) *Records.* All persons affected by this order shall keep and preserve for not less than two years, accurate and complete records concerning inventories and sales of wood upholstered furniture and steel upholstery springs.

(d) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Communications.* All reports to be filed and other communications concerning this order should be addressed to the War Production Board, Washington, D. C., Ref.: L-135.

(g) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Application of other orders.* In so far as any other order issued by the Director of Priorities, the Director of Industry Operations, or the Director General for Operations, or to be issued hereafter by the Director General for Operations, limits the use of any material in the production of wood upholstered furniture to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 8th day of August 1942.

AMORY HOUGHTON,
Director General for Operations.

PART 3024—MEN'S WORK CLOTHING

[General Limitation Order L-181]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of men's work clothing for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3024.1 *General Limitation Order L-181*—(a) *Definitions.* For the purpose of this order:

(1) "Men's work clothing" means any of the following garments, customarily graded as men's:

Waistband overalls or dungarees.
Bib overalls.
Overall jumpers or coats.
One-piece work suits.
Work pants.
Work shirts.

(2) "Put into process" means the first cutting operation of material in the manufacture of any men's work clothing.

(3) Pro rata widths—where a certain width material is specified—narrower or wider width material shall be figured in pro rata yardages allowed or restricted.

(4) Measurements set forth refer to finished measurements after all manufacturing operations have been completed and the garment is ready for shipment.

(5) Yards specified "to the dozen" shall mean the average yardage, over any 90 day period after August 15, 1942, consumed in the cutting of each type of garment.

(6) Yards specified "to the dozen" may be exceeded proportionately in the manufacture of sizes larger than specified herein to meet the needs of oversize persons.

(7) All terms used in this order shall have their usual and customary trade meanings unless stated otherwise.

(b) *General exceptions.* The prohibitions and restrictions of this order shall not apply to:

(1) Sales and deliveries by, to or for the account of the ultimate consumers by any person who does not put cloth into process for the manufacture of work clothing.

(2) Men's work clothing put into process or manufactured prior to August 15, 1942.

(3) Drills, twills or jeans used for pocketing or waistbanding or cardboard boxes used for packaging men's work clothing in the inventory of the manufacturer on August 15, 1942.

(4) Men's work clothing to fill purchase orders placed by or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Selective Service System, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development and the Defense Supplies Corporation.

(5) Men's work clothing made and sold to conform with State, County or Municipal safety laws, codes or regulations: *Provided*, That such laws, codes or regulations were in existence on August 15, 1942, and specifically required the use of work clothing not made in conformity with the provisions of this order.

(6) Garments manufactured in the home except when made for sale or for a contractor or jobber or other person who sells such garments.

(c) *General curtailments.* No person shall, after August 15, 1942, put into process, or cause to be put into process by others for his account, any material for the manufacture of, and no person shall, after the said date, sell or deliver any men's work clothing, the material for which was put into process after August 15, 1942, with:

(1) False or more than double stitching:

(2) Pockets or waistbands made from drills, twills or jeans heavier than 39 inch 4.00 yard, except as provided in paragraph (b) (2).

(3) Pockets of more than single thickness.

(d) *Additional curtailments.* No person shall hereafter put into process, or cause to be put into process by others for his account, any material for the manufacture of, and no person shall sell or deliver any of the following men's work clothing, the cloth for which was put into process after August 15, 1942.

(1) *Waistband overalls or dungarees* with:

(i) More than two front or swing pockets, two hip pockets, one rule pocket and one watch pocket.

(ii) Suspender buttons or with more than four fly buttons and one button or snap fastener on waistband.

(iii) Back buckle or strap.

(iv) More than nine bartacks or rivets exclusive of those needed on belt loops.

(v) Sizes other than 26 to 50 waist and 27 to 36 inseam.

(vi) More than 33½ yards or less than 31 yards to the dozen of 28/29 inch material: *Provided, however*, That for the sole purpose of allowing such garments when made for miners (and each miner's garment shall be designated as such by label or other marking thereon) to include not more than two front leg patch reinforcements, one double seat and one additional leg pocket, the yardage per dozen for such garments shall be not more than 45 yards or less than 37 yards to the dozen of 28/29 inch material, the extra yardage to be used, however, only for such purpose.

(2) *Bib overalls* with:

(i) More than one large or two small bib pockets, two front swing or patch pockets, two hip patch pockets, one rule pocket and one hammer loop.

(ii) More than two buttons on each side opening, two bib suspender buttons, one button or one snap fastener on bib, two buttons on fly through size 38 or three buttons on fly on size 40 and up.

(iii) More than fifteen bartacks.

(iv) Sizes other than 26 to 50 waist and 27 to 36 inseam;

(v) More than an average of 46 yards or less than 39 yards to the dozen of 28/29 inch material for both the bib overall and the overall jacket.

Provided, however, For the sole purpose of allowing:

(*a*) *Bib overalls for carpenters* to include not more than two double knee or leg patch reinforcements, two side leg pockets, an apron with necessary divisions, one hand axe loop, the yardage per dozen for such garments shall be not more than 66½ yards or less than 60½ yards to the dozen of 28/29 inch material, and such garments may have 15 additional bartacks.

(*b*) *Bib overalls for painters or paperhangers* to include one brush loop and one leg pocket, the yardage per dozen for such garments shall be not more than 47½ yards or less than 41½ yards to the dozen of 28/29 inch material.

(*c*) *Bib overalls for steel workers* to include not more than two knee patch reinforcements, two leg pockets, one additional hammer loop, the yardage per dozen for such garments shall be not more than 57 yards or less than 51 yards to the dozen of 28/29 inch material, and such garments may have six additional bartacks.

Each such garment shall be designated as such by label or other marking thereon and the additional yardages shall only be used for the respective purposes specified above.

(3) *Overall jumpers or coats* with:

(i) More than two patch pockets.

(ii) More than four buttons on front and one button on each cuff.

(iii) Sizes other than 34 to 50.

(iv) Blanket-lining other than of 16 ounce all cotton or cotton and not more than 25% reused wool.

(4) *One-piece work suits* with:

(i) More than two front swing or patch pockets, two breast pockets, two-patch or swing hip pockets, one rule pocket and one hammer loop.

(ii) More than four front buttons, one breast pocket button and three fly buttons.

(iii) More than 17 bartacks.

(iv) Sizes other than 34 to 50.

(v) More than 72 yards or less than 66 yards to the dozen of 28/29 inch material.

(5) *Work pants* with:

(i) More than two front swing pockets, two hip patch or swing pockets and one watch pocket.

(ii) Tunnel loops.

(iii) Suspender buttons on sizes other than 38 and up.

(iv) More than 11 bartacks exclusive of those needed on belt loops.

(v) Side buckle and straps.

(vi) Self belt or extension waistband.

(vii) Pleats.

(viii) More than five fly buttons, including waistband, on sizes through 38 and more than six fly buttons, including waistband, on sizes 40 and up, and with more than one hip pocket button.

(ix) Cuffs where 30 inch 2.50 gray width and weight basis material and heavier is used.

(x) More than 1½ inch hem.

(xi) More than 1½ inch cuff on material lighter than 30 inch 2.50 gray width and weight basis.

(xii) Sizes other than 26 to 50 waist and 27 to 36 inseam.

(xiii) (*a*) More than 27½ yards or less than 24½ yards to the dozen of 36 inch material weighing less than 8 ounces per yard of 36 inch width material, or

(*b*) More than 28 yards or less than 25 yards to the dozen of any heavier material.

(6) *Work shirts* with:

(i) Other than one or two plain patch pockets but only button through or open.

(ii) More than single thickness lining in collar.

(iii) More than six buttons on front, one button each cuff and one button on each pocket.

(iv) Lined cuffs.

(v) More than four bartacks.

(vi) Eyelets or vents.

(vii) Reinforced elbow, shoulder, back or front.

(viii) Other than one or two cardboards and paper wrapping.

(ix) Less than one-half dozen packing.

(x) Sizes other than 13 to 19 or sizes small, medium and large.

(xi) More than 29½ yards or less than 26 yards to the dozen of 36-inch material on long sleeve models, or more than 24 yards or less than 23 yards to the dozen of 36-inch material on half-sleeve models. On regular or mill finish material or on 36-inch 2.85 material and heavier a total of a half yard to the dozen additional yardage may be used.

(e) *Certification.* No person, who has heretofore or shall hereafter put into process or cause to be put into process by others for his account any men's work clothing, shall hereafter sell such work clothing without furnishing to his purchaser (when other than an ultimate consumer) a certification, signed by an individual duly authorized to sign for such person, in substantially the following form:

The undersigned hereby certifies to his purchaser and the War Production Board that the men's work clothing covered by his invoice No. ---------- dated ---------- (or the annexed invoice) has been manufactured or sold in accordance with the curtailment and/or exceptions of General Limitation Order L-181.

(f) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of men's work clothing conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board, Reference L-181, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(g) *Records and inspections.* (1) Each person affected by the order shall keep and preserve for a period of not less than two years accurate and complete records of his applicable inventories, certifications, production, sales and transactions. (2) All records required to be kept by the order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Reports and communications.* (1) Each person affected by the order shall execute and file with the War Production Board such reports and questionnaires as may be requested by the Board from time to time. (2) All reports required hereunder, and all communications concerning the order, shall be addressed to: War Production Board, Textile, Clothing and Leather Branch, Washington, D. C., Reference: L-181.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance. PART 3035—NUTGALLS AND TANNIC ACID U. S. P.

[General Conservation Order M-204]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of nutgalls and tannic acid U. S. P. for the war effort, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the war effort:

§ 3035.1 *General Conservation Order M-204*— (a) *Definitions.* For the purposes of this order:

(1) "Nutgalls" means the excrescenses or galls obtained from the young twigs of *Quercus infectoria Olivier* and other allied species of *Quercus* (Fam. *Fagaceae*) or from the leaves of *Rhus semialata Murray* or *R. javanica L.*

(2) "Tannic acid U. S. P." means gallotannic acid or so called tannin meeting U. S. P. requirements.

(b) *General restrictions.* Except as provided in paragraph (c) of this order, after the date of issuance of this order.

(1) No person shall process, combine with other materials or use:

(i) Any nutgalls except for the maximum production of tannic acid U. S. P.

(ii) Any tannic acid U. S. P. except

(*a*) For the treatment of burns, or for the manufacture of a product to be used exclusively for the treatment of burns, or

(*b*) As an analytical reagent for use in analytical, control and research laboratories, or

(*c*) As an antidote for internal administration in the treatment of poisoning, or

(*d*) In the extemporaneous compounding by licensed pharmacists of individual prescriptions of licensed physicians, dentists or veterinarians, or in the extemporaneous compounding of medicines by licensed physicians, dentists or veterinarians for their own patients.

(2) No person shall sell, transfer or deliver, or purchase or accept transfer or delivery of, any nutgalls or tannic acid U. S. P. which he knows, or has reason to believe, is to be processed, combined with other materials or used for purposes other than those permitted by paragraph (b) (1).

(3) Except in the case of a sale, transfer or delivery of tannic acid U. S. P. to a person exempted from the restrictions of this order by paragraph (c) (3), no person shall sell, transfer or deliver any nutgalls or tannic acid U. S. P. until he has received a certificate signed by the person purchasing or accepting transfer or delivery, or a duly authorized official, in substantially the following form, but adopting only the pertinent parts:

The undersigned hereby certifies that the material ordered in connection herewith will not be processed, combined with other materials or used:

In the case of nutgalls, except for the maximum production of tannic acid U. S. P.;

In the case of tannic acid U. S. P. except

(1) For the treatment of burns, or for the manufacture of a product to be used exclusively for the treatment of burns, or

(2) As an analytical reagent for use in analytical, control and research laboratories, or

(3) As an antidote for internal administration in the treatment of poisoning, or

(4) In the extemporaneous compounding by licensed pharmacists of individual prescriptions of licensed physicians, dentists or veterinarians, or in the extemporaneous compounding of medicines by licensed physicians, dentists or veterinarians for their own patients.

Such material will not be sold, transferred or delivered by the undersigned for any purpose other than those specified herein. This certification is made in accordance with the terms of Order M-204 with which the undersigned is familiar.

Quantities ordered in connection herewith:

Material	Quantity

Such certification shall constitute a representation to the War Production Board and the seller or supplier of the facts stated therein. The seller or supplier shall be entitled to rely on such representation unless he knows or has reason to believe it to be false.

(c) *Applicability of restrictions.* The restrictions contained in paragraph (b) of this order shall not apply to:

(1) Any stock of nutgalls consisting of less than five pounds physically located at any one place on August 8, 1942; but any stock weighing five pounds or more physically located at any one place on said date shall, in its entirety, be subject to said restrictions.

(2) Any transaction affecting, or any use of, any nutgalls or tannic acid U. S. P. which on August 8, 1942, had been combined or compounded with other materials; but any transaction affecting, or any use of, any nutgalls or tannic acid U. S. P. which has been combined or compounded with other materials after said date shall be subject to said restrictions.

(3) Any person who uses tannic acid U. S. P. or a product containing tannic acid U. S. P. for a medicinal purpose and does not resell such material in any form; but this exemption shall not relieve any person who sells or delivers such material to an exempted person from liability for violation of the provisions of paragraph (b) (2) of this order.

(d) *Reports.* (1) Every person having in his possession or control at any one place on August 8, 1942, any stock of nutgalls consisting of five pounds or more, or any stock of tannic acid U. S. P. consisting of two pounds or more shall make a report on Form PD-623, which shall be filed with the War Production Board (Reference M-204) before August 31, 1942. (In calculating the weight of a stock of tannic acid U. S. P., any tannic acid U. S. P. which has been combined or compounded with other materials on August 8, 1942, shall not be included.)

(2) All persons affected by this order shall file such other reports as may be required from time to time by the War Production Board.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales, and shall also preserve any certificates received in accordance with the terms of this order.

(f) *Appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Reference M-204, Health Supplies Branch, Washington, D. C. Ref: M-204.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance. Subchapter B—Director General for Operations

PART 997—PRODUCTION AND DELIVERY OF MACHINE TOOLS

[Interpretation 4 of General Preference Order E-1-b]

The following official Interpretation is hereby issued by the Director General for Operations with respect to § 997.2 *General Preference Order No. E-1-b*[1]:

An urgency standing should not be used in connection with a Preference Rating Certificate PD-1A. General Preference Order E-1-b defines as service purchasers those whose preference rating certificates or whose endorsed purchase orders show that the preference rating was assigned by an original Preference Rating Certificate PD-3, PD-3A, or PD-4, or by Preference Rating Order P-19-h.[1] Hence, the holder of a PD-1A Certificate cannot be a service purchaser as he is excluded from the definition.

Urgency standings govern the sequence of deliveries of machine tools as between service purchasers of the same group within their respective percentage quotas. If a person seeking to procure a machine tool is not a service purchaser he cannot be a member of one of the service purchasers groups, and the urgency standing therefore has no effect upon the delivery of the tool to him. The tool must come out of the 25 percent quota assigned to foreign and other purchasers, and the sequence of its delivery will be determined solely by its required delivery date and its preference rating, in the absence of a specific direction of the Director General for Operations. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 10th day of August 1942.

PART 1002—IRON AND STEEL PRODUCTION MAINTENANCE, REPAIR AND SUPPLIES

[Amendment 4 to Preference Rating Order P-68]

Preference Rating Order P-68 (§ 1002.1) is hereby amended as follows:

1. Paragraph (a) is amended to read as follows:

§ 1002.1 *Preference Rating Order P-68*[1]—(a) *Definitions.* (1) "Producer" means any person operating a plant physically situated within the limits of the United States, its territories, or its possessions, or the Dominion of Canada, and actually engaged in the production of any one or more of the materials or products listed in Schedule A hereto.

(2) "Operating material" means material required by a producer for repair, maintenance, or operating supplies used in the production of any one or more of the materials and products listed in Schedule A hereto.

2. Paragraphs (b), (c), (d), and (e) are hereby revoked.

3. The following new paragraphs are hereby adopted:

(b) *Assignment of preference ratings.* Subject to the terms of this order, the following preference ratings are hereby assigned to deliveries to producers, but nothing herein contained shall prevent the use of any other or higher rating to which any person may be entitled by reason of any other preference rating certificate or order.

(1) AA-3 to deliveries of operating material consisting of iron or steel in any form appearing on Materials List No. 1, Revised, of form PD-25A.

(2) A-1-a to deliveries of operating material consisting of nonferrous materials in any form appearing on said materials list, or of fabricated metal parts.

(3) A-1-c to deliveries of all other operating material.

(c) *Other preference ratings assignable.* The Director General may also upon written or telegraphic request assign such ratings as may be required to obtain deliveries of operating material to a producer when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts, or the like, and the essential material is not otherwise available. Requests for this rating must describe the material needed and the nature of the emergency.

(d) *Application and extension of preference ratings.* (1) No producer shall apply any preference rating assigned by or pursuant to this order until it has filed with the Iron and Steel Branch, War Production Board, a statement on form PD-148 and has received a serial number hereunder.

(2) Preference ratings assigned by or pursuant to this order shall be applied by a producer and extended by his suppliers in accordance with the terms of Priorities Regulation No. 3, as from time to time amended. A producer in applying such a preference rating shall also endorse on his contract or purchase order his serial number hereunder.

4. Paragraph (j) is amended to read as follows:

(j) *Records, audits and reports.* Each producer and each supplier shall keep and preserve for a period of not less than two years accurate and complete records of all transactions affected by this order, and shall submit from time to time to audit and inspection by duly authorized representatives of the War Production Board. Each producer and each supplier shall execute and file with the War Production Board, or other designated agency, such reports in such form as the War Production Board shall from time to time require. Until further direction, each producer shall file a quarterly report on form PD-228.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 10th day of August 1942.

PART 3001—CHLORINATED PARAFFIN

[General Preference Order M-189]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of chlorinated paraffin for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3001.1 *General Preference Order M-189*—(a) *Definitions.* For the purposes of this order:

(1) "Chlorinated paraffin" means those chlorine derivatives of paraffin wax containing twenty percent or more of chlorine.

(2) "Producer" means any person engaged in the production of chlorinated paraffin and includes any person who has chlorinated paraffin produced for him pursuant to toll agreement.

(b) *Restrictions on deliveries.* (1) No producer shall make delivery of chlorinated paraffin to any person unless and until he shall have been authorized or directed to do so by the Director General for Operations; and no person shall accept delivery of chlorinated paraffin if such delivery would be in violation hereof. Prior to the beginning of each calendar month beginning with September, 1942, the Director General for Operations will issue to producers specific authorizations or directions covering deliveries of chlorinated paraffin which may or must be made by such producers during such month, and he may also during any month (including August, 1942) issue such other authorizations or directions as he may deem appropriate or necessary either with respect to deliveries to be made or the use or uses to which the material delivered is to be put.

(2) If prior to the first day of any month beginning with September, 1942 any producer shall not directly or indirectly have received from the Director General for Operations authorizations or directions covering deliveries of chlorinated paraffin to be made by him during such month, such producer may make deliveries of chlorinated paraffin during such month in accordance with, and only in accordance with, the schedule of deliveries for such month filed with the War Production Board pursuant to paragraph (c) (2): *Provided, however,* That any time during such month the Director General for Operations may issue authorizations or directions with respect to future deliveries to be made in such month.

(3) In the event that any producer, after receiving notice from the Director General for Operations with respect to a delivery of chlorinated paraffin which he has been authorized or directed to make during any month, shall be unable to make such delivery either because of receipt of notice of cancellation from his customer or otherwise, such producer shall forthwith give notice of such fact to the Chemicals Branch of the War Production Board, and shall not in the absence of specific authorizations or directions from the Director General for Operations resell or otherwise dispose of the chlorinated paraffin which he is unable to deliver as aforesaid.

(c) *Placing of orders and scheduling of deliveries.* (1) Every person who seeks delivery of chlorinated paraffin shall place his order with a producer for his monthly requirements on or before the 10th day of the month preceding the month in which delivery is sought and shall file with such order with such producer Form PD-619, in quadruplicate.

(2) Each producer of chlorinated paraffin shall on or before the 15th day of each month beginning with August, 1942, file with the Chemicals Branch, War Production Board, Washington, D. C., Form PD-618, in triplicate, properly executed, which shall list among other things a schedule of deliveries of chlorinated paraffin which such producer proposes to make in the succeeding month and the amount estimated to be available for delivery by him during such month. The original and two copies of Form PD-618 shall be accompanied by the original and two copies of each Form PD-619 submitted to the producer by a customer of his. After such forms have been filed with the Chemicals Branch any material change of circumstances pertaining to said Form PD-618, shall forthwith be reported to such Chemicals Branch.

(d) *Inventories restrictions.* No producer shall knowingly make and no person shall accept delivery of chlorinated paraffin if the inventory thereof of the person accepting delivery is or will by virtue of such acceptance become in excess of a 30 days' supply in terms of orders received by such person for his finished products, on the basis of his current method and rate of operations, but this paragraph shall not be construed to prevent a person's accepting delivery thereof in the smallest practicable delivery unit as evidenced by his past experience.

(e) *Miscellaneous provisions*—(1) *Reports.* All persons affected by this order shall file such reports as may from time to time be directed by the Director General for Operations.

(2) *Notification of customers.* Producers shall, as soon as practicable, notify each of their regular customers of the requirements of this order, but failure to give such notice shall not excuse any person from the obligation of complying with the terms of this order.

(3) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-189.

(5) *Violations or false statements.* Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 10th day of August 1942.

PART 3038—DRIED FRUIT

[Conservation Order M-205]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of dried fruit for defense, for private account, and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3038.1 *Conservation Order M-205*—(a) *Definitions.* For the purpose of this order:

(1) "Dried fruit" shall mean the whole or fleshy portions of apples, apricots, peaches, pears, prunes, or grapes (raisins) preserved by the removal therefrom of part of the natural moisture, and, unless otherwise indicated, shall include such fruit in natural or processed condition.

(2) "Packer" shall mean any person engaged in the business of processing and packaging dried fruit.

(3) "Processing" shall mean grading, sizing, stemming, seeding, or treating dried fruit by the use of hot water, steam, chemicals or compressed air.

(4) "Government Agency" shall mean any officer, board, agency, commission, or government-owned or government-controlled corporation of the United States specifically designated by the Director General for Operations.

(b) *Restrictions on packers.* (1) Each packer shall, without regard to previously existing contracts, set aside to be delivered for the requirements of government agencies, any dried fruit, and any fresh fruit acquired for use in the production of dried fruit, which were in his possession, under his control or under contract on August 10, 1942, or were acquired by him within one year thereafter. All such fruit so set aside shall, unless and until released, be held for allocation to any government agency by the Director General for Operations. Such fruit shall not be processed and packed without instructions from the Director General for Operations, or any government agency to which he shall have allocated such fruit. The Director General for

Operations may issue specifications at any time as to processing, packing, labeling, boxing and strapping. Dried fruit required to be set aside by this order shall not be delivered to any government agency when not specifically allocated to such agency by the Director General for Operations.

(2) On or before September 1, 1942, each packer shall mail to or file with the War Production Board a report on Form PD–624, Series, and twice monthly thereafter he shall mail to or file with the War Production Board reports on Form PD–625, Series.

(3) If any dried fruits set aside for the requirements of government agencies has not been purchased within 30 days after it has been first reported in his possession by the mailing or filing of the report prescribed in paragraph (b) (2), the packer may notify the War Production Board in writing that if such dried fruit is not purchased within 30 days he will no longer hold it set aside. If any of such dried fruit is not purchased within 30 days after the mailing or filing of such notice, or if no further order is issued with respect to it, it shall be deemed released and shall be available for unrestricted sale and distribution.

(4) If he determines that any dried fruit set side pursuant to this order is not required for government agencies, the Director General for Operations may release such dried fruit at any time by notice directed to the packer. So far as consistent with the defense requirements of the United States, such releases shall be of such a character as to allow to all packers, for sale to purchasers other than government agencies, substantially equal proportions of their packs of each fruit: *Provided, however,* That the Director General for Operations may, in determining any amounts to be so released to any packer, take into account any quantities of dried fruit produced from the 1942 crop and sold and actually shipped by him before August 10, 1942.

(5) Any quantities of dried fruit allocated or released shall unless otherwise specified, be withdrawn by the packer from the earliest reported stocks of such dried fruit.

(c) *Reports.* In addition to the report prescribed in paragraph (b) (2) packers shall file such additional reports as the War Production Board may prescribe for the purpose of effective administration of this order.

(d) *Inspection and grading.* Any dried fruit required to be set aside under this order shall be subject to inspection and grading at any time by the Director General for Operations, or by any person or Government agency thereto authorized by him.

(e) *Appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship upon him, may appeal to the Director General for Operations by letter, setting forth the pertinent facts and reasons such person considers that he is entitled to relief. The Director General may thereupon take such action as he deems appropriate.

(f) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales.

(g) *Audit and inspection.* All records required to be kept by this order or by any rule, regulation or order of the Director General for Operations shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Food Branch, Washington, D. C. Ref.: M–205.

(i) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(j) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 10th day of August 1942.

PART 3038—DRIED FRUIT

[Conservation Order M–205–a]

RAISIN VARIETY GRAPES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of raisins for defense, for private account, and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3038.2 *Conservation Order M–205–a*—(a) *Definitions.* For the purposes of this order:

(1) "Raisin variety grapes" shall mean Thompson Seedless, Muscat and Sultana grapes grown in the State of California.

(2) "Grower" shall mean any person who grows raisin variety grapes for commercial sale.

(3) "Receiver" shall mean any person who purchases or accepts delivery of raisin variety grapes from a grower.

(b) *Restrictions.* (1) No person shall purchase, accept delivery of, or use more than 100 pounds of raisin variety grapes harvested or picked after August 24, 1942 for any purpose other than for conversion into raisins, unless such grapes have been released, in accordance with paragraph (b) (2), because of unsuitability for such conversion or because of any other reason specified in paragraph (b) (2). No person shall sell or deliver raisin variety grapes with knowledge or reason to believe that they are to be used in violation of this order.

(2) Raisin variety grapes may, notwithstanding the provisions of paragraph (b) (1) of this order, be delivered, sold and used for purposes other than conversion into raisins if a grower or receiver having such raisin variety grapes in his possession or control shall have made application on Form PD–626 to a duly authorized representative of the Secretary of Agriculture in the county where such grapes are grown and such representative shall have determined and certified in writing on Form PD–627 that such raisin variety grapes:

(i) Cannot, because of quality or condition, be converted into raisins,

(ii) Are produced in areas where, or under growing conditions in which, the necessary drying facilities are not available.

(iii) Are produced on vines which have been girdled, or

(iv) Are to be used for packing or preserving in metal or glass containers.

(c) *Reports.* Every grower and every receiver of raisin variety grapes shall execute and file with the War Production Board such reports and questionnaires as such Board may from time to time request.

(d) *Appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship upon him, may appeal to the Director General for Operations by letter, setting forth the pertinent facts and reasons such person considers that he is entitled to relief. The Director General may thereupon take such action as he deems appropriate.

(e) *Records.* All growers and receivers affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales.

(f) *Audit and inspection.* All records required to be kept by this order or by any rule, regulation or order of the Director General for Operations shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: "War Production Board, Food Branch, Washington, D. C. Ref.: M–205–a.

(h) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 10th day of August, 1942.

PART 1304—IRON AND STEEL SCRAP

[Amendment 7 to Revised Price Schedule 4 [1]]

IRON AND STEEL SCRAP

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1304.13, footnote 1 to (a) (2), (a) (4), (a) (4) (ii), (a) (5), (c) (3) (ii), two basing points in (c) (5), Exceptions 3 and 6 in (d) (4), (e), (f) (2), are amended; new grade (29a) is added to (a) (3), new (29a) is added to (f); in (d) (4) Exception 9, text preceding (i) is designated (i), (i) is redesignated (*a*), (ii) is redesignated (*b*) and amended, and a new (ii) is added; item 17 in (a) (2) is revoked: In § 1304.14 the text preceding (i) in (a) (2) and the text preceding (1) in (b) are amended; the last paragraph in (a) (2) is designated (*a*) and a new (*b*) is added and two new paragraphs are added to (b): In § 1304.15 paragraph (b) (4) is added; as set forth below:

§ 1304.13 *Appendix A: Maximum prices for iron and steel scrap other than railroad scrap.* (a) Basing point prices from which shipping point prices and consumers' delivered prices are to be computed.

• • • • •

(2) *Basing point prices of standard grades.* • • •

Standard Grades	*Adjustments (plus or minus)*
• • •	• •
Electric Furnace, Acid Open Hearth and Foundry Grades—For Electric Furnace, Acid Open Hearth and Foundry Use Only: [2]	
• • •	• •

(3) *Basing point prices of special grades.* • • •

Special grades	*Adjustments (plus or minus)*
• • •	• •
29a. Briquetted alloy free turnings	$2.00 For Electric Furnace, Acid Open Hearth and Foundry Use Only.
• • •	• •

(4) *Premiums for alloy content.* With the exception of the premiums specifically authorized below or in any other price schedule or regulation issued by the Office of Price Administration, no premium may be charged for contained alloys. In order to command the premiums authorized below, the scrap need not come direct from the industrial producer; nor with the exception of subdivisions (ii) (d) and (iii) are the premiums confined to a particular use.

• • • • •

(ii) Where, apart from alloy content, any grade of scrap meets the specifications contained in paragraph (f), the following premiums above the maximum prices for such items shall be the maximum applicable for the contained alloys:

• • • • •

(5) *Special preparation charges.* Except where turnings are crushed, no charge may be made for special preparation without prior approval by the Office of Price Administration. A $2.00 per gross ton charge may be made by scrap dealers for crushing turnings. An industrial producer may charge $1.00 per gross ton for crushing turnings.

• • • • •

(c) *Maximum shipping point prices.* • • •

(3) *Established charges.* • • •

(ii) No vessel charge shall be deemed an established charge within the meaning of this Revised Price Schedule No. 4 unless it has been the basis of actual movement of scrap to the most favorable basing point during the calendar years 1940 to 1941.

• • • • •

(5) *Switching charge deductions for shipping points within basing points.*

Basing point:	*(Switching charge deduction), cents per gross ton*
• • •	• •
Conshohocken, Pennsylvania	11
• • •	• •
Pittsburg, California	42
• • •	• •

(d) *Maximum prices delivered to the plant of a consumer.* • • •

(4) • • •

Exception 3. "Remote scrap" means all the kinds and grades of iron and steel scrap referred to in § 1304.13, Appendix A, and having a shipping point and a point of origin within the states of Montana, Idaho, Wyoming, Nevada, Arizona, New Mexico, Texas, Oklahoma, Florida, Oregon, Utah, Washington, North Dakota, South Dakota and Louisiana. Nebraska and Kansas shall be remote for shipping points having a maximum shipping point price of $13.00 per gross ton. Colorado scrap shall be remote scrap for Colorado consumers only.

• • • • •

Exception 6. The delivered price of Item 14, Bar Crops and Plate Scrap, Item 16, Punchings and Plate Scrap, Item 25, Alloy Free Turnings, and Item 26, Heavy Turnings, produced in industrial plants in the State of Michigan and shipped directly to consumers located in or nearest, in terms of established transportation charges, to the Buffalo, N. Y., Pittsburgh, Brackenridge or Midland, Pennsylvania, basing point, shall not exceed by more than $3.00 plus any increase in transportation charges mentioned in paragraph (d) (3), the price at the basing point nearest the consumer's plant.

• • • • •

Exception 9 (i) • • •

(*a*) • • •

(*b*) Where the most economical method available involves rail movement, the rail transportation charges must be computed on the basis of the rates for the highest minimum carload weight available.

(ii) Where scrap shipped pursuant to an allocation order issued by the War Production Board is stored, in transit, with a warehousing company, and the warehousing certificates for such scrap are pledged by the consumer as security for a loan to meet the consumer's indebtedness for the shipment, if the consumer defaults on the loan, and the scrap is resold to a consumer by the pledgee, the maximum delivered price upon the resale shall be the maximum shipping point price at the original shipping point, plus the established charges incurred in the movement from the shipping point to the point of storage, plus the established transportation charges incurred in the movement from the point of storage to the point of delivery.

(e) *Unprepared scrap.* (1) The maximum prices established hereinabove are maximum prices for prepared scrap. The term "unprepared scrap" shall have its customary trade meaning and shall not include such demolition projects as bridges, box cars or graveyard automobiles, which must be so priced that the prepared scrap will deliver to the consumer within the maximum delivered price established hereinabove.

(2) For unprepared scrap, maximum prices shall be $2.50 (and in the case of the material from which No. 1, No. 2 and No. 3 bundles are made, $4.00) less than the maximum prices for the corresponding grade or grades of prepared scrap. In no case, however, shall Electric Furnace and Foundry grades, listed in paragraph (a) of this section, be used as the "corresponding grade or grades of prepared scrap".

(3) Except as otherwise provided hereunder, where scrap is to undergo preparation prior to its arrival at the point of delivery, such scrap is not at its shipping point, as that phrase is defined in paragraph (c) of this section, until after such preparation has been completed. Where a consumer purchases un-

[2] No Basic Open Hearth or Blast Furnace consumer may purchase any Electric Furnace, Acid Open Hearth or Foundry Grade at a price in excess of the price listed in this paragraph for the corresponding Basic Open Hearth or Blast Furnace Grade: *Provided, however,* That this limitation shall not apply where the scrap has been shipped pursuant to an allocation order issued by the War Production Board. The prices of Items 13, 25, and 26 shall not exceed the prices of Basic Open Hearth and Blast Furnace Grades respectively, unless delivered to the consumer direct from the industrial producer thereof.

prepared *remote* scrap in rail carload lots, if no adequate facilities for preparation exist at or near the shipping point, the consumer may designate a dealer or dealers to prepare such scrap for its use at a maximum preparation fee of $2.50 per gross ton ($4.00 where No. 1, No. 2 and No. 3 bundles are prepared). In such cases the maximum delivered price shall be the shipping point price for unprepared scrap at the remote shipping point plus all-rail transportation charges to the point of delivery at the dealer's yard, plus a $2.50 per gross ton preparation fee ($4.00 where No. 1, No. 2 and No. 3 bundles are prepared), plus transportation charges from the dealer's yard to the point of delivery after the scrap has been loaded on the delivering carrier. Interim loading, unloading and similar charges may not be absorbed by the consumer. The maximum delivered price of such scrap shall not exceed by more than $5.00 the price at the basing point nearest the consumer's plant except upon prior approval of the Office of Price Administration as provided in Exception 3 in paragraph (d) of this section. Every purchase of scrap on this preparation fee basis shall likewise be subject to all the filing and other requirements in Exception 3 of paragraph (d) of this section.

At no time shall ownership of such scrap reside in the dealer to whom the preparation fee is paid.

(f) *Definitions of grades referred to in paragraph* (a). • • •

(2) *No. 2 heavy melting steel.* Wrought iron or steel scrap ⅛ inch and over in thickness, not over 18 inches in width and not over 5 feet in length. (Uncut rear ends of passenger automobiles may be included for Pacific Coast consumers only, even though over 5 feet in length.) Individual pieces must be free from attachments and so cut as to lie flat in the charging box. May include mashed or unmashed pipe ends under 4 inches in diameter. May include heavy oil field or similar cable not less than 1 inch in diameter and cut to lengths of 3 feet or less. May include car sides and light plate cut 15 inches by 15 inches or under. May not include auto body and fender stock.

• • • • • •

(29a) *Briquetted alloy free turnings.* Alloy free turnings, Item 25, compressed into a cohesive non-friable solid reasonably free from oil, each briquette to weigh not more than 20 pounds and to have a density of not less than 60%.

(2) *Delivered to a consumer's plant located off the line of the railroad from which the scrap originated.* Except in the case of allocation orders issued by the War Production Board and of shipments of scrap by vessel from Duluth, Minnesota, or Superior, Wisconsin, to consumers located in Buffalo, N. Y., Cleveland, Ohio, Elyria, Ohio, Detroit and Saginaw, Michigan, and Chicago, Illinois, the maximum price is either of the following, whichever is greater:

• • • • • •

(ii) • • •

(*a*) Where scrap is shipped by vessel from Duluth, Minnesota, or Superior, Wisconsin, to consumers located in Buffalo, New York, Elyria, Ohio, Cleveland, Ohio, Detroit and Saginaw, Michigan, and Chicago, Illinois, the maximum delivered price shall be the maximum price established in paragraph (1) above, for scrap delivered to a consumer on the line of the railroad from which the scrap originated, plus transportation charges from the railroad's line to the point of delivery.

(*b*) Where scrap is shipped pursuant to an allocation order issued by the War Production Board, the maximum delivered price shall be the maxium price established in subparagraph (1), for scrap delivered to a consumer on the line of the railroad from which the scrap originated, plus transportation charges from the railroad's line to the point of delivery.

(b) *Scrap originating from railroads not operating in any of the basing points named above.* Except in the case of allocation orders issued by the War Production Board and of Rails for Rerolling, the maximum price of any grade of such scrap delivered to consumers located on and off the line of the railroad shall not exceed:

• • • • • •

(2) *For the grades not listed above, either of the following, which ever is less.* • • •

Where, pursuant to an allocation order issued by the War Production Board, any grade of scrap other than rails for rerolling is shipped to an off-line consumer, and the foreign line proportion of the through haul to such consumer exceeds the foreign line proportion of the through haul, if any, to the consumer whom the railroad supplied with the largest tonnage of the specific grade during the period from September 1, 1940 to January 31, 1941, then such excess may be added to the maximum price for such grade established in this paragraph.

Where any grade of scrap is shipped to an off-line consumer, there may be added to the maximum delivered price established under this paragraph, any increase in the foreign line proportion of the through haul resulting from a rise in rates which became effective after March 14, 1942: *Provided, however,* That such increase shall be shown as a separate item on the invoice.

PART 1341—CANNED AND PRESERVED FOODS

[Amendment 4 to Maximum Price Regulation 152[1]]

CANNED VEGETABLES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1341.22 a new paragraph (k) is added and two new sentences are added to § 1341.30 (a) (3).

§ 1341.22 *Canner's maximum prices for canned vegetables.* • • •

(k) If a canner cannot compute the maximum prices for No. 10 containers of each grade of the following canned vegetables under paragraphs (a), (b) and (c) of this section, he shall determine such maximum prices for that grade of No. 10 containers of canned vegetables as follows:

(1) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for No. 2 containers of beets, and spinach by 4.25. The resulting figure shall be the maximum price for No. 10 containers.

(2) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for No. 2 containers of carrots, okra, tomatoes, vegetable greens and okra and tomatoes by 4.50. The resulting figure shall be the maximum price for No. 10 containers.

(3) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for No. 2 containers of artichokes, asparagus, beans (snap) and carrots and peas by 4.75. The resulting figure shall be the maximum price for No. 10 containers.

(4) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for No. 2 containers of lima beans, celery, corn, peas, pickles, rhubarb, succotash, turnips, vegetables (mixed), vegetable juice, vegetable juices (mixed) and parsnips by 5.00. The resulting figure shall be the maximum price for No. 10 containers.

(5) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for 12-ounce containers of chili sauce and tomato sauce by 6.40. The resulting figure shall be the maximum price for No. 10 containers.

(6) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for 14 ounce containers of tomato catsup by 5.25. The resulting figure shall be the maximum price for No. 10 containers.

(7) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for 6 ounce containers of tomato paste by 14.25. The resulting figure shall be the maximum price for No. 10 containers.

(8) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for No. 1 containers of tomato puree by 7.75. The resulting figure shall be the maximum price for No. 10 containers.

(9) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for No. 3 cylinder containers of tomato juice by 2.00. The resulting figure shall be the maximum price for No. 10 containers.

(10) The canner shall multiply the maximum price computed under paragraphs (a), (b) and (c) of this section for 7 ounce containers of peppers by 12.00. The resulting figure shall be the maximum price for No. 10 containers.

§ 1341.30 *Definitions.* (a) When used in this Maximum Price Regulation No. 152 the term:

• • • • • •

(3) • • • Sales and deliveries of bamboo sprouts and hominy are excluded from the operation of this Maximum Price Regulation No. 152. Sales and deliveries of pimientos, pumpkin and squash shall be governed by the provisions of this regulation.

§ 1341.32. *Effective dates of amendment.* • • •

(d) Amendment No. 4 (§§ 1341.22 (k), 1341.30 (a) (3)) shall become effective August 14, 1942.

PART 1355—LEAD

[Maximum Price Regulation 199]

LEAD BULLET ROD

In the judgment of the Price Administrator it is necessary and proper to establish by a separate maximum price regulation the prices at which lead bullet rod may be sold. The Price Administrator has ascertained and given due consideration to the prices of lead bullet rod prevailing between October 1 and October 15, 1941, and during the month of March 1942, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulaion.

In the judgment of the Price Administrator the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1[1] issued by the Office of Price Administration, Maximum Price Regulation No. 199 is hereby issued.

AUTHORITY: §§ 1355.101 to 1355.114, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1355.101 *Maximum prices for lead bullet rod.* On and after August 13, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver lead bullet rod, and no person shall buy or receive lead bullet rod in the course of trade or business, at prices higher than the prices set forth in Appendix A hereof, incorporated herein as § 1355.114; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1355.102 *Less than maximum prices.* Lower prices than those set forth in Appendix A, § 1355.114, may be charged, demanded, paid or offered.

§ 1355.103 *Export sales.* The maximum prices at which a person may export lead bullet rod shall be determined in accordance with the provisions of Maximum Export Price Regulation[2] issued by the Office of Price Administration.

§ 1355.104 *Applicability of General Maximum Price Regulation.*[3] The provisions of this Maximum Price Regulation No. 199 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Maximum Price Regulation No. 199.

§ 1355.105 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. However, in an appropriate situation, where a petition for amendment or for adjustment or exception has been filed and requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1355.106 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 199 shall not be evaded

whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, lead bullet rod, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1355.107 *Records.* (a) Every sale of lead bullet rod after the effective date of this Maximum Price Regulation No. 199 shall be invoiced by the seller. The original invoice shall be signed by the seller or by a duly-authorized partner, officer or employee of the seller, shall be delivered to the buyer substantially contemporaneously with the lead bullet rod, and shall state: (1) the date of purchase, (2) the date of delivery, (3) the name and address of the buyer and seller, (4) the quantity and description of each type of lead bullet rod sold, (5) the price in cents per pound and in total, with the transportation and packaging charges, if any, itemized separately, and (6) the original cost of the required metal ingredients used in the production of the lead bullet rod sold to the buyer.

(b) After the effective date of this Maximum Price Regulation No. 199, every buyer of lead bullet rod shall preserve for inspection by the Office of Price Administration for a period of at least two years, the original, and every seller of lead bullet rod shall so preserve a copy of each invoice required to be furnished by paragraph (a) of this section.

(c) After the effective date of this Maximum Price Regulation No. 199, every producer of lead bullet rod shall maintain complete and accurate records of the original cost of the required metal ingredients by preserving for inspection by the Office of Price Administration records with respect to every lot purchased showing: (1) the date of such purchase, (2) the name and address of the seller of the metal ingredients, (3) the quantity and description of the metal ingredients, (4) the price per pound, and in total, of the metal ingredients, and (5) the transportation costs paid, if any, itemized separately.

§ 1355.108 *Reports.* (a) Every person making a sale of lead bullet rod shall, within ten days after the date of such sale, submit to the Office of Price Administration with respect to each such sale an exact copy of the invoice required to be kept by the seller under paragraph (b) of § 1355.107 hereof.

(b) Every producer who, within the eighteen months period immediately preceding the effective date of this Maximum Price Regulation No. 199, has sold and delivered 200 tons of lead bullet rod shall, within ten days after the effective date of this Maximum Price Regulation No. 199, so notify the Office of Price Administration by submitting a written statement to that effect. Every producer who, within the eighteen months period immediately preceding the effective date of this Maximum Price Regulation No. 199, has not sold and delivered 200 tons of lead bullet rod, shall, within ten days after having produced this tonnage, so notify the Office of Price Administration by submitting a written statement to that effect.

(c) Every person subject to this Maximum Price Regulation No. 199 shall submit such other reports and keep such other records as the Office of Price Administration may, from time to time, require, either in addition to, or in substitution for, records and reports herein required.

§ 1355.109 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 199 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 199 or any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state, field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1355.110 *Applications for adjustment.* Any person seeking relief from a maximum price established under this Maximum Price Regulation No. 199 may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1 and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant, together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 199 to keep prices at a reasonable level and thereby assure that defense appropriations are not dissipated by excessive prices.

§ 1355.111 *Petitions for amendment.* Persons seeking any modification of any provision of this Maximum Price Regulation No. 199 or an adjustment or exception not provided for in § 1355.110 of this Maximum Price Regulation No. 199 may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1355.112 *Definitions.* (a) When used in this Maximum Price Regulation No. 199, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Lead bullet rod" includes all bullet or ammunition rod or wire produced from lead, from antimonial lead, or from any other kind or grade of lead by extrusion from a hydraulic press.

(3) "The original cost of the required metal ingredients" means the delivered cost to the producer per pound of the metal used in the production of the lead bullet rod. Such original cost per pound of the required metal ingredients shall be limited to the price per pound charged to or paid by the producer at the time of the delivery to him of the required metal ingredients; such original cost per pound, however, shall not be increased as a result of any poundage loss that may occur due to the conversion of the metal.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1355.113 *Effective date.* This Maximum Price Regulation No. 199 (§§ 1355.101 to 1355.114, incl.) shall become effective August 13, 1942.

§ 1355.114 *Appendix A: Maximum prices for lead bullet rod, f. o. b. producer's plant.* (a) The maximum price, f. o. b. producer's plant, for all lead bullet rod shall be the original cost of the required metal ingredients plus 1.10 cents per pound: *Provided, however,* That in the case of a producer who has not, within the period of eighteen months immediately preceding the effective date of this Maximum Price Regulation No. 199, sold and delivered 200 tons of lead bullet rod, the maximum price shall be the original cost of the required metal ingredients plus 1.25 cents per pound until such time as the producer has sold and delivered 200 tons of lead bullet rod, after which time the maximum price of such a producer shall be the original cost of the required metal ingredients plus 1.10 cents per pound.

(b) (1) The maximum prices specified in paragraph (a) of this section include the costs of all accessory packing. Where the drums, reels or other main packages are the property of the seller, rather than the buyer, the charge for the package shall be separately listed on the invoice as required by subparagraph (5) of paragraph (a) of § 1355.107 hereof and shall, unless disapproved by the Office of Price Administration within sixty days after a copy of the invoice has been submitted to the Office of Price Administration as required by the provisions of § 1355.108 (a) hereof, be the maximum charge for such packages applicable to all subsequent sales and delivered by such producer.

(2) In the event that empty drums, reels or other main packages are returned to the producer by the buyer of the lead bullet rod originally contained therein, the freight costs on such shipment may be charged to and paid by the buyer of the lead bullet rod in addition to the maximum prices established by paragraph (a) of this section.

(c) The producer of lead bullet rod may add to the maximum prices specified in paragraph (a) of this section actual freight costs incurred in the transportation of lead bullet rod from his plant to the buyer's plant.

(d) No cost, charge, or any other addition, except those expressly permitted by paragraphs (b) and (c) of this section, may be added to the maximum prices established by paragraph (a) of this section.

Issued this 8th day of August 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 14 under § 1499.18 (c) and General Maximum Price Regulation [1]]

LARGAY BREWING CO.

For the reasons set forth in an opinion issued simultaneously herewith, it is ordered:

§ 1499.314 *Adjustment of maximum prices for malt beverages produced by Largay Brewing Company.* (a) On and after August 10, 1942, Largay Brewing Company, of Waterbury, Connecticut, may sell and deliver and any person may buy and receive from Largay Brewing Company the following commodities for sale in the State of Connecticut at prices not higher than those set forth below:

The maximum prices established under § 1499.2 (a) of the General Maximum Price Regulation for sale of malt beverages (beer and ale) by such company to all classes of trade in the State of Connecticut plus: 4 cents per case of 24 twelve ounce bottles; 10 cents per case of 12 quart bottles.

(b) On and after August 10, 1942, any wholesaler who dealt in malt beverages produced by Largay Brewing Company during March 1942 may sell and deliver and any person may buy and receive from such wholesaler the following commodities for sale in the State of Connecticut at prices not higher than those set forth below.

The maximum prices established under § 1499.2 (a) of the General Maximum Price Regulation for sale of such malt beverages (beer and ale) by such wholesaler in the State of Connecticut plus: 4 cents per case of 24 twelve ounce bottles; 10 cents per case of 12 quart bottles. *Provided,* That if any such wholesaler increased its prices for such malt beverages during March 1942 such wholesaler shall add to its maximum prices established under § 1499.2 (a) of the General Maximum Price Regulation only the excess, if any, remaining after deducting such increase from the adjustment herein granted.

(c) The adjustment granted to Largay Brewing Company in paragraph (a) is subject to the following conditions:

1. On or before August 10, 1942 Largay Brewing Company shall, by circular or other appropriate means, notify its customers that the Office of Price Administration has authorized adjustment of its maximum prices as set out in paragraph (a) hereof and notify its wholesalers that the Office of Price Administration has authorized adjustment of their maximum prices as set out in paragraph (b) hereof.

(d) All prayers of the petition not granted herein are denied.

(e) This Order No. 14 may be revoked or amended by the Price Administrator at any time.

TITLE 42—PUBLIC HEALTH

Chapter I—United States Public Health Service, Federal Security Agency

PART 10—GRANTS TO STATES FOR VENEREAL DISEASE CONTROL

SUBPART E—FISCAL YEAR 1943 AND EACH YEAR THEREAFTER

ALLOTMENTS AND PAYMENTS TO THE STATES FOR VENERAL DISEASE CONTROL ACTIVITIES

Whereas, pursuant to section 4d of Chap. XV of the Act of July 9, 1918, as added by the Act of May 24, 1938, 52 Stat. 439 (U.S. Code, title 42, sec. 25d) hereinafter referred to as the Act, the following regulations are hereby prescribed:

Sec.
10.401 Compliance with law and regulations.
10.402 Effective period.
10.403 Definitions.
10.404 Allotments.
10.405 Balances from allotments.
10.406 Matching requirements.
10.407 Training and administration.
10.408 Submission of plans and budgets.
10.409 Payments to States.
10.410 Custody and disbursement of funds.
10.411 Existing appropriations not to be replaced.
10.412 Financial reports.
10.413 Progress reports of activities.
10.414 Withholding payments.
10.415 Required minimal services.

AUTHORITY: §§ 10.401 to 10.415, inclusive, issued under sec. 4d of Chap. XV of the Act of July 9, 1918, as added by the Act of May 24, 1938, 52 Stat. 439; 42 U.S.C. 25d.

§ 10.401 *Compliance with law and regulations.* In order that funds allotted to the States may be of maximum use in assisting States, municipalities, counties, health districts, and other political subdivisions of the States in establishing and maintaining adequate measures for the control of the venereal diseases, payments made to a State under authority of the act will be certified by the Surgeon General only after such State has complied with the provisions of the act and regulations authorized thereunder;

§ 10.402 *Effective period.* The rules and regulations in this subpart and any amendments thereto shall be in full force and effect during each fiscal year for which funds are available and allotments are made under the act;

§ 10.403 *Definitions.* As used in this subpart:

"State" includes the District of Columbia, Alaska, Puerto Rico, the Virgin Islands, and Hawaii;

"Local" means pertaining to counties, health districts, municipalities, and other political subdivisions of the States;

"Federal funds" means funds appropriated by the Federal Government under the authority of sec. 4d of Chap. XV of the Act of July 9, 1918, as added by the Act of May 24, 1938, 52 Stat. 439; 42 U.S.C. 25d;

"State health authority" means the highest State official whose principal duties are the administration of State health activities;

"State venereal disease control officer" means the highest State official to whom is assigned the administration of the venereal disease control program;

§ 10.404 *Allotments.* The Surgeon General, pursuant to the authority contained in section 4b of the act, has determined that $10,170,000 (or 80.26%) of the total amount available for the fiscal year 1943 shall be allotted to the States. Allotments have been made in accordance with the following bases, and then have been adjusted for the unexpended balances in the States from previous allotments under the act:

(a) *Population.* Allotments amounting to 18.76 percent of the available appropriations will be made to the several States in the ratio which the population of each State bears to the population of the United States, as shown by the census of 1940.

(b) *Extent of the venereal disease problem.* Allotments amounting to 42.64 percent of the available appropriations will be made to the several States on the bases of (1) the varying composite and racial prevalence rates for syphilis; (2) the extent to which treatment facilities have been provided as evidenced by the population under treatment for syphilis; (3) the varying costs of providing equal services as determined by the inverse function of the density and the direct function of the size of the population of each State; (4) the need for training centers and demonstrations in selected areas; (5) the need for facilities for the prevention and control of the venereal diseases in localities where armed forces or civilian employees engaged in war activities are concentrated; (6) the scope of the programs necessitated by the war.

(c) *Financial needs.* Allotments amounting to 18.86 percent of the available appropriations will be made to the several States on the basis of their financial needs, as determined by the ability of the States to raise revenue, expressed in terms of per capita income differences obtained from data supplied by the Bureau of Foreign and Domestic Commerce for the five-year period 1936–1940;

§ 10.405 *Balances from allotments.* Unpaid balances from allotments at the end of the fiscal year shall not be paid but shall remain in the appropriation for reallotment to the States in the succeeding fiscal year in accordance with the provisions of the act;

§ 10.406 *Matching requirements.* Allotments to the several States will be available for payment when matched by State or local public funds which are to be expended for venereal disease control work in an amount equal to the allotment to each State on the bases of the population and the general extent of the venereal disease problem.

Funds employed for matching purposes shall be identified on Budget Form 8930–A and may be derived either from new or old appropriations, State, or local, and from donations by private individuals or nongovernmental agencies when such nonpublic funds are certified as being available and will be expended for the control of the venereal diseases under the direction of the State health authority;

§ 10.407 *Training and administration.* When Federal funds paid hereunder are utilized for the training of venereal disease control personnel, each State shall conform to "Training Policies of the United States Public Health Service" as amended to June 15, 1942. Each State shall establish and maintain (a) acceptable administrative and fiscal procedures; and (b) a system of personnel administration on a merit basis in accordance with "Merit System Policies of the United States Public Health Service" as amended to May 15, 1942;

§ 10.408 *Submission of plans and budgets.* Prior to the beginning of the fiscal year each State health authority shall submit for the approval of the Surgeon General a plan for improving and extending State and local venereal disease control services. The plan shall also include (a) a comprehensive statement of any changes in the State venereal disease control organization (including personnel administration on a merit basis), programs, and appropriations since the last statement was submitted; and (b) budgets on forms prescribed by the Public Health Service itemizing the proposed uses and showing the sources of all funds to be spent under the plan. Plans may be amended only with the approval of the Surgeon General;

§ 10.409 *Payments to states.* Prior to the beginning of each quarter the State health authority shall submit an application for funds, allotted under the act, upon forms prescribed by the Public Health Service. The Surgeon General may certify quarterly to the Secretary of the Treasury for payment to the State an amount which, together with any balance on hand in the State, shall not exceed, except in an extraordinary emergency, thirty-five percent of the total amount available, provided that the total payments shall not exceed the total annual allotment, or the total amount budgeted whichever is less;

§ 10.410 *Custody and disbursement of funds.* Payments shall be made quarterly to the State treasurer or other officer authorized by State law to receive the funds, and the principal accounting officer of the State government shall account for the funds separately from any other funds, State or Federal. State laws and regulations governing the custody and disbursement of State funds shall govern the custody and disbursement of Federal funds paid hereunder, subject to such amplification or modification as the Surgeon General may find necessary;

§ 10.411 *Existing appropriations not to be replaced.* Federal funds paid to a State shall be expended solely for venereal disease control activities as specified in plans and budgets approved by the Surgeon General, and shall not be used in such manner as to result in a reduction of State or local appropriations or expenditures for venereal disease control services;

§ 10.412 *Financial reports.* The State health authority shall submit to the Surgeon General quarterly financial reports on forms prescribed by the Public Health Service;

§ 10.413 *Progress reports of activities.* The State health authority shall submit to the Surgeon General the reports listed below and such other information as the Surgeon General may require:

(a) A semi-annual report on the status of venereal disease control activities (Form VM–1002, Section I—Statistical, Section II—Narrative). For the period July 1 to December 31 this report should be forwarded in duplicate through the district office of the Public Health Service not later than January 31; for the period January 1 to June 30 not later than July 31.

(b) A monthly clinic report (Form 8954–A Rev. March 1940) for each clinic in the State treating venereal diseases, by the fifteenth day of each succeeding month. Clinics employing the mechanical system for reporting are exempt from the use of this form if the designated machine-tabulated reports are submitted by the State.

(c) A monthly morbidity report (Form 8958–B Rev. March 1940) by the twenty-fifth day of each succeeding month.

(d) A monthly city morbidity report (Form VM–820 Rev. 1940) by the fifteenth day of each succeeding month, for each city in which the population is 200,000 or over;

§ 10.414 *Withholding payments.* If expenditures are made by any State contrary to the act, or of rules and regulations prescribed thereunder, the Surgeon General may withhold future payments. The Surgeon General may withhold his certification of quarterly payments in whole or in part from any State which violates the act, or rules and regulations prescribed thereunder, or plans approved by the Surgeon General pursuant thereto;

§ 10.415 *Required minimal services.* Generally accepted minimal services for the control of the venereal diseases shall be made available in each State, Territory, municipality, county, health district, or other political subdivision receiving funds under this act substantially in accordance with the following standards:

(a) The State laboratory, and any local serological laboratory receiving funds under this act shall demonstrate by a suitable method that the tests for syphilis performed therein have a satisfactory sensitivity and specificity rating. Such rating shall be determined in the case of the State laboratory by the Public Health Service.

(b) The State laboratory and any local laboratory receiving funds under this act shall provide laboratory services for the venereal diseases on the same basis as such service is provided for other communicable diseases. No State department of health shall be entitled to receive payments under this act unless such laboratory services are provided within that state.

(c) Free diagnostic and treatment facilities for both syphilis and gonorrhea shall be provided by all health departments receiving funds under this act. In order to provide complete clinical service, funds may be reallotted in the discretion of the State health authority independently to the gonorrhea or syphilis departments of polyclinics. All health departments or clinics receiving funds shall provide facilities for (1) diagnosis and emergency treatment of all patients who apply; (2) continued treatment, consultative advice or opinion for all patients referred by private physicians; and (3) continued treatment for all patients unable to afford private medical care. The determination of the ability of patients to pay for private medical care shall be the responsibility of the State or local health department or constituted welfare agencies within these areas. Clinics collecting fees from semi-indigent patients shall not receive assistance under this act unless such fees are used solely by the venereal disease clinic for improvement of diagnostic and therapeutic services rendered therein.

(d) Free distribution of antisyphilitic drugs shall be made on the request of any physician authorized by the Law of his State to administer such drugs for the treatment of his patients: *Provided*, That where health departments have established the policy of furnishing drugs to the physician conditional upon receiving a morbidity report on the case of syphilis to be treated, that such policy will not in any way be altered by this regulation.

(e) To receive funds under this act, diagnositic and treatment services shall be as freely available to infected residents of other States and counties as to people who reside in the governmental unit providing the services. Clinics shall be so located as to be easy of access and of maximum convenience to the population, and shall be held in well-lighted and well-ventilated rooms. The number of clinic sessions shall be adequate to meet local needs, and shall be held at such times as to avoid economic loss to employed patients; the physical arrangements shall be such as to insure privacy for the patients when receiving medical attention, and the minimum equipment shall include all apparatus and reagents necessary for the proper examination and treatments of patients infected with syphilis and gonorrhea. Such equipment will also include apparatus for darkfield examination, ophthalmologic examination, and for lumbar punctures, unless there is immediate access to such examinations by some other means. The minimal data included on morbidity, clinical, and epidemiologic records shall be those presented in the reprint of the United States Public Health Service on "A Mechanical System for Reporting Morbidity, Treatment-Progress, and Control of Venereal Diseases," or such minimal data as may be later approved by the members of the Conference of State and Territorial Health Officers. Efficient case-finding and case-holding work shall be conducted in all clinics by qualified personnel.

(f) The services of a properly qualified full-time venereal disease control officer shall be provided in each State, and in any municipality receiving funds under this act, if the population of either exceeds 500,000 on the basis of the 1940 census: *Provided further*, That the State health officer, after consultation and agreement with the Surgeon General, may require that the above regulations will apply in cities of populations of less than 500,000 on the basis of the 1940 census.

(g) In reallocating funds under this act for local venereal disease control services, the State health authority shall give due consideration to the relatively higher prevalence of syphilis and gonorrhea in urban areas: *Provided*, That Federal funds shall be withheld from counties, health districts, municipalities, or other political subdivisions where the laws, ordinances, and regulations pertaining to prostitution are not being enforced.

(h) The State health authority shall give due consideration to keeping the total administrative costs for venereal disease control work, including both State and Federal funds, at the lowest possible level consistent with the prosecution of an effective venereal disease control program. The total cost of administration of the venereal disease control program shall not exceed 5 percent of all funds expended for this phase of public health work in States with a population greater than one million and 10 percent in States with a population of one million or less in terms of the following personnel and services:

(1) The State venereal disease control officer. The travel allowance of such officer should not be included as an administrative item because, in most States, this officer performs some duties connected with field work.

(2) The clerical assistant to the venereal disease control officer. The clerical assistant should perform those duties pertaining to the venereal disease control officer's correspondence, filing, or other general office work in this section of the health department.

(3) Any other clerical or stenographic personnel at the State level, provided the major portion of their activities is concerned with general office work under the immediate supervision of the State venereal disease control officer. This item includes personnel concerned with the accounting of funds, but excludes personnel concerned with statistical activities since the latter are included in the category of personnel performing duties connected with consultation and dissemination of technical information.

(4) All activities concerned with the administration of the merit system on the State level.

259.12 Cancelation of contract.

AUTHORITY: §§ 259.1 to 259.12, inclusive, issued under R.S. 543, 2478; 43 U.S.C. 2, 1201; E.O. 9180, 7 F.R. 4317.

§ 259.1 *Authority.* Executive Order 9180 of June 5, 1942, issued to facilitate the prosecution of the war, authorizes the Secretary of the Interior

• • • to enter into contracts, through the Commissioner of the General Land Office, for the disposal of yucca growing on the public domain, under such terms and conditions as he may deem proper whenever he finds that the materials or products to be made from such yucca are substitutes, in whole or in part, for any material which has been or hereafter may be designated as strategic or critical, or both, or is otherwise essential to the prosecution of the war.

§259.2 *Policy.* In keeping with the Department's policy of making resources available for their highest use in facilitating the prosecution of the war, while at the same time giving every attention to the principles of conservation, it is the purpose of §§ 259.1–259.12 to provide for the cutting of yucca on the public lands for use as fiber and other products needed particularly as substitutes for products which cannot be imported from the usual sources and other products of the class designated in the executive order. Further in keeping with this policy of wise use and avoidance of waste of natural resources, the harvesting and removal of yucca from the public lands shall be carried on in such a manner that it does not initiate or increase soil erosion, fire hazards, unnecessary reduction in the usefulness of the land for other purposes or unnecessary damage to other useful resources. No cutting of yucca will be permitted which unnecessarily impairs scenic values or recreational uses. The harvesting shall be done on a sustained yield basis, thereby assuring a permanent supply, unless otherwise authorized in order to promote the maximum utilization of the lands and the resources thereof. When desirable to cut yucca in grazing areas, or in conjunction with the harvesting or removal of other products for raw material purposes, due regard shall be given to attaining the highest multiple use.

§ 259.3 *Lands subject to yucca contracts.* The authority granted by the Executive order extends to all public lands, including such lands withdrawn by Executive Orders Nos. 6910 and 6964 of November 26, 1934, and February 5, 1935, public lands in grazing districts, and public lands withdrawn or reserved for special administration, where the cutting of the yucca is found not to be inconsistent with the purpose for which the lands were reserved.

Where application is made for lands administered by the Grazing Service or other agency, the application will be referred to such agency for consideration and no contract will be entered into without its concurrence. Yucca contracts for such lands will contain special provisions and stipulations as the agency involved may suggest.

§ 259.4 *Form of contract; procedure.* Each yucca contract will contain the provisions of the attached form, which is made a part of this section. The contract will be made for such term as is requested by the applicant, not exceeding 5 years, or for a period extending until 6 months after the national emergency has been officially declared to be terminated, whichever expires sooner.

A yucca contract will not prevent the subsequent filing of applications or the initiation of rights to the lands under the public-land laws by others or prevent anyone having the right to graze livestock on the lands from using so much of the yucca as may be necessary for forage or fodder for livestock. Subsequent to the date of the contract, any of the lands which the Commissioner of the General Land Office may find are needed for a higher use inconsistent with the cutting of yucca from the lands may be excluded from the contract after 30 days written notice.

A contract may be renewed on its expiration, prior to the official termination of the national emergency, in the discretion of the Commissioner of the General Land Office, subject to the rules and regulations then in force and to such provisions and conditions as the Commissioner may prescribe.

All actions of the Commissioner will be subject to review or appeal, in accordance with the Rules of Practice (43 CFR, Part 221).

§ 259.5 *Application.* An application to cut yucca must be submitted in affidavit form, in triplicate, and should be filed in the land office for the district in which the lands containing the yucca are situated. The application should show:

(a) The name and address of applicant.

(b) The facts as to the age and citizenship of the applicant, if an individual, or as to its incorporation and the citizenship of each stockholder, if a corporation. A corporation will be required to furnish a certified copy of its articles of incorporation, together with a copy attested by the proper official of the minutes of the meeting authorizing the filing of the application.

(c) The period for which the contract is desired.

(d) A description of the land desired. The land, if surveyed, should be described with reference to the public land surveys. If unsurveyed, it should be described in such a manner that it may be identified with certainty.

(e) The species, quantity and parts of the yucca plant desired, the species and estimated quantity of each on the land covered by the application, and the product or products for which the yucca is to be used.

(f) The proposed method of cutting and its effect upon the yucca plants, also the proposed method of collection of the yucca and of the disposal of the waste.

(g) Whether the applicant has theretofore cut yucca or has a contract or right to cut it from any lands. If so, the application should show the location and ownership of the lands, the date of the contract and the period for which the right was given, the species and quantities involved, and the amounts paid or the contract prices.

(h) Whether the yucca is desired to supply an existing or a proposed processing plant. If to supply an existing plant, the application should show the location, ownership and capacity of the plant to use yucca. If to supply a proposed plant, in addition to the foregoing information, the application should state the manner in which capital to finance the project will be secured and the approximate amount of capital which will be required.

(i) Whether the application is made for the exclusive use and benefit of the applicant.

(j) Whether any of the lands are occupied or improved. If so, the application should describe such lands and give the name and address of each occupant.

(k) When the lands were last examined by the applicant.

§ 259.6 *Citizenship.* Each purchaser of yucca must be a citizen of the United States, or one who has declared his intention to become such citizen, or a corporation owned by such persons organized under the laws of the United States or of a State or Territory thereof, and authorized to transact business in the State or States in which the lands involved are situated.

§ 259.7 *Fee.* Each applicant must pay a fee of $5.00, if the application is for 1,000 acres or less, and an additional $5.00 for each 1,000 acres or fraction thereof. The fee will be carried as unearned pending action on the application. If the application is rejected, the fee will be returned. If a lease based on the application is offered to the applicant, and refused, the fee will be retained and earned as a service charge.

§ 259.8 *Charges.* A contract charge of 5 cents per acre per year payable in advance will be made for the privilege of cutting the yucca. Payment also will be required for all yucca cut at the rate to be specified in the contract. The Commissioner of the General Land Office will determine the just and proper rate. All yucca cut during each 6 months' period of the contract must be paid for within 30 days after the expiration of such period. The Commissioner, in his discretion, may include in any contract a provision that there shall be set off against the amount due for the yucca cut, any part of the advance acreage payments made during the preceding 3 years under that contract, or any extension thereof, for which credit has not previously been given.

All payments must be made to the Register of the land office for the district in which the lands are situated, who will deposit and account for the moneys as miscellaneous receipts, rent of land.

§ 259.9 *Execution of contract; bond and advance payment.* Upon the approval of an application, a proposed contract will be prepared and forwarded to the register for transmittal by him to the applicant. The contract must be executed by the applicant in quadruplicate and returned by him to the register. The applicant must furnish with the proposed contract, when returned, a corporate surety bond in an amount to be determined by the Commissioner of the General Land Office, but not less than $1,000, conditioned upon performance by the applicant of all the terms of the contract. The applicant must submit with the proposed contract payment of the acreage charge for the first year of the contract.

§ 259.10 *Use of land.* A yucca contract will not entitle the purchaser to any right or interest in the lands described therein other than for the purpose of searching for, cutting and removing yucca. It will not give the purchaser the right to construct improvements of any kind upon the premises and will not prevent the use of the land by the United States, or under its authority, for any purpose not inconsistent with the rights granted by the contract.

§ 259.11 *Assignment of contract.* A purchaser may not assign his contract or any interest therein without the approval of the Commissioner of the General Land Office. A proposed assignment must be executed in triplicate and forwarded, within 30 days from the date of its execution, to the register of the proper district land office, for transmittal to the Commissioner, and it must be supported by a statement signed by the assignee agreeing to be bound by the provisions of the contract if the assignment is approved, and a showing that the assignee possesses the qualifications required of a purchaser.

§ 259.12 *Cancelation of contract.* A contract may be canceled by the Commissioner of the General Land Office if the purchaser shall fail to make any payment required thereunder or shall fail to comply with any provisions thereof and such default shall continue for 30 days after written notice thereof to the purchaser.

FRED W. JOHNSON,
Commissioner.

Approved: July 28, 1942.

Secretary of the Interior.

DEPARTMENT OF THE INTERIOR

GENERAL LAND OFFICE

Yucca Contract[1]

This contract made this _____ day of _____, 19__, between the United States of America, acting in this behalf by the _____, and _____, of _____, hereinafter called the purchaser, under authority of Executive Order No. 9180 of June 5, 1942.

Witnesseth, That the parties hereto for the considerations hereinafter expressed covenant and agree as follows:

SEC. 1. *Rights granted.* The purchaser shall have the right, for the period of this contract, to search for, cut and remove the species of yucca designated below from the following-described lands: _____

SEC. 2. *Term of contract.* This contract is made for a term of _____ years, or for a period extending until 6 months after the national emergency has been officially declared to be terminated, whichever expires sooner. It may be renewed on its expiration prior to the official termination of the national emergency, in the discretion of the Commissioner of the General Land Office, subject to such provisions and conditions as the Commissioner may prescribe.

SEC. 3. *Special rules.* The following rules will be observed in the cutting: _____

SEC. 4. In consideration of the rights and privileges granted by this contract, the purchaser agrees:

(a) *Charges.* To pay the United States each year in advance a charge of 5 cents per acre for the privilege of cutting yucca from the lands covered by this contract and to make payment to the United States for all such yucca at the following rate: _____

All yucca cut during each 6 months' period of the contract must be paid for within 30 days after the expiration of such period.

(b) *Regulations.* To abide by and conform to any and all reasonable regulations of the Secretary of the Interior now or hereafter in force relating to the cutting and removal of yucca from the public lands, all of which regulations are made a part and condition of this contract: *Provided*, That such future regulations shall not effect any change in the annual acreage charge, or in the charge for the yucca provided for herein, without the consent of the parties hereto.

(c) *Monthly statements.* To furnish monthly statements at such time and in such form as may be required by the Commissioner of the General Land Office, showing the facts as to the yucca cutting operations both from the lands covered by this contract and from lands adjacent thereto, if the purchaser has the right to cut and remove yucca from such adjacent lands.

(d) *Inspection of records.* To keep open at all reasonable times for inspection by any duly authorized officer of the Department of the Interior all books, accounts and other records pertaining to the yucca cutting operations, both from the lands covered by this contract and from lands adjacent thereto, if the purchaser has the right to cut and remove yucca from such adjacent lands.

(e) *Assignments.* Not to assign this contract or any interest therein without the consent of the Commissioner of the General Land Office; that any such assignment, if made, will contain all the terms and conditions agreed upon by the parties thereto; and that the proposed assignment will be forwarded, in triplicate, within 30 days from the date of its execution to the register of the proper district land office for transmittal to the Commissioner.

(f) *Labor policy.* To accord all workmen and employees complete freedom of collective bargaining and of purchase, to pay them at least twice each month in lawful money of the United States, and to carry on all operations hereunder with due regard to their health and safety.

SEC. 5. *Use of land.* This contract will not entitle the purchaser to any right or interest in the land described herein other than for the purpose of searching for, cutting and removing yucca. It will not give the purchaser the right to construct improvements of any kind upon the premises and will not prevent the use of the land by the United States, or under its authority, for any purpose not inconsistent with the rights herein granted. The right is hereby reserved to cut and remove from the land as much yucca as may be necessary for the purposes of research, experimentation or other investigation conducted by the United States, or under its authority.

SEC. 6. *Cancelation of contract.* This contract may be canceled by the Commissioner of the General Land Office if the purchaser shall fail to make any payment required thereunder, or shall fail to comply with any provisions thereof, and such default shall continue for 30 days after service of written notice thereof on the purchaser.

SEC. 7. *Termination of contract.* The purchaser, with the consent of the Commissioner of the General Land Office first had and obtained in writing, may surrender and terminate this contract upon payment of all charges due hereunder, upon payment of all wages and moneys due and payable to workmen employed by him, and upon a satisfactory showing to the Commissioner that the public interests will not be impaired.

SEC. 8. *Unlawful interest.* No Member of, or Delegate to Congress, or Resident Commissioner, after his election or appointment, or either before or after he has qualified, and during his continuance in office, and no officer, agent or employee of the Department of the Interior, shall be admitted to any share or part in this contract, or derive any benefit that may arise therefrom. The provisions of section 3741 of the Revised Statutes and sections 114, 115, and 116 of the Criminal Code, approved March 4, 1909 (35 Stat. 1109), relating to contracts, enter into and form a part hereof, so far as the same may be applicable.

SEC. 9. *Heirs and successors in interest.* Each obligation hereunder shall extend to and be binding upon, and every benefit hereof shall inure to, the heirs, executors, administrators, successors, or assigns of the respective parties hereto.

CANADIAN FISHING VESSELS PERMITTED TO LAND HALIBUT CATCH IN ALASKA

AUGUST 7, 1942.

Section 4311 R.S. (46 U.S.C. 251) waived to extent necessary to permit Canadian halibut fishing vessels to land catch of halibut in Alaska.

Upon the written recommendation of the Secretary of State and by virtue of the authority vested in me by section 501 of the Second War Powers Act, 1942 (Public Law 507, 77th Congress), I hereby waive compliance with the provisions of section 4311 R.S. LITTLE PEND OREILLE NATIONAL WILDLIFE REFUGE, WASHINGTON

Under authority of section 84 of the act of March 4, 1909, as amended by the act of April 15, 1924, 43 Stat. 98, the administration of which was transferred to the Secretary of the Interior on July 1, 1939, by Reorganization Plan No. II (53 Stat. 1431), and in extension of § 12.9 of the regulations of December 19, 1940,[1] for the administration of national wildlife refuges, the following regulations permitting and governing the hunting of deer within the Little Pend Oreille National Wildlife Refuge, Washington, are made and prescribed:

§ 21.563a *Little Pend Oreille National Wildlife Refuge, Washington; hunting of deer.* Deer may be taken in the open season prescribed therefor by the State Game Commission of Washington during the calendar year 1942 on lands of the United States within the exterior boundary of the Little Pend Oreille National Wildlife Refuge, Washington, under the following special provisions, conditions, restrictions, and requirements:

(a) *Compliance with State laws and regulations.* Any person who hunts on the refuge shall have in his possession a valid hunting license issued by the State of Washington authorizing him to hunt deer, which said license shall serve as a Federal permit for hunting deer on the refuge. The license must be exhibited upon the request of any representative of the Washington State Game Commission authorized to enforce the State game laws or of any representative of the Department of the Interior. The licensee shall comply in every respect with the State laws and regulations governing the hunting of deer and must also upon request of any of the aforesaid representatives exhibit for inspection all game killed by him or in his possession. Failure of any person hunting upon the refuge to comply with any of the conditions, restrictions, or requirements of the regulations in this part will be sufficient cause for removing such person from the refuge and for refusing him further hunting privileges on the refuge.

(b) *Disorderly conduct, intoxication.* No person who is visibly intoxicated will be permitted to enter upon the refuge for the purpose of hunting hereunder, and any person who indulges in any disorderly conduct on the refuge will be removed therefrom by the officer in charge and dealt with as prescribed by law.

(c) *Entry upon refuge.* Persons entering the refuge for the purpose of hunting, as permitted by the regulations in this part, shall use such established routes of travel as may be designated by suitable posting by the officer in charge and shall not otherwise enter upon the refuge.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-305]

FLASH COAL CO.

NOTICE OF AND ORDER FOR HEARING

In the matter of Julius Kauzlarich and Tony Kauzlarich, individually and as co-partners, doing business under the name and style of Flash Coal Company, Code Member.

A complaint, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on July 17, 1942, by the Bituminous Coal Producers Board for District No. 12, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Julius Kauzlarich and Tony Kauzlarich, individually and as co-partners, doing business under the name and style of Flash Coal Company (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on September 28, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the District Court Room, Centerville, Iowa.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that said code member, whose address is Mystic, Iowa, whose code membership became effective as of January 30, 1938, and who operates the Flash Mine, Mine Index No. 622, also known as the Kauzlarich Mine, Mine Index No. 360, located in Appanoose County, Iowa, District No. 12, has wilfully violated:

(a) Division Orders Nos. 296 and 297 dated September 23, 1940, and October 22, 1940, respectively, during the period beginning October 1, 1940 through December 31, 1940, Division Order No. 307 dated December 11, 1940, during the period January 1, 1941, through March 31, 1941, and Division Order No. 312 dated February 24, 1941, during the period beginning April 1, 1941, through April 30, 1941, for failing to maintain and keep on file at the mine or at the business office of said code member or by failing to file with the Statistical Bureau for District No. 12 reports during said respective periods of all sales of substantial tonnages of coal produced, sold and shipped from the above-mentioned mine by truck or wagon to various purchasers and copies of truck tickets, sales slips, invoices and list of said sales as required by said orders resulting in violations of said Orders, the Act, the Code and the Marketing Rules and Regulations of the Division promulgated thereunder;

(b) Rule 3 of section V of the Marketing Rules and Regulations and Order No. 14 of the Division dated July 15, 1937, by failing to file with the Statistical Bureau for District No. 12 within ten (10) days from the date of acceptance during the period October 1, 1940 through March 31, 1942, copies of any and all spot orders entered into for the sale of substantial tonnages of coal produced at the above-mentioned mine, resulting in violations of said Rule and Order, the Act, the Code and rules and regulations promulgated thereunder; and

(c) Rule 8 of section VI of the Marketing Rules and Regulations and Order No. 14 of the Division dated July 15, 1937, by failing to file with the Statistical Bureau for District No. 12 within fifteen (15) days after the date of entry therein during the period October 1, 1940, through March 31, 1942, copies of any and all contracts for the sale of substantial tonnages of coal produced at the above-mentioned mine, resulting in violations of said Rule and Order, the Act, the Code and rules and regulations of the Division promulgated thereunder.

Dated: August 8, 1942.

[Docket No. D-22]

STAHMER COAL CO.

NOTICE OF AND ORDER FOR HEARING

In the matter of the application of Stahmer Coal Company for permission to receive sales agents' commissions and distributors' discounts on coal sold to Madison Fuel and Supply Company.

The Stahmer Coal Company, a corporation organized under the laws of Illinois with its principal offices in Chicago, Illinois, acting as a sales agent for certain code member producers, and being registered with the Division as a Distributor, Registration No. 8625, filed its petition, on July 24, 1942, praying:

1. That the Division determine "that the sales relationship between Stahmer and the Madison Fuel and Supply Company is bona fide and will not result in the evasion of the applicable minimum prices and is not within the prohibition of paragraphs 11 and 12 of section 4 II (j) of the Bituminous Coal Act," and

2. That it be granted permission to accept and retain sales agents' commissions and distributors' discounts on all coal sold by it to Madison Fuel and Supply Company.

It is, therefore, ordered, That a hearing on such matter be held on September 15, 1942, at 10 a. m. in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 15th Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to such petitioner and to any other person who may have an interest in such proceeding. Any person desiring to be heard at such hearing shall file a notice to that effect with the Bituminous Coal Division on or before September 12, 1942, setting forth therein the nature of his interest and a concise statement of the matter or matters which he intends to present.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners, or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

Dated: August 8, 1942.

[Docket No. A-1557]

DISTRICT BOARD NO. 8

NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 8 for a change of price classifications and minimum prices for rail and truck shipment for the coals of certain mines in District No. 8 and to remove all of Leslie County, Kentucky, from Subdistrict No. 6, Southern Appalachian, and add it to Subdistrict No. 3, Hazard, in District No. 8.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on September 9, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before September 1, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a petition filed with the Division by District Board No. 8 requesting a change of price classifications and minimum prices for rail and truck shipment for the coals of certain mines in Kanawha and Putnam Counties, West Virginia, and Leslie County, Kentucky, and to remove all of Leslie County, Kentucky, from Subdistrict No. 6, Southern Appalachian, and add it to Subdistrict No. 3, Hazard, in District No. 8.

Dated: August 7, 1942.

J-Z COAL CO.

ORDER RESCHEDULING HEARING

In the matter of the petition of the J-Z Coal Company, a Code Member producer in District No. 4, for the revision of the minimum prices of the coals of Mine Index No. 2950 in size groups Nos. 5, 6 and 8 for truck shipments.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, a hearing having been scheduled

in this matter on July 7, 1942, at Washington, D. C., at which hearing petitioner failed to appear; and

An order provisionally dismissing the petition having been issued on July 23, 1942; and

Petitioner by letter dated July 30, 1942, having shown good cause why this hearing should be rescheduled;

Now, therefore, it is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division, be rescheduled to August 11, 1942, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, Common Pleas Court, Steubenville, Ohio.

It is further ordered, That Charles S. Mitchell, or any other officer, or officers, of the Division duly designated for that purpose shall preside at the hearing in such matter.

It is further ordered, That the original Notice of and Order for Hearing in this matter dated June 26, 1942, shall, in all other respects, remain in full force and effect.

Dated: August 5, 1942.

DISTRICT BOARD NO. 14

ORDER POSTPONING HEARING

In the matter of the petition of District Board No. 14 for Revision of price classifications and minimum prices for certain mines in District No. 14.

The original petitioner having moved that the hearing in the above-entitled matter heretofore scheduled for August 10, 1942, be postponed, and having shown good cause why such motion should be granted;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be and it hereby is postponed from 10 o'clock in the forenoon of August 10, 1942, until 10 o'clock in the forenoon of September 21, 1942, at the place and before the officer heretofore designated.

Dated: August 6, 1942.

[FPC Docket No. 1]

CERTAIN DESIGNATED COMMODITIES

NOTICE OF HEARING RELATIVE TO COMPARABLE PRICES

Pursuant to the authority contained in subsection (b) of section 3 of the Emergency Price Control Act of 1942 [Public No. 421, 77th Congress, 2d session], notice is hereby given that a public hearing will be held at the Roosevelt Hotel, 4903 Delmar Street, St. Louis, Missouri, during the week beginning August 24, 1942, commencing at 9:30 a. m. on August 24, 1942.

The purpose of such hearing is to receive evidence and to accept briefs or statements likely to be of assistance to the Secretary of Agriculture in finding, pursuant to the provisions of subsection (b) of section 3 of said act, whether the production and consumption of the commodities listed hereinafter have so changed in extent and character since the base period as to result in a price out of line with the parity prices for the basic commodities (corn, wheat, cotton, tobacco, rice, and peanuts for nuts). Although not required by subsection (b) of section 3 of said act, evidence will be received and briefs or statements accepted as to the factors which should be considered in establishing a comparable price for each of the several commodities.

The following commodities will be taken up in the order listed during the three days from August 24 to August 26, 1942:

August 24—citrus fruits for fresh use and for processing; avocados, dates, boysenberries, youngberries, and grapes other than raisins.

August 25—peppermint, spearmint, and similar oils; dry field peas; almonds, filberts, pecans, and walnuts.

August 26—soybeans, peanuts for oil, and tung nuts; snap beans for processing, beets for processing, and other vegetables for processing, such as carrots, squash, pumpkin, okra, parsnips, turnips and rhubarb.

In addition, the hearing will be continued on August 27 and 28 to receive evidence and to accept briefs or statements with respect to whether comparable prices should be established for any commodities not listed herein and with respect to the factors which should be considered in establishing such comparable prices.

The record will be kept open through Monday, September 8, 1942, in order to accept additional or supplementary briefs or written statements which any interested parties may desire to file.

Such hearing, after being called to order at the time and place mentioned above, may, for convenience, be adjourned to such other place in the same city as the presiding officer may designate and may be continued from day to day within the discretion of the presiding officer.

Done at Washington, D. C., this 8th day of August 1942. Witness my hand and the seal of the Department of Agriculture.

NOTICE OF HEARINGS AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (b) and (d) of section 301 and section 511 of the Sugar Act of 1937 (Public, No. 414, 75th Congress), as amended, notice is hereby given that public hearings will be held as follows:

At Baton Rouge, Louisiana, in the Court House, Room 302, on August 19, 1942 at 9:30 a. m.; at New Iberia, Louisiana, in the Court Room of the New Court House, on August 21, 1942 at 9:30 a. m.; at Clewiston, Florida, in the Clewiston High School Auditorium, on August 25, 1942, at 9:00 a. m.

The purpose of such hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (b) of the said act, fair and reasonable wages for persons employed in the harvesting of sugarcane during the period from September 1, 1942, to June 30, 1943, and the planting and cultivating of sugarcane during the calendar year 1943 on farms with respect to which applications for payments under the said act are made, and (2), pursuant to the provisions of section 301 (d) of the said act, fair and reasonable prices for the 1942 crop of sugarcane to be paid, under either purchase or toll agreements, by processors who, as producers, apply for payments under the said act; and to receive evidence likely to be of assistance to the Secretary of Agriculture in making recommendations, pursuant to the provisions of section 511 of the said act, with respect to the terms and conditions of contracts between producers and processors of sugarcane and with respect to the terms and conditions of contracts between laborers and producers of sugarcane.

Joshua Bernhardt, Charles M. Nicholson, Harry H. Simpson, and G. Laguardia are hereby designated as presiding officers to conduct, either jointly or severally, the foregoing hearings.

Done at Washington, D. C., this 8th day of August 1942. Witness my hand and the seal of the Department of Agriculture.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 6395]

POSTAL TELEGRAPH-CABLE CO. (NEW YORK)

ORDER FOR HEARING, ETC.

In the matter of increased rates of Postal Telegraph-Cable Co. (New York) for service to certain points in Kentucky.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 4th day of August 1942,

It appearing that there has been filed with the Commission Supplement No. 31 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 47, effective August 10, 1942, which provides for the discontinuance of certain public telegraph offices at Poplar Plains, Salyersville and west Liberty, Kentucky, and for an increase in the rates and charges applicable to telegraph messages delivered at such points;

It further appearing that said Supplement No. 31 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 47, makes increases in rates and charges and states regulation and practices effecting such increases in rates and charges for the transmission of telegraph messages in interstate and foreign commerce; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of the said tariff supplement should be postponed pending hearing and decision thereon;

It further appearing that the Commission, by Order of July 14, 1942, in Docket No. 6374, directed that Supplement No. 30 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 47, which provided for the discontinuance of certain other public telegraph offices at various named points in Kentucky and Ohio, and for an increase in the rates and charges applicable to telegraph messages delivered at such points, be suspended;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the rates, charges, regulations and practices contained in said Supplement No. 31 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 47, insofar as they relate to the discontinuance of public telegraph offices at Poplar Plains, Salyersville and West Liberty, Kentucky;

It is further ordered, That the operation of said tariff supplement, insofar as it provides for an increase in the rates and charges for delivery of interstate or foreign telegraph messages to public telegraph offices at Poplar Plains, Salyersville and West Liberty, Kentucky, be suspended; and that the use of the rates, charges, regulations and practices therein stated as applicable to such points in Poplar Plains, Salyersville and West Liberty, Kentucky, be deferred until November 10, 1942, unless otherwise ordered by the Commission; and during said period of suspension, no change shall be made in such rates, charges, regulations and practices, or in the rates, charges, regulations and practices sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby, instituted, into the lawfulness of the rates, charges, classifications, regulations, practices and services of Postal Telegraph-Cable Company (New York) for and in connection with service to and from Poplar Plains, Salyersville and West Liberty, Kentucky, as stated in the provisions of the tariff supplement suspended herein;

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period, and said charges shall go into effect, Postal Telegraph-Cable Company (New York), and all other carriers participating in service provided under the tariff provisions suspended herein, shall, until further order of the Commission, each keep accurate account of all amounts received by each of them by reason of any increase in charges effected thereby; in which accounts each such carrier shall specify by whom and in whose behalf such amounts are paid;

It is further ordered, That Postal Telegraph-Cable Company (New York) and each participating carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing December 10, 1942, showing the amounts received and accounted for as aforesaid, during the previous calendar month;

It is further ordered, That a copy of this Order shall be filed in the office of the Federal Communications Commission with said tariff supplement herein suspended in part; that copies hereof be served upon the carrier parties to such supplement and tariff; and that said carrier parties be, and they are hereby, each made a party respondent to this proceeding;

It is further ordered, That this proceeding be, and the same is hereby, consolidated with the proceeding heretofore commenced in Docket No. 6374 by our Order of July 14, 1942, and the consolidated proceedings are hereby assigned for hearing at 10 a. m. on the 19th day of August 1942, at the offices of the Federal Communications Commission in Washington, D. C.

FEDERAL POWER COMMISSION.

[Docket Nos. G-257, G-242]

EL PASO NATURAL GAS CO. ET AL.

ORDER CONSOLIDATING PROCEEDINGS FOR PURPOSE OF HEARING AND FIXING DATE OF HEARING

AUGUST 5, 1942.

In the matter of El Paso Natural Gas Company, Western Gas Company, El Paso Gas Transportation Corporation, and State of Arizona, complainant *v.* Western Gas Company and El Paso Natural Gas Company, defendants.

It appearing to the Commission that: (a) On March 4, 1942, the State of Arizona filed with the Commission a complaint (Docket No. G-242) alleging, among other things, that Western Gas Company and El Paso Natural Gas Company are engaged in interstate transportation of natural gas, and in the sale of natural gas in interstate commerce for resale for ultimate public consumption for domestic, commercial and industrial uses, and that the rates and charges for such transportation and sale are unjust and unreasonable, and requesting the Commission to institute an investigation of said Western Gas Company and El Paso Natural Gas Company and after hearing to fix just and reasonable rates to be thereafter observed and in force in respect of such transportation and sale;

(b) On April 21, 1942, the Commission, on its own motion, instituted an investigation of El Paso Natural Gas Company, Western Gas Company and El Paso Gas Transportation Corporation (Docket No. G-257), for the purpose of enabling the Commission to determine (1) whether the said companies, or any of them, are natural-gas companies within the meaning of the Natural Gas Act, and (2) whether, in connection with any transportation or sale of natural gas subject to the jurisdiction of the Commission, any rates, charges or classifications demanded, observed, charged or collected, or any rules, regulations, practices or contracts affecting such rates, charges, or classifications are unjust, unreasonable, unduly discriminatory or preferential; and if the Commission, after hearing has been had, shall find that the said companies, or any of them, are natural-gas companies within the meaning of the Natural Gas Act, and that any of their rates, charges, classifications, rules, regulations, practices or contracts subject to the jurisdiction of the Commission are unjust, unreasonable, unduly discriminatory or preferential, to determine and fix by appropriate order or orders just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force;

(c) The said order instituting an investigation was duly served upon El Paso Natural Gas Company, Western Gas Company and El Paso Gas Transportation Corporation;

The Commission *finds* that: The above-entitled proceedings are related and the public interest would be served by consolidating them for hearing; and

The Commission *orders* that: (A) Dockets Nos. G-242 and G-257 be and they are hereby consolidated for purposes of hearing thereon;

(B) A public hearing in these proceedings be held commencing on September 9, 1942, at 9:45 o'clock a. m. in the Hearing Room of the Federal Power Commission, located in the Hurley-Wright Building at 1800 Pennsylvania Avenue, NW., Washington, D. C.;

(C) Interested State Commissions may participate in the said hearing, as provided for in § 67.4 of the Provisional Rules of Practice and Regulations under the Natural Gas Act.

FEDERAL TRADE COMMISSION.

[Docket No. 4796]

MAURICE J. KELLNER

COMPLAINT AND NOTICE OF HEARING

In the matter of Maurice J. Kellner, an individual, doing business as M. J. Kellner, broker, M. J. Kellner Brokerage Company, Illinois Brokerage Company, and O-K Sales Company.

Complaint

The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, Sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH ONE. Respondent Maurice J. Kellner is an individual doing business under the name and style of M. J. Kellner, broker, M. J. Kellner Brokerage Company, Illinois Brokerage Company and O-K Sales Company, having his principal office and place of business located at 8th and Madison Streets, Springfield, Illinois.

PAR. TWO. The respondent is now and for many years prior hereto has been engaged in business as a broker of general food products and other miscellaneous merchandise and has conducted such business under the name and style of M. J. Kellner, broker, M. J. Kellner Brokerage Company, Illinois Brokerage Company and O-K Sales Company.

PAR. THREE. The respondent is now and for many years prior hereto has also been engaged in business as a jobber of general food products and other miscellaneous merchandise and has also conducted such jobbing enterprises under the name and style of M. J. Kellner, broker, M. J. Kellner Brokerage Company, Illinois Brokerage Company and O-K Sales Company.

PAR. FOUR. The respondent since June 19, 1936, has made many purchases of general food products and other miscellaneous merchandise for his own account, for resale, from numerous sellers located in states other than the State of Illinois, and pursuant to said purchases such general food products and other miscellaneous merchandise have been shipped and transported by the respective sellers thereof from the states in which such sellers are located across state lines either to the respondent or pursuant to respondent's instructions and directions to respective purchasers to whom such general food products and other miscellaneous merchandise have been sold by said respondent.

PAR. FIVE. In the course and conduct of respondent's business as a jobber, he purchases such general food products and other miscellaneous merchandise for his own account in commerce as aforesaid under the name and style of M. J. Kellner, broker, M. J. Kellner Brokerage Company, Illinois Brokerage Company and O-K Sales Company, and has been and is now receiving and accepting from numerous sellers of said general food products and other miscellaneous merchandise so purchased, brokerage fees or allowances or discounts in lieu thereof on purchases of said general food products and other miscellaneous merchandise for his own account.

PAR. SIX. The aforesaid acts of respondent constitute a violation of subsection (c) of section 2 of the Clayton Act as amended by the Robinson-Patman Act approved June 19, 1936.

Wherefore, the premises considered, the Federal Trade Commission on this 6th day of August, 1942, issues its complaint against said respondent.

Notice of Hearing

Notice is hereby given you, Maurice J. Kellner, an individual, doing business as M. J. Kellner broker, M. J. Kellner Brokerage Company, Illinois Brokerage Company and O K Sales Company, respondent herein, that the 11th day of September, A. D., 1942, at 2 o'clock in the afternoon is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 6th day of August, A. D. 1942.

By the Commission.

GENERAL ELECTRIC COMPANY—NEW MODEL AUTOMATIC RECORD PLAYER

AUTHORIZATION OF MAXIMUM PRICE

On May 19, 1942, General Electric Company, Bridgeport, Connecticut, filed an application dated May 16, 1942, pursuant to Revised Price Schedule No. 83, § 1336.53 (b), for approval of a maximum price for an automatic record player designated in the application as General Electric Model No. LM-25.

Due consideration has been given to the application and an opinion, issued simultaneously herewith, has been filed with the Division of the Federal Register. For the reasons set forth in the opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered:

(a) General Electric Company is authorized to sell, offer to sell, or deliver Model No. LM-25 automatic record player to its distributors or other customers at prices no higher than $31.54.

(b) The application of General Electric Company for approval of a higher price is denied.

(c) This Order No. 1 may be revoked or amended by the Price Administrator at any time.

(d) Unless the context otherwise requires, the definitions set forth in § 1336.60 of Revised Price Schedule No. 83 shall apply to terms used herein.

(e) This Order No. 1 shall become effective on the 10th day of August 1942. (Pub. Law 421, 77th Cong.)

NORTHWEST BOLT AND NUT CO.

[Docket No. 1147-3-P]

ORDER GRANTING EXCEPTION

On July 21, 1942, Northwest Bolt & Nut Company, 4502 14th Avenue, N. W., Seattle, Washington, filed a protest to Maximum Price Regulation No. 147 as applied to said Company's sales to purchasers within the United States intended for consumption in Alaska, Canada or the Hawaiian Islands. Due consideration has been given to the protest and it has been considered as a petition for an exception pursuant to the provisions of § 1368.7 (b) of Maximum Price Regulation No. 147 and an opinion in support of this Order No. 7 has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, it is hereby ordered:

(a) Northwest Bolt & Nut Company, on sales to purchasers within the United States intended for consumption in Alaska, Canada or the Hawaiian Islands, may sell or offer to sell at prices not in excess of the prices established by Maximum Price Regulation No. 147 for its sales for delivery on the Pacific Coast and intended for consumption in the United States.

(b) This Order No. 7 may be revoked or amended by the Price Administrator at any time.

(c) The definitions set forth in § 1368.8 of Maximum Price Regulation No. 147 shall apply to the terms used herein.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-465]

PENNSYLVANIA ELECTRIC CO., ET AL.

ORDER POSTPONING DATE OF HEARING; ORDER DESIGNATING NEW TRIAL EXAMINER

At a regular session of the Securities and Exchange Commision held at its office in the City of Philadelphia, Pa., on the 7th day of August, A. D. 1942.

In the matter of Pennsylvania Electric Company, The Clarion River Power Company, Erie Lighting Company, Solar Electric Company, Youghiogheny Hydro-Electric Corporation, Associated Maryland Electric Power Corporation, and Associated Electric Company.

The Commission having, on July 8, 1942, issued its notice of and order for reconvening hearing and notice of filing plan under section 11 (e) of the Public Utility Holding Company Act of 1935 and order for hearing thereon, in the above entitled matter, and having set the date for hearing on such matter on August 13, 1942; and

In such order the Commission having directed that notice of the hearing be sent by the Clarion River Power Company or Pennsylvania Electric Company to all holders of the Participating Capital Stock of The Clarion River Power Company, and that such notice must be mailed not later than fifteen days prior to the date of hearing; and

Pennsylvania Electric Company and The Clarion River Power Company having by their counsel requested that the hearing be postponed for a period from fifteen to twenty days because of serious illness of counsel and necessary examination of books and records to be made by auditors, which cannot be completed by August, 13, 1942, and having represented that notices had been mailed on July 27, 1942, pursuant to the Commission's order, to all holders of record of the Participating Capital Stock of The Clarion River Power Company; and that, if the request for postponement is granted, the Pennsylvania Electric Company will immediately mail a notice of the postponement to all such stockholders of record; and

The Commission being of the opinion that, under the circumstances and conditions set forth, the request may appropriately be granted; and

The trial examiner, heretofore designated to preside at such hearing, not being able to preside at the postponed date;

It is ordered, That the date of the hearing in this matter be, and hereby it, postponed to August 28, 1942, at 10 a. m., at the offices of the Securities and Exchange Commission, Eighteenth and Locust Streets, Philadelphia, Pennsylvania, in the room to be designated on said day by the hearing-room clerk in Room 318.

It is further ordered, That Pennsylvania Electric Company shall give notice of the postponement of said hearing by sending a copy of this order to all holders of record of the Participating Capital Stock of The Clarion River Power Company not later than August 11, 1942.

It is further ordered, That notice of this postponement be, and hereby is, given to all security holders of The Clarion River Power Company, such notice to be given by Pennsylvania Electric Company, as hereinbefore provided, and also by publication of this order in FEDERAL REGISTER and by general release of the Commission distributed to the mailing list for releases of the Public Utility Holding Company Act of 1935.

It is further ordered, That Richard Townsend, an officer of the Commission, be, and hereby is, designated to preside at such hearing at the place and stead, and with the same powers and duties as the trial examiner hereinbefore designated to preside at such hearing.

By the Commission.

PLYMOUTH COUNTY ELECTRIC COMPANY AND NEW ENGLAND GAS AND ELECTRIC ASSOCIATION

ORDER GRANTING APPLICATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 7th day of July, A. D. 1942.

New England Gas and Electric Association, a registered holding company, and its subsidiary, Plymouth County Electric Company, having filed applications pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (b) and 10 thereof regarding the following proposed transactions:

Plymouth County Electric Company proposes to issue and sell to New England Gas and Electric Association 6,960 shares of additional common stock, of the par value of $25 per share, at a price of $31.25 per share. The proceeds from the sale of this stock are to be used for the purpose of paying floating indebtedness incurred by Plymouth County Electric Company for extensions, additions, and improvements to its plant and property amounting to $217,500 as of May 31, 1942. Such floating indebtedness is represented by open account advance from New England Gas and Electric Association of $150,000 together with a four-month note for $67,500 payable to The First National Bank of Boston with interest at 3% per annum.

Said applications having been filed on July 11, 1942, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said applications within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the said application under section 6 (b) of said Act that the requirements of said section have been satisfied, and with respect to said application under section 10 of said Act that no adverse findings are necessary under section 10 (b) and section 10 (c) (1) of said Act, and that the transaction involved has the tendency required by section 10 (c) (2) of said Act.

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid applications be, and hereby are, granted forthwith.

By the Commission, Commissioner Healy dissenting for the reasons set forth in his memorandum of April 1, 1940.

AMERICAN UTILITIES SERVICE CORPORATION

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 6th day of August 1942.

American Utilities Service Corporation having filed a declaration pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 promulgated thereunder regarding the pledge of 2,000 shares of common stock, $100 par value of Northwestern Wisconsin Electric Company (a subsidiary) and 31,598 shares of common stock, no par value, of Southeastern Telephone Company (a subsidiary) to the Continental Illinois National Bank and Trust Company of Chicago (Trustee under the Indenture securing its Collateral Trust 6% Bonds, Series A), in accordance with a provision of the Trust Indenture requiring the pledge of securities existing through the conversion of securities previously pledged to the trustee; and

Said application having been filed on July 16 1942 and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The declarant having requested that said declaration should become effective at the earliest possible date; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective, and being satisfied that the effective date of such declaration should be advanced:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declaration be, and the same hereby is, permitted to become effective forthwith

MIDLAND UTILITY CO., ET AL.

ORDER GRANTING APPLICATION AND ALLOWING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 6th day of August, A. D. 1942.

In the matter of Midland United Company, trustee, Traction Light & Power Company, Shirley Realty Company, and Indiana Industrial Land Company.

Hugh M. Morris, as Trustee for the Estate of Midland United Company, a registered holding company, and three direct subsidiaries thereof, namely Traction Light & Power Company, Shirley Realty Company, and Indiana Industrial Land Company, having filed an application and declaration pursuant to sections 10, 12 (c), 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-43 promulgated thereunder concerned with the following proposed transactions:

Midland United Company proposes to acquire all of the assets of Traction Light & Power Company, consisting of 17,906.19 shares of common stock, no par value, of Public Service Company of Indiana, Inc., a subsidiary of Midland United Company, Trustee, and cash which, as at March 31, 1942, approximated $64,000 in consideration of the surrender to Traction Light & Power Company of all of its outstanding capital stock, consisting of 500 shares of common stock, par value $100, and $288,550 in principal amount of promissory notes. Upon the acquisition by Traction Light & Power Company of said capital stock and promissory notes (which are the entire capitalization of Traction Light & Power Company), said company is to be dissolved. At the present time a portion of the common stock and indebtedness of Traction Light & Power Company is pledged as collateral for certain disputed obligations of Midland United Company with Commonwealth Subsidiary Corporation, The Peoples Gas, Light & Coke Company and Public Service Company of Northern Illinois. It is proposed that the assets of Traction Light & Power Company to be received by Midland United Company are to be pledged to the same extent that the capitalization of Traction Light & Power Company has been heretofore held in pledge;

Midland United Company also proposes to sell 1.012.61 shares of the common stock of Shirley Realty Company and $1,850 in principal amount of outstanding notes of Shirley Realty Company to Indiana Industrial Land Company, a direct subsidiary of Midland United Company, for a total cash consideration of $23,677.71. Upon the acquisition of the above described securities, Indiana Industrial Land Company will own the entire capitalization of Shirley Realty Company. Indiana Industrial Land Company thereupon proposes to acquire the assets of Shirley Realty Company, consisting of real estate and mineral rights, and effect the dissolution of Shirley Realty Company;

Said application and declaration having been filed on July 7, 1942, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said filing within the period specified in said notice, or otherwise, and not having ordered a hearing thereon;

The Commission finding that the declaration pursuant to section 12 (c), 12 (d) and 12 (f) of the Act and Rules U-42 and U-43 thereunder meet the standards thereof and deeming that it is appropriate and in the interest of consumers, investors and the public interest to allow the declaration pursuant to sections 12 (c), 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rule U-42 and Rule U-43 to become effective, and finding no basis on which to make adverse findings under sections 10 (b) and 10 (c) of said Act, and that the transactions involved have the tendency required by section 10 (c) (2) of said Act;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid filing be, and the same hereby is, allowed to become effective and granted forthwith.

By the Commission.

POTOMAC ELECTRIC POWER COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 6th day of August, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than August 21, 1942 at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Potomac Electric Power Company, a subsidiary of Washington Railway and Electric Company, a registered holding company and a subsidiary of The North American Company, a registered holding company, proposes to issue and sell at competitive bidding to the highest bidder $5,000,000 principal amount of First Mortgage Bonds, 3¼% Series. Due 1977, due August 1, 1977. The bonds are to be issued as a series of the First Mortgage Bonds under the Mortgage and Deed of Trust dated July 1, 1936 between Potomac Electric Power Company and The Riggs National Bank of Washington, D. C., as Trustee as amended by an Indenture supplemental thereto dated December 10, 1939, and as supplemented by an indenture supplemental thereto dated July 15, 1942, conveying additional property to the Trustee and now proposed to be further supplemented

by an indenture supplemental thereto, to be dated August 1, 1942.

It is stated that the proceeds from the proposed issue and sale are initially to become part of the company's general funds and are to be used to meet its normal working capital requirements and for fixed capital expenditures. It is estimated that such expenditures during the remainder of the year will amount to approximately $4,793,334.

The application or declaration is filed pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 for exemption from the provisions of section 6 (a) of the Act of the issue and sale of the securities designated herein. The sale of the securities will be subject to the requirements of Rule U-50.

By the Commission.

STANDARD OIL COMPANY (NEW JERSEY)

ORDER EXTENDING EFFECTIVE DATE OF ORDER DENYING EXEMPTION

At a regular session of the Securities and Exchange Commision, held at its office in the City of Philadelphia, Pennsylvania, on the 3d day of August 1942.

The Commission, on February 5, 1942, having denied the application of the above-named company, pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935, for exemption from the provisions of said Act, but having further ordered that the effective date of such order should be August 4, 1942; and

The Company having requested that the effective date of the Order of February 5, 1942 be extended for a further period of six months from August 4, 1942 on the ground that it has proceeded diligently in working out a program for the disposition of the securities of the gas utility companies owned by it and has filed applications and declarations with respect thereto and that, despite such efforts, it has found it impossible to complete its plans by August 4, 1942; and

It appearing to the Commission that such request is reasonable and is not contrary to the interests of investors or consumers or of the public in general;

It is hereby ordered, That the effective date of the Order of the Commission dated February 5, 1942, denying the application of Standard Oil Company (New Jersey), pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935, be and the same hereby is extended to February 4, 1943.

COMMITTEE ON FAIR EMPLOYMENT PRACTICE

TRANSFER FROM WAR PRODUCTION BOARD TO WAR MANPOWER COMMISSION

THE WHITE HOUSE,
Washington, July 30, 1942.

MY DEAR MR. MCNUTT:

After careful consideration of the problems now confronting the Nation with regard to the complete utilization of our human resources in the war effort, I feel it is essential that the activities of the Committee on Fair Employment Practice be coordinated with the activities of the various units of the War Manpower Commission. Accordingly, I hereby transfer the Committee on Fair Employment Practice, established by Executive Order 8802,[1] from the War Production Board to the War Manpower Commission, together with its functions, and all records, property, and personnel used in the administration of such functions. In the performance of its duties and functions the Committee shall be subject to the direction and supervision of the Chairman of the War Manpower Commission. The Committee, however, shall be preserved as an organizational entity within the War Manpower Commission.

On July 8, 1942, I allocated to the Office for Emergency Management the sum of $48,552 from the Emergency Fund to provide for the salaries and expenses of the Committee on Fair Employment Practice for the first quarter of the fiscal year 1943, the unexpended balance of which amount shall be available for the operation of the Committee in performing its functions within the War Manpower Commission. Requests for the financing of the Committee for the last three quarters of the fiscal year 1943 should be submitted to the Bureau of the Budget through the War Manpower Commission.

I am notifying Mr. Malcolm S. MacLean, Chairman of the Committee on Fair Employment Practice, and Mr. Donald M. Nelson, Chairman of the War Production Board, accordingly.

Sincerely yours,
FRANKLIN D ROOSEVELT

HONORABLE PAUL V. MCNUTT,
Chairman, War Manpower Commission.

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board 3 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 3.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 3; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 323.6 (*Alphabetical list of code members*) is amended by adding thereto Supplements R-I and R-IV, § 323.8 (*Special prices*—(b) *Railroad fuel prices for all movements except via lakes*) is amended by adding thereto Supplements R-II and R-V, § 323.8 (*Special prices*—(c) *Railroad fuel prices for movement via all lakes—all ports*) is amended by adding thereto Supplements R-III and R-VI, and § 323.23 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof; Commencing forthwith, the shipping points appearing in the aforesaid Supplement R-IV for the coals of Mine Index Nos. 60, 762, 928, and 1237 are effective in place of the shipping points heretofore assigned to these mines; and commencing forthwith, the railroad and freight origin group number appearing in the aforesaid Supplement R-IV for Mine Index No. 928 are effective in place of those heretofore assigned.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief

In the matter of the petition of District Board No. 7 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 7.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 7; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 328.21 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–II, and § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

Commencing forthwith, the shipping points appearing in the aforesaid Supplements R–I and R–II for the coals of Mine Index Nos. 716, 931, 2308, 3663 and 5530 are effective in place of those heretofore established for these mines, and commencing forthwith, the railroads and freight origin group numbers appearing in the aforesaid Supplement R–I for the coals of Mine Index Nos. 716 and 2308 are effective in place of those heretofore assigned.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

[F. R. Doc. 42-7773; Filed, August 10, 1942; 11:45 a. m.]

[Docket No. A-1523]

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 13 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13.

An original petition, pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (a) (*Special prices—Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices*—(c) *Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–II, § 333.24 (*General prices*) is amended by adding thereto Supplement R–IV, § 333.25 (*Special prices*—(b) *Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses*) is amended by adding thereto Supplement R–V, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplements T–II and T–III, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein as to the coals of the Wilburn Smith Nos. 1, 2 and 3 Mines of Wilburn Smith, or as to the Twin Arrow Mine of Fondren & Guthrie, for the reason that the Division has received no code acceptances from these producers.

No relief is granted herein as to the coals of the Loyd Mine (Mine Index No. 1471) of Luther P. Dodd for truck shipments for the reasons that such relief has already been granted this mine in Docket No. A–1330, when it was operated by Elbert Loyd.

Price classifications and minimum prices for Mine Index Nos. 713, 1348, 1430, 1504, 844 and 178 in Marion County, Tennessee, and for Mine Index Nos. 1542, 1222, 181, 738, 1406, 830, 1493, 116, 26 and 831 in Dade County, Georgia, for all shipments except truck into Market Area No. 112 have been established 2 cents higher than the price classifications and minimum prices proposed for these mines for such shipment in the original petition for the reason that records of the Division indicate that the freight rate for shipments from Mine Index No. 95, which mine's prices are used as base prices, have been increased 5 cents per net ton into Market Area No. 112, while the freight rates for such shipments from the mines listed above have been increased only 3 cents per net ton.

Dated: July 30, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

PART 335—MINIMUM PRICE SCHEDULE, DISTRICT NO. 15

ORDER ON PETITION FOR PRICE REVISION

Findings of fact, conclusions of law, memorandum opinion and order of the Acting Director in the matter of the petition of District Board No. 15 for revision of the effective minimum prices for certain coals produced in District No. 15.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on June 9, 1942, by District Board No. 15, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests increases in the prices published in the Schedule of Effective Minimum Prices for District No. 15 for All Shipments Except Truck applicable to code member's mines in Production Groups Nos. 1, 2, 4, 5, 10, and 11, District 15, for shipment to Market Area No. 75 (Kansas City), and in Production Group No. 4, District 15, for shipment into Market Area No. 78 (St. Joseph, Missouri, etc.).

Pursuant to Order of June 18, 1942, and after due notice to all interested persons, a hearing was held on July 8, 1942, before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The original petitioner and Bituminous Coal Consumers' Counsel appeared at the hearing. The preparation and filing of a Report by the Examiner were waived, and the record was thereupon submitted to the Acting Director.

This proceeding involves the adjustment of certain effective minimum prices in District 15 to conform to freight rate changes. On March 18, 1942, freight rate advances became effective (I.C.C. Ex Parte No. 148) on lump coal and fine coal produced in Production Groups Nos. 1, 2, 4, and 5 when for shipment to Market Area 75 (Greater Kansas City), and in Production Groups Nos. 3 and 4 when for shipment to Market Area 78 (St. Joseph, Missouri, etc.). Where the freight rate was one dollar or less the increase is 3 cents, and where the freight rate was more than one dollar the increase is 5 cents per net ton.

A. *Market Area 75.* A tabulation showing the freight rates formerly existing and those in effect following the increase and showing the amount of the increase applicable to the sizes of coal from the production groups involved when for shipment to Market Area 75, is as follows:

	From production groups Nos.—							
	1		2		4		5	
	Lump	Fine	Lump	Fine	Lump	Fine	Lump	Fine
Formerly	175	135	132	115	95 (a)	85	73	85	73
As increased	180	140	137	120	98 (a)	88	76	88	76
Amount of increase	5	5	5	5	3	3	3	3	3

(a) 1¼" round hole screenings from which no coal has been removed (Size Groups 13 and 14).

Established minimum prices for coals produced in District 15 are predicated upon delivered differentials arrived at by relating the coals to one or more particular production group as a base group. For shipment to Market Area 75, Production Group No. 1 is the base. When freight rate changes are uniform, the delivered differentials are not disturbed. On the other hand, if there is a lack of uniformity in freight rate changes there results a disruption of the delivered differentials and consequently the coordination, measured by the differences in freight rate changes as between the base production group and the production groups related to the base.

In the case of Market Area 75, the base production group was increased 5 cents when Production Groups 4 and 5 and Size Groups 13 and 14 in Production Group 2 were increased 3 cents per net ton, a difference of 2 cents per net ton. Translated to the prices, this 2 cents difference in freight rate disrupts the coordination in Market Area 75 by from 1 to 3 cents per net ton. The variation which results in the translation of the freight rate change to the prices arises out of the method of determining prices in District 15. Thus the evidence shows that coals in Size Groups 11, 12, and 13 for domestic and commercial use, and Size Groups 12 and 13 for industrial use, produced in Production Group 1, for shipment to Market Area 75 should be increased 1 cent per net ton. This is due to delivered relationships and the application of the percentage which determines differentials. In this instance the price schedule provides that the delivered price for Size Group 13 shall be 10 per cent over the delivered price of Size Group 14. Since the delivered price includes the freight rate, the 10 per cent operates upon the freight rate also, and increasing the latter increases the delivered price and 10 per cent of that price. The application of this formula here results in a difference of 5 mills by which the prices would be increased.

The petitioner requested that the 5 mills be converted to 1 cent and that the prices be so increased. Bituminous Coal Consumers' Counsel filed a brief in opposition to the requested 1 cent increase, contending that if the one-half cent is dropped, the delivered differential will be as close to 10 percent as it will be if 1 cent is added, which, as simple mathematics, is true. Consumers' Counsel further objected to the principle whereby in all cases the one-half cent is rounded out to 1 cent, contending that to do so does not comport with the statistical rule.

§318.12 (a) (1) in the Marketing Rules and Regulations, provides:

(1) If, in converting a net or gross ton price, freight rate or freight rate differential, the calculation extends to more than two (2) decimals, and the third decimal is .005 or more, it shall be added as .01, and if under .005, it shall be eliminated.

Under the foregoing rule the prices should be increased by 1 cent.

In the case of Size Groups 11, 12, 13, and 14 for domestic and commercial use, and Size Groups 12, 13, and 14 for industrial use in Production Group 2, and Size Groups 1–8, 10, and 14 for domestic and commercial use and Size Group 14 for industrial use in Production Groups 4 and 5, the evidence shows that the effective minimum prices should be increased 2

temporary relief is granted as follows:

Commencing forthwith, § 343.4 (*Code member price index*) is amended by adding thereto Supplement R–I. § 343.5 (*General prices; minimum prices for shipment via rail transportation*) is amended by adding thereto Supplement R–II. § 343.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

PART 343—MINIMUM PRICE SCHEDULE, DISTRICT NO. 23

ORDER GRANTING RELIEF FOR ATLAS MINE

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 23 for the establishment of price classifications and minimum prices for the coals of the Atlas Mine.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Atlas Mine (Mine Index No. 170) in District No. 23; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows:

Commencing forthwith, § 343.4 (*Code member price index*) is amended by adding thereto Supplement R–I. § 343.5 (*General prices; minimum prices for shipment via rail transportation*) is amended by adding thereto Supplement R–II. § 343.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

DAN H. WHEELER,
Acting Director.

PART 804—INDIVIDUAL LICENSES

APPLICATIONS TO EXPORT CERTAIN COMMODITIES

Paragraph (1) of § 804.7[1] *Special provisions concerning applications to export certain commodities* is amended to read as follows:

(1) *Vehicles.* Applications for licenses to export vehicles or equipment of a type requiring rubber tires, casings, or tubes for operation must include either (1) a statement that no rubber tires, casings, or tubes are to be mounted on, or otherwise included as part of the shipment of, such vehicles or equipment when exported, or (2) a statement of the number, size, ply, and tread design of the rubber tires, casings, or tubes which are to be mounted on, or otherwise included as part of the shipment of, such vehicles or equipment when exported; and a statement as to whether the tires, casings or tubes are new or used. In the latter case, applications need not include a statement of the crude rubber content of such tires, casings, or tubes. If any spare tire, casing, or tube is to be mounted on, or otherwise included as part of the shipment of, a vehicle when exported, the application must include a statement showing the urgent necessity for such spare tire, casing or tube.

This amendment shall become effective August 20, 1942.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Amendment 4 to Priorities Regulation 1]

Part 944, Priorities Regulation No. 1, is hereby amended in the following respects:

1. Section 944.5[1] is amended to read as follows:

§ 944.5 *Sequence of preference ratings.* (a) Preference ratings in order of precedence are: AAA, AA–1, AA–2, AA–2X, AA–3, AA–4, etc.; A–1–a, A–1–b, etc.; A–2, A–3, etc.; B–1, B–2, etc. All preference ratings of AA heretofore assigned and in effect are hereby amended to AA–2, unless and until the deliveries bearing such ratings are otherwise specifically rerated.

(b) Effective immediately, ratings of AA–1 and AA–2 are to be deemed ratings of the same grade, both ratings being equivalent to the present rating of AA–1, and this rule shall apply to deliveries heretofore or hereafter rated with either of such ratings. No person shall be required by reason of this paragraph (b) to terminate or interrupt a production schedule immediately in any case where such termination or interruption would result in a substantial loss of production: *Provided, however,* That in any such case termination or interruption of the schedule required by reason of this paragraph (b) may not be postponed more than forty days from the effective date of this paragraph (b)—August 10, 1942.

2. Section 944.7(d)[1] is hereby amended to read as follows:

(d) Notwithstanding the foregoing provisions of this § 944.7, no person who receives any rated order shall be required by reason of such order to terminate or interrupt a production schedule immediately in any case where such termination or interruption would result in a substantial loss of production: *Provided, however,* That in any such case termination or interruption of the schedule required by the receipt of such rated order shall not be postponed more than forty days after such receipt.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 12 as amended August 10, 1942]

ESTABLISHING RERATING PROCEDURES

Priorities Regulation 12 (§944.33) is hereby amended to read as follows:

§ 944.33 *Priorities Regulation No. 12*—(a) *General.* Deliveries bearing preference ratings may be rerated and, subject to the limitations hereinafter provided, such reratings may be applied or extended in the manner provided in this Regulation. Such reratings shall change only the grade of the preference rating, and shall not increase the amount of material to which the rating may be applied or extended.

(b) *Methods of initiating rerating.* (1) Reratings may be effected in the first instance through the issuance, by the Director General for Operations or by such government officials as may be authorized by him, of either (i) a new preference rating order or certificate, (ii) an amendment of an existing order or certificate, or (iii) a rerating direction on Form PD–4X, attached hereto[2] (or such other form as may be prescribed), specifying the change of rating and the items to which it applies. A single Rerating Direction may be used to rerate deliveries to be made under different contracts with the same contractor, and may specify different new ratings for separate deliveries to be made under a single contract.

(2) A Rerating Direction in the PD–4X series shall be used only:

(i) To rerate deliveries under prime contracts directly to, or construction of facilities under direct contract with, the United States Army or Navy or other United States Government agencies specified in the definition of "defense order" appearing in § 944.1 (b) of Priorities Regulation No. 1 as amended, and in addition, notwithstanding the limitations indicated on Form PD–4X:

(ii) To rerate any other delivery to be made directly to a prime contractor or subcontractor with the United States Army or Navy or other United States Government agency so specified; provided such delivery has previously been duly rated either (*a*) by a preference rating certificate on Form PD–3, PD–3A, PD–4 or PD–5, or (*b*) by a preference rating order in the P–19, P–19–a or P–19–h series countersigned by an officer of the United States Army or Navy: *And provided further,* That the original rating was assigned by such preference rating certificate or order issued directly to and in the name of the person who is to receive the delivery to be rerated, and not merely applied or extended to such person by another contractor or subcontractor.

Rerating directions on forms in the PD–4X series may be prepared and issued only by authorized government officials, and are not to be prepared or filed with any government agency by any person as application forms to secure reratings.

(c) *Extent to which rerating may be extended.* (1) In any case where a delivery to be made by a person has been rerated, such person may rerate deliveries to be made to him of the following material only:

(i) Material which will itself be delivered by such person on a rerated delivery, or which will be physically incorporated into material to be so delivered, or

(ii) Material which is required to replace in inventory material so delivered or incorporated. Material shall not be deemed to be required if the delivery can be made and a practicable working minimum inventory of such material still retained; and if, in making delivery, the inventory is reduced below such minimum, the new rating may be applied or extended to replace such material only to the extent necessary to restore the inventory to such minimum: *Provided, however,* That the material ordered for replacement must be substantially the same as the material delivered or incorporated in the material delivered, subject only to minor variations in size, shape or design, or substitution of less scarce materials, which, in any case, do not substantially alter the purpose for which the same is to be used.

(2) In addition, any person may extend the new rating to deliveries of operating supplies (including lubricants, catalysts, abrasives and small perishable tools) which are actually required and will be consumed by him in physically processing other material to the delivery of which he has extended the same new rating, except that

(i) The cost of the operating supplies to which he extends the rating shall not exceed ten percent of the cost of the particular materials to be processed therewith, and to which he extends the new rating; and

(ii) Not more than 25 percent by value of the operating supplies so rated in any calendar month shall be metals in any of the forms listed on the Metals List attached to Priorities Regulation No. 11 § 944.32)[3]

(3) When a delivery to be made by a person has been rerated, such person may *not* extend the new rating to materials for plant improvement, expansion or construction, to machine tools or other capital equipment, to maintenance and repair items, to business machines whether purchased or leased, or to operating supplies other than those specified above in subparagraph (2) of this paragraph (c). If rerating of such material is necessary, the new rating must be assigned by the appropriate government official, except as provided with respect to PRP Units in paragraph (d) of this regulation.

(4) In each case, the new rating applied or extended by any person pursuant to this paragraph (c) shall be the same as the new rating which he has received for the rerated delivery to be made by him, even though this may require him to apply or extend separate new ratings to items previously covered by a single rating; except that, to the extent necessary to avoid production or delivery in quantities smaller than the minimum commercially practicable, items which might be rerated with new ratings of different grades may be combined, and the total delivery rerated with the new rating of the lowest grade.

(d) *Special provisions applicable to PRP Units.* (1) Notwithstanding the provisions of Priorities Regulation No. 11 (§ 944.32) and of Preference Rating Order P–90, a PRP Unit may extend a new rating in accordance with paragraph (c) of this regulation when a delivery to be made by it has been rerated, but (i) this provision shall not be deemed to authorize a PRP Unit to extend a rating in connection with the receipt of a new rated order (as distinct from the rerating of an order previously received) except as authorized in subparagraph (2) of this paragraph (d), and (ii) the total amount of any material of which a PRP Unit is permitted to accept delivery in any quarter shall continue to be limited to the amount authorized on its PRP Certificates, as further provided in subparagraph (4) of this paragraph (d).

(2) In addition, notwithstanding the provisions of Priorities Regulation No. 11 or of Preference Rating Order P–90, a PRP Unit may, not more than twice in any calendar month, revise the rating pattern which it may apply to deliveries to be made to it and may apply preference ratings in accordance with such revised pattern as follows:

(i) The PRP Unit shall first determine, as of the latest practicable date, (*a*) the total dollar amount of all unfilled orders placed with it which are scheduled for production (though subject to postponement or cancellation in case of receipt of higher rated orders), and (*b*) the percentage of such dollar amount covered by such grade of preference rating, taking into account all changes of ratings as of said date. The PRP Unit shall then be entitled to rate or rerate its own purchase orders in accordance with the pattern of ratings so determined in such manner that its purchase orders outstanding covered by each grade of rating shall be the same percentage (by dollar amount) of its total outstanding purchase orders as the percentage of scheduled unfilled orders placed with it covered by the same rating. It may not either rate or rerate any purchase order if the result of such rating or rerating will be to increase the dollar value of its orders bearing the same rating to a percentage of the value of its total purchase orders greater than the percentage of deliveries to be made by it bearing the same rating (unless such rating or rerating is authorized by a PRP Certificate) except as otherwise provided in subdivision (iii) of this subparagraph (2) below, and except that, if any rating is not applied to the full extent permissible, the balance not used may be added to the permissible amount of any lower rating or ratings. The term "purchase order" as used in this subdivision (i) shall *not* include any order for materials for plant improvement, expansion or construction, for business machines whether purchased or leased, or for machine tools or other large capital equipment. Such items may not be rated or rerated on the basis of the rating pattern. They may be rated or rerated only by the issuance to the PRP Unit of a new or amended preference rating certificate or order or of a rerating direction as specified in paragraph (b) of this regulation.

(ii) Except as otherwise provided in subdivision (iii) below, ratings and reratings pursuant to this subparagraph (2) shall be applied only in such manner that incoming deliveries of each material will bear the same rating as outgoing deliveries in which that material is incorporated, and material obtained under a rating or rerating applied pursuant to this subparagraph (2) shall be used *only* for the production of material to be delivered under the same or a higher rating. A PRP Unit must comply with the limitations of this subdivision (ii) on the basis of the most accurate determinations which it can make in the light of available records. However, in cases where detailed examination of outstanding purchase orders would be impracticable, reasonable estimates may be made, and physical segregation of material obtained under different ratings it is not required: *Provided,* That the amounts of each kind of material used to fill orders bearing different ratings do not exceed the amounts permitted by compliance with said limitations.

(iii) Notwithstanding the foregoing provisions, any PRP Unit which rates or rerates its own purchase orders in accordance with a pattern determined by it pursuant to this subparagraph (2) shall, after determining such pattern, group the percentages represented by ratings from A–1–b to A–1–k inclusive and apply to the percentage representing the entire group the highest rating assigned between A–1–b and A–1–k inclusive on its most re-

cent PRP Certificate, and shall likewise apply to the entire percentage represented by ratings from A-2 to A-10 inclusive the highest rating assigned between A-2 and A-10 inclusive on such certificate.

(3) Unless otherwise expressly provided in its PRP Certificate or any supplement thereto, any PRP Unit may apply either the rating pattern authorized in its current PRP Certificate (including any supplemental certificate on Form PD-25F or otherwise) or a pattern determined by the PRP Unit as provided in subparagraph (2) of this paragraph (d). It may also rerate deliveries as provided in subparagraph (1) of this paragraph (d): *Provided*, That, in any event, no single purchase order may be rerated more than once in any consecutive period of thirty-one days unless the supplier consents to such rerating.

(4) Nothing in this regulation, or in any rerating direction or certificate issued hereunder, shall authorize a PRP Unit, or any person required by Priorities Regulation No. 11 to become a PRP Unit, to receive any delivery or apply or extend a rating to any delivery, of any material in an amount greater than permitted by said regulation, and in no event shall the amount of any material rated by a PRP Unit for delivery in any calendar quarter exceed the amount authorized for rating on its PRP Certificates: *Provided, however*, That purchase orders may be rated according to the authorized pattern even if scheduled for delivery in a quarter for which no PRP Certificate has yet been received, but upon receipt of such certificate, purchase orders must be adjusted to authorized amounts as required by paragraph (d) (1) (iii) of Priorities Regulation No. 11.

(e) *Method of application or extension.* (1) In any case where a person has applied or extended a preference rating to a delivery to be made to him and is subsequently authorized to rerate such delivery pursuant to this regulation, he may at his option either:

(i) Furnish to his supplier a rerating certificate in the form of Form PD-4Y attached hereto,[2] containing the information therein specified (other than Government contract numbers or other government identification, where none are available);

(ii) Notify his supplier in writing that the previous rating has been cancelled and furnish him with duplicate purchase orders carrying the appropriate endorsement for the new rating as provided by Priorities Regulation No. 3 (§ 944.23);[3] or

(iii) Advise his supplier of the change in rating by letter or telegram listing the purchase orders on which the ratings are changed, giving the numbers of the original purchase orders, the original rating and the new ratings, and instructing the supplier to file such letter or telegram with the original purchase orders.

In any event, the information given to the supplier must be sufficiently specific with respect to the particular deliveries rerated so that he will be able to adjust his production schedules accordingly. The supplier must be specifically informed, by reference to purchase order numbers, delivery schedules, description of items or otherwise, as to which deliveries are subject to which new ratings. It is not sufficient to state merely that all outstanding purchase orders placed with the supplier are rerated according to specified percentages, unless the material involved is of such type and in such quantities that the supplier can readily determine, from percentage figures alone, the exact effect of the rerating on his production and delivery schedule, and except that, if the supplier consents, orders not yet in production may be rerated on a percentage basis, provided actual amounts and deliveries are identified by supplementary information furnished to the supplier before production is to be scheduled. The supplier shall be entitled to rely on the information given unless he knows or has reason to believe it to be false.

(2) Each person rerating any delivery to be made to him shall maintain at his regular place of business for not less than two years copies of all rerating certificates issued by him, records of the basis of each determination of a new rating pattern made by him pursuant to paragraph (d) (2) of this regulation, and all rerating directions or certificates received by him, upon which he relies as entitling him to rerate such deliveries. In the case of a PHP Unit applying ratings pursuant to paragraph (d) (2) of this regulation, such records must clearly indicate which rating pattern has been used with respect to each order rated or rerated by the Unit. All such records shall be kept segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection. Notices to supplier shall be signed manually or as provided in Priorities Regulation No. 7 (§ 944.27)[4] by an official duly authorized for such purpose.

(f) *Use of new rating where rating has not yet been used.* If a person who is entitled to rerate a delivery to be made to him has not yet applied or extended a rating to such delivery, he may apply or extend the new rating in the same manner in which he could have applied or extended the earlier rating, subject to the provisions of Priorities Regulation No. 3, as amended (§ 944.23), and to the provisions of paragraphs (c) and (d) of this regulation.

(g) *Effective date of rerating.* The sequence of rated and rerated deliveries shall be determined as if the rerated item had carried the new rating at the time the first rating covering the delivery was received, and the person whose delivery is rerated shall make any necessary change in his production or delivery schedule promptly on receipt of the rerating: *Provided, however*, That

(1) Any person who, prior to July 15, 1942, receives a rerating for a delivery to be made by him, shall make the necessary changes in his production and delivery schedules on July 15, 1942, and shall put such changes into effect immediately thereafter except as otherwise provided in subparagraphs (2), (3) and (4) of this paragraph (g);

(2) If such person has received reratings for all deliveries which are to be completed in 1942 on any one production schedule, he may proceed to make the necessary changes in such schedule before July 15, 1942, subject to the provisions of subparagraphs (3) and (4) of this paragraph (g);

(3) No person shall, by reason of a rerating, divert material specifically produced for an order bearing a rating higher than A-2 and deliver the same under the higher rerated order if such material is completed at the time the rerating is received or is scheduled for completion within fifteen days thereafter, unless such diversion is specifically directed by the Director General for Operations, or unless the new rating is AAA;

(4) No person shall be required by reason of a rerating to terminate or interrupt a production schedule in any case where such termination or interruption would result in a substantial loss of production: *Provided, however*, That in any such case the termination or interruption of the schedule required by the rerating shall not be postponed more than forty days after such rerating is received. Chapter XI—Office of Price Administration

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Maximum Price Regulation 200]

RUBBER HEELS, RUBBER HEELS ATTACHED, AND ATTACHING OF RUBBER HEELS

In the judgment of the Price Administrator the prices of rubber heels, rubber heels attached and attaching rubber heels have risen to an extent and in a manner inconsistent with the purpose of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of rubber heels, rubber heels attached and attaching rubber heels prevailing between October 1 and October 15, 1941, and has made adjustment for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 200 is hereby issued.

Sec.
1315.1401 Prohibition against dealing in rubber heels, rubber heels attached and attaching rubber heels at prices in excess of the maximum.
1315.1402 Federal and state taxes.
1315.1403 Sales for export.
1315.1404 Less than maximum prices.
1315.1405 Evasion.
1315.1406 Marking and posting.
1315.1407 Records.
1315.1408 Reports.
1315.1409 Sales slips and receipts.
1315.1410 Enforcement.
1315.1411 Adjustable pricing.
1315.1412 Petitions for amendment.
1315.1413 Exclusions.
1315.1414 Definitions.
1315.1415 Applicability.
1315.1416 Licensing: applicability of the registration and licensing provisions of the General Maximum Price Regulation, and Maximum Price Regulation 165.
1315.1417 Applicability of the General Maximum Price Regulation.
1315.1418 Applicability of Maximum Price Regulation 165.
1315.1419 Effective date.
1315.1420 Appendix A: Maximum prices for rubber heels, rubber heels attached, and attaching rubber heels.

AUTHORITY: §§ 1315.1401 to 1315.1420, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1315.1401 *Prohibition against dealing in rubber heels, rubber heels attached, and attaching rubber heels at prices in excess of the maximum.* On and after September 1, 1942, regardless of any contract, agreement, lease or other obligation: (a) no person shall sell or deliver rubber heels or attached rubber heels, in the shoe repair trade, and no person shall buy or receive rubber heels or attached rubber heels, in the shoe repair trade, in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1315.1420; and (b) no person shall attach rubber heels at prices higher than the maximum prices set forth in Appendix A hereof; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of rubber heels to a purchaser if prior to September 1, 1942, such rubber heels had been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

§ 1315.1402 *Federal and state taxes.* (a) For all sales other than sales by a shoe repairman there may be added to the maximum price established by this Maximum Price Regulation No. 200 the amount of tax levied by any federal excise tax statute or any state or municipal sales, gross receipts or compensating use tax statute or ordinance, under which the tax is measured by gross proceeds or units of sale, if, but only if, (1) such statute or ordinance requires the vendor to state the tax separately from the purchase price paid by the purchaser, consumer or user on the bill, sales check or evidence of sale at the time of the transaction; or (2) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer or user with tokens or other media of state or municipal tax payment; or (3) such a statute or ordinance permits the vendor to state such tax separately and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this paragraph shall in no event exceed that paid by the purchaser, consumer or user.

(b) For all sales by a shoe repairman the maximum price established by this Maximum Price Regulation No. 200 shall

include the amount of tax levied by any federal excise tax statute. However, there may be added to the maximum price established for sales by a shoe repairman by this Maximum Price Regulation No. 200 the amount of tax levied by any state or municipal sales, gross receipts or compensating use tax statute or ordinance, under which the tax is measured by gross proceeds or units of sale, if but only if, (1) such statute or ordnance requires the vendor to state the tax separately from the purchase price paid by the purchaser, consumer, or user on the bill, sales check or evidence of sale at the time of the transaction; or (2) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer, or user with tokens or other media of state or municipal tax payment; or (3) such a statute or ordinance permits the vendor to state such tax separately and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this paragraph shall in no event exceed that paid by the purchaser, consumer or user.

§ 1315.1403 *Sales for export.* The maximum price at which a person may export any rubber heels shall be determined in accordance with the provisions of the Maximum Export Price Regulation[3] issued by the Office of Price Administration.

§ 1315.1404 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1315.1420) may be charged, demanded, paid or offered.

§ 1315.1405 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 200 shall not be evaded whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to rubber heels alone or in conjunction with any other commodity or by way of commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) Every purchaser shall have the choice of buying rubber heels of a particular type and grade without buying rubber heels of another type and grade or buying any other commodity, and every purchaser, other than a purchaser from a shoe repairman, shall have the choice of buying rubber heels of a particular type and grade without having any service performed.

(c) A purchaser of rubber heels from a shoe repairman shall always have the choice of buying rubber heels and having the seller attach them to shoes without having any other service performed or buying any other commodity.

[3] 7 F.R. 3696, 3884, 4294.

§ 1315.1406 *Marking and posting.* (a) Every manufacturer of rubber heels (except women's scoop lifts, toplifts, toplift strips and toplift blocks) manufactured after August 31, 1942, for sale in the shoe repair trade, shall imprint prominently on the face of every such heel in the place receiving the least wear the symbol "V–1", "V–2", "V–3", or "V–4", which symbol shall represent the physical tests, as set forth in paragraph (g) (6) of § 1315.1420, which the heel in question is able to equal or exceed. Women's scoop lifts, toplifts, toplift strips and toplift blocks manufactured after August 31, 1942, for sale in the shoe repair trade may be marked in some other manner approved by the Office of Price Administration in order to indicate the quality thereof.

(b) On and after September 1, 1942, every shoe repairman engaged in the business of selling rubber heels or attached rubber heels or of attaching rubber heels shall keep posted in a conspicuous place in each establishment at which rubber heels are offered for sale, or at which the attaching of rubber heels is contracted for, a statement setting forth the maximum prices which he is permitted to charge under this Maximum Price Regulation No. 200 and the brands to which these maximum prices apply. For this purpose it shall be permissible to employ a list of maximum prices and brands furnished by the Office of Price Administration for posting pursuant to the provisions of this paragraph.

§ 1315.1407 *Records.* (a) Every person, other than a shoe repairman or a person making a purchase from a shoe repairman, making a sale or purchase subject to this Maximum Price Regulation No. 200 after August 31, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale or purchase, showing the date thereof, the name and the address of the buyer or seller, the price paid or received and the quantity of each type and grade of rubber heels sold or purchased.

(b) Every person subject to this Maximum Price Regulation No. 200 shall keep such other records in addition to or in place of the records required in paragraph (a) of this § 1315.1407, as the Office of Price Administration may from time to time require or permit.

§ 1315.1408 *Reports.* (a) Every manufacturer of rubber heels, subject to the provisions of this Maximum Price Regulation No. 200, shall file a report with the Office of Price Administration, Washington, D. C., stating the unit costs (labor costs, materials costs, factory overhead, other expenses and total costs) as of January 1, 1942, July 1, 1942, and as of the first day of every quarter thereafter, for each grade of men's rubber half heels produced by him, except that if during the year 1941 the manufacturer's sales of another rubber heel type exceeded his sales of men's rubber half heels, such reports shall be filed for that type. The reports as of January 1, 1942, and July 1, 1942, shall be filed on or before October 1, 1942. The reports as of the first day of each quarter after July 1, 1942, shall be filed not later than thirty days after the date as of which they must be filed.

(b) Every person subject to this Maximum Price Regulation No. 200 shall submit such other reports to the Office of Price Administration in addition to or in place of the reports required in paragraph (a) of this § 1315.1408, as the Office of Price Administration may from time to time require or permit.

§ 1315.1409 *Sales slips and receipts.* Any person subject to this Maximum Price Regulation No. 200 who has regularly furnished customers with invoices, sales slips, receipts or similar documents shall continue to do so. Every person subject to this Maximum Price Regulation No. 200 shall, regardless of previous custom, upon request of the customer, give such customer a signed receipt showing the date of the transaction, the type, brand, and grade of the rubber heels sold and the price therefor.

§ 1315.1410 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 200 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 200 or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field, district, state or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1315.1411 *Adjustable pricing.* No person subject to the provisions of this Maximum Price Regulation No. 200 shall enter into any agreement permitting the adjustment of the prices of rubber heels, attached rubber heels or attaching rubber heels to prices which may be higher than the maximum prices, except that any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery.

§ 1315.1412 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 200 may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1315.1413 *Exclusions.* This Maximum Price Regulation No. 200 shall not apply to sales and deliveries of rubber heels, made in accordance with military specification, pursuant to contract with:

(a) Any war procurement agency of the United States Government; or

(b) Any person who contracts to sell the purchased rubber heels to any war procurement agency of the United States Government or to any contractor or subcontractor who physically incorporates the rubber heels in an article being processed for any such war procurement agency.

§ 1315.1414 *Definitions.* (a) When used in this Maximum Price Regulation No. 200 the term:

(1) "Continental United States" means only the forty-eight states and the District of Columbia.

(2) "Export" means any sale between a seller in the Continental United States and a purchaser outside thereof.

(3) "Manufacturer" means any person engaged in the production of rubber heels.

(4) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representatives of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(5) "Rubber" means all forms and types of rubber, including synthetic and reclaimed rubber.

(6) "Rubber heels" includes all unattached heels, heel bases, scoop lifts, toplifts, toplift strips and toplift blocks, made in whole or in part of rubber.

(7) "Rubber heels sold in the shoe repair trade" means rubber heels sold or offered for sale by or to a shoe repairman, by wholesalers to the persons who sell rubber heels to a shoe repairman, or by manufacturers to any of the persons named in this subparagraph.

(8) "Shoe repairman" includes any person engaged in the business of replacing worn heels for an ultimate consumer, other than an industrial, commercial or governmental consumer.

(9) "Wholesaler" includes any person, other than a manufacturer, who sells or offers to sell rubber heels to a shoe repairman or to persons who sell or offer to sell rubber heels to a shoe repairman.

(10) "War procurement agency" means the War Department, the Department of the Navy, the United States Maritime Commission, and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any agency of any of the foregoing.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1315.1415 *Applicability.* The provisions of this Maximum Price Regulation No. 200 shall be applicable to the Continental United States and the District of Columbia, but not to the territories and possessions of the United States.

§ 1315.1416 *Licensing—Applicability of the registration and licensing provisions of the General Maximum Price Regulation[3] and Maximum Price Regulation No. 165.*[4] (a) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this Regulation selling at wholesale or retail rubber heels. When used in this paragraph (a) the terms "selling at wholesale" and "selling at retail" have the definitions given to them by §§ 1499.20 (p) and 1499.20 (o), respectively, of the General Maximum Price Regulation.

(b) The registration and licensing provisions of §§ 1499.111 and 1499.112 of Maximum Price Regulation No. 165 are applicable to every person subject to this regulation, selling attached rubber heels to an ultimate consumer, or attaching rubber heels for such consumer.

§ 1315.1417 *Applicability of the General Maximum Price Regulation.* Except as provided in § 1315.1416, the provisions of this Maximum Price Regulation No. 200 supersede the provisions of the General Maximum Price Regulation, including §§ 1499.11, 1499.12, 1499.13, 1499.14, and 1499.25 thereof, with respect to sales and deliveries for which maximum prices are established by this Regulation.

§ 1315.1418 *Applicability of Maximum Price Regulation No. 165.* Except as provided in § 1315.1416, the provisions of this Maximum Price Regulation No. 200 supersede the provisions of Maximum Price Regulation No. 165 with respect to sales of consumer services for which maximum prices are established by this Regulation.

§ 1315.1419 *Effective date.* This Maximum Price Regulation No. 200 (§§ 1315.1401 to 1315.1420, inclusive) shall become effective September 1, 1942.

§ 1315.1420 *Appendix A: Maximum prices for rubber heels, rubber heels attached and attaching rubber heels.* (a) The maximum prices for rubber heels, sold in the shoe repair trade shall be the prices listed in Table I–A.

(b) The maximum price stated in Table I–A for a sale by a shoe repairman shall include the price of the rubber heels and the price of attaching the rubber heels to shoes. If rubber heels are sold by a shoe repairman unattached, the maximum price for such sales shall be 40% of the price listed in Table I–A for sales of rubber heels of the same type and grade by a shoe repairman. The maximum price for attaching rubber heels supplied by a purchaser shall be 60% of the price stated in Table I–A for sales of rubber heels of the same type and grade by a shoe repairman.

(c) The maximum price stated in Table I–A for a sale by a shoe repairman shall include all repairs made by the shoe repairman in the process of attaching rubber heels, except that if a shoe repairman makes repairs to the heel base in the process of attaching women's toplifts, he may add to the maximum price stated in Table I–A for the women's toplifts in question a sum not to exceed $0.10 per pair for such repairs.

(d) (1) The manufacturer's price to wholesalers stated in Table I–A shall be decreased by five (5%) per cent if the purchaser pays cash within thirty days after delivery.

(2) The maximum price for sales to shoe repairmen shall be reduced by any cash discounts given by the seller to shoe repairmen of the same class during March, 1942.

(e) (1) The maximum prices for sales to wholesalers listed in Table I–A shall include the costs of transportation of the rubber heels to the buyer's place of business if the order in question amounts to one hundred pounds or more.

(2) The maximum prices for sales to shoe repairmen listed in Table I–A shall include the costs of transportation of the rubber heels to the buyer's place of business.

(f) The prices set forth in Table I–A shall not be increased by any charges for the extension of credit.

PART 1391—BICYCLES AND BICYCLE EQUIPMENT

[Amendment 2 to Revised Ration Order 7[2]]

NEW ADULT BICYCLE RATION REGULATIONS

Sections 1391.7 (a) (1) and (a) (2) are amended to read as set forth below; and §§ 1391.7 (a) (5) and 1391.37 (b) are added:

Transfers for Use or Salvage

§ 1391.7 *Eligibility for certificates.* Subject to the quota provisions of Revised Ration Order No. 7, any of the following persons may obtain a certificate:

(a) A person who establishes the following:

(1) That he performs work or services as a:

(i) Physician, surgeon, osteopath, chiropractor, farm veterinarian, dentist, mid-wife, druggist, embalmer, who is licensed by the appropriate governmental agency, or public health nurse, or medical laboratory worker or technologist, or Red Cross or social worker engaged directly in caring for or preventing sickness or in promoting hygienic conditions; or

(ii) Regularly practicing minister of any religious faith who serves a congregation and who requires transportation to meet the religious needs of the locality which he regularly serves; or religious practitioner, other than a minister, who is duly authorized by an organized religious faith to render service of a religious nature to members of such faith and who requires transportation to render such religious services to members of such faith in the locality which he regularly serves; or

(iii) Person engaged in the maintenance of mail services by or on behalf of the United States; or

(iv) Person engaged in the maintenance of fire fighting services; or

(v) Person engaged in the performance of public police services; or

(vi) Duly elected or appointed agent, officer, employee, representative of a Federal, State, local, or foreign government or government agency, who is performing functions essential to the public health, safety or war effort; or

(vii) Worker (including executive, technician, or office worker but not including a salesman) or an employer's representative or representative of a labor organization whose services are necessary to the operation or functioning of, or to the maintenance of peaceful industrial relations at, any of the establishments or facilities listed below:

(*a*) Naval, military, or hospital establishments or facilities;

(*b*) Establishments or facilities of common carriers; or of other carriers performing services essential to the community or to the war effort; or of plants engaged in production or distribution of heat, light, power, gas, steam, or water; or of irrigation, drainage, flood control, or sanitation systems; or of telephone, telegraph, radio, or other communication systems; or of newspapers;

(*c*) Industrial or extractive establishments essential to the war effort, including: plants or establishments engaged in the extraction, production, processing, or assembling of any aircraft, motor vehicles, ships, marine equipment, armament, implement or engine of war or necessary part thereof; or of any raw material, semi-processed or finished materials, supplies, or accessories necessarily used in the manufacture thereof, or of tools, machinery, or appliances essential to the manufacture or use thereof; or of munitions or fuels; or of essential medical supplies or essential food or clothing; or

(viii) Farm worker, commercial fisherman, seaman, or marine worker requiring transportation between his residence or lodging and his place of employment, or between places of employment; or

(ix) Representative of an employer, employer's organization, or labor organization, or any other person, recruiting or training workers for employment as agricultural workers, transportation workers, commercial fishermen, seamen, or marine workers, or for employment in any of the plants or establishments defined in subdivision (vii) of this paragraph; or

(x) Engineer, architect, technician, supervisor, repair or maintenance man or other worker (but not including a salesman), engaged in construction, repair, installation, or maintenance work or in rendering indispensable services of a special nature to agricultural, extractive or industrial establishments. Services of a specialized nature shall include: services related to the natural and artificial breeding of livestock; branding; crop or livestock inspection in connection with the marketing or processing thereof; selection, grading, or processing of lumber or timber; inspection in connection with the improvement of farm sanitation; protection of crops, livestock or farms from blights, diseases or pests; soil conservation; discovery and location of minerals; and acquisition of mineral bearing and pipe line tracts;

(xi) Person engaged in, and requiring a bicycle for, delivery of messages, materials, goods and products essential to the public welfare or the war effort, including wholesale delivery and delivery to the ultimate user. Such messages, materials, goods and products include but are not limited to foods, drugs and medical supplies, radiograms, cables, telegrams, newspapers, magazines, periodicals, general hardware and commercial laundry; or

(xii) Member of the armed forces of the United States or state military forces organized pursuant to Section 61 of the National Defense Act as amended; or

(xiii) Person engaged in organized activities essential to the public health, safety or war effort, including but not limited to such activities of the following as are essential to the public health, safety or war effort: Army, Navy, American Red Cross, Office of Civilian Defense, Civil Air Patrol, Forest Fire Fighters Service, Selective Service System, United Service Organization; or

(xiv) Traveling salesman selling farm, extractive, or industrial equipment, foods or medical supplies, the distribution of which by such salesman is essential to the war effort; or

(xv) Public school teacher or public school official.

(2) That he needs a bicycle to travel to and from or in the performance of, the work or services listed in paragraph (1) of paragraph (a) of this section and that he will use the bicycle principally and not less than four days a week in traveling to and from or in the performance of such work or services.

Unless other circumstances require a contrary conclusion, an applicant shall be deemed to have established his need for a bicycle if he shows any of the following in connection with such work or services:

(i) He must travel quickly or frequently in delivering merchandise or messages, or in performing any other work or services mentioned above, and he would be better able to do so by bicycle than by walking or by using public transportation facilities; or

(ii) Without a bicycle and using the most convenient public transportation facilities, he would have to walk a total of at least 3 miles in going to and coming from his work or occupation; or

(iii) He would have to spend a total of at least 1½ hours, including necessary walking and waiting time, in going to and coming from his work or occupation by the use of public transportation facilities, which time could be reduced by at least 30 minutes through the use of a bicycle; or

(iv) The available public transportation facilities are overcrowded; or

(v) A bicycle is clearly needed because of other circumstances.

• • • • • •

(5) That he does not have available under appropriate rationing regulations any private means of transportation adequate for the purpose for which a bicycle is sought.

(i) No certificate shall be issued under this paragraph (5) to an applicant who has the use of an automobile or motorcycle equipped with tires for which he has obtained, in the area in which gasoline is rationed, a gasoline ration sufficient for the purpose for which a bicycle is sought, or which he could use for such purpose without impairing the eligibility of such vehicle for certificates under section 405 or 504 of the Tire Rationing Regulations: *Provided, however,* That this subparagraph (5) shall not prohibit the issuance of a certificate to an applicant who uses and will continue to use such automobile or motorcycle principally for delivery of newspapers, messages or commodities.

(ii) Under this subparagraph (5) an automobile or motorcycle shall not be deemed "available" if the applicant does not possess tires or a gasoline ration adequate for the purpose for which a bicycle is sought, regardless of whether or not the applicant might obtain for such purpose a new or recapped tire certificate under section 405 or 504 of the Tire Rationing Regulations, or a gasoline ration under sections 506, 602 or 702 of the Gasoline Rationing Regulations.

• • • • • •

Scope of Ration Order No. 5A

§ 1394.201 *Territorial limitations.* (a) Except as otherwise expressly provided, Ration Order No. 5A shall apply only to the limitation area as defined in paragraph (a) (16), of § 1394.151.

(b) All of the provisions of this Ration Order No. 5A shall be applicable to Limitation Area "A," except to the extent to which they are inconsistent with the provisions of paragraph (f) of § 1394.302, paragraph (d) of § 1394.403, paragraph (d) of § 1394.506, paragraph (d) of § 1394.605, paragraph (c) of § 1394.706, paragraph (b) (7) of § 1394.801, paragraph (c) of § 1394.1105, § 1394.1513, paragraphs (b) and (c) of § 1394.1601, paragraph (b) of § 1394.1602 and § 1394.1631.

• • • • • •

Administration and Personnel

§ 1394.302 *Jurisdiction of boards over issuance of rations.* • • •

(f) The issuance of Basic rations in Limitation Area "A": *Provided,* That during the period from August 13 to August 21, 1942, inclusive, such rations shall be issued only by registrars, in accordance with § 1394.403.

• • • • • •

Basic Rations

§ 1394.403 *Application for and issuance of basic rations.* • • •

(d) During the period from August 13, 1942, to August 21, 1942, inclusive, applications for Basic rations in Limitation Area "A" shall be made at any application site designated as such by the Office of Price Administration, and Basic rations shall be issued only at such application sites during such period, in accordance with the provisions of this Section. Thereafter, applications shall be made to, and Basic rations shall be issued by, a Board: *Provided,* That, except for good cause shown for failure to apply at an application site, application may not be made to a Board prior to August 27, 1942. Four coupons numbered "1" shall be removed by the registrar from each Class A book issued prior to August 22, 1942. In the case of a Class A book issued between August 22, 1942, and September 21, 1942, four such coupons shall be removed by the Board and, in addition, one such coupon shall be removed for each full eight days which have elapsed between August 22, 1942, and the date of issuance. The Board shall remove from any Class A book issued on or after September 22, 1942, all expired coupons and one currently valid coupon for each full eight days which have elapsed in the *valid period* during which such book is issued. Four coupons shall be removed by the registrar from each Basic Class D book issued prior to August 22, 1942. In the case of a Basic Class D book issued on or after August 22, 1942, four coupons shall be removed by the Board from each such book issued, and, in addition, one coupon shall be removed for each full eight days which have elapsed since August 22, 1942.

• • • • • •

Supplemental Rations

§ 1394.505 *Issuance of supplemental rations.* • • •

(d) Class C books and Class D books marked "Supplemental" issued in Limitation Area "A" shall bear expiration dates three months from August 22, 1942, or the date of issuance, whichever is later.

• • • • • •

Fleet Rations (For Fleet Passenger Automobiles and Motorcycles)

§ 1394.605 *Issuance of fleet rations.* • • •

(d) Class C books and Class D books marked "Fleet" issued in Limitation Area "A" shall be valid for a period of three months from, and shall bear expiration dates three months from, August 22, 1942, or the date of issuance, whichever is later.

• • • • • •

Service Rations

§ 1394.706 *Issuance of service rations.* • • •

(c) The Board shall note on the face of S–1 or S–2 books, or Class D books marked "Service", issued in Limitation Area "A", the date of issuance (or August 22, 1942, whichever is later) and the date of expiration of such books, in accordance with the provisions of paragraph (b) of § 1394.704.

(7) To return a motor vehicle or boat which was, on August 22, 1942, away from the regular place of residence of the owner or person entitled to the use thereof to such regular place of residence, if such regular place of residence is located within Limitation Area "A".

* * * * * *

Restrictions on Use of Rations and Gasoline

§ 1394.1105 *Restrictions on consumption of gasoline.* * * *

(c) Except as provided in § 1394.1102, paragraph (a) of § 1394.1104, and § 1394.1507, no person shall consume gasoline in Limitation Area "A" unless such gasoline was acquired by him or on his behalf in exchange for valid coupons: *Provided*, That:

(1) Any consumer may use for nonhighway purposes (other than nonoccupational boat operations in the limitation area) gasoline owned by him or in his possession in Limitation Area "A" prior to August 22, 1942;

(2) Any consumer may use gasoline owned by him and in his possession in Limitation Area "A" prior to August 22, 1942, for the operation of a registered motor vehicle, or for non-occupational boat operation, if, at the time of transfer of such gasoline into the fuel tank of such vehicle or boat, he destroys currently valid coupons issued therefor equal in value to the number of gallons of gasoline so transferred: *Provided*, That gasoline placed in the fuel supply tank of such vehicle or boat prior to August 22, 1942, may be used therein without restriction.

* * * * * *

Restrictions on Transfers

§ 1394.1513 *Restrictions applicable to limitation area "A".* Sections 1394.1501 to 1394.1512, inclusive, shall become effective within Limitation Area "A" at 12:01 a. m., August 22, 1942.

* * * * * *

Replenishment and Audit

§ 1394.1601 *Registration of inventory and capacity.* (a) Every dealer and intermediate distributor having a place of business within the limitation area shall take an actual physical inventory of his total gasoline supplies on hand as of his first opening of business on or after July 22, 1942 (or if there is no interruption of business, as of 12:01 a. m., of that date) and shall, on July 22 or 23, 1942, register (on Form OPA R–545 in duplicate) with the Board having jurisdiction of the area in which he has such place of business, at the hours provided by the Board, the following matters, together with such other information as may be required:

(1) His total inventory of gasoline on hand as of his first opening of business on or after (or midnight beginning) July 22, 1942.

(2) His total gasoline storage capacity.

(3) His name, firm name, business address, and type of business.

(4) A certification as to the correctness of each of the foregoing items of information.

Separate registration shall be made by such dealer or intermediate distributor for each place of business within the limitation area where gasoline is transferred, and shall be made at each respective Board having jurisdiction of the area in which each such place of business is located: *Provided, however*, That any person a part of whose operations in any one state falls within the definition of a licensed distributor and a part within the definition of an intermediate distributor shall be treated as a licensed distributor and shall not be authorized to register.

(b) Every dealer and intermediate distributor having a place of business in Limitation Area "A" shall take an actual physical inventory of his total gasoline supplies on hand as of 12:01 a. m., August 22, 1942, and shall register on August 22 or 24, 1942, in the manner provided in paragraph (a) of this section.

(c) Every licensed distributor operating within Limitation Area "A" a service station, bulk plant, or similar place of business corresponding in nature and function to the place of business of a dealer or intermediate distributor, and every person receiving gasoline from a licensed distributor on consignment for purposes of sale, shall register such place of business (on Form OPA R–545 in duplicate) on August 22 or 24, 1942, with the Board having jurisdiction of the area in which he has such place of business, at the hours provided by the Board: *Provided, however*, That neither the inventory of gasoline on hand nor the gasoline storage capacity shall be registered, but only the name of the licensed distributor or consignee operating such place of business, a statement that the place of business is operated by a licensed distributor, or by a consignee, and a certification as to the correctness of this information. Any such place of business shall be deemed to be operated by a licensed distributor where gasoline deliveries made to such place of business are not on a sales basis but are treated only as a transfer of stock, title to the gasoline remaining in the licensed distributor until the time of actual sale, and the state motor fuel taxes are paid only on sales or receipts at such place of business and not on the transfer of stock thereto. Any such place of business shall be deemed to be operated by a consignee where the operator of such place of business holds gasoline on consignment from the licensed distributor, title to such gasoline remaining in the licensed distributor until the time of actual sale by the consignee.

§ 1395.1602 *What constitutes gasoline on hand.* (a) The registrant shall register all gasoline on hand, whether in storage tanks, tank trucks, tank cars delivered to railroad sidings, drums, or other containers, except gasoline in the fuel tank of a motor vehicle. The registrant shall not register gasoline in transit which did not arrive at his place of business prior to his first opening of business on or after (or midnight beginning) July 22, 1942. Gasoline shipped to a dealer or intermediate distributor prior to July 22, 1942, but received by him at any time after July 21, 1942, shall be deemed to be gasoline transferred to him subsequent to July 21, 1942, and shall require an exchange therefor of coupons or other evidences in the manner provided in §§ 1394.1607 and 1394.1609.

(b) The registrant having a place of business in Limitation Area "A" shall not register gasoline in transit which did not arrive at his place of business prior to 12: 01 a. m., August 22, 1942. Gasoline shipped to such a dealer or intermediate distributor prior to August 22, 1942, but received by him at any time after 12: 01 a. m., August 22, 1942, shall be deemed to be gasoline transferred to him subsequent to that time, and shall require an exchange therefor of coupons or other evidences in the manner provided in §§ 1394.1607 and 1394.1609.

* * * * * *

§ 1394.1631 *Provisions applicable to limitation Area "A".* §§ 1394.1601 to 1394.1630, inclusive, shall become effective within Limitation Area "A" at 12:01 a. m., August 22, 1942.

PART 1418—TERRITORIES AND POSSESSIONS

[Amendment 1 to Maximum Price Regulation 194[1]]

ALASKA

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Subparagraph (2) of paragraph (a) of § 1418.52, and subdivision (v) of subparagraph (1) of paragraph (c) of § 1418.56 are amended to read as follows, and new subparagraphs (11) and (12) are added to paragraph (a) of § 1418.63, as set forth below:

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 5909.

§ 1418.52 *Maximum prices for commodities not actually produced or manufactured in the territory of Alaska.* (a) * * *

(2) Plus the amount of mark-up over the direct cost to the seller of the commodity sold during the period from November 7, 1941 to December 6, 1941, inclusive, which the seller added in his highest selling price for the same or similar commodity sold during such period to a purchaser of the same class, or if no sale was made during such period, the amount of such mark-up added by the seller in his highest selling price of such commodity to a purchaser of the same class, during the last thirty days prior to November 7, 1941, in which a sale was made:

Provided: That the price determined in acordance with this Section, if such price is not in line with the maximum prices of other similar sellers, may be adjusted by the Administrator of the Ninth Region of the Office of Price Administration, subject to review as provided in Procedural Regulation No. 7.[2]

* * * * * *

§ 1418.56 *Records and reports.* * * *

(c) * * *

(1) * * *

(v) The highest price at which the seller sold to a purchaser of the same class a commodity, the same as or similar to such listed commodity during the period from November 7, 1941, to December 6, 1941, inclusive, or if the commodity was not sold during such period, then the highest selling price of such commodity to a purchaser of the same class during the last thirty days prior to November 7, 1941, in which a sale was made.

* * * * * *

§ 1418.63 *Definitions.* (a) * * *

(11) "Purchaser of the same class", as used in this Maximum Price Regulation No. 194 refers to the different classes of purchasers created by any practice adopted by the seller in setting different prices for commodities in connection with sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or to purchasers located in different areas or of different quantities or under different conditions of sale. But if during the mark-up period provided in § 1418.52 of this Maximum Price Regulation No. 194, a seller (i) had an established practice of making allowances, discounts or price differentials to different classes of purchasers, and (ii) raised his general level of prices for a commodity but thereafter, during such mark-up period, made no delivery to any purchaser of a particular class, he shall, for that particular class of purchasers, calculate the highest selling price by taking the highest selling price during such mark-up period to a purchaser of another class and then adjusting such price to reflect his established allowances, discounts and price differentials. No seller shall evade any of the provisions of this Regulation by changing his customary allowances, discounts or other price differentials.

(12) "Maximum Price", except where the context otherwise requires, means the maximum price established by Maximum Price Regulation No. 194 adjusted to the nearest nickel.

* * * * * *

§ 1418.66 *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1418.52 (a) (2), 1418.56 (c) (1) (v), and 1418.63 (a) (11) and (12)) to Maximum Price Regulation No. 194 shall become effective August 10, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 10th day of August 1942.

AUTHORITY: §§ 1418.101 to 1418.115, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1418.101 *Prohibition against dealing in commodities above maximum prices.* On and after August 17, 1942, with respect to any commodity not actually manufactured or produced in the Virgin Islands of the United States, regardless of any contract or obligation:

(a) No person shall sell or deliver in the Virgin Islands of the United States any such commodity for which a maximum price regulation is issued or may be issued in the continental United States at a price higher than the maximum prices established by this Maximum Price Regulation No. 201.

(b) No person, in the course of trade or business, shall buy or receive any such commodity at a price higher than the maximum prices established by this Maximum Price Regulation No. 201.

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1418.102 *Maximum prices for commodities not actually produced or manufactured in the Virgin Islands of the United States.* (a) Except as provided in paragraph (b) of this § 1418.102, with respect to any commodity for which a maximum price has been established in the continental United States and which is not actually manufactured or produced in the Virgin Islands of the United States, the maximum price to a buyer in the Virgin Islands of the United States shall be:

(1) The direct cost to the seller of the commodity sold.

(2) Plus the amount of mark-up over the direct cost to the seller of the commodity sold during the period from November 7, 1941 to December 6, 1941, inclusive, which the seller added in his highest selling price for the same or similar commodity sold during such period to a purchaser of the same class, or if no such sale was made during such period, the amount of such mark-up added by the seller in his highest selling price of such commodity to a purchaser of the same class during the last thirty days prior to November 7, 1941, in which a sale was made: *Provided*, That the price determined in accordance with this section, if such price is not in line with the maximum prices of other similar sellers, may be adjusted by the Administrator of the Ninth Region of the Office of Price Administration, subject to review as provided in Procedural Regulation No. 7.[2]

(b) Where, a seller offered for sale or delivery to a buyer in the Virgin Islands of the United States any commodity for which a maximum price regulation has been issued in the Continental United States, and which is not actually produced or manufactured in the Virgin Islands of the United States, and the maximum price of such commodity cannot be determined under the provisions of paragraph (a) of this § 1418.102, the maximum price of such commodity shall be specifically authorized by the Administrator of the Ninth Region. The seller of such commodity shall file a sworn petition containing:

(1) A description of the commodity.

(2) A statement of the facts which prevent determination of the maximum price under paragraph (a) of § 1418.102.

(3) The price charged by sellers of the same competitive class for the same or similar commodity.

(4) A statement of the direct cost of the commodity to the seller.

(5) The price at which the seller intends to offer the commodity for sale.

[2] 7 F.R. 4779.

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 971, 3663.

[2] 7 F.R. 4779.

(6) Such other facts which the seller deems relevant in the determination of a price for such commodity.

The Administrator of the Ninth Region shall authorize a price which is in line with the maximum prices of other similar sellers of the same or similar commodity, subject to review as provided in Procedural Regulation No. 7.

§ 1418.103 *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 201 may be charged, demanded, paid or offered

§ 1418.104 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1418.105 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 201 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to the commodities covered herein, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1418.106 *Records and reports*—(a) *Records to be kept.* (1) Every person making sales at wholesale of the commodities subject to this Maximum Price Regulation No. 201 shall, on and after September 1, 1942, or if a commodity becomes subject to this Regulation after September 1, 1942, then, on and after thirty days following the date it so becomes subject, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each purchase and each sale made by such person, showing the date thereof, the name and address of the buyer and seller, the direct cost thereof, the price paid or received, the mark-up charged by the seller, and the quantity purchased or sold.

(2) Every person making sales at retail of the commodities subject to this Maximum Price Regulation No. 201 shall, on and after September 1, 1942, or if a commodity becomes subject to this regulation after September 1, 1942, then, on and after thirty days following the date it so becomes subject, keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of the mark-up charged by the seller, each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, and the quantity purchased by the seller.

(b) *Prices to be marked and posted.* On and after September 1, 1942, every person within the Virgin Islands of the United States, offering to sell or deliver at retail to a buyer in the Virgin Islands of the United States those cost-of-living commodities included in § 1499.25, Appendix B, of the General Maximum Price Regulation [3] which are not actually produced or manufactured in the Virgin Islands of the United States, shall mark the maximum price of such commodity in a manner plainly visible to, and understandable by, the purchasing public. The maximum prices may be marked on the commodities themselves or may be posted at the place in the establishment where the commodities are offered for sale, and may be posted by price lines if the selling price of each commodity is marked thereon. The maximum prices shall be indicated in the form "Ceiling Price $------" or "Our Ceiling $------".

(c) *Lists to be filed.* (1) Every person within the Virgin Islands of the United States, offering to sell or deliver to a buyer in the Virgin Islands of the United States those cost-of-living commodities included in § 1499.25, Appendix B, of the General Maximum Price Regulation [3] which are not actually produced or manufactured in the Virgin Islands of the United States, shall file with the Regional Office of the Office of Price Administration, St. Thomas, Virgin Islands, not later than September 1, 1942, a statement, setting forth:

(i) A list of all such commodities offered for sale by such person and the selling price thereof.

(ii) The maximum price which the seller is permitted to charge for each such commodity under the provisions of this § 1418.106.

(iii) The direct cost, as defined herein, of every such commodity listed.

(iv) The amount of mark-up of every such commodity listed.

(v) The highest price at which the seller sold to a purchaser of the same class a commodity, the same as or similar to such listed commodity during the period from November 7, 1941, to December 6, 1941, inclusive, or if the commodity was not sold during such period, then the highest selling price of such commodity to a purchaser of the same class during the last thirty days prior to November 7, 1941, in which a sale was made.

(vi) The amount of mark-up which the seller added in the price submitted under subdivision (v) above.

(2) Every person offering to sell or deliver to a buyer in the Virgin Islands of the United States commodities, not included among the cost-of-living items set forth in § 1499.25, Appendix B, of the General Maximum Price Regulation, and which are not actually produced or manufactured in the Virgin Islands of the United States, shall prepare, not later than September 1, 1942, on the basis of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement of the information required under subparagraph (1). Any person who claims that substantial injury would result to him from making such statement available to any other person may file the statement with the Office of Price Administration, St. Thomas, Virgin Islands. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this Regulation.

(3) Supplementary statements shall be filed by the seller whenever his price for a commodity is lower or higher than the price previously submitted under paragraph (c) (1) (ii) of this § 1418.106.

(4) All statements submitted shall be signed under oath or affirmation.

(5) The statements required under this § 1418.106 shall be kept up-to-date by the seller by filing on the tenth day of every succeeding calendar month, a statement of the information required under paragraph (c) of this § 1418.106 for any commodity which became subject to this regulation during the previous calendar month.

§ 1418.107 *Sales slips and receipts.* Every seller at retail of the commodities subject to this Maximum Price Regulation No. 201 who has customarily given purchasers sales slips or receipts shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold, and the price received for it.

§ 1418.108 *Licensing*—(a) *License required.* A license as a condition of selling, is hereby required of every person subject to this regulation now or hereafter selling a commodity for which a maximum price is established by this Maximum Price Regulation No. 201.

(b) *License granted.* Every person subject to this regulation now or hereafter selling a commodity for which a maximum price is established by this Maximum Price Regulation No. 201 is hereby granted a license as a condition of selling any such commodity. Such license shall be effective on August 17, 1942, or when any person becomes subject to the maximum price provisions of this regulation, and shall, unless suspended as provided by the Act, continue in force so long as and to the extent that said regulation or any amendment or supplement thereto remains in force.

(c) *Licensing section of General Maximum Price Regulation superseded.* This § 1418.108 supersedes the provisions of § 1499.16 of the General Maximum Price Regulation insofar as said section may be applicable to persons selling any commodity for which a maximum price is established by this Maximum Price Regulation No. 201.

§ 1418.109 *Registration of licensees.* Every person hereby licensed may be required to register with the Office of Price Administration at such time and in such manner as the Administrator may hereafter by regulation prescribe.

§ 1418.110 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 201 are subject to the criminal penalties, civil enforcement actions, proceedings for the suspension of licenses, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation, or any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the Office of Price Administration, St. Thomas, Virgin Islands, or the principal Office in Washington, D. C.

§ 1418.111 *Applicability of other maximum price regulations.* The provisions of this Maximum Price Regulation No. 201 supersede the provisions of all other maximum price regulations, except as otherwise provided herein, with respect to sales or deliveries of commodities for which maximum prices are established by this regulation.

§ 1418.112 *Petitions for amendment and applications for adjustment.* Persons seeking any modification of this Maximum Price Regulation No. 201, or an adjustment or exception not provided for herein, may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, or applications for adjustment in accordance with the provisions of Procedural Regulation No. 7, issued by the Office of Price Administration.

§ 1418.113 *Definitions.* (a) When used in this Maximum Price Regulation No. 201, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(2) "Sale at wholesale" means a sale by a person who receives delivery of a commodity and resells it, without substantially changing its form, to any purchaser for resale or to a commercial or industrial user.

(3) "Sale at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user, except that (i) a "sale at retail" shall not include any sale by a producer, manufacturer, or fabricator of any commodity produced, manufactured, or fabricated by him, and (ii) a "sale at retail" shall not include any sale to the United States, any other government or any of its political subdivisions, any religious, educational or charitable institution, any institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library or any agency of any of the foregoing.

(4) "Direct cost to the seller" means the price which the seller paid for the commodity, less discounts allowed to the seller plus all costs of shipment actually incurred by the seller.

(5) "Sales and deliveries to a buyer in the Virgin Islands of the United States" does not include sales from a seller outside the Virgin Islands of the United States to a purchaser in the Virgin Islands of the United States. Export sales, from a seller in the Continental United States to a purchaser in the Virgin Islands of the United States shall be governed by the maximum prices established for export sales by the Revised Maximum Export Price Regulation.[4]

(6) "Amount of mark-up" means the amount in dollars and cents which added to the amount of direct cost constituted the seller's price. It does not mean the percentage of mark-up.

(7) "Selling price" means the price for which a commodity is sold, offered for sale, or listed for sale.

(8) "To deliver" means to transfer actual possession of the commodity to the purchaser or to any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

(9) "Records" include books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(10) "Maximum Price Regulation", as used in this Regulation, means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any amendment or supplement thereto or order issued thereunder.

(11) "Purchaser of the same class", as used in this Regulation, refers to the different classes of purchasers created by any practice adopted by the seller in setting different prices for commodities in connection with sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or to purchasers located in different areas or of different quantities or under different conditions of sale. But if during the mark-up period provided in § 1418.102 of this Maximum Price Regulation No. 201, a seller (i) had an established practice of making allowances, discounts or price differentials to different classes of purchasers, and (ii) raised his general level of prices for a commodity but thereafter, during such mark-up period, made no delivery to any purchaser of a particular class, he shall, for that particular class of purchasers, calculate the highest selling price by taking the highest selling price during such mark-up period to a purchaser of another class and then adjusting such price to reflect his established allowances, discounts and price differentials. No seller shall evade any of the provisions of this Regulation by changing his customary allowances, discounts or other price differentials.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to the terms used herein.

§ 1418.114 *Applicability.* The provisions of this Maximum Price Regulation No. 201 shall be applicable to the Virgin Islands of the United States.

§ 1418.115 *Effective dates.* This Maximum Price Regulation No. 201 (§§ 1418.101 to 1418.115, inclusive) shall become effective August 17, 1942.

Issued this 10th day of August 1942.

Administrator.

PART 1499—COMMODITIES AND SERVICES

[Order 53 Under § 1499.3 (b) of General Maximum Price Regulation[1]]

VAN STRAATEN CHEMICAL CO.

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register,* and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and § 1499.3 (b) of the General Maximum Price Regulation, it is hereby ordered:

§ 1499.267 *Approval of maximum prices for sales of lubricating and other metal working specialties, produced by the Van Straaten Chemical Company.* (a) The maximum price per pound for sales by the Van Straaten Chemical Company, of Chicago, Illinois, of any lubricating and other metal working specialties manufactured by it, for which maximum prices cannot be established under § 1499.2 of the General Maximum Price Regulation, shall be the sum which bears the same percentage relationship to the sum of subparagraphs (1) and (2) below, as the net sales of the Van Straaten Chemical Company in March 1942, bore to the sum of raw material costs and manufacturing costs for all articles sold in that month, which percentage relationship is established in a statement filed by the Van Straaten Chemical Company.

(1) Raw material costs per unit, computed on the basis of actual prices (not to exceed the applicable maximum prices) paid for raw materials, and in any case not to exceed the highest price charged in March, 1942, by the actual supplier to a purchaser of the same class as the Van Straaten Chemical Company.

(2) Manufacturing costs, equal to the sum of the applicable unit costs prevailing during March 1942 for the operations used in making the article to be priced, as specified in a list of unit manufacturing costs filed by the Van Straaten Chemical Company with the Office of Price Administration.

(b) All discounts, trade practices, and practices relating to the payment of shipping charges in effect during March 1942, on the sale by the Company of comparable products, shall apply to the maximum prices determined under paragraph (a).

(c) On or before the last day of each month, beginning with August 1942, the Van Straaten Chemical Company shall submit to the Office of Price Administration in Washington, D. C., an individual report in affidavit form for each product priced under this Order No. 53 during the preceding month. Each such report shall include a description of the product so priced; a statement showing why the product cannot be priced under § 1499.2 of the General Maximum Price Regulation; the maximum price determined; and a detailed statement of the factors referred to in paragraph (a) of this Order which were used in the determination of such maximum price.

(d) Each price reported under (c) shall be subject to adjustment at any time by the Office of Price Administration.

(e) This Order No. 53 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 53 (§ 1499.267) shall become effective August 11, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 10th day of August 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 54 Under § 1499.3 (b) of General Maximum Price Regulation[1]]

PROCTER AND GAMBLE DISTRIBUTING CO.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register,* and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered:

§ 1499.268 *Approval of maximum prices for P & G White Laundry Soap and OK Laundry Soap for sale by Procter and Gamble Distributing Company.* (a) On and after June 12, 1942, the maximum prices for the sale by the Procter and Gamble Distributing Company, a corporation having its principal place of business in Cincinnati, Ohio, of laundry soaps known as P & G White Laundry Soap and OK Laundry Soap shall be those hereinafter set forth:

(1) *Carload quantities.* (i) P & G White Laundry Soap in boxes of 100 cakes of 9.185 ounces each: $3.7345 delivered.

(ii) OK Laundry Soap in boxes of 100 cakes of 10.1 ounces each: $3.7830 delivered.

(2) *Less than carload quantities.* The same price differentials in effect by Procter and Gamble Distributing Company during March, 1942, for sales in less than carload quantities of the 10 ounce laundry soap heretofore manufactured by that company and known as P & G The White Naphtha Soap shall apply to sales in less than carload quantities of P & G White Laundry Soap and of the new 10.1 ounce bar of OK Laundry Soap.

(b) The same allowances and discounts in effect by Procter and Gamble Distributing Company in March, 1942, with respect to 10 ounce laundry soap heretofore manufactured by that company and known as P&G The White Naphtha Soap shall continue in effect for P&G White Laundry Soap and for the new 10.1 ounce bar of OK Laundry Soap.

(c) Procter and Gamble Distributing Company shall mail or cause to be mailed to all persons who purchase P&G White Laundry Soap and OK Laundry Soap from said Company, for which maximum prices are established in this order, written notice as to the proper method for determining maximum prices for sales by such purchasers together with an explanation of the method of establishing maximum prices for sales of such soaps at retail, under the General Maximum Price Regulation. All persons who sell such soaps to persons who will sell them at retail shall mail or cause to be mailed copies to sellers at retail of such explanation of the method of establishing maximum prices for sales at retail.

(d) The authorization granted in this Order No. 54 shall terminate on October 1, 1942.

(e) This Order No. 54 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 54 (§ 1499.268) shall become effective as of June 12, 1942. (Pub. Law 421, 77th Cong.)

Issued this 11th day of August 1942.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service

PART 22—MOUNTAIN REGION NATIONAL WILDLIFE REFUGES

DEER FLAT NATIONAL WILDLIFE REFUGE, IDAHO

Under authority of section 84 of the act of March 4, 1909, as amended by the act of April 15, 1924, 43 Stat. 98, the administration of which was transferred to the Secretary of the Interior on July 1, 1939, by Reorganization Plan No. II (53 Stat. 1431), and in extension

of § 12.9 of the regulations of December 19, 1940,[1] for the administration of national wildlife refuges under the jurisdiction of the Fish and Wildlife Service, the following regulations governing hunting within the Deer Flat National Wildlife Refuge, Idaho, are prescribed:

§ 22.221a *Hunting; Deer Flat National Wildlife Refuge, Idaho.* Until further notice, migratory waterfowl (except those species for which no open season is prescribed by the Migratory Bird Treaty Act regulations) and coots may be taken within the areas herein or hereafter described of the Deer Flat National Wildlife Refuge, Idaho, during the period prescribed for the taking of such birds in Idaho by the Migratory Bird Treaty Act regulations, in accordance with the provisions of the regulations dated December 19, 1940,[1] for the administration of national wildlife refuges under the jurisdiction of the Fish and Wildlife Service and in accordance with the regulations promulgated pursuant to the authority contained in the Migratory Bird Treaty Act, when, in manner, by means, and to the extent not prohibited by either Federal or State law or regulation, and under the following special provisions, conditions, restrictions, and requirements:

(a) *Areas open to hunting.* All the lands of the United States within the following-described area of the refuge shall be open to hunting: All the lands of the refuge in secs. 15, 16, 17, 19, 20, 21, 22, 27, 28, 29, and 30, except the area known as the Military Restricted Area that lies northwesterly of a straight line extending from the northeast corner of the SE¼SE¼ of said sec. 17 to a point near the center of the NE¼NW¼ of the said sec. 30, all in T. 3 N., R. 3 W., Boise Meridian, Idaho.

(b) *State laws.* Any person while hunting within the refuge must comply with the applicable laws and regulations of the State of Idaho.

(c) *Hunting licenses and permits.* Any person who hunts within the refuge shall be in possession of a valid hunting license issued by the State of Idaho, if such license is required, and, if hunting migratory waterfowl, a properly validated migratory-bird hunting stamp. The said license and stamp shall serve as a Federal permit for hunting on the refuge and must be carried on the person of the licensee while so hunting. The said license and stamp must be exhibited upon the request of any representative of the Idaho Fish and Game Commission authorized to enforce the State game laws or any representative of the Department of the Interior. Upon request of the officer in charge, the licensee also must exhibit for inspection all birds killed by him or in his possession.

(d) *Disorderly conduct; intoxication.* No person who is visibly intoxicated will be permitted to enter upon the refuge for the purpose of hunting, and any person who indulges in any disorderly conduct on the refuge will be removed therefrom by the officer in charge and dealt with as prescribed by law.

(e) *Hunting dogs.* Each person hunting on the public shooting grounds will be permitted to take his hunting dogs, not to exceed two in number, upon such areas for the purpose of retrieving dead or wounded birds, but such dogs shall not be permitted to run at large on the public shooting grounds or elsewhere on the refuge.

(f) *Entry upon refuge; firearms.* Persons entering the refuge for the purpose of hunting shall use such routes of travel as may be designated by suitable posting by the officer in charge and shall not otherwise enter upon the refuge. The carrying or being in possession of firearms within the areas of the refuge not open to public hunting is prohibited, except that such firearms may be possessed or transported across such closed areas provided they are unloaded, and broken or properly encased. The carrying or being in possession of rifled firearms or the use of single-ball or slug-load shotgun shell on the refuge is prohibited.

(g) *Penalties.* Failure of a permittee to comply with any of the conditions, restrictions, or requirements of the regulations in this section will be sufficient cause for removing him from the refuge and for refusing him further hunting privileges on the refuge.

Dated: August 3, 1942.

Notices

DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Administration.

[Docket No. AO 29-A 4]

DUBUQUE, IOWA, MARKETING AREA

NOTICE OF HEARING ON HANDLING OF MILK

Proposed amendments to tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Dubuque, Iowa, Marketing Area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the applicable rules of practice and procedure thereunder (6 F.R. 6570, 7 F.R. 3350), notice is hereby given of a hearing to be held in the Court Room of the Federal Building, Dubuque, Iowa, beginning at 10:00 a. m., c. w. t., August 19, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Dubuque, Iowa, marketing area.[1]

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate. The amendments which have been proposed are as follows:

a. Proposed by Dubuque Cooperative Dairy Marketing Association:

1. Delete § 912.1 (a) (3) and substitute therefor the following:

(3) The term "producer" means any person who has been certified by the Dubuque Department of Public Health as one who produces milk in accordance with the Grade A milk requirements of the Milk Ordinance of the City of Dubuque, Iowa, irrespective of whether such a person is also a handler, and who produces milk which is received at the plant of a handler from which milk or cream is disposed of in the marketing area or which is caused to be delivered by a handler to a plant from which no milk is disposed of in the marketing area.

[1] 6 F.R. 6393.

2. Delete § 912.3 (b) (1) and substitute therefor the following:

(1) Class I milk shall be all milk and skim milk disposed of as milk, buttermilk, milk drinks whether plain or flavored, and all milk not specifically accounted for as Class II milk, Class III milk, or Class IV milk.

3. Delete § 912.3 (b) (2) and substitute therefor the following:

(2) Class II milk shall be all milk disposed of as cream, for consumption as cream, including any cream products in fluid form which contain less than the minimum butterfat content required for fluid cream, and as creamed cottage cheese.

4. Delete § 912.3 (b) (3) and substitute therefor the following:

(3) Class III milk shall be all milk specifically accounted for as used to produce evaporated milk, condensed milk, ice cream mix, unsalted butter, or any milk product other than those specified in Class II milk and Class IV milk.

5. Delete § 912.3 (b) (4) and substitute therefor the following:

(4) Class IV milk shall be all milk specifically accounted for as used to produce cheese, other than creamed cottage cheese, butter, and all milk accounted for as actual plant shrinkage but not to exceed 3 percent of the total receipts of milk from producers.

(6) Delete § 912.4 (a) (4) and substitute therefor the following:

(4) For Class III milk—the price shall be the result of the following computations by the market administrator: determine the average of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content receive during the period beginning with the 16th day of the previous month and ending with the 15th day of the then current month at the plants listed in this subparagraph: *Provided*, That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for such delivery period: multiply by 0.4 the average weekly prevailing price per pound of Twins during said delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin (in the absence of such prices the prevailing prices of Twins at Chicago as reported by the United States Department of Agriculture shall be used), add the average wholesale price per pound of 92-score butter at Chicago for said delivery period as reported by the United States Department of Agriculture, and multiply such result by 3.9.

Concern:	*Location of plants*
Amboy Milk Prod. Co	Amboy, Ill.
United Milk Products Co	Argo Fey, Ill.
Dean Milk Co	Belvidere, Ill.
Borden Co	Dixon, Ill.
Libby, McNeil & Libby Co	Morrison, Ill.
Carnation Milk Co	Oregon, Ill.
Dean Milk Co	Pearl City, Ill.
Dean Milk Co	Pecatonica, Ill.
Borden Co	Sterling, Ill.
Pet Milk Co	Schullsburg, Wis.

Provided further, That for that portion of the Class III milk specifically accounted for as used by the handler to produce ice cream mix or unsalted butter, the price shall be as computed above for Class III milk less 5 cents per hundredweight. (Also to be used if any ice cream mix is included in Class III.)

7. Delete § 912.4 (a) (5) and substitute therefor the following:

(5) For Class IV milk—the price shall be the result of the following computation by the market administrator: multiply by 2.4 the average weekly prevailing price per pound of Twins during said delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin (in the absence of such prices the prices of Twins at Chicago as reported by the United States Department of Agriculture shall be used), and multiply such result by 3.5: *Provided further*, That for that portion of the Class IV milk specifically accounted for as used by the handler to produce a product other than cheese, except cottage cheese, the price shall be the result of the following computations by the market administrator: multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received and add:

(i) 10 percent thereof when such average price of 92-score butter is less than 30 cents;

(ii) 15 percent thereof when such average price of 92-score butter is 30 cents or over, but less than 35 cents;

(iii) 20 percent thereof when such average price of 92-score butter is 35 cents or over, but less than 40 cents; and

(iv) 25 percent thereof when such average price of 92-score butter is 40 cents or over.

8. Delete the word "cream" in the third line of § 912.5 (a) and substitute therefor the words "milk products."

9. Delete § 912.5 (a) (5) and substitute therefor the following:

(5) The respective quantities of milk and milk products which were disposed of for the purpose of classification pursuant to § 912.3.

10. Add to § 912.5 (a), as § 912.5 (a) (6), the following:

(6) The respective butterfat tests of such milk and milk products.

11. Renumber §§ 912.7 (b) (3), (4), (5), (6), as §§ 912.7 (b) (4), (5), (6), (7), and add as § 912.7 (b) (3) the following:

(3) Subtract the total amount to be paid non-Grade A producers pursuant to § 912.8 (a) (3).

12. Delete in § 912.8 (a) (1) the words "To producers" and substitute therefor the words, "To Grade A Producers."

b. Proposed by handlers:

1. Delete in § 912.3 (b) (4) the phase "of milk from producers" and substitute therefore the phrase "of butterfat."

Proposed by Dairy and Poultry Branch, Agricultural Marketing Administration, United States Department of Agriculture:

1. Revise in § 912.1 (a) the term "handler."

2. Revise § 912.3 (a) so as to specify with greater particularity the basis of classification of milk, particularly with respect to interplant movements of milk.

3. Add a paragraph to § 912.3 establishing the burden of proof of classification of milk.

4. Include in § 912.3 language which will set forth the manner in which the market administrator shall compute the amount of milk in each class.

5. Add a paragraph to § 912.3 providing for the reconciliation of total utilization of milk by classes with receipts of milk from producers,

(1) Where total utilization is less than the receipts of milk from producers, and

(2) Where total utilization is greater than the receipts of milk from producers.

6. Substitute in § 912.5 (a) the phrase "or milk products" for the phrase "or cream" together with the revisions necessitated elsewhere by this amendment.

7. Add to § 912.5 (a) a requirement of reports of handlers on the butterfat content of the receipts specified in subparagraphs (1), (2), (3), and (4).

8. Amend § 912.5 dealing with reports by handlers so as to provide that reports by producer-handlers and handlers whose sole sources of supply are receipts from other handlers shall be in a form and at a time elected by the market administrator, and further amend § 912.5 by specifying fully the nature of the reports which are to be verified, the manner of verification, and the responsibilities of the handlers in connection with such verification.

9. Add a paragraph to § 912.6 which provides the method and manner of payment for milk received by handlers from sources determined as other than producers or other handlers.

10. Add a paragraph to § 912.6 which provides for payment to producers for milk or butterfat in excess of receipts apparent on the basis of handlers' reports.

11. Delete § 912.7 (a) and substitute therefor a new § 912.7 (a) which will set forth the manner in which the market administrator shall compute the net pool obligation of handlers.

12. Revise § 912.8 (a), so as to provide the time and method of payment to producers for milk, deleting § 912.8 (e).

13. Reconsider the amount and method of arriving at the butterfat differential provided pursuant to § 912.8 (b).

14. Revise § 912.9 dealing with expense of administration so as to subject handlers to administrative assessment on all milk handled.

15. Provide in § 912.10 for the making of marketing service deductions on receipts from sources other than other handlers, including receipts from handler's own production.

16. Provide such amendments as may be necessitated by the above proposed revisions.

17. Revise the definition of "Secretary" in § 912.1 (a) (9) to include any

person who may be authorized to exercise the powers and perform the duties of the Secretary.

18. Add a new section, as follows:

Agents. The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Copies of this notice of hearing and of Order No. 12, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1019 South Building, Washington, D. C., or may be there inspected.

OFFICE OF PRICE ADMINISTRATION.

[Order 11 Under Revised Price Schedule 57[1]—Wool Floor Coverings]

HARDWICK & MAGEE COMPANY

APPROVAL OF MAXIMUM PRICES

On June 23, 1942, Hardwick and Magee Company, Philadelphia, Pennsylvania, filed an application pursuant to § 1352.4 of Revised Price Schedule No. 57, for permission to manufacture two new fabrics and for approval of maximum prices thereof. These new fabrics were designated in the application as A667 and A668.

Due consideration has been given to the application and an opinion, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set forth in the opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered:

(a) Hardwick and Magee Company may sell, offer to sell or deliver the following new fabrics at prices no higher than those specified:

A667 at $3.70 per square yard, f. o. b. mill;
A668 at $3.91 per square yard, f. o. b. mill;

subject to discounts, allowances, rebates and terms no less favorable than those in effect with respect to the maximum prices for Diamond and Beaucraft, respectively, as established by Revised Price Schedule No. 57. The differentials between the maximum square yard f. o. b. mill prices, and the cut-order, extra size and zone prices of A667 and A668 shall be no less favorable than the differentials, as established by Revised Price Schedule No. 57, between the maximum square yard f. o. b. mill prices, and the cut-order, extra size, and zone maximum prices of Diamond and Beaucraft, respectively.

(b) This Order No. 11 may be revoked or amended by the Price Administrator at any time.

(c) Unless the context otherwise requires, the definitions set forth in § 1352.11 of Revised Price Schedule No. 57 shall apply to terms used herein.

(d) This Order No. 11 shall become effective on the 11th day of August, 1942.

Issued this 10th day of August 1942.

STRONG RUG COMPANY

APPROVAL OF MAXIMUM PRICES

On June 2, 1942, Felix Varese, doing business as the Strong Rug Company, New York City, hereinafter called applicant, filed an application, pursuant to § 1352.4 of Revised Price Schedule No. 57, for approval of maximum prices of certain rugs designated as Strong-Tex.

Due consideration has been given to the application and an opinion, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with the provisions of Procedural Regulation No. 1,[2] it is hereby ordered:

(a) Felix Varese, doing business as the Strong Rug Company, may sell, offer to sell, deliver, or transfer Strong-Tex rugs at prices no higher than those set forth below:

(1) To dealers: 9' x 12'—$23.20 f. o. b. mill, subject to regular carpet terms of 4%, 10 days, 60 days extra, or 5% 10 days.

(2) To distributors: 9' x 12'—$20.00 f. o. b. mill, net 10 days.

The differential between the maximum f. o. b. mill price for the 9' x 12' size and the maximum prices for all other sizes shall be no less favorable than the differentials between the f. o. b. mill price of the 9' x 12' size and such other sizes in effect on February 2, 1942. Thirty cents may be added to all of the above maximum f. o. b. mill prices on each article, for deliveries in the New York metropolitan district.

(b) This Order No. 12 may be revoked or amended by the Administrator at any time.

(c) Unless the context otherwise requires, the definitions set forth in § 1352.11 of Revised Price Schedule No. 57 shall apply to terms used herein.

(d) This Order No. 12 shall become effective on the 11th day of August, 1942.

Issued this 10th day of August 1942.

[Suspension Order 6 Under Tire Rationing Regulations]

ALFRED STIDHAM TIRE COMPANY

ORDER RESTRICTING TRANSACTIONS

Alfred Stidham, doing business as Alfred Stidham Tire Company, 1336 Fourteenth Street NW., Washington, D. C., herein called respondent, is engaged in selling tires and tubes and is subject to the Tire Rationing Regulations[1] and the Revised Tire Rationing Regulations[2] issued by the Office of Price Administration. There was duly served on respondent a notice of specific charges of violations of the Tire Rationing Regulations, and a notice of hearing thereon. Pursuant to said notice a hearing upon said charges was held on June 10, 1942 in Washington, D. C. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence was duly considered by the Deputy Administrator, and Suspension Order No. 3 under the Tire Rationing Regulations, restricting trans-

actions by Alfred Stidham and Alfred Stidham Tire Company in the manner and to the extent therein set forth, was issued on July 25, 1942.

Thereafter on July 29, 1942 a stay of said Suspension Order No. 3 was granted by the Deputy Administrator until the further order of the Deputy Administrator.

Respondent having submitted further evidence which has been considered by the Deputy Administrator and having this day filed in the Office of The Secretary of the Office of Price Administration a Waiver and Consent from which it appears, among other things, that while the respondent asserts his innocence of any wilful and intentional violation of the Tire Rationing Regulations or the Revised Tire Rationing Regulations, he nevertheless has consented and does consent to the making and issuance of the Order now about to be issued, without any findings of fact, upon condition that his consent to the entry of said Order shall not constitute or be considered an admission, and the issuance of said Order, or the Order itself, shall not constitute or be considered an adjudication, that the respondent has in fact wilfully and intentionally violated said Tire Rationing Regulations or Revised Tire Rationing Regulations.

It is therefore ordered:

(a) That said Suspension Order No. 3 be and it hereby is rescinded.

(b) During the period in which this Suspension Order No. 6 shall be in effect,

(1) Respondent, his successors or assigns, shall not accept any deliveries or transfers of, nor in any manner directly or indirectly receive from any source any new or recapped or retreaded passenger type tires or new tubes primarily designed for use with passenger type tires,

(2) Respondent, his successors or assigns, shall not acept any purchase orders or enter into any contracts or commitments for the sale or delivery of, nor in any manner directly or indirectly sell, transfer, or deliver any new or recapped or retreaded passenger type tires or new tubes primarily designed for use with passenger type tires, except that the sales or contracts of sale of passenger type tires heretofore entered into by the respondent with the following parties with respect to the number of tires indicated, and any tubes which may be included in said sales or contracts of sale, may be completed and the tires or tubes delivered in accordance with the Revised Tire Rationing Regulations:

White House garage	1
Republic of Belgium	18
Republic of Ecuador	3
Republic of Nicaragua	3

(3) No person shall in any manner directly or indirectly sell, transfer or deliver any new or recapped or retreaded passenger type tires or new tubes primarily designed for use with passenger type tires to respondent, his successors or assigns, regardless of whether such new or recapped or retreaded passenger type tires or new tubes primarily designed for use with passenger type tires have been previously purchased and completely paid for.

(c) Nothing in this Order shall be construed to prohibit respondent from receiving and recapping or retreading tires the carcasses of which are supplied to respondent by other persons for recapping or retreading on behalf of such persons and redelivering such retreaded or recapped tires to such persons.

(d) Any terms used in this Order that are defined in the Revised Tire Rationing Regulations shall have the meaning there given them.

(e) This Order shall become effective immediately and unless sooner terminated shall expire 12:01 A. M., September 27, 1942. (Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. No. 9125 (7 F.R. 2719); W.P.B. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Tiger Yarn Company, etc., Docket 4625, August 5, 1942]

In the Matter of Benjamin Goldman, Individually and Trading as Tiger Yarn Company, Minnette Yarn Company, Bengo Yarn Shop, and Goldman's Yarn Shop

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 5th day of August, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before an examiner of the Commission theretofore duly designated by it, report of the trial examiner, and brief filed by counsel for the Commission, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent Benjamin Goldman, an individual trading as Tiger Yarn Company, or Minnette Yarn Company, or Bengo Yarn Shop, or Goldman's Yarn Shop, or under any other name, his representatives, agents, or employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of knitting yarns in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "tweed," or any simulation thereof, either alone or in connection or conjunction with any other word or words, to designate, describe, or refer to any product which is not composed entirely of wool: *Provided, however*, That in the case of a product composed in part of wool and in part of other fibers or materials, such word may be used as descriptive of the wool content if there are used in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words truthfully describing such other constituent fibers or materials;

2. Using the word "Shetland," or any simulation thereof, either alone or in connection or conjunction with any other word or words, to designate, describe, or refer to any product which is not composed entirely of wool of Shetland sheep grown on the Shetland Islands or the contiguous mainland of Scotland: *Provided, however*, That in the case of a product composed in part of such wool and in part of other fibers or materials, such word may be used as descriptive of the Shetland wool content if there are used in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words truthfully describing such other constituent fibers or materials;

3. Using the term "Camel's Hair," or any simulation thereof, either alone or in connection or conjunction with any other word or words, to designate, describe, or refer to any product which is not composed entirely of hair of the camel: *Provided, however*, That in the case of a product composed in part of hair of the camel and in part of other fibers or materials, such term may be used as descriptive of the camel hair content if there are used in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words truthfully describing such other constituent fibers or materials;

4. Using the word "Cashmere," or any simulation thereof, either alone or in connection or conjunction with any other word or words, to designate, describe, or refer to any product which is not composed entirely of hair of the Cashmere goat: *Provided, however*, That in the case of a product composed in part of hair of the Cashmere goat and in part of other fibers or materials, such word may be used as descriptive of the cashmere fiber content if there are used in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words truthfully describing such other constituent fibers or materials;

5. Using the word "Angora," or any simulation thereof, either alone or in connection or conjunction with any other word or words, to designate, describe, or refer to any product which is not composed entirely of hair of the Angora goat: *Provided, however*, That in the case of a product composed in part of hair of the Angora goat and in part of other fibers or materials, such word may be used as descriptive of the angora fiber content if there are used in immediate connection or conjunction therewith, in letters of at least equal size conspicuousness, words truthfully describing such other constituent fibers or materials;

6. Using the word "Silk," or any simulation thereof, either alone or in connection or conjunction with any other word or words, to designate, describe, or refer to any material which is not composed entirely of silk, the product of the cocoon of the silkworm: *Provided, however*, That in the case of a material composed in part of silk, the product of the cocoon of the silkworm, and in part of other fibers or materials, such word may be used as descriptive of the content which is silk, the product of the cocoon of the silkworm, if there are used in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words truthfully describing such other constituent fibers or materials;

7. Using the unqualified word "Crepe," or any other descriptive term indicative of silk, to designate, describe, or refer to any product which is not composed entirely of silk, the product of the cocoon of the silkworm: *Provided, however*, That such word or descriptive term may be used truthfully to designate or describe the type of weave, construction, or finish if such word is qualified by using in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words accurately describing the fibers or materials from which such product is made;

8. Advertising, offering for sale, or selling products composed in whole or in part of rayon without clearly disclosing such rayon content, and when such products are composed in part of rayon and in part of other fibers or materials, all such fibers or materials, including the rayon, shall be clearly and accurately disclosed.

9. Using the word "Importer," or any other word or words of similar import and meaning, to designate, describe, or refer to respondent's business, or any portion thereof, or otherwise representing that respondent is an importer.

It is further ordered, That respondent shall, within sixty (60) days after the service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

It is further ordered, That no provision of this order to cease and desist shall be construed as relieving respondent in any respect of the necessity of complying with the requirements of the Wool Products Labeling Act of 1939 and the rules and regulations promulgated thereunder.

By the Commission.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter D—Forwarders

PART 425—SETTLEMENT OF FREIGHT CHARGES

EXTENSION OF CREDIT FOR FREIGHT CHARGES ON FORWARDER FREIGHT BY FREIGHT FORWARDERS AND BY COMMON CARRIERS BY MOTOR VEHICLE

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 10th day of August, A. D. 1942.

It appearing, that Section 414 of Part IV of the Interstate Commerce Act, which is to become effective August 14, 1942, provides in part as follows:

In the case of service subject to this part, it shall be unlawful for a freight forwarder, or a common carrier by motor vehicle subject to part II of this Act whose services are utilized by a freight forwarder, to deliver or relinquish possession of property to the consignee named in the bill of lading, shipping receipt, or freight bill of the freight forwarder until all tariff rates and charges thereon have been paid, except under such rules and regulations as the Commission may from time to time prescribe to govern the settlement of all such rates and charges and to prevent unjust discrimination or undue preference or prejudice: • • •;

It further appearing, that a committee representing freight forwarders has requested that such forwarders be permitted to apply, on and after August 14, 1942, and pending such formal investigation of the matter as may be instituted by the Commission, the same rules and regulations as those prescribed and now applicable to common carriers by motor vehicle in connection with service subject to Part II of said Act;

And it further appearing, That it is in the public interest that freight forwarders subject to Part IV of said Act and common carriers subject to Part II thereof, when their services are utilized by freight forwarders, should be permitted to extend credit in the settlement of freight charges for service subject to Part IV of said Act, and the Division so finding;

It is ordered, That the following rules and regulations shall take effect on August 14, 1942, and remain in force until further order of the Commission:

§ 425.1 *Credit for freight charges on forwarder freight by freight forwarders subject to Part IV of the Interstate Commerce Act and by common carriers by motor vehicle subject to Part II of that Act collecting charges for such forwarders.* The rules and regulations prescribed by order entered July 8, 1936, in Ex Parte MC 1, 2 MCC 365–378 (part 188 of this chapter), governing the extension of credit for freight charges by common carriers by motor vehicle in case of service subject to part II of the Interstate Commerce Act, shall apply on and after August 14, 1942, to freight forwarders subject to part IV of the Interstate Commerce Act and to common carriers by motor vehicle subject to part II of that act when collecting charges for such forwarders, in the case of service subject to part IV of that act.

And it is further ordered, That notice of this order be given to all freight forwarders subject to part IV, and, to all common carriers by motor vehicle subject to part II, of the Interstate Commerce Act and to the public by depositing copies of the order in the office of the Secretary of the Commission, Washington, D. C., and by filing with the Division of the Federal Register of the National Archives. (Sec. 414, 56 Stat. 296; 49 U.S.C. 1014)

By the Commission, division 2.

PART 521—CONSERVATION OF MOTOR EQUIPMENT—PERMITS

SUBPART K—MOTOR CARRIERS OF PROPERTY

CALL BACKS BY SERVICE OR REPAIR TRUCKS

In accordance with the provisions of General Order O. D. T. No. 17,[1] Title 49, Chapter II, Part 501, Subpart K, § 501.71,

It is hereby authorized, That:

§ 521.2889 *Call backs by service or repair trucks.* Notwithstanding the provisions of paragraph (b) of § 501.68 of General Order O.D.T. No. 17, any motor carrier when operating a motor truck engaged exclusively in the transportation of repair or service men and their supplies or equipment may make call backs with such truck. TITLE 22—FOREIGN RELATIONS

Chapter III—Proclaimed List of Certain Blocked Nationals

REVISION III, AUGUST 10, 1942

By virtue of the authority vested in the Secretary of State, acting in conjunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Board of Economic Warfare, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), The Proclaimed List of Certain Blocked Nationals, Revision II of May 12, 1942, and Supplements 1, 2, 3, 4, and 5 thereto (7 F.R. 3867, 4222, 4639, 5545, 5970), are superseded by the following Revision III of the List, which is hereby promulgated.

By direction of the President:

CORDELL HULL,
Secretary of State.
D. W. BELL,
Acting Secretary of the Treasury.
FRANCIS BIDDLE,
Attorney General.
JESSE H. JONES,
Secretary of Commerce.
MILO PERKINS,
Executive Director,
Board of Economic Warfare.
J. C. ROVENSKY,
Acting Coordinator of Inter-American Affairs.

AUGUST 10, 1942.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics. The List as herein consolidated and revised supersedes Revision II and Supplements 1, 2, 3, 4, and 5 thereto.

(2) No additions or deletions are made in this revision; however, changes of address and minor changes in spelling of names listed, etc., are made and are indicated by footnotes.

(3) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and surname, the title is listed under the *surname*.

Personal-name prefixes such as *de, la, von*, etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in any other language:

Compañía; Cía.; Comp.
Compañía Anónima; C.A.; Comp. Anón.
Sociedad; Soc.
Sociedad Anónima; S.A.; Soc. Anón.

(4) Addresses appearing after names on the List are not intended to exclude other addresses of the same firms or individuals. A listed name refers to all branches of the business in the country.

(5) Subsequent supplements to this revision will contain additions, deletions, and amendments.

(6) For the convenience of users, symbols are placed after each name on the List to indicate, by reference to the table below, the dates of the supplements or revisions in which the name first appeared or was amended. It has not been found practicable, however, to indicate here the dates of listings made between July 17, 1941, the date of the original list, and Revision I, dated February 7, 1942. Accordingly, names appearing previous to Revision I, and retained in that revision, are followed only by the symbol "I". Roman numerals refer to revisions, arabic numerals to supplements.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1532]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of district board No. 1 for the establishment of price classifications and minimum prices for the coals of certain mines in district No. 1.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof; and

Commencing forthwith, the shipping point and freight origin group appearing in the aforesaid "Supplement R" for Mine Index No. 2416 shall be effective in place of the shipping point and freight origin group heretofore assigned to this mine.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 1 for the establishment of price classifications and minimum prices and for a change in freight origin group numbers and shipping points for the coals of certain mines in District No. 1.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth hereto and hereby made a part hereof; and commencing forthwith, the Freight Origin Group Numbers and shipping points appearing in the aforesaid Supplement R for Mine Index Nos. 955 and 2538 mentioned therein are effective in place of the Freight Origin Group Numbers and shipping points heretofore established for these mines.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

ORDER GRANTING RELIEF, ETC.

Order of consolidation and order granting temporary relief and conditionally providing for final relief in the matter of the petitions of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8

Original petitions, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That the above-entitled matters are herein consolidated;

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof; and commencing forthwith, the shipping point appearing in the aforesaid Supplement R for Mine Index No. 1838 shall be effective in place of the shipping point heretofore established for this mine.

It is further ordered, That pleadings in opposition to the original petitions in the above-entitled matters and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: July 31, 1942.

ORDER GRANTING RELIEF

Order granting relief in the matter of the petition of District Board No. 11 for the deletion of Kangley, Illinois, from the alphabetical list of all points in Market Area No. 41.

An original petition was duly filed with this Division by the above-named party pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the deletion of the destination Kangley, Illinois, from the alphabetical list of all points in Market Area No. 41 and destination group numbers applying thereto as shown in § 331.9 in the Schedule of Effective Minimum Prices for District No. 11 For All Shipments Except Truck pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It appears that Kangley, Illinois, was erroneously included in the list of destinations in Market Area No. 41, to which absorptions are permitted as scheduled in § 331.9 in the Schedule of Effective Minimum Prices in District No. 11 For All Shipments Except Truck and that

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER GRANTING TEMPORARY RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 10 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 10.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 10 for truck shipment; and

Kangley, Illinois, is actually located in Market Area No. 38 for which no schedule of absorptions has been provided in the Schedule of Effective Minimum Prices for District No. 11 For All Shipments Except Truck.

Accordingly, it is ordered, That, effective fifteen (15) days from the date of this order, Kangley, Illinois, shall be, and it hereby is, deleted from the alphabetical list of all points in Market Area No. 41 and destination group numbers applying thereto as shown in § 331.9 (*Adjustment in f. o. b. mine prices*) in the Schedule of Effective Minimum Prices for District No. 11 For All Shipments Except Truck.

It is further ordered, That pleadings in opposition to the relief herein granted shall be filed within fifteen (15) days from the date of this Order.

Dated: August 11, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Order No. 49]

PHILADELPHIA STATE HOSPITAL PROJECT

DESIGNATION FOR CONSCIENTIOUS OBJECTORS

I, Lewis B. Hershey, Director of Selective Service, in accordance with the provisions of Section 5 (g) of the Selective Training and Service Act of 1940 (54 Stat. 885) and pursuant to authorization and direction contained in Executive Order No. 8675 [1] dated February 6, 1941, hereby designate the Philadelphia State Hospital Project to be work of national importance, to be known as Civilian Public Service Camp No. 49. Said project, located at Philadelphia, Philadelphia County, Pennsylvania, will be the base of operations for work at the Philadelphia State Hospital, and registrants under the Selective Training and Service Act of 1940, who have been classified by their local boards as conscientious objectors to both combatant and non-combatant military service and have been placed in Class IV–E, may be assigned to said project in lieu of their induction for military service.

Men assigned to said Philadelphia State Hospital Project will be engaged in clerical work, as attendants, waiters, farm hands, etc., and shall be under the direction of the Superintendent, Philadelphia State Hospital, as well as will be the project management. Men shall be assigned to and retained in camp in accordance with the provisions of the Selective Training and Service Act of 1940 and regulations and orders promulgated thereunder, as well as the regulations of the Philadelphia State Hospital. Administrative and directive control shall be under the Selective Service System through the Camp Operations Division of National Selective Service Headquarters.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-75]

ALABAMA FLOUR MILLS

Alabama Flour Mills is a branch of the Nebraska Consolidated Mills Company, of Omaha, Nebraska. Since August, 1941, it has engaged in the production of cattle feeds at Decatur, Alabama, and is a "Class 2 Purchaser" subject to the restrictions of General Preference Order No. M-54,[1] issued by the Director of Industry Operations to conserve the supply and direct the distribution of molasses.

During the second quarter of 1942, the Alabama Flour Mills, with full knowledge of the restrictions of General Preference Order No. M-54, consumed 106,900 pounds of molasses over and above the quota allotted it under the order. This constituted a wilful violation of General Preference Order No. M-54, and resulted in diverting scarce material to uses not authorized by the War Production Board. In view of the foregoing,

It is hereby ordered:

§ 1010.75 *Suspension Order S-75.* (a) During the period that this order shall be in effect, Alabama Flour Mills, a branch of Nebraska Consolidated Mills Company, shall not receive or consume molasses (as defined in General Preference Order No. M-54, as amended March 27, 1942).

(b) This order shall take effect August 13, 1942, and shall expire on December 31, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 11th day of August 1942.

Chapter XVII—Office of Civilian Defense

[Regulations No. 1]

PART 1901—LOANS OF EQUIPMENT AND SUPPLIES TO CIVIL AUTHORITIES

By virtue of the authority vested in me by Executive Order No. 8757 dated May 20, 1941, as amended by Executive Order No. 9134 dated April 15, 1942, and Executive Order No. 9088 dated March 6, 1942, and pursuant to section 1 of the Act approved January 27, 1942, and in accordance with Article 13 of Executive Order No. 9088 dated March 6, 1942, authorizing the Director of Civilian Defense to make and issue such rules, regulations, and orders as he may deem necessary or desirable to carry out the purposes of the aforementioned Act of January 27, 1942, §§ 1901.1 to 1901.10, inclusive of this chapter, (sections 1 to 10, inclusive, of Office of Civilian Defense Regulations No. 1) are hereby amended to read as hereinafter set forth, and a new § 1901.11 (section 11 of Office of Civilian Defense Regulations No. 1) is added, to wit:

Sec.
1901.1 General program.
1901.2 Definitions.
1901.3 Certificate and agreement of civil authority of borrowing community.
1901.4 Duties of Regional Directors.
1901.5 Appointment and tenure of State and local property officers.
1901.6 Bonding of property officers.
1901.7 Distribution and use of civilian defense property.
1901.8 Duties of state property officers.
1901.9 Duties of local property officers.
1901.10 Operating instructions.
1901.11 Effective date.

AUTHORITY: Pub. Law 415, 77th Congress; E.O. 8757, 6 F.R. 2517; E.O. 9088, 7 F.R. 1775; E.O. 9134, 7 F.R. 2887.

§ 1901.1 *General program.* (a) The Director of Civilian Defense will from time to time make available to localities of the United States, its territories and possessions, equipment and supplies for the protection of persons and property from bombing attacks, sabotage, and other war hazards.

(b) Such equipment and supplies will be made available by loans to communities within the States, which communities may in turn distribute, under the direction of the Commander of the United States Citizens Defense Corps in the community, the equipment and supplies to responsible and qualified individuals or organizations, all in accordance with regulations issued by the Director of Civilian Defense.

(c) Each borrowing community will designate a local property officer who will act as custodian of the property pending its distribution and will be responsible therefor to the Office of Civilian Defense. State property officers are to be appointed to maintain records with respect to all property loaned in their respective States, and property may, in certain instances, be delivered to the communities through such State property officers. State property officers and local property officers will deal with and distribute the property only in the manner prescribed by the Director of Civilian Defense.

(d) Regional Directors of the Office of Civilian Defense are to supervise the activities of State property officers and local property officers.

(e) The equipment and supplies shall at all times be at the disposition of the United States Government, and the United States Government shall retain its full rights as owner, lessee, or borrower, as the case may be, of such property. To such extent as may be practicable, all such supplies and equipment shall at all times be clearly and distinctly marked as the property of, or under the control of, the United States Government, Office of Civilian Defense.

(f) These regulations relating to such loans are part of the agreement of each community receiving such a loan, and in addition govern State and local property officers in the performance of their duties.

§ 1901.2 *Definitions.* (a) "Civil authority" means any State or community, as hereinafter defined, or any duly elected or appointed official, agent, board, commission, or other body of persons duly authorized to act on behalf of any State or community.

(b) "State" means any State or territory or possession of the United States.

(c) "Community" means any municipality, town or village, or any other political subdivision of any State, or any area designated by the Director of Civilian Defense as a community for purposes of these regulations.

(d) "Locality" means any territory within which a community is situated and which is described or specified in OCD Form No. 501 executed by the community, which territory may include all or part of the county in which the community is situated or of any other county or counties.

(e) "Chief executive officer" means the Mayor of a community or other person or body exercising paramount local executive power.

(f) "Local defense council" means the body duly appointed by the duly authorized appointive authority to be responsible for civilian defense in the community.

(g) "Director" means the Director of the Office of Civilian Defense appointed by the President of the United States.

(h) "Federal Law" means the "Act to provide protection of persons and property from bombing attacks in the United States, and for other purposes" approved January 27, 1942, and Acts supplemental thereto relating to the Office of Civilian Defense, and Executive Orders issued pursuant to such Acts or relating to the Office of Civilian Defense.

(i) "Commander" means the Commander duly appointed by the duly authorized appointive authority to be in command of the United States Citizens Defense Corps organized in the community pursuant to §§ 1903.1 to 1903.17, inclusive, of this chapter, as amended (Office of Civilian Defense Regulations No. 3).

(j) "Property" means equipment and supplies belonging to, or under the control of, the Office of Civilian Defense.

(k) "Accountability" devolves upon any person who is required to maintain records and a property account with respect to property, whether or not in the custody of such person, and is discharged by the maintenance of proper records and accounts and by the production of proper receipts for all property received by such person but no longer in his custody.

(l) "Responsibility" devolves upon any person who has custody of property or the duty to supervise others having such custody, and is discharged by the exercise of good faith and due care in the performance of all specified duties.

(m) "Custody" means actual possession of property by a person or his agents.

(n) "Essential facility" means (1) any public utility, privately or publicly owned, determined by the Commander to be essential to the national war effort or civilian defense, including railroads or other transportation systems, telegraph, telephone or other communication companies, and public utilities furnishing or distributing electricity, water, gas, or steam, or (2) any hospital, infirmary, sanitarium or other institution, publicly or privately owned, designated as a casualty receiving hospital or emergency base hospital by the Chief of the Emergency Medical Service of the local United States Citizens Defense Corps, or (3) any other organization designated as such by the Director.

§ 1901.3 *Certificate and agreement of civil authority of borrowing community.* Each community to which a loan of property is to be made by the Director, shall, prior to the making of such loan, furnish to the Office of Civilian Defense a certificate and agreement, on OCD Form No. 501 duly executed by its Chief Executive Officer, as the civil authority of the community duly authorized to act in such respect, which certificate and agreement shall include, among other things, a certification that the community is in need of, but unable to provide the property therein specified, an agreement on behalf of the community as to the maintenance, use, distribution and return of the property, and a certification as to the appointment, by the duly authorized appointive authority, of a designated local property officer as the agent of the community authorized to receive the property on behalf of the community and to perform the duties prescribed with respect thereto by the Director. Such certification that the community is in need of, but unable to provide, the property specified in its certificate and agreement shall be deemed to relate to the locality within which the community is situated; and any such property loaned to the community may be distributed by it throughout such locality, subject to the provisions of § 1901.7 of this chapter (section 7 of Office of Civilian Defense Regulations No. 1). The community to which such property is loaned and which is responsible for such property may make any mutually satisfactory arrangements with other communities or individuals or organizations, within the locality in which the property is distributed, with respect to the maintenance and protection thereof. Each local property officer shall agree, on OCD Form No. 501, to comply with all rules, regulations, orders, and instructions of the Director.

§ 1901.4 *Duties of Regional Directors.* Regional Directors of the Office of Civilian Defense, appointed by the Director, will supervise the activities of State property officers and local property officers with the view of assuring compliance with rules, regulations, orders, and instructions of the Director. Regional Directors are authorized to take such steps as may be deemed by them to be desirable to supervise the arrangements made by State property officers and local property officers with respect to the storage, handling, maintaining, protecting, delivering, and returning of all property and the maintaining and filing of proper reports, records, and accounts with respect thereto, and in particular with respect to the distribution of property in the communities in accordance with the provisions of § 1901.7 of this chapter (section 7 of Office of Civilian Defense Regulations No. 1); and they shall from time to time make inspections for such purpose.

§ 1901.5 *Appointment and tenure of State and local property officers.* (a) As a condition precedent to the making of any loan to a community in any State, the Governor of such State shall duly appoint a State property officer. The duties and obligations of each State property officer shall be as set forth in these regulations or as otherwise prescribed by the Director. Each State property officer shall hold office during the pleasure of the appointing Governor. Appointments of State property officers shall be on OCD Form No. 500; each State property officer shall agree thereon to comply with all rules, regulations, orders, and instructions of the Director.

(b) As a condition precedent to the making of any loan to a community, the duly authorized appointive authority of such community shall duly appoint, on OCD Form No. 501, a local property officer to serve as the duly authorized agent of the community to receive such loan upon such terms and conditions as shall be prescribed by the Director. The duties and obligations of each local property officer shall be as set forth in these regulations or as otherwise prescribed by the Director. Each local property officer shall hold office during the pleasure of the local appointive authority.

(c) If the office of State property officer or local property officer shall become vacant by resignation, death, removal, or other cause, a successive property officer shall be duly appointed, on OCD Form No. 512, by the Governor of the State or the Chief Executive Officer of the community, as the case may be, and shall agree thereon to comply with all rules, regulations, orders, and instructions of the Director.

§ 1901.6 *Bonding of property officers.* (a) The Office of Civilian Defense, Washington, D. C., requires State property officers to be bonded in the amount of $10,000 to the Federal Government, and the obligation for the premium thereon shall be assumed by the State property officer or by the State designating any such State property officer.

(b) The Office of Civilian Defense, Washington, D. C., requires local property officers to be bonded to the Federal Government, in the amount of $10,000 in communities whose population is 200,000 or more, and $5,000 in other communities, and the obligation for the premium thereon shall be assumed by the local property officer or by the community for which the local property officer has been designated.

(c) Each such bond shall be executed on OCD Form No. 502 and by such corporate surety as shall be acceptable to the Director.

§ 1901.7 *Distribution and use of civilian defense property.* (a) Each local property officer shall distribute the property received by him, as the authorized agent of his community, to responsible and qualified (1) individuals or (2) organizations which are essential facilities, in, or having an office in, his community or the territory adjacent thereto or, if the Director shall order distribution outside of the community, then in the locality within which the community is situated; such distribution shall be in such amounts and in such manner, and to such persons and organizations (subject to § 1901.7 (c) of this chapter (section 7 (c) of Office of Civilian Defense Regulations No. 1)), as shall be deemed advisable by the Commander of the community in which distribution is to be made (or, in the absence of a Commander, by such person as shall be designated by the Regional Director) in order to comply with the requirements of Federal Law, including the requirement that such property shall be distributed for the adequate protection of persons and property from bombing attacks, sabotage, or other war hazards: *Provided, however,* That such distribution shall at all times be subject to and in accordance with such rules, regulations, orders, and instructions as the Director may make with respect thereto. Each local property officer shall obtain from each individual or organization to whom any property is distributed by him, whether for further distribution or for their own use, a duly executed receipt for the property.

(b) Each individual or organization to whom property is distributed by the local property officer, and any subsequent transferee thereof, shall exercise due care in the storage, handling, maintenance, protection and use thereof; shall use such property only for the protection of persons and property from bombing attacks, sabotage, and other war hazards, or for training and instruction incidental to such use; shall return such property, unless lost, destroyed or consumed in the course of such use, forthwith to the United States Government at any time upon order of or pursuant to rules and regulations prescribed by the Director; shall comply with all rules, regulations, orders and instructions issued by the Director with respect to said property or the use thereof; and shall not transfer or redistribute any such property except with the approval of the Commander in the community or as otherwise ordered by the Director. Each such distributee shall obtain from any transferee and retain in his own files a duly executed receipt for the property so transferred by him.

(c) Property (except medical equipment and supplies) loaned to communities shall, unless otherwise ordered by

the Director, be distributed directly or indirectly only to essential facilities or to members of or, subject to § 1903.7 (c) of this chapter (section 7 (c) of Office of Civilian Defense Regulations No. 3), trainees for the United States Citizens Defense Corps (hereinafter called the "Defense Corps") or to members of the local police department or fire department, all in accordance with the instructions of the Commander. All loaned property, including fire-fighting pumping units, but excluding medical equipment and supplies, received by any community and distributed otherwise than to an essential facility, shall, unless otherwise ordered by the Director, be used only by members of or (subject to § 1903.7 (d) of this chapter (section 7 (d) of Office of Civilian Defense Regulations No. 3)) trainees for the Defense Corps or by members of the local police department and fire department. Unless otherwise ordered by the Director, any community which distributes any such loaned property (except such as is distributed to an essential facility) to any person not a member of or trainee for the Defense Corps, or a member of the local police department or fire department, or not in accordance with the instructions of the Commander, or which permits any person not a member of or, to the extent provided in § 1903.7 (c) of this chapter (section 7 (c) of Office of Civilian Defense Regulations No. 3), a trainee for the Defense Corps or a member of the local police department or fire department, to use or wear any such loaned property, or which fails promptly to recall any such loaned property from any person whose membership or training status in the Defense Corps has been suspended or terminated, shall be deemed to have violated its agreement (OCD Form No. 501) with the Director pursuant to which such property was loaned; and in such event the Director may proceed to recall all or any part of the property of any character loaned to such community.

(d) Any loaned property heretofore or hereafter distributed by a local property officer may be recalled by the Commander in the community in which the property is distributed from the distributee or any transferee and such property may be redistributed, subject to the provisions of § 1901.7 of this chapter (section 7 of Office of Civilian Defense Regulations No. 1), in such manner as shall be deemed advisable by such Commander.

§ 1901.8 *Duties of State property officers.* The duties of each State property officer are to:

(a) Receive all property shipped to him by the Office of Civilian Defense for communities within his State, and cause such property to be delivered forthwith and without delay to the local property officers of the respective communities, in such amounts and manner as shall be specified in any order or instruction issued by the Office of Civilian Defense, Washington, D. C.

(b) Maintain an adequate record of all property shipped to him and all property delivered to local property officers within his State, and preserve all receipts for property shipped to and redelivered by him.

(c) Prepare and submit to the Office of Civilian Defense, Washington, D. C., and to his Regional Director, reports and information in such form and manner as required by them, respectively, as to the location, condition, and status of all property in his custody.

(d) Supervise the examination and checking of all property shipped to or by him.

(e) Supervise the storage and handling of all property in his custody, and make arrangements so that such property may be inspected at any time by the representatives of the Office of Civilian Defense.

(f) Make arrangements, satisfactory to the Office of Civilian Defense, Washington, D. C., adequately to store, handle, maintain, protect, deliver, and return all property in his custody, and provide suitable facilities, at the expense of his State, for the proper storage, handling, protection, delivery, and return of all such property: *Provided, however,* That he is not required to obtain fire, burglary, or other insurance with respect to any property.

(g) Make arrangements, satisfactory to the Office of Civilian Defense, Washington, D. C., for the prompt return of any property received by him (unless lost, destroyed, or consumed in the course of its use in accordance herewith and proper Report of Loss or Damage with respect thereto has been filed with and approved by the Office of Civilian Defense) and in his custody if and when recalled for any reason whatsoever by the Office of Civilian Defense, Washington, D. C., and cause such property forthwith and without delay to be expeditiously transported and delivered to or upon the order of the Office of Civilian Defense, Washington, D. C.: *Provided, however,* That any reasonable expense incident to the return of such property will be borne by the Office of Civilian Defense upon the presentation of duly verified vouchers.

(h) Be accountable to the Office of Civilian Defense for all property within his State and of which he has received due notification.

(i) Be responsible to the Office of Civilian Defense for the performance of his duties, including the storing, handling, maintaining, protecting, delivering, and returning of all property received by him or his agents until such property shall have been delivered by him to and received by local property officers in accordance with rules, regulations, orders, and instructions of the Director.

(j) Perform such other duties as may be necessary in administering his office, or as shall be prescribed by the Director.

State property officers may appoint agents to assist in the performance of their duties, but shall be responsible for the acts or omissions of such agents.

§ 1901.9 *Duties of local property officers.* The duties of each local property officer are to:

(a) Receive all property loaned to his community by the Office of Civilian Defense and shipped to him, as the agent of his community, by the Office of Civilian Defense, or by or on behalf of the State property officer, and cause such property to be distributed forthwith and without delay in accordance with § 1901.7 of this chapter, section 7 of Office of Civilian Defense Regulations No. 1) and any other rules, regulations, orders, and instructions of the Director.

(b) Maintain an adequate record of all property delivered to him or for his account, and of all property distributed by him, and preserve all receipts for such property.

(c) Prepare and submit reports and information, in such form and manner as required by his State property officer or the Office of Civilian Defense, Washington, D. C., or his Regional Director, as to the location, custody, condition, and status of all property loaned to his community.

(d) Supervise the examination and checking of all property shipped to or by him.

(e) Supervise the storage and handling of all property in his custody, and make arrangements so that such property may be inspected at any time by representatives of the Office of Civilian Defense.

(f) Pursuant to the agreement of his community contained in OCD Form No. 501, make arrangements satisfactory to the Office of Civilian Defense, Washington, D. C., adequately to store, handle, maintain, protect, deliver, and return all property in his custody, and supervise the furnishing of suitable facilities and the making of suitable arrangements for the proper storage, handling, maintenance, protection, distribution, and return of all property loaned to his community but in the custody of others: *Provided, however,* That he is not required to obtain fire, burglary, or other insurance with respect to any property.

(g) Ascertain, as a condition precedent to the distribution by him of any property, that the individuals or organizations to whom the property is to be distributed by him have arranged for and provided suitable facilities as specified in paragraph (f) of this section.

(h) Ascertain, before distributing any fire-fighting pumping units, that the community, pursuant to its agreement contained in OCD Form No. 501, has provided an appropriate vehicle on which said pumps and equipment will be mounted at the expense of the community, to assure the mobility of such equipment.

(i) Obtain from all individuals or organizations to whom any property is distributed by him, whether for further distribution or for their own use, a receipt as provided in § 1901.7 (a) of this chapter (section 7 (a) of Office of Civilian Defense Regulations No. 1).

(j) Make arrangements satisfactory to the Office of Civilian Defense, Washington, D. C., for the prompt return of all property loaned to his community (unless lost, destroyed, or consumed in the course of its use in accordance herewith and proper Report of Loss or Damage with respect thereto has been filed with and approved by the Office of Civilian Defense) if and when recalled for any reason whatsoever by the Office of Civilian Defense, Washington, D. C., and cause such property forthwith and without delay to be expeditiously transported and delivered to or upon the order of the Office of Civilian Defense, Washington, D. C.: *Provided, however,* That any reasonable expense incident to the return of such property will be borne by the Office of Civilian Defense upon the presentation of duly verified vouchers.

(k) Be responsible to the Office of Civilian Defense for the performance of his duties, including the storing, handling, maintaining, protecting, delivering, and returning of all property received by him or his agents until such property shall have been distributed by him to and received by individuals or organizations in accordance with rules, regulations, orders, and instructions of the Director.

(l) Initiate and transmit reports of loss or damage as and when required by rules, regulations, orders, or instructions of the Director.

(m) Perform such other duties as may be necessary in administering his office, or as shall be prescribed by the Director with respect thereto.

Local property officers may appoint agents to assist in the performance of their duties, but shall be responsible for the acts or omissions of such agents.

§ 1901.10 *Operating instructions.* The Office of Civilian Defense, Washington, D. C., will from time to time issue instructions to State and local property officers relating to procedures and forms for use in performance of their duties.

§ 1901.11 *Effective date.* These regulations shall become effective immediately.

TITLE 46—SHIPPING

Chapter IV—War Shipping Administration

[General Order 6,[1] Supplement 2]

PART 305—INSURANCE

WAR RISK INSURANCE—AUTOMATIC COVERAGE ON IMPORT CARGOES

Pursuant to the authority contained in the Merchant Marine Act of 1936, as amended, the following additional rules and regulations for the underwriting of cargo war risk insurance on imports to the United States are hereby promulgated.

§ 305.62 *Extended transhipment clause.* Section 305.59 for attachment to Warshipopencargo policy form incorporated in §§ 305.50 to 305.61 inclusive as published in the FEDERAL REGISTER of July 30, 1942[2] reading as follows:

In consideration of such additional rate as may be prescribed from time to time by the War Shipping Administration, it is understood and agreed that Clause 4c of Part II of this policy is deleted.

It is further understood and agreed that, if owing to circumstances beyond the control of the Assured, the merchandise insured hereunder is landed at an intermediate port other than the intended port of discharge, this insurance shall continue in force subject to all of its terms until the Assured has had a reasonable opportunity to forward the goods to their intended destination, or substituted destination, or to dispose of said goods at port of landing. In the event that prior to the termination of this insurance said goods are forwarded to substituted destination as aforesaid this policy shall continue to cover, subject to its terms, to such substituted destination without further additional premium. This insurance shall also continue in force as aforesaid if the merchandise insured hereunder subsequent to attachment of this insurance is discharged at the port of loading but only provided that at the time of such discharge title to and interest in the goods is vested in a citizen of the United States, and such insurance shall terminate if at any time during the continuance of such issuance as aforesaid title to and interest in the goods shall no longer be vested in a citizen of the United States. All other terms and conditions remaining unchanged

is hereby designated "Warshipopencargo Policy"—Standard Optional Endorsement #I.

§ 305.63 *Goods sold while en route.* The following standard optional endorsement, hereinafter to be referred to as "Warshipopencargo Policy—Standard Optional Endorsement #II", is hereby promulgated:

It is understood and agreed that in the event that goods insured hereunder are sold by the Assured subsequent to the attachment of risk hereunder, on terms requiring the Assured to provide war risk insurance to the port of discharge, this insurance shall remain in full force and effect. The Assured may assign to the purchaser any rights under this policy in event of loss, but this assignment shall not relieve the Assured from any of his responsibilities or obligations under the terms

[2] §§ 305.50 to 305.61 appeared as §§ 305.34 to 305.41.

of this policy, and in the event of loss the amount collectible hereunder shall in no event exceed the amount which would have been collectible by the Assured in the event the goods had not been sold by him. All other terms and conditions remaining unchanged.

§ 305.64 *Goods insured by shipper.* The following standard optional endorsement, hereafter to be designated "Warshipopencargo Policy—Standard Optional Endorsement #III", is hereby promulgated:

In consideration of the payment of premium as hereinafter provided, this policy is extended to cover goods otherwise coming within the scope of this policy but shipped by the Assured and for his account and risk, or shipped by the Assured and sold by him prior to shipment on terms requiring him to provide War Risk Insurance to the port of discharge. The Assured agrees to file separately upon the Standard Forms provided for in Supplement No. 1 of General Order No. 6, Provisional and Closing Reports of all shipments to insured, such report to be filed subject to all of the rules and conditions as set forth in said General Order. In the event of loss claims shall be filed by the Assured unless otherwise permitted by the War Shipping Administration for good cause shown. In the event that with the consent of the War Shipping Administration claim is filed by the purchaser said purchaser shall be required to file an affidavit to the effect that the amount claimed does not exceed the actual bona fide pecuniary loss of the claimant, exclusive of any allowance for anticipated or accrued profit arising out of the insured venture. Such affidavit shall be subject to the provisions of section 35 (a) of the Criminal Code. All other terms and conditions remaining unchanged.

§ 305.65 *Goods imported for account of third parties.* The following standard optional endorsement, hereinafter to be designated "Warshipopencargo Policy—Standard Optional Endorsement #IV", is hereby promulgated:

It is understood and agreed that this policy is extended to cover with respect to all imports to the Continental United States, excluding Alaska, (except as to such imports as may be specifically excluded from this policy by special agreement noted hereon by endorsement) shipped to or consigned to the Assured and for the account and risk of _____. The Assured warrants that he is a duly authorized agent of said _____ for the procuring and importing into the United States of the merchandise insured hereunder. The Assured warrants that provisional and closing reports as provided for by the terms of this policy and by the terms of General Order No. 6, Supplement #1, of the War Shipping Administration will be filed by him with respect to all shipments insured hereunder, and subject to all of the conditions and regulations of the War Shipping Administration relating to such reports. In the event of loss, any sums payable under the terms of this policy shall be paid to the order of the principal for whom the agent acts, and said principal shall be required to file the affidavit called for by Part I of this policy. In the event of loss, the amount collectible hereunder shall in no event exceed the amount which would have been collectible by the Assured named hereunder, in the event the goods had been imported for his own account. All other terms and conditions remaining unchanged.

§ 305.66 *Exports to territories and possessions of the United States—Inclusive endorsement.*—The following standard optional endorsement, hereinafter to be designated "Warshipopencargo Policy—Standard Optional Endorsement #V", is hereby promulgated:

It is understood and agreed that this policy is hereby extended, subject to all of its terms, to cover shipments from the Continental United States (excluding Alaska) to the territories and possessions of the United States including the Canal Zone and Alaska. The Assured warrants that with respect to such shipments, all the terms and conditions of this policy as originally written will apply, and that full provisional and closing reports, supported by affidavits as and if required, will be filed with respect to shipments covered under the terms of this endorsement. All other terms and conditions remaining unchanged.

§ 305.67 *Exports to territories and possessions of the United States—Exclusive endorsement.* The following standard optional endorsement, hereinafter to be designated "WARSHIPOPENCARGO Policy—Standard Optional Endorsement #VI", is hereby promulgated:

Notwithstanding anything to the contrary contained in Sections 305.59 and 305.60 of this policy, it is understood and agreed that this policy covers only shipments from the Continental United States (excluding Alaska) to the territories and possessions of the United States, including the Canal Zone and Alaska. The Assured warrants that with respect to such shipments, all the terms and conditions of this policy as originally written will apply, and if required will be filed with respect to shipments covered under the terms of this endorsement. All other terms and conditions remaining unchanged.

§ 305.68 *Shipments between ports in the Continental United States.* The following standard optional endorsement, hereinafter to be designated "WARSHIPOPENCARGO Policy—Standard Optional Endorsement #VII", is hereby promulgated:

It is understood and agreed that this policy is hereby extended, subject to all of its terms, to cover shipments between ports in the Continental United States (excluding Alaska), the Assured warrants that with respect to such shipments all the terms and conditions of this policy as originally written will apply, and that full provisional and closing reports, supported by affidavits as and if required, will be filed with respect to shipments covered under the terms of this endorsement. All other terms and conditions remaining unchanged.

§ 305.69 *Authorization to agents to execute endorsements.* Underwriting agents of the War Shipping Administration are authorized to execute any of the foregoing endorsements for incorporation in war risk insurance policies issued pursuant to the provisions of §§ 305.50 to 305.61 inclusive, published in the FEDERAL REGISTER July 30, 1942.

§ 305.70 *Definition of imports.* Effective 48 hours from the date hereof, it is understood and agreed that the following clauses are deemed to be incorporated in § 305.60 of WARSHIPOPENCARGO Policy Form:

Where and as used in this policy, the word "imports" means property which, at the time of the attachment of the risk, is (a) intended for use, consumption, manufacturing or other processing, or sale, within the Continental United States (excluding Alaska), or (b) intended for inclusion within a common stock of goods, wares, merchandise, located within the Continental United States (excluding Alaska), for sale or resale out of such common stock in the foreign or domestic commerce of the United States, or (c) consigned to the Continental United States (excluding Alaska) for account of the United States or any department or agency thereof, including corporations wholly owned by the United States. Such property shall not cease to be considered imported in the event of a bona fide change in intention on the part of the Assured or other person having control of the goods, made subsequent to the attachment of the risk and without prior agreement, understanding, or arrangement, provided such change in intention is not accompanied by an alteration of the immediate destination of the goods to a point outside of the Continental United States (excluding Alaska). Without limiting the generality of the foregoing, goods, which at the time of attachment to the risk were intended to be transshipped or re-exported otherwise than to a place within the Continental United States (excluding Alaska), shall not be considered imports for the purposes of said policy, unless such re-export is to a port or place shipments to which are covered by the terms of an endorsement to this policy.

EXCLUSION OF VALUABLES

This policy does not cover shipments of specie, currency, securities, valuable documents, jewelry, precious stones, gold and silver and other precious metals, or any articles transported by means of ordinary or registered mail or parcel post.

§ 305.71 *Privilege to place additional insurance.* Where war risk insurance on cargo is insured with the War Shipping Administration under the terms of the "WARSHIPOPENCARGO" Policy, §§ 359.59 and 305.60, the parties at interest may place increased value or additional insurance in commercial or other markets beyond the amount of insurance provided in the War Shipping Administration policy. Such insurance, if placed, need not be participating with the War Shipping Administration coverage, and shall be without benefit of salvage or right of contribution.

[Docket No. C-19]

ACCEPTANCES OF THE BITUMINOUS COAL CODE SUBMITTED BY BETHLEHEM STEEL COMPANY AND INDUSTRIAL COLLIERIES CORPORATION WITH RESPECT TO CERTAIN MINES IN DISTRICTS 1, 2 AND 3

NOTICE OF AND ORDER FOR HEARING

On July 30, 1942, Bethlehem Steel Company submitted to the Division an acceptance of the Bituminous Coal Code. In the said acceptance the company represents itself as the producer of the coals produced at the following mines situated in the districts and at the places indicated:

Name of mine	District	Location
Rosedale No. 72	1	Johnstown, Pa.
Franklin No. 72	1	Johnstown, Pa.
Franklin No. 73	1	Johnstown, Pa.
Marianna No. 58	2	Marianna, Pa.
Slickville No. 91	2	Slickville, Pa.
Ellsworth No. 52	2	Ellsworth, Pa.
Cokeburg No. 53	2	Cokeburg, Pa.
Richard No. 21	3	Dellslow, W. Va.
Barrackville No. 41	3	Barrackville, W. Va.
Dakota No. 42	3	Fairmont, W. Va.

Likewise on July 30, 1942, Industrial Collieries Corporation submitted to the Division an acceptance of the Bituminous Coal Code in which the corporation represents that Bethlehem Steel Company is the operator of the aforesaid mines but that Industrial Collieries Corporation also has the right to mine coal from the said mines for its own account. For the purpose of determining whether Bethlehem Steel Company or Industrial Collieries Corporation, or both, are entitled to membership in the Bituminous Coal Code, a hearing should be held.

Now, therefore, it is ordered, That a hearing in the above-entitled matter, under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division, be held on September 15, 1942, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Travis Williams or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to Bethlehem Steel Company, to Industrial Collieries Corporation, and to all persons and entities having an interest in these proceedings and eligible to become a party herein. Any person or entity eligible under the Rules of Practice and Procedure Before the Bituminous Coal Division may file a petition of intervention herein, setting forth the grounds of the proposed intervention, and the position and interest of the petitioner in the proceeding. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before September 9, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically set forth herein, other matters necessarily incidental and related thereto which may be raised by answers of Bethlehem Steel Company and Industrial Collieries Corporation, petitions of intervention or otherwise, or which may be necessary corollaries to the determinations or orders, if any, to be made on the basis of this proceeding.

The matter concerned herewith is in regard to the acceptances of membership in the Bituminous Coal Code submitted to the Division on July 30, 1942, by Bethelehem Steel Company and Industrial Collieries Corporation, and a determination as to whether either or both of the said entities are producers within

the meaning of the Bituminous Coal Act of 1937, and, therefore, entitled to membership in the Bituminous Coal Code with respect to the coals produced at the aforesaid mines.

Dated: August 11, 1942.

[Suspension Order 7 Under Tire Rationing Regulations]

CHARLOTTESVILLE MOTORS, INC.

ORDER RESTRICTING TRANSACTIONS

Charlottesville Motors, Incorporated, a Virginia corporation, 856 West Main Street, Charlottesville, Virginia, hereinafter called respondent, is and since before December 30, 1941 has been engaged in transferring new automobile tires and tubes directly to consumers and subject to the provisions of the Tire Rationing Regulations[1] and the Revised Tire Rationing Regulations[2] issued by the Office of Price Administration. A notice of hearing was duly served on respondent stating specifically that respondent was charged with having violated the provisions of the said Tire Rationing Regulations and of the said Revised Tire Rationing Regulations. Pursuant to said notice a hearing on these charges was held on June 13, 1942 in Charlottesville, Virginia, at which time and place there appeared a representative of the Virginia State Office of the Office of Price Administration and respondent. Both parties presented their evidence pertaining to such charges before a duly authorized presiding officer. Such evidence having been duly considered by the Deputy Administrator,

It is hereby determined that:

Respondent has violated the said Tire Rationing Regulations and the said Revised Tire Rationing Regulations in that on January 3, 1942, and at divers times thereafter until the 24th day of March 1942 respondent sold and transferred to divers consumers new passenger type automobile tires and tubes without requiring the surrender of certificates authorizing such transfers as required by the provisions of said Tire Rationing Regulations and said Revised Tire Rationing Regulations.

Because of the great scarcity and critical importance of tires and tubes in the United States, violations of the said Tire Rationing Regulations and the said Revised Tire Rationing Regulations necessarily result in the diversion of new tires and tubes from essential civilian and military uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense. It further appears to the Deputy Administrator, on the evidence before him, that further violations of the said Revised Tire Rationing Regulations by respondent are likely unless appropriate administrative action be taken.

It is therefore ordered, That (a) During the period in which this Suspension Order No. 7 shall be in effect:

(1) Respondent shall accept no deliveries or transfers of, nor in any manner directly or indirectly receive from any source, new tires or tubes or any recapped or retreaded tires.

(2) No person, firm or corporation shall sell, deliver, or in any manner directly or indirectly transfer to respondent tires or tubes or any recapped or retreaded tires, regardless of whether such tires or tubes have been previously purchased and completely paid for.

(b) Any terms used in this order that are defined in the Revised Tire Rationing Regulations shall have the meaning there given them.

(c) This Suspension Order No. 7 shall become effective August 15, 1942 and, unless sooner terminated, shall expire 12:01 A. M. August 15, 1943. (Pub. Law 421, 77th Cong. sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong., and by Pub. Law 507, 77th Cong.; E.O. Issued this 11th day of August 1942.

NOTICE OF AND ORDER RECONVENING HEARING AND ORDER DESIGNATING NEW TRIAL EXAMINER

In the matter of Lone Star Gas Corporation, Lone Star Gas Company, Community Natural Gas Company, Texas Cities Gas Company, The Dallas Gas Company, Council Bluffs Gas Company and Lone Star Gasoline Company.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of August, 1942.

The Commission having on March 4, 1942, issued its Notice of and Order for Hearing under sections 11 (b) (1) and 11 (e) of the Public Utility Holding Company Act of 1935 with respect to the above-named parties; and hearings having been held on March 24, 25, 26, and 27, 1942, before a Trial Examiner for the purpose of taking evidence on the issues raised under sections 11 (b) (1) and 11 (e); and

Said hearings having been continued for the purpose of enabling counsel to prepare and consider exhibits proposed to be offered in evidence; and

The Commission being advised that counsel are ready to proceed, and deeming it appropriate that the hearings be reconvened for the purpose of completing the taking of evidence with respect to the issues involved under sections 11 (b) (1) and 11 (e) of the Act; and

It appearing that the Trial Examiner heretofore designated to preside at the hearing in this proceeding will be unable to do so;

It is ordered, That the hearings in the above-entitled proceedings be reconvened on August 25, 1942, at 10:00 A. M., E. W. T., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated at that time by the hearing room clerk in Room 318.

It is further ordered, That Edmund H. Worthy, an officer of the Commission, be, and he hereby is, designated to preside at such hearing in the place and stead of, and with the same powers and duties as the Trial Examiner heretofore designated to preside at such hearing.

Notice of such hearing is hereby given to the applicants and to all other persons whose participation in such proceedings may be in the public interest or for the protection of investors or consumers.

CONSOLIDATED NATURAL GAS COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 7th day of August 1942.

Notice is hereby given that declarations or applications (or both) have been filed pursuant to the Public Utility Holding Company Act of 1935 by the Consolidated Natural Gas Company, (hereinafter referred to as "applicant") which has filed a notice of registration as a person purposing to become a holding company.

All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Standard Oil Company (New Jersey), (hereinafter referred to as "Standard") owns all of the outstanding capital stock of four natural gas subsidiary companies, the Hope Natural Gas Company, The East Ohio Gas Company, The Peoples Natural Gas Company and The River Gas Company. Applicant proposed to acquire from Standard all of the capital stock of said four gas utility companies which at the date of filing was as follows:

Hope Natural Gas Company—279,693 shares of common stock—par value $100.00	$27,969,300.00
The East Ohio Gas Company—100,000 shares of 7% preferred stock—par value $100.00	10,000,000.00
285,000 shares of common stock—par value $100.00	28,500,000.00
The Peoples Natural Gas Company—170,000 shares of common stock—par value $100.00	17,000,000.00
The River Gas Company—5,000 shares of common stock—par value $100.00	$500,000.00
Total	83,969,300.00
The surplus accounts of each of the four gas utility companies as of December 31, 1941 are as follows, per books:	
Hope Natural Gas Company	10,718,294.00
The East Ohio Gas Company	3,456,089.00
The Peoples Natural Gas Company	4,090,871.00
The River Gas Company	39,646.00
Total	18,214,900.00

The Peoples Natural Gas Company as of December 31, 1941, and as of the present date, has outstanding a note in the principal amount of $2,000,000, bearing interest at the rate of 4% per annum and maturing July 1, 1948, which is owned by Standard. Applicant does not propose to acquire such note.

In exchange for the capital stock referred to above, applicant proposes to issue to Standard 2,728,359 shares of its common stock of a par value of $30.00 per share. The total par value of applicant's stock so to be exchanged is $81,850,770.00. Applicant represents that the capital stock of said four gas utilities to be acquired by it has a sound and fair value of not less than $83,969,300.00, which is the value at which applicant proposes to set up the said stock on its books, leaving a capital surplus of $2,118,530.00.

Applicant states that the acquisition of said gas utility stock and the issuance to Standard of applicant's stock is a part of a general program necessitated by an order of the Commission entered February 5, 1942, File No. 31-130, wherein the application of Standard for exemption under the Act was denied. Applicant further states that it is anticipated that after Standard has received applicant's stock that Standard will file a notification of registration under section 5 (a), and at the same time will file a plan under section 11 (e) of the Act for the divestment of control by Standard over applicant and the gas utilities in question and that if the general program as outlined is approved by the Commission, and Standard is ordered to divest itself of the stock of Applicant which it then owns, there will be distributed to Standard's stockholders by Standard all of the stock of applicant which Standard will then own.

Applicant alleges that sections 6, 7, 9, 10 and 11 of the Public Utility Holding Company Act of 1935 and Rules U-20, U-22, U-23, U-24 and U-50 of the General Rules and Regulations promulgated thereunder, are applicable to the transaction and that it intends to apply for an exemption from the competitive bidding provisions of Rule U-50.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that hearings be held with respect to said transactions and that said applications should not be granted nor should said declarations be permitted to become effective except pursuant to further order of this Commission:

It is ordered, That a hearing on such matters under the applicable provisions of said Act and the Rules of the Commission thereunder be held on September 22, 1942, at 10:00 o'clock, A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown as to why such declarations or applications (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above named declarant or applicant and to all other interested persons; such notice to be given to said declarant or applicant by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That Richard Townsend, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to execute all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That any person desiring to be heard in connection with this matter shall file with the Secretary of the Commission, on or before September 15, 1942, a written statement relative thereto, and that any person proposing to intervene shall file with the Secretary of the Commission, on or before such date, application therefor, as provided by Rule XVII of the Commission's Rules of Practice.

It is further ordered, That all matters contained in the record of the proceedings before this Commission on the application for exemption of Standard, pursuant to section 3 (a) (3) of the Act (File No. 31-130), be and the same hereby are specifically incorporated in the record of the present proceeding.

It is further ordered, That jurisdiction be and is hereby reserved to separate either for hearing or for disposition any of the issues or questions which may arise in these proceedings, or to take such other action as may appear conducive to an orderly, prompt and economic disposition of the matters involved.

It is further ordered, That without limiting the scope of the issues presented by said declarations or applications (or both), the following matters and questions will be considered.

(1) Whether the acquisition by applicant of the capital stock of the four natural gas utility subsidiaries of Standard will serve the public interest by tending toward the economical and efficient development of an integrated public utility system so as to comply with the provisions of section 10 (c) (2) of the Public Utility Holding Company Act of 1935.

Baltimore AUG 17 1942

(a) Whether the four natural gas utility subsidiaries of Standard together constitute a single integrated public utility system.

(b) Whether, if one or more of the gas utility subsidiaries are found not to be part of a single integrated system, such subsidiaries may be deemed to be retainable as "additional systems" under section 11 (b) (1), (A), (B) and (C).

(c) Whether, if the production and transmission assets of the four gas utility subsidiaries are not parts of a single integrated public utility system nor of retainable "additional systems," such production and transmission assets are retainable as reasonably incidental, or economically necessary or appropriate to the operation of such integrated public utility system or systems.

(2) Whether the consideration to be given by applicant in connection with the proposed acquisition is reasonable and bears a fair relation to the sums invested in or the earning capacity of the utility assets underlying the securities to be acquired.

(3) Whether the proposed acquisition meets the other requirements of section 10 of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder.

(4) Whether the accounting entries to be made in connection with the proposed transactions are appropriate under the standards and requirements of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder.

(5) Whether terms and conditions are appropriate in the public interest or for the protection of investors or consumers or are necessary to be imposed to ensure compliance with requirements of the Public Utility Holding Company Act of 1935 or any rules, regulations, or orders promulgated thereunder.

(6) Generally, whether all action proposed to be taken complies with the requirements of the Public Utility Holding Company Act of 1935, and the rules, regulations or orders promulgated thereunder.

By the Commission.

EMMETT R. NAWN CO.

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 11th day of August, A. D. 1942.

In the matter of Emmett R. Nawn, doing business as E. R. Nawn Company, 145 Lancaster Street, Albany, New York.

(1) Emmett R. Nawn, doing business as E. R. Nawn Company, hereinafter called the registrant, is registered with this Commission as a broker and dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934. Pursuant to section 15 (b), we instituted proceedings to determine whether registrant's registration as a broker and dealer should be revoked.

(2) Our order of March 20, 1942, instituting proceedings, stated that members of its staff had reported to the Commission information obtained as a result of an investigation which tended to show that registrant was permanently enjoined by decree of the Supreme Court of the State of New York, held in and for the County of Albany, entered on or about February 2, 1942, from engaging in certain acts and practices in connection with the purchase and sale of securities.

(3) Pursuant to the above order, notice was served upon the registrant and the hearing in the matter was held before a trial examiner in New York City on April 6, 1942. The registrant did not appear either in person or by counsel.

(4) The record shows, and we find, that by judgment of the Supreme Court of the State of New York, in and for the County of Albany, entered on February 2, 1942, Emmett R. Nawn, "as owner, dealer, broker, partner (dormant, limited or otherwise), agent, stockholder, or director of any person, firm or corporation," is restrained and enjoined permanently "from the issuance, purchase, sale, promotion, negotiation, advertisement or distribution of any stocks, bonds, notes, evidences of interest or indebtedness or other securities of any person, firm, association or corporation in or from the State of New York." The complaint upon which the judgment of the Court was based recited that registrant accepted a certain sum of money from one of his customers for the purpose of purchasing for said customer certain securities, and the registrant did not purchase such securities but instead converted the money to his own personal use, in violation of Article 23-A of the General Business Law and the Penal Law of the State of New York.

(5) We find that revocation of registrant's registration as a broker and dealer is in the public interest.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of Emmett R. Nawn, doing business as E. R. Nawn Company, as a broker and dealer be, and it hereby is, revoked.

By the Commission.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, J. and J. Candy Company, Docket 4769, August 4, 1942]

In the Matter of Vinton T. James and George E. James, Individually and as Co-partners Doing Business Under the Firm Name and Style of J. and J. Candy Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 4th day of August, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondents, in which answer respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearings as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Vinton T. James and George E. James, individually and as co-partners trading as J. and J. Candy Company, or trading under any other name, their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of candy or any other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, to forthwith cease and desist from:

(1) Selling or distributing candy or any merchandise so packed and assembled that sales of such candy or other merchandise to the public are to be made, or may be made, by means of a game of chance, gift enterprise, or lottery scheme.

(2) Supplying to or placing in the hands of others push or pull cards, punch boards or other lottery devices, either with assortments of candy or other merchandise or separately, which said push or pull cards, punch boards or other lottery devices are to be used, or may be used, in selling or distributing such candy or other merchandise to the public.

(3) Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Popular Products Corporation, et al., Docket 3479, August 4, 1942]

In the Matter of Popular Products Corporation, a Corporation, Mitchell Cinader, and Esther Cinader, Individually, and as Officers of Popular Products Corporation

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 4th day of August, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, testimony and other evidence taken before trial examiners of the Commission theretofore duly designated by it, in support of the allegations of the complaint and in opposition thereto, report of the trial examiners upon the evidence and the exceptions to such report, briefs in support of and in opposition to the complaint, and oral argument, and the Commission having made its findings as to the facts and its conclusion that certain of the respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That respondents Popular Products Corporation, a corporation, its officers, and Mitchell Cinader, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of pen and pencil sets, cigarette lighters, electric lamps, chinaware, silverware, cameras, clocks, jewelry, cosmetics, bedding, and kitchenware, or any other merchandise, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others pull cards or other devices which are to be used, or may be used, in the sale or distribution of respondents' merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme.

2. Shipping, mailing, or transporting to agents or distributors, or to members of the public, pull cards or other devices which are to be used, or may be used, in the sale or distribution of respondents' merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme.

3. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme.

4. Using the word "Free", or any other word of similar import, to designate, describe, or refer to any merchandise which is furnished as compensation for services rendered.

It is further ordered, That said respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

It is further ordered, That this proceeding be, and it hereby is, dismissed as to respondent Esther Cinader.

By the Commission.

§ 132.10a *General Ruling No. 10–A.* (a) Unless authorized by a license expressly referring to this general ruling:

(1) No Philippine company shall make any payment, or perform any covenant, duty, condition or service within the United States on, or with respect to, any direct or indirect obligation or security of, or claim against, such company.

(2) No person shall exercise within the United States any right, remedy, power or privilege with respect to, or directly or indirectly arising out of or in connection with, any obligation or security of, or claim against, any Philippine company, including any right, remedy, power or privilege with respect to any guaranty, covenant or agreement that such Philippine company will perform any covenant, duty, condition, or service.

(b) Unless otherwise provided, an appropriate license or other authorization issued by the Secretary of the Treasury shall remove all the restrictions, disabilities and other limitations imposed by this general ruling to the same extent as such restrictions, disabilities and other limitations have been imposed by this general ruling.

(c) This general ruling shall not be deemed to prohibit or otherwise restrict the ordinary purchase, sale, transfer, pledge, or hypothecation of, or similar dealing in, securities which are issued by, or the obligation of, any Philippine company or to prohibit or restrict transactions incidental thereto.

(d) As used in this general ruling, the term "Philippine company" shall mean:

(1) Any partnership, association, corporation or other organization organized under the laws of the Philippine Islands and which prior to January 1, 1942, derived its principal income from the Philippine Islands;

(2) Any sole proprietorship which prior to January 1, 1942, derived its principal income from, and was primarily engaged in business in, the Philippine Islands; and

(3) Any agent, trustee, transfer or paying agent, or other representative of or for any Philippine company to the extent that it acts as such. Subchapter B—Director General for Operations

PART 997—PRODUCTION AND DELIVERY OF MACHINE TOOLS

[Amendment 1 to General Preference Order E–1–b]

General Preference Order No. E–1–b[1] (§ 997.2) is hereby amended by changing paragraphs (e) (5) and (e) (6) so as to read as follows, and by adding paragraphs (7) and (8):

(e) * * *

(5) If a producer does not have on hand on the first day of the fourth month preceding the month of delivery, rated purchase orders from any particular group of service purchasers equal to that group's quota of a size of a given type of tool for that month, the producer shall schedule purchase orders received from members of other groups of service purchasers for that size and type for delivery during that month. Where members of two or more other groups have placed purchase orders aggregating more than such unordered balance of the first group's quota, the producer must first schedule the purchase orders of those purchasers who are members of the group having the greatest ratio of:

(i) Unfilled purchase orders, specifying required delivery dates in said month

[1] 7 F.R. 3231, 3660, 4615, 5903, 6212.

of delivery and in preceding months, but not scheduled for delivery in said months to

(ii) The number of tools to which said group is entitled under its quota,

until that ratio has been reduced to or below the ratio of another group or groups, after which the producer shall schedule the purchase orders of members of the group or groups which then have the greatest ratio, and shall continue to schedule in this manner until the unordered balance has been entirely distributed. Where several groups have the same ratio, and there are not sufficient undistributed tools to schedule one for each group, preference shall be given to the groups having the lower percentage quotas.

(6) Likewise, if a producer does not have on hand on the first day of the fourth month preceding the month of delivery, rated purchase orders from foreign and other purchasers equal to 25 percent of his production of a size of a given type of tool for that month, the producer shall schedule purchase orders received from service purchasers for that type and size for delivery during that month, in the manner provided in paragraph (e) (5) hereof.

(7) A purchase order which has been scheduled as provided in paragraphs (5) and (6) hereof shall represent an addition to the quota of the group of which the service purchaser in question is a member, and such purchase order shall not thereafter be affected by the receipt of a purchase order from a member of any other group, irrespective of the urgency standing of the latter.

(8) In preparing his schedules of deliveries for a given month for service purchasers, a producer shall fix the dates of his deliveries to the different groups so that each group will receive its percentage of tools equitably in point of time within the month.

This amendment shall not affect deliveries of machine tools which have been scheduled for the months of August, September, October and November, pursuant to General Preference Order No. E–1–b as originally issued.

PART 1046—SUPPLIERS

[Suppliers' Inventory Limitation Order L–63, Amended August 13, 1942]

Part 1046 is hereby amended to read as follows and as so amended supersedes all amendments to and exemptions under L–63 heretofore issued by the War Production Board:

§ 1046.1 *Suppliers' Inventory Limitation Order L–63.*[1]—(a) *Definitions.* (1) "Supplies" means all the supplies listed below:

(i) Automotive supplies.
(ii) Aviation supplies.
(iii) Builders' supplies.
(iv) Construction supplies.
(v) Dairy supplies.
(vi) Electrical supplies.
(vii) Farm supplies.
(viii) Foundry supplies.
(ix) Grain elevator supplies.
(x) Hardware supplies.
(xi) Industrial supplies.
(xii) Plumbing & heating supplies.
(xiii) Refrigeration supplies.
(xiv) Restaurant supplies.
(xv) Textile mill supplies.
(xvi) Transmission supplies.
(xvii) Welding & cutting supplies.

Except that "supplies" shall not be deemed to include any of the materials set forth in List A.

(2) "Supplier" means any person (other than a producer) located in the 48 states or the District of Columbia, whose business consists, in whole or in part, of the sale from stock or inventory of supplies. "Supplier" includes wholesalers, distributors, jobbers, dealers, retailers, branch warehouses of producers and other persons performing a similar function.

(3) "Producer" means any person including any branch, division or section of any enterprise, which manufactures, processes, fabricates, assembles or otherwise physically changes any material.

(4) "Sales" means sales from stock including consigned stocks and excluding direct shipments.

(5) "Seasonal lines" means any line of supplies in which a minimum of 40% of the supplier's total annual sales are made during a period of 90 days, or less.

(6) "Maximum permissible inventory" of supplies means:

(i) In the case of a supplier located in the Eastern or Central War Time zones, an inventory (owned or consigned to him) of supplies of a total dollar value (by physical or book inventory, at the option of the supplier) equal either to

(*a*) Twice the sales of such supplies, shipped from his inventories, during the second preceding calendar month; or (at the option of the supplier);

(*b*) Two thirds of the sales of said supplies shipped from his inventories during the three preceding calendar months.

(ii) In the case of a supplier, located in any other time zone, an inventory (owned or consigned to him) of supplies of a total dollar value (by physical or book inventory, at the option of the supplier) equal either to

(*a*) Three times the sales of such supplies, shipped from his inventories, during the second preceding calendar month; or (at the option of the supplier);

(*b*) The sales of such supplies, shipped from his inventory, during the three preceding calendar months.

(b) *Limitation of supplier's inventories.* (1) Except as provided in paragraph (b) (3), (4), (5), and (6), no supplier shall accept any delivery of supplies from any person which will effect an increase in the inventories of the supplier above his maximum permissible inventory; and

(2) Except as provided in paragraph (b) (3), (4), (5) and (6), no person shall make to any supplier any delivery of supplies which such person knows or has reason to believe will effect an increase in such supplier's inventory of supplies above the supplier's maximum permissible inventory.

(3) The supplier in any time zone shall be permitted to purchase and store an amount of seasonal lines equal to those which he purchased in the peak period of a comparable period of the previous year, but this peak period shall not exceed ninety days.

(4) A supplier may accept delivery of supplies which will increase his stock above the maximum permissible inventory, if such supplier's inventory of supplies is at the time of delivery less than his maximum permissible inventory and the delivery is of the minimum quantity of such supplies that can be commercially procured.

(5) A supplier may accept delivery of specific items of supplies when his stock of all items in the aggregate exceeds, or will by virtue of such acceptance exceed, his maximum permissible inventory, but only to the extent necessary to bring such supplier's inventory of those specific items (owned or consigned to him) up to a total dollar value equal to the sales of such items shipped from such supplier's inventories during the preceding month.

(6) The Director General for Operations may, from time to time, exempt specified suppliers or classes of suppliers from the provisions of this order, subject to such restrictions as the Director General for Operations may impose.

(7) The provisions of this order shall not apply to any supplier:

(i) Whose total inventory at cost, including consigned stocks, of all supplies is less than $20,000.00, and;

(ii) Whose total inventory at cost of each type of supplies as set forth in paragraph (a) (1) of this order, is less than $10,000.00.

(c) *Provisions of other orders.* No provision of this order shall be construed to permit the accumulation of inventories of any item of material in contravention of the provisions of any other applicable order or orders issued by the War Production Board or heretofore issued by the Office of Production Management.

(d) *Appeals.* Any person affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may apply for relief to the War Production Board by telegram or letter setting forth the pertinent facts and the reason such person considers that he is entitled to relief.

(e) *Records and reports.* (1) Each supplier (other than those suppliers who are exempt from the provisions of this order pursuant to paragraph (b) (6) or (7)) shall, on or before the twentieth day of each month make proper entry of inventory (book or physical at cost), sales of direct shipments, sales from stock, and total sales of each type of supplies as set forth in paragraph (a) (1) of this order, during the previous calendar month on Form PD–336. This form must be retained for a period of at least two years for inspection by representatives of the War Production Board.

(2) The Director General for Operations may at any time call for these reports to be submitted to the War Production Board.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(g) *Communications.* All communications concerning this order shall be addressed to "War Production Board, Distributors' Branch, Washington, D. C., Ref.: L–63." (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 13th day of August 1942.

AMORY HOUGHTON,
Director General for Operations.

LIST A

The types of material set forth below are not deemed to be supplies within the meaning of paragraph (a) (1). Accordingly, these materials may be excluded from the monthly report required by paragraph (e), and are not subject to the inventory restrictions required by paragraph (b), provided that sales of such materials are not included in computing maximum permissible inventory as defined in paragraph (a) (6).

(1) All materials referred to in schedules A and B of § 962.3 (*General Preference Order M–21–b*, as amended from time to time);

(2) Materials made of aluminum, provided such materials were acquired by the supplier pursuant to allocation or other specific authorization of the Director of Industry Operations or the Director General for Operations of the War Production Board;

(3) Automobile and truck replacement parts as defined in:

(i) Section 1297.1 (c) (8), Limitation Order No. L–158, issued July 4, 1942; and

(ii) Section 983.4 (b) (4), Supplementary Limitation Order L–4–B, issued April 25, 1942;

(4) Functional replacement parts for machinery and equipment: *Provided,* That in no event shall the supplier accept delivery of any such parts where his inventory thereof is, or will by virtue of such delivery become in excess of six times his sales of such parts during the second preceding calendar month;

(5) Machinery or equipment which is purchased by the supplier at a cost per unit in excess of $500;

(6) Any material which is subject to rationing by the Office of Price Administration;

(7) The following building materials: Portland and natural cement, lime, gypsum and gypsum products, bituminous roofing materials, concrete pipe, cut stone, sand and gravel, crushed stone, clay products, insulation board, acoustical materials, mineral wool, paving materials, concrete products, glass, lumber, wooden mill work.

PART 1132—PRINTING INK

[Amendment 1 to Conservation Order M–53, as Amended June 29, 1942]

Paragraph (b) of § 1132.1 *Conservation Order M–53,*[1] as amended June 29, 1942 is hereby amended in the following respects:

1. Subparagraph (1) is amended by striking therefrom the words and figures, "Orange Mineral, 70%"

2. Subparagraph (4) is amended to read:

(4) Use any glycerol phthalate resins or phenolic resins for the production of any gloss ink, non-scratch ink or gloss overprint varnish; provided, however, that nothing contained in this paragraph (b) (4) shall restrict the use of varnishes containing such resins in the inventories of ink producers, printers, or manufacturers of varnishes for the printing ink industry, where such varnishes were manufactured prior to March 30, 1942, for use in the manufacture of printing ink.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub Laws 89 and 507, 77th Cong.)

Issued this 13th day of August 1942.

PART 1134—TEA

[Amendment 2 to Conservation Order M–111, as Amended May 1, 1942]

Section 1134.1 *Conservation Order M–111,*[1] as amended May 1, 1942, is hereby amended in the following respects:

1. Paragraph (e) is amended to read as follows:

(e) *Restrictions relating to wholesale receivers inventories.* Except as specifically authorized by the Director General for Operations, no wholesale receiver shall accept any deliveries of tea which will increase his inventory thereof to an amount in excess of a practicable minimum working inventory in view of the restrictions herein.

2. Paragraph (i) is amended by the addition of the following language:

* * * Within 10 days after the close of each quarterly period, every packer shall report, by letter, to the War Production Board the total quantity of any quota-exempt deliveries of tea made during that quarterly period by him in connection with each class of persons under paragraph (d) (4), as amended. The first such report shall be forwarded by October 10, 1942 for the quarterly period ending September 30, 1942.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 13th day of August 1942.

PART 1340—FUEL

[Amendment 5 to Maximum Price Regulation 121 [1]]

MISCELLANEOUS SOLID FUELS DELIVERED FROM PRODUCING FACILITIES

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Paragraphs (b), (c) (1) and (d) of § 1340.249 are amended to read as set forth below:

§ 1340.249 *Appendix A: Maximum prices for miscellaneous solid fuels delivered from producing facilities.* * * *

(b) If the maximum price cannot be determined under paragraph (a) of this section, the maximum price for the sale of miscellaneous solid fuel by a producer or distributor thereof shall be the "average price" charged by the same person during the period December 15–31, inclusive, 1941. This "average price" shall be determined by dividing into the aggregate of the prices charged by such person during December 15–31, inclusive, 1941 (before the deduction of any allowances or discounts or the addition of any special service charges), the aggregate of the tonnage sold by such person during December 15–31, inclusive, 1941, on sales of:

(1) The same size, kind and quality of solid fuel;

(2) In similar quantities;

(3) To purchasers of the same general class (e. g. domestic, commercial, industrial);

(4) By the same method of delivery (e. g. truck, rail, etc.); and

(5) Under the same terms of delivery (e. g. delivered to purchaser or f. o. b. transportation facilities at the mine, preparation plant, coke oven or briquette plant, etc.).

(c) (1) If the maximum price cannot be determined under paragraphs (a) or (b) of this section, the maximum price for the sale of miscellaneous solid fuel by a producer or distributor thereof shall be the price of any other competitive producer or distributor in the same locality for the sale of miscellaneous solid fuel as specified in the last price circular, list or schedule issued by such person on or before December 31, 1941 and in effect during any portion of the period December 15–31, inclusive, 1941. This shall be the price so specified for the sale of:

(i) The same size, kind and quality of miscellaneous solid fuel;

(ii) In quantities taking the same price per ton;

(iii) To purchasers of the same general class (e. g. domestic, commercial, industrial);

(iv) By the same method of delivery (e. g. truck, rail, etc.); and

(v) Under the same terms of delivery (e. g. delivered to the purchaser or f. o. b. transportation facilities at the mines, preparation plant, coke oven or briquette plant, etc.)

* * * * *

(d) Where a miscellaneous solid fuel is sold f. o. b. a mine or preparation plant operated as an adjunct of a mine or mines, or a coke oven or briquette plant, and is delivered therefrom in any transportation facilities owned or subject to the control of the producer or a distributor thereof, or in any transportation facilities hired by the producer or a distributor thereof, there may be added to the maximum prices established by this Maximum Price Regulation No. 121 a sum not exceeding the actual transportation costs incurred, determined in a reasonable manner, but in no event to exceed the lowest common carrier rate for a haul between the same points.

§ 1340.250a *Effective dates of amendments.* * * *

(e) Amendment No. 5 (§ 1340.249 (b), (c) (1) and (d)) to Maximum Price Regulation No. 121 shall become effective August 18 1942.

PART 1345—COKE

[Amendment 2 to Revised Price Schedule 77 [1]]

BEEHIVE OVEN FURNACE COKE PRODUCED IN PENNSYLVANIA

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1345.51 is amended, and a new section, § 1345.51a, is added, as set forth below:

§ 1345.51 *Maximum delivered prices for beehive oven furnace coke produced in Pennsylvania.* Except as hereinafter provided, on and after January 26, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer, beehive oven furnace coke produced in Pennsylvania to any consumer, and no consumer shall buy, offer to buy or accept delivery of beehive oven furnace coke produced in Pennsylvania at a delivered price higher than $6.00 per net ton f. o. b. cars ovens, plus the transportation charges from Connellsville, Pennsylvania, to the place of delivery as customarily computed: *Provided*, That on and after August 12, 1942, subject to the conditions hereinafter set forth, in any operation in which ovens are hand-drawn and the total coal supply for such hand-drawn ovens is necessarily trucked from the mine to the ovens, the maximum delivered price shall be $6.50 per net ton f. o. b. cars ovens, plus the transportation charges from Connellsville, Pennsylvania, to the place of delivery as customarily computed, subject however to the express conditions that a seller of any such coke who intends to charge a price higher than $6.00 per net ton f. o. b. cars ovens shall file with the Office of Price Administration, within seven days after first charging such higher price, an affidavit stating the name, ownership, size and average monthly production of the operation, whether part or all of the ovens are hand-drawn, the distance and place from which the coal must be trucked and whether or not all of the coal is so trucked.

§ 1345.51a *Maximum selling commissions or charges.* On and after August 12, 1942, regardless of the terms of any contract or other commitment, selling commissions or charges for the sale of beehive oven furnace coke produced in Pennsylvania shall not exceed $.25 per net ton.

§ 1345.61 *Effective dates of amendments.* * * *

(b) Amendment No. 2 (§§ 1345.51, 1345.51a, 1345.61) shall become effective August 12, 1942.

PART 1351—FOOD AND FOOD PRODUCTS

[Amendment 3 to Revised Price Schedule 50 [1]]

GREEN COFFEE

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Amended: 1351.1 (a), (b) (1), (c).

§ 1351.1 *Maximum prices for green coffee.* (a) On and after December 11, 1941, no person shall sell, offer to sell, deliver or transfer green coffee, and no person shall buy, offer to buy, or accept delivery of green coffee at prices higher than the maximum prices; except that

(1) Contracts entered into prior to December 11, 1941, providing for a price higher than the maximum prices may be carried out at the contract price.

(2) Contracts entered into prior to August 12, 1942, calling for delivery on or after that date, providing for a price higher than the maximum prices because of a bona fide error or misunderstanding as to customary trade differentials in effect prior to December 8, 1941, between types and grades of green coffee may be carried out at the contract prices: *Provided*, That the seller shall report the terms of any such contract to the Office of Price Administration, Washington, D. C., on or before September 11, 1942.

(3) Special coffee agreements now or hereafter entered into with Commodity Credit Corporation (United States Department of Agriculture, 1942, C. C. C., Coffee Form 1) providing for a price higher than the maximum prices may be carried out at the contract price.

(b) The maximum prices shall include all commissions and all other charges; except that (1) *Ocean freight, war risk insurance and marine insurance:*

(i) *Special lots of green coffee for which an onboard bill of lading was signed prior to 12:01 A. M. July 2, 1942.* Increases in the charges prevailing prior to the opening of business on December 8, 1941, for ocean freight, war risk insurance and marine insurance may be added to the maximum prices for such green coffee if such charges were actually incurred by the seller. Decreases in said charges prevailing prior to the opening of business on December 8, 1941, must be subtracted from the maximum prices for such green coffee.

(ii) *Special lots of green coffee for which an onboard bill of lading was signed after 12:01 A. M. July 2, 1942.* Increases in the charges prevailing prior to the opening of business on December 8, 1941, for freight, war risk insurance, and marine insurance may not be added to the maximum prices for such green coffee, except that increases in said charges may be added to the maximum prices in the case of sales to the War Department of the United States of America.

* * * * *

(c) The maximum prices for all types and grades of green coffee shall be as follows:

In all cases the above descriptions apply to the best quality of each type and grade mentioned. The maximum prices designated by (*) were established by Amendment No. 2 to Price Schedule No. 50,[2] which was issued on December 27, 1941 and became effective December 29, 1941. The maximum prices not designated by (*) are established by this Amendment No. 3 to Revised Price Schedule No. 50. The maximum prices for green coffee imported from any other country, or for grades of poorer quality or other descriptions than those named, shall be determined by applying the customary trade differentials in effect prior to December 8, 1941 to the maximum prices specifically set forth in this paragraph.

For aged grades of "extra superior" quality, or for imports from any country of limited amounts of coffee, markedly superior to the best grade listed for that country, a premium may be added to the maximum price listed for the corresponding grade, providing such premium is commensurate with trade practices prevailing prior to December 8, 1941.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Amendment 1 to Ration Order 5 B [1]]

Section 1394.2751 and paragraph (b) of § 1394.2703 are hereby repealed, § 1394.2752 is redesignated § 1394.2751; two new sections, §§ 1394.2752, and 1394.3052 (a), and two new paragraphs (b) and (c) of § 1394.2851 are added; and §§ 1394.2251, 1394.2304 (b), 1394.2305 (a), 1394.2306 (a) and (l), 1394.2354 (b), 1394.2404 (a), 1394.2405 (a) (2), 1394.2653 (a), 1394.2804 (a), and 1394.2805 (a), are amended, as set forth below.

Basic Rations

§ 1394.2251 *Persons entitled to basic rations.* (a) The owner or the person entitled to the use of a licensed passenger automobile or a licensed motorcycle may obtain during the period from July 22, 1942 to January 31, 1945 a basic ration for use with such vehicle, except that no basic ration shall be issued for use with a passenger automobile or motorcycle which is:

(1) A public car, taxi, or vehicle available for public rental.

(2) Owned or leased by a Federal, Insular, municipal, or foreign government or government agency.

(3) Specially built or rebuilt as an ambulance or hearse.

(4) Part of a fleet of passenger automobiles or motorcycles; or

(5) Held by a motor vehicle dealer for sale or resale.

Supplemental Rations

§ 1394.2304 *Allowance of mileage.* • • •

(b) Upon the basis of the application and such other facts as the Board may require, the Board shall allow mileage for any of the purposes listed in § 1394.2303 (b) for which the applicant has applied, with respect to which the applicant has established the facts required by paragraph (a) hereof. In the absence of a ride-sharing arrangement the Board shall allow only that portion of the claimed mileage with respect to which the applicant has established the inadequacy of alternative means of transportation in accordance with paragraph (a) (2) (ii) of this section. The Board shall then allow the applicant an average occupational mileage per month required by the applicant: *Provided*, That the Board shall not allow an average of more than 256 miles per month for a passenger automobile, or more than 280 miles per month for a motorcycle, for occupational mileage unless the mileage in excess of such 256 miles or 280 miles per month consists of preferred mileage as defined in § 1394.2306 The total occupational mileage allowed any applicant shall not exceed 576 miles per month for a passenger automobile, or 560 miles per month for a motorcycle.

• • • • • •

§ 1394.2305 *Issuance of supplemental rations.* (a) Supplemental rations shall be issued to provide the total mileage allowed by the Board in accordance with § 1394.2304 for the unexpired portion of the ration period for which the ration book issued is valid.

(1) In the case of a passenger automobile the Board shall issue:

(i) In the event that the occupational mileage allowed by the Board is 256 miles per month or less, sufficient coupons in one Class B book to provide the gallonage determined by the Board to be necessary for the mileage allowed for the three-month ration period. For the purpose of determining the gallonage necessary for such mileage the Board shall conclusively presume that a passenger automobile obtains an average of 12 miles per gallon.

(ii) In the event that the mileage allowed by the Board pursuant to §§ 1394.2304 and 1394.2306 exceeds 256 miles per month, sufficient coupons in one Class C book to provide the gallonage determined by the Board to be necessary for the mileage allowed for the three-month ration period. For the purpose of determining the gallonage necessary for such mileage the Board shall conclusively presume that a passenger automobile obtains an average of 12 miles per gallon.

(2) In the case of a motorcycle, the Board shall issue sufficient coupons in not more than two Class D books, if the mileage allowed is 280 miles or less per month, or in not more than four Class D books, if the mileage allowed is more than 280 miles per month, to provide the gallonage determined by the Board to be necessary for the six-month ration period. Each such book shall be marked "Supplemental". For the purpose of determining the gallonage necessary for such mileage the Board shall conclusively presume that the motorcycle obtains 35 miles per gallon.

§ 1394.2306 *Preferred mileage.* The mileage driven, in a passenger automobile or motorcycle, necessary for carrying out one or more of the following purposes shall be deemed preferred mileage:

(a) By a duly elected or appointed agent, officer, representative, or employee of a Federal, insular, municipal, or foreign government or government agency for performing the official business or carrying out an official function of such government or government agency in a passenger automobile or motorcycle not owned or leased by such government or government agency.

• • • • • •

(l) By traveling salesmen engaged in the sale of necessary productive equipment for farms, factories, mines, and similar productive or extractive establishments, or of medical supplies, if the marketing of such equipment or supplies by salesmen is essential to the war effort.

Fleet Rations (for Fleet Passenger Automobiles and Motorcycles)

§ 1394.2354 *Allowance of mileage.* • • •

(b) Subject to the provisions of paragraph (a) of this section, the Board shall allow the total average mileage per month determined by it to be required in the pursuit of an occupation, and shall issue a ration in accordance with the provisions of §1394.2355 to provide such mileage: *Provided*, That the Board shall not allow more than 256 miles per month for any passenger automobile, nor an average of more than 256 miles per month per automobile for any group of passenger automobiles, nor shall it allow more than 280 miles per month for a motorcycle, nor an average of more than 280 miles per month per motorcycle for any group of motorcycles, unless such excess mileage consists of preferred mileage as defined in § 1394.2306. The total occupational mileage allowed to any applicant shall not exceed 576 miles per month per passenger automobile nor more than 560 miles per month per motorcycle.

Service Rations

§ 1394.2404 *Application for service ration.* (a) Application for a service ration may be made to a Board by the owner or the person entitled to the use of the vehicle, or the agent of either of them, on and after July 22, 1942, on Form OPA PRR-3. One application form may be used for all vehicles for which the applicant seeks a service ration.

[1] 7 F.R. 3195, 3892, 4179, 5812.

[2] 7 F.R. 5607.

§ 1394.2405 *Issuance of service rations.* (a) Service rations shall be issued to eligible applicants in the manner indicated below:

* * * * *

(2) Government Passenger Automobiles and Motorcycles: Sufficient coupons in not more than one S–1 book for an automobile, or in not more than four Class D books, each marked "Service," for a motorcycle, or bulk coupons, if bulk coupons are requested, to provide the gallonage necessary for the minimum mileage required during the five-month ration period, in the case of an automobile, or the six-month ration period, in the case of a motorcycle, solely for the performance of official government business. For the purpose of determining the gallonage necessary for the mileage allowed vehicles pursuant to this paragraph, the Board shall conclusively presume that the automobile is operated an average of 12 miles per gallon, and the motorcycle, 35 miles per gallon.

Restrictions on Use of Rations and Gasoline

§ 1394.2653 *Change of occupation of holder of Class C ration.* (a) The holder of a Class C ration (or of a Class D ration based on allowed mileage in excess of 280 miles per month) shall report to the issuing Board any change in the principal occupation for the pursuit of which such ration was issued. Such report shall be transmitted to the Board within five (5) days after such change and shall describe fully the nature of the new occupation, the exact type of work performed, the business or industry in which such work is performed, and the purpose, if any, for which the motor vehicle will be used in such new occupation. If, on the basis of such report, the Board finds that such motor vehicle will no longer be used for a preferred purpose listed in § 1394.2306, it shall notify such holder, in writing, that his right to such ration is to be re-examined. Such notice shall be mailed to such holder at the address shown on his application (or at the address shown on his report), and shall require him to file a new application for a ration within ten (10) days after the mailing date shown on such notice. If no new application is filed within such time, the Board shall revoke such ration and shall recall all Class C books or coupons (or Class D books or coupons based on allowed mileage in excess of 280 miles per month) issued in connection therewith. If a new application is filed, and if the Board determines that the motor vehicle will be used for a preferred purpose listed in § 1394.2306, it shall take no further action. If the Board finds that the vehicle will no longer be used for a preferred purpose listed in § 1394.2306, it shall revoke the ration and recall the coupons or coupon book originally issued and shall issue, in lieu thereof, such ration if any, as it determines that the holder is entitled to receive on the basis of his new application.

General Provisions With Respect to Issuance of Gasoline Rations

§ 1394.2752 *Temporary certification in lieu of license certificate.* (a) If the license certificate of any applicant is held at the time of application for a ration book by the Department of Interior of the Insular Government, such person may obtain a ration book by certifying in writing to such fact. A ration book so issued shall be invalid, and shall be surrendered to the Board, within two weeks after issuance unless the license certificate or a duplicate thereof is presented to the Board.

Expiration and Revocation of Rations

§ 1394.2804 *Denial of gasoline rations* (a) No person whose name has been recorded by a Board, in accordance with the provisions of § 1394.2806 (c) for refusal to surrender a gasoline ration book upon direction of the Board, or for failure or refusal, without good cause shown, to appear before such Board for examination, shall be entitled to obtain a ration of any type under Ration Order No. 5 B while his name remains thus recorded.

§ 1394.2805 *Suspension and revocation of rations.* (a) All coupon books, bulk coupons and inventory coupons issued shall remain the property of the Office of Price Administration. The Director of the Office of Price Administration for Puerto Rico may suspend, cancel, revoke, or recall any ration, and may require the surrender and return of any coupon book, bulk coupon or inventory coupons during suspension or pursuant to cancellation, whenever he deems it to be in the public interest to do so.

Restrictions on Transfers

§ 1394.2851 *Restrictions on transfer to consumers.* * * *

(b) No dealer shall transfer gasoline to a consumer on August 1, 1942, or August 2, 1942.

(c) On or after August 3, 1942, no dealer shall transfer gasoline to a consumer between the hours of 6 p. m. on any day and 8 a. m. on the following day, nor between the hours of 1 p. m. on a Saturday and 8 a. m. on the following Monday.

Replenishment and Audit

§ 1394.2901 *Registration of inventory and capacity.* (a) No dealer or intermediate distributor having a place of business in Puerto Rico shall make or receive any transfer of gasoline between the hours of 4 p. m. and midnight on July 31, 1942. During such hours every dealer shall take an actual physical inventory of his total gasoline supplies on hand and shall register, on Form OPA R–545, in duplicate, with the Board having jurisdiction of the area in which he has such place of business, at the hours provided by the Board, the following matters, together with such other information as may be required:

(1) His total inventory of gasoline on hand as of the close of business on July 31, 1942;

(2) His total gasoline storage capacity;

(3) His name, firm name, business address, and type of business;

(4) A certification as to the correctness of each of the foregoing items of information.

Separate registration shall be made by such dealer or intermediate distributor for each place of business in Puerto Rico where gasoline is transferred, and shall be made at each respective Board having jurisdiction of the area in which each such place of business is located.

Effective Dates

§ 1394.3052 *Effective Dates of Amendments.* (a) Amendment No. 1 to Ration Order No. 5 B (§§ 1394.2251; 1394.2304 (b); 1394.2305 (a); 1394.2306 (a) and (1); 1394.2354 (b); 1394.2404 (a); 1394.2405 (a) (2); 1394.2653 (a); 1394.2703 (b); 1394.2751; 1394.2752; 1394.2804 (a); 1394.2805 (a); 1394.2851 (b) and (c); and 1394.3052 (a) shall become effective July 27, 1942.

(Pub. No. 617, 76th Cong., 3rd sess., as amended by Pub. No. 89, 77th Cong., 1st sess., and by Pub. No. 507, 77th Cong., 2nd sess., Pub. No. 421, 77th Cong., 2nd sess., WPB Directive No. 1, Supp. Dir. No. 1 J, OPA Administrative Order 18, 7 F.R. 5148.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Amendment 2 to Ration Order 5B [1]]

GASOLINE RATIONING REGULATIONS FOR PUERTO RICO

A new section, § 1394.2407, and two new paragraphs, paragraph (b) of § 1394.2913 and paragraph (b) of § 1394.3052, are added; and §§ 1394.2306 (k) and (l), 1394.2406 (a); and 1394.2601, are amended, as set forth below:

Supplemental Rations

§ 1394.2306 *Preferred mileage.* The mileage driven, in a passenger automobile or motorcycle, necessary for carrying out one or more of the following purposes shall be deemed preferred mileage:

* * * * *

(k) By a worker (including an executive, technician, or office worker, but not including salesmen) or by an employer, employer's representative or representative of a labor organization in travel to, from, within, or between the establishments or facilities listed below, for purposes necessary to the operation or functioning of such establishments or facilities or to the maintenance of peaceful industrial relations therein:

* * * * *

(2) Establishments or facilities of common carriers; or of other carriers performing services essential to the community or to the war effort; or of plants or establishments engaged in the production or distribution of heat, light, power, petroleum products, gas, steam or water; or of irrigation, drainage, flood-control or sanitation systems; or of telephone, telegraph, radio or other communications systems; or of newspapers.

* * * * *

(l) By traveling salesmen engaged in the sale of necessary productive equipment for farms, factories, mines, and similar productive or extractive establishments, of medical supplies, or of petroleum products, if the marketing of such equipment or supplies by salesmen is essential to the war effort.

Service Rations

§ 1394.2406 *Issuance of essential service rations to trucks.* (a) On or after August 15, 1942, a Board, in its discretion, may issue one or more additional S–1 books, in the case of light trucks, and one or more additional S–2 books, in the case of heavy trucks, for any truck the principal use of which is made in one or more of the following essential services:

* * * * *

(12) To deliver newspapers wholesale.

§ 1394.2407 *Issuance of temporary Class S–1 Certificate.* (a) Notwithstanding any other provisions of Ration Order No. 5B, a Board may issue, in lieu of one Class S–1 Book, whenever a Class S–1 Book is not available, a Temporary Class S–1 Coupon Certificate (Form OPA PRR–10), valid only until August 15, 1942.

(b) Every Temporary Class S–1 Coupon Certificate issued pursuant to paragraph (a) of this section shall be surrendered to the Board upon issuance of the regular Class S–1 Book in lieu of which such Coupon Certificate was originally issued. The Board shall remove from the Class S–1 Book issued at least a number of S coupons equal to the number of units which had been detached from the Coupon Certificate at the time of its surrender to the Board.

Gallonage Value of Coupons

§1394.2601 *Value of coupons.* (a) Each gasoline ration coupon of the class herewith designated shall have the following value in gallons of gasoline:

Class:	
A	1
B	4
C	1½
D	½
E	3
R	10
S-1	3
S-2	8

Replenishment and Audit

§ 1394.2913 *Exchange of coupons for certificates.* * * *

(b) The Director of the Office of Price Administration for Puerto Rico may require any dealer or intermediate distributor to exchange all coupons of any class or classes held by such dealer or intermediate distributor for exchange certificates, inventory coupons, or other evidences of gallonage value within 24 hours after announcement of an alteration in the unit value of coupons pursuant to the provisions of § 1394.2501 (b).

Effective Date

§ 1394.3052 *Effective date of amendments.* * * *

(b) Amendment No. 2 to Ration Order No. 5 B (§§ 1394.2306 (k) and (l); 1394.2406; 1394.2407; 1394.2601; 1394.2913 (b); and 1394.3052 (b)) shall become effective July 29, 1942.

Issued this 29th day of July 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 56 under § 1499.3 (b) of the General Maximum Price Regulation [1]]

NICKEL ANODES FOR NICKEL PLATING

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register,* and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and § 1499.3 (b) of the General Maximum Price Regulation, it is hereby ordered that:

§ 1499.270 *Maximum price at which any seller, other than a seller at wholesale or retail, may sell new or partly used nickel anodes for nickel plating purposes if such seller is unable to determine a maximum price under § 1499.2 of the General Maximum Price Regulation.* (a) On and after August 13, 1942, any person, other than a seller at wholesale or retail, having any new or partly used nickel anodes for which he is unable to determine a maximum price under § 1499.2 of the General Maximum Price Regulation, may sell and deliver such new or partly used nickel anodes to any person authorized by the Director General for Operations, War Production Board, to purchase such new or partly used nickel anodes for nickel plating purposes or for resale for nickel plating purposes, and any such person may purchase for nickel plating purposes, or for resale for nickel plating purposes, such new nickel anodes at a price not in excess of 46¢ per pound (weight without hooks) f. o. b. seller's place of business and such partly used nickel anodes at a price not in excess of 43¢ per pound (weight without hooks) f. o. b. seller's place of business. Nothing contained in this section shall supersede or modify the provisions of Revised Price Schedule No. 8 [2] or any amendment thereto.

(b) This Order 56 may be revoked or amended by the Price Administrator at any time.

Chapter XIII—Office of Petroleum Coordinator for War

[Recommendation No. 41]

PART 1504—PROCESSING AND REFINING

CATALYTIC CRACKING AND HYDRO CATALYTIC REFORMING

To Shell Development Company, Standard Catalytic Company, Standard Oil Development Company, Texaco Development Corporation, Standard Oil Company (Indiana), Universal Oil Products Company, The M. W. Kellogg Company, and their respective affiliated companies:

The above-named companies have represented that they have exchanged technical data and information and have cooperated in the development of new and efficient catalytic refining processes including a continuous catalytic cracking process using a so-called fluid catalyst (hereinafter called the "Catalytic Cracking Process") and a catalytic reforming process carried out in the presence of hydrogen (hereinafter called the "Hydro Catalytic Reforming Process") which are now available for commercial use and other catalytic refining processes closely related thereto which are rapidly approaching the stage of development where they will be available for commercial use by the petroleum industry; that they have patent rights pertaining to such processes and are in a position to license the Catalytic Cracking Process and the Hydro Catalytic Reforming Process to the petroleum industry and to assist the industry in making use of such processes.

They have further represented that these processes will increase the quantity, as well as improve the quality, of high octane aviation gasoline, will increase the quantity of toluene and will produce raw materials suitable for use in the production of butadiene; and that they are willing materially to reduce the royalty rates heretofore established for such processes in so far as such processes are used in connection with the war program.

Therefore, pursuant to the President's letter of May 28, 1941 establishing the Office of Petroleum Coordinator for War, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1504.52 to 1504.54, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1504.52 *Designs and plants.* Shell Development Company, Standard Catalytic Company, Standard Oil Development Company, Texaco Development Corporation, Standard Oil Company (Indiana), Universal Oil Products Company, The M. W. Kellogg Company, and their respective affiliated companies, or any of them, shall negotiate a cross-license and licensing arrangement and carry forward their cooperative research and development work with respect to the Catalytic Cracking Process, the Hydro Catalytic Reforming Process and the related catalytic refining processes above mentioned; and, with respect to such processes as now are or shall become available for commercial use, shall standardize the design, construction, and operation of plants adapted to operate such processes, so far as possible and consistent with the present need for saving critical materials, shall make available to the petroleum refining industry, directly or through agents and engineering contractors, all preliminary information and data to enable any petroleum refiner to obtain prompt and reliable estimates and bids, and, shall make available to any petroleum refiner licensed under the patent rights of the above-named companies for such processes or any of them all information required in connection with the construction and operation of licensed plants: *Provided*, That no such cross-license and licensing arrangement shall become operative until it has been specifically approved by the Chief Counsel of the Office of Petroleum Coordinator for War and certified by the Chairman of the War Production Board pursuant to section 12 of Public Law No. 603, 77th Congress.

§ 1504.53 *Licenses.* The terms and conditions in any license for any of such processes, to be issued under the collective patent rights under any cross-license or licensing arrangement developed pursuant to § 1504.52 of this chapter, shall be negotiated in the usual manner between the licensor and licensee, shall be subject to the approval of Chief Counsel of the Office of Petroleum Coordinator for War, and, among other things, shall not provide any royalty rate in excess of that approved by the Office of Petroleum Coordinator for War with respect to all products produced and sold, prior to the expiration of six months after the termination of the present war, to the Government of the United States, any duly authorized agency thereof, or, upon the written request of the Government of the United States, to any other purchaser designated in writing by the Government of the United States, shall provide that the licensor shall defend the licensee at the licensor's own cost and expense and shall indemnify and hold such licensee harmless against patent infringement suits brought by others up to the extent of the royalties received under the license from the licensee, and, shall contain a most-favored-licensee clause and suitable definitions.

§ 1504.54 *Scope.* §§ 1504.52 and 1504.53 of this chapter do not grant any exclusive right, privilege, or interest to any of the parties named herein or in the development or licensing of any of the processes referred to herein and do not constitute any judgment in favor of or against the value or merits of any patent rights involved or sanction the doing of any act or thing or the omission to do any act or thing beyond such as may be set forth in said sections or alter, modify or amend any of the provisions of the Consent Decree entered in the District Court of the United States for the District of New Jersey on March 25, 1942 in the case of United States of America v. Standard Oil Company (New Jersey) et al.

[Recommendation No. 48]

PART 1504—PROCESSING AND REFINING

WAR PROCESSES

To those persons, natural or artificial, owning or controlling technical information pertaining to processes which are necessary or useful in producing aviation gasoline, alcohols, benzene, toluene and other materials necessary or useful in the war, which are manufactured or otherwise obtained from petroleum and petroleum hydrocarbons.

The successful prosecution of the war depends in no small degree upon the technical skill and ingenuity exercised by the petroleum industry in the production of aviation gasoline, alcohols, benzene, toluene and other necessary or useful materials, which are manufactured or otherwise obtained from petroleum and petroleum hydrocarbons. Recognizing this fact, certain members of the petroleum refining industry have offered their respective patent rights and technical information pertaining to such processes. However, this Office deems it essential to collect the pertinent information as to certain processes wherever available in the entire petroleum refining industry and to direct exchanges thereof to make possible the largest saving of critical materials in new construction, the maximum utilization of existing facilities, the most efficient design or adaptation of plants to produce war products and the quickest procurement of required amounts of such products.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1504.60 to 1504.63, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1504.60 *War processes.* Each person, natural or artificial, owning or controlling technical information pertaining to processes necessary or useful in producing aviation gasoline, alcohols, benzene, toluene, and other materials necessary or useful in the war, which are manufactured or otherwise obtained from petroleum and petroleum hydrocarbons, which can contribute to the furtherance of the war program, shall furnish this Office, if, as and at the time requested by this Office, with a typical detailed flow sheet for each such process so indicated setting forth thereon the pertinent data and information necessary or useful in an understanding thereof, with a detailed statement of typical results on typical charging stocks charged to such process and with such further technical information as may be designated from time to time by this Office.

§ 1504.61 *Licenses.* Any license that may be issued for any process referred to in § 1504.60 of this chapter, covering the operation of any war plant, during the period that the United States of America is at war or during the period of the existing National Emergency as declared by the President to exist by his proclamation dated May 27, 1941, whichever period is the longer, shall contain terms and conditions subject to the approval of Chief Counsel of the Office of Petroleum Coordinator for War and shall not provide any rate or rates of royalty in excess of those recommended by this Office. The operator of any war plant shall be entitled to the issuance to him upon request of such a license covering his operation of such war plant.

§ 1504.62 *Exchange of technical information.* Each person, natural or artificial, referred to in § 1504.60 of this chapter shall exchange technical data and information in the field of such process, if, as and at the time requested by this Office, with any other such person having a similar or complementary process, upon such terms and conditions and to such extent and for such time as this Office may from time to time direct and approve, so that pertinent information can be sent to those persons, natural or artificial, indicated by this Office, for application to the design, construction or operation of war plants or to other matters necessary or useful in furthering the war program.

Each party to any such exchange and any party receiving any information thereunder shall agree that it will not, during the period that the United States of America is at war or during the period of the existing National Emergency declared by the President to exist by his proclamation dated May 27, 1941, whichever period is the longer, with respect to any war plant receiving technical data or information involved in any such exchange, bring or cause to be brought any action or suit for infringement of patents against any other such party or against the licensees of any such party to any such exchange or against any party receiving any information hereunder pursuant to the approval of this Office, such agreement being without prejudice to the right of any party to bring or cause to be brought, after such period, any action or suit for infringement, if any, which may have been committed.

Neither any agreement concerning any such exchange of technical data and information nor any agreement as to any cross-license or licensing arrangement that may be entered into by any party as a result of action pursuant to §§ 1504.60 to 1504.62, inclusive, of this chapter, shall become operative until it has been specifically approved by the Chief Counsel of the Office of Petroleum Coordinator for War and certified by the Chairman of the War Production Board pursuant to Section 12 of Public Law No. 603, 77th Congress.

Nothing in §§ 1504.60 to 1504.62, inclusive, of this chapter, shall be construed to alter, modify or amend the provisions of the Consent Decree entered in the District Court of the United States for the District of New Jersey on March 25, 1942 in the case of United States of America v. Standard Oil Company (New Jersey) et al.

§ 1504.63 *Committees.* Any committee, sub-committee, or person appointed by the Office of Petroleum Coordinator for War, shall be empowered to work with any other committee, sub-committee or person designated by this Office, for the purpose of assisting the representatives of this Office in the study and determination of methods, materials and mechanisms to achieve the intendment of §§ 1504.60 to 1504.62, inclusive, of this chapter, and further, to assist such representatives in such execution thereof as may be required.

HAROLD L. ICKES,
Deputy Petroleum Coordinator for War.

TITLE 46—SHIPPING

Chapter II—Coast Guard: Inspection and Navigation

AMENDMENTS TO REGULATIONS AND APPROVAL OF EQUIPMENT

Subchapter O—Regulations Applicable To Certain Vessels and Shipping During Emergency

PART 155—LICENSED OFFICERS AND CERTIFICATED MEN; REGULATIONS DURING EMERGENCY

By virtue of the authority vested in me by R.S. 161, 4405, 4438, 4439, 4440, 4441, 4442, 4488, 4491, as amended, 49 Stat. 1544, (5 U.S.C. 22, 46 U.S.C. 375, 224, 226, 228, 229, 214, 481, 489, 367) and Executive Order 9083, dated February 28, 1942 (7 F.R. 1609), the following amendment to the emergency regulations and approval of miscellaneous items of equipment for the better security of life at sea, are prescribed:

Part 155 is amended by the addition of a new § 155.12, reading as follows:

§ 155.12 *Original licenses.* The following provision is, during the emergency, applicable as alternative qualifying experience to that provided by

§§ 36.1–1[1], 62.1[2], 78.1, 96.1, and 115.1 of this chapter:

(a) Before an original license is granted to any person to act as master, mate, pilot, or engineer, he shall personally appear before some board of local inspectors for examination. Any person who has attained the age of 21 years and is qualified in all other respects shall be eligible for examination: *Provided*, That license as third mate, third assistant engineer, or second-class pilot may be granted to applicants who have reached the age of 19 years, and that license as second mate or second assistant engineer may be granted to applicants who have reached the age of 20 years and are qualified in all other respects: *Provided, further*, That no such license as second mate or second assistant engineer may be raised in grade before the holder thereof shall have reached the age of 21 years.

MISCELLANEOUS ITEMS OF EQUIPMENT APPROVED

The following miscellaneous items of equipment for the better security of life at sea are approved:

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order No. 105]

COMMON CARRIERS BY WIRE OR RADIO

INFORMATION TO BE FILED

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of August 1942;

The Commission desiring to obtain full and complete information necessary to the proper administration of its duties under the Communications Act of 1934, as amended, pertaining to the proper keeping of accounts, records and memoranda of carriers;

It is ordered, That each and every common carrier by wire or radio to which this Commission's accounting regulations (including those in force under the provisions of section 604 (a) of the Communications Act of 1934, as amended) are applicable shall file with this Commission, under oath, not later than September 10, 1942, the following information:

(1) The name and title of the individual responsible (at the date of filing the response hereto) for compliance by the filing carrier with such accounting regulations, together with the date such individual was made thus responsible;

(2) The name and title of each and every other individual responsible for compliance by the filing carrier with such accounting regulations at any time between July 11, 1934, and the date of filing the response hereto, both dates inclusive, together with the respective beginning and concluding dates of the period during which each such individual was thus responsible;

(3) With respect to each individual named in response to the foregoing paragraphs (1) and (2), the source of the assignment, or the delegation, of responsibility to him for compliance with such regulations (such as, e. g., by-laws, resolution of the board of directors, or special action of the stockholders); together with a certified copy of the instrument or other evidence of action, if any, establishing such responsibility; and

(4) With respect to each individual named in response to the foregoing paragraphs (1) and (2), the name of the group or individual to whom he is or was responsible (such as, e. g., stockholders, board of directors, executive committee, chairman of the board, or president) under the provisions of the instrument establishing such responsibility;

It is further ordered, That a supplemental response shall be filed setting forth all the information called for by the foregoing requirements with respect to each new individual to whom the aforementioned responsibility may be assigned or delegated at any time after the filing of the original response hereto, such supplemental filing to be made not more than five (5) days after such new assignment or delegation;

It is further ordered, That references to the information appearing in the annual reports to the Commission (such as Forms M, O, and R) shall be deemed not to be responsive to this order.

By the Commission.

NOTE: This part, effective September 15, 1942, supersedes former §§ 1.1 to 1.23, inclusive, and also supersedes parts 5 and 6 in their entirety.

GENERAL INFORMATION

§ 1.1 *Scope of rules.* These general rules govern procedure before the Interstate Commerce Commission in proceedings under the Interstate Commerce Act and related acts, unless otherwise directed by the Commission in any proceeding.

§ 1.2 *Liberal construction.* These rules shall be liberally construed to secure just, speedy, and inexpensive determination of the issues presented.

§ 1.3 *Information; special instructions.* Information as to procedure under these rules, and instructions supplementing these rules in special instances, will be furnished upon application to the Secretary of the Commission, Washington D. C.

§ 1.4 *Communications and pleadings generally*—(a) *How addressed.* All communications, including correspondence concerning matters referred to boards, should be addressed to the Commission unless otherwise specifically directed.

(b) *Timely filing required.* Pleadings, requests, or other papers or documents required or permitted to be filed under these rules must be received for filing at the Commission's offices at Washington D. C., within the time limits, if any, for such filing. The date of receipt at the Commission and not the date of deposit in the mails is determinative.

(c) *Disposition of, when defective.* In any proceeding when upon inspection the Commission is of the opinion that a pleading, document, or paper tendered for filing does not comply with these rules, or, if it be an application, does not sufficiently set forth required material or is otherwise insufficient, the Commission may decline to accept the pleading, document, or paper for filing and may return it unfiled, or the Commission may accept it for filing and advise the person tendering it of the deficiency and require that the deficiency be corrected.

(b) *Objectionable matter.* The Commission may order, any redundant, immaterial, impertinent, or scandalous matter stricken from any pleading.

§ 1.5 *Definitions.* As used in these rules:

(a) The terms "act" and "part" mean the Interstate Commerce Act and the several parts thereof, respectively. The term "act" also means, unless the context otherwise indicates, any other statute which the Commission administers in whole or in part.

(b) The term "proceeding" shall include: (1) an informal or formal "complaint" alleging violation of any provision of the act or of any regulation or requirement made pursuant to a power granted by such act, including petitions on the special docket; (2) an "application" for (i) the granting of any right, privilege, authority, or relief under or from any provision of the act or of any regulation or requirement made pursuant to a power granted by such act, or (ii) the consideration of any submission required by law to be made to the Commission; and (3) an "investigation" instituted or requested to be instituted by the Commission, including, among other, matters on the valuation and investigation-and-suspension dockets.

(c) The term "complainant" means a person filing a complaint; "defendant" means a carrier or other person against whom complaint is filed; "applicant" means a person filing an application; "respondent" means a person designated in an investigation; "protestant" means a person opposed to a tentative valuation, to the granting of an application, or to any tariff or schedule becoming effective; "intervener" means a person permitted to intervene as provided in § 1.72 and "petitioner" means any other person seeking relief otherwise than by complaint or application.

(d) The term "pleading" means a complaint, answer, reply, application, protest, motion (other than motion orally made at hearing or argument), petition, document supplementing oral hearing as described in §1.86 and all documents filed under modified and shortened procedure.

(e) The term "practitioner" means a person authorized by the Commission to appear before it in a representative capacity.

(f) The term "officer", except as a different meaning is indicated in §§ 1.17 (b), 1.57 to 1.66, inclusive, 1.71, and 1.78 (civil and corporate functionaries), includes: (1) a Commissioner, a board of employees (herein called an "employee board"), an examiner, or special board composed of State representatives (herein called a "joint board"), to which a proceeding (herein called "referred matter") is by order assigned or referred for hearing, consideration, or recommendation of an appropriate order thereon pursuant to provisions of law;[1] and (2) a Commissioner, an examiner, or other Commission employee before whom, without entry of an order of reference, a proceeding is assigned for hearing. The term "board" means either an employee board or a joint board as the context requires.

(g) The term "proposed report" means an officer's written statement of the issues, the facts and the findings the officer proposes that the Commission should make, with the reasons therefor, but with no recommended order.

(h) The term "report and recommended order" means an officer's written statement in a referred matter of the issues, the facts, the findings, reasons for such findings, and a recommended order.

[1] Such as sections 17 and 205 of the Interstate Commerce Act.

(i) The term "officer's report" or "board's report" means a proposed report or report and recommended order.

(j) The term "shortened procedure" means the procedure specified in § 1.44 and rules therein mentioned. Such rules provide, upon written consent of the parties, and upon the Commission's initiative or its approval of a request therefor made prior to hearing by any party, for the filing and serving of pleadings in formal-complaint proceedings with a view to avoiding an oral hearing.

(k) The term "modified procedure" means the procedure specified in §§ 1.45 to 1.54, inclusive, which rules provide for the filing and serving of pleadings in formal-complaint proceedings with a view to limiting the matters upon which subsequent oral evidence, if any, will be introduced.

§ 1.6 *Use of gender and number.* Words importing the singular number may extend and be applied to several persons or things; words importing the plural number may include the singular; and words importing the masculine gender may be applied to females.

PRACTITIONERS

§ 1.7 *Register of practitioners.* A register is maintained by the Commission in which are entered the names of all persons entitled to practice before the Commission. Corporations and firms will not be admitted or recognized.

§ 1.8 *Practitioners' qualifications and classes.* The following classes of persons whom the Commission finds, upon consideration of their applications, to be of good moral character and to possess the requisite qualifications to represent others may be admitted to practice before the Commission:

(a) *Attorneys at law.* Attorneys at law who are admitted to practice before the highest court of any State or Territory or the District of Columbia.

(b) *Persons not attorneys.* Any person not an attorney at law who is a citizen or resident of the United States, and who shall satisfy the Commission that he is possessed of the necessary legal and technical qualifications to enable him to render valuable service before the Commission, and that he is otherwise competent to advise and assist in the presentation of matters before the Commission.

§ 1.9 *Applications for admission to practice.* An application under oath for admission to practice shall be addressed to the Commission, Washington, D. C., and must state the name, residence address, and business address of the applicant, and the time and place of his admission to the bar, or the nature of his qualifications. Such application shall also state whether the applicant has ever been suspended or disbarred as an attorney, or whether his right to practice has ever been revoked by any court, commission, or administrative agency, in any jurisdiction. Such application shall be accompanied by a certificate of the clerk of the court in which applicant is admitted to practice to the effect that he has been so admitted and is in good standing; or by a certificate signed by three or more practitioners as sponsors for the applicant, which certificate shall recite that applicant possesses all the requisite qualifications under this section, and the sponsors shall incorporate in their certificate a recommendation and motion that applicant be admitted to practice under this section.

§ 1.10 *Additional certificates by practitioner's sponsors; hearing; abandonment of application.* The Commission in its discretion may call upon the practitioners making such certificate for a full statement of the nature and extent of their knowledge of the qualifications of the applicant. If upon consideration of the papers filed by the applicant and the statements submitted by his sponsors, or otherwise, the Commission is not satisfied as to the sufficiency of the applicant's qualifications under these rules, it will so notify him by registered mail, whereupon he may request a hearing for the purpose of showing his qualifications. If he presents such request, the Commission will accord him a hearing. If he presents to the Commission no request for such hearing within 20 days after receiving the notification above referred to, his application shall be deemed to be withdrawn.

§ 1.11 *Application fee.* An application filed after this section becomes effective must be accompanied by a fee of $10. Payment must be made either in cash or by New York draft, certified check, express or postal money order payable to the order of the Treasurer of the United States. The fee will be returned if applicant is not admitted to practice.

§ 1.12 *Practitioner's oath.* No person shall be admitted to practice before the Commission until he shall have subscribed to an oath or affirmation that he will demean himself, as a practitioner before this Commission, uprightly, and according to law; and that he will support the Constitution of the United States and laws of the United States and will conform to the rules and regulations of the Commission.

§ 1.13. *Denial of admission, censure, suspension, or disbarment of practitioners.* The Commission may, in its discretion, deny admission, censure, suspend, or disbar any person who, it finds, does not possess the requisite qualifications to represent others, or is lacking in character, integrity, or proper professional conduct. Any person who has been admitted to practice may be suspended or disbarred only after he is afforded an opportunity to be heard.

SPECIAL RULES RESPECTING BOARDS

§ 1.14 *Special rules respecting boards.*—(a) *Organization.* After a joint board has been created it shall select one of its members to act as chairman for all purposes concerning matters which may be referred to it. In the event the member so selected is absent from any meeting of the joint board the members attending shall select one of such members, except as provided in paragraph (b) of this section, temporarily to act as chairman.

(b) *Waiver by absence of a joint-board member.* The failure of a duly appointed member of a joint board to participate in any hearing after notice thereof on a matter referred to such joint board shall be considered to constitute, as to the matter referred, a waiver of action on the part of the State from which such member was appointed.

(c) *Procedural rulings in case of disagreement.* If the members of a board or a majority thereof in actual attendance at a hearing shall be unable to agree upon the disposition of a procedural question arising therein, the chairman (or acting chairman) of the board shall decide the question and rule or order accordingly.

(d) *Form of board's report; service.* For the sake of uniformity the board's report shall conform as nearly as may be practicable to the form of report issued by the Commission in similar cases. The board's report will be served by the Commission.

(e) *Termination of joint board jurisdiction; subsequent procedure.* The jurisdiction of a joint board over a referred matter shall be terminated in the event of: (1) service of a report as provided in paragraph (d) of this section; (2) submission of the board's conclusions without written report; (3) waiver of action in writing by appropriate authority of each State from which a member is entitled to be appointed; (4) failure of all members of the board to appear at the hearing; (5) failure of a majority of the board to agree; or (6) entry of order vacating the order of reference to the joint board. Except where a report is served as provided in paragraph (d) of this section, in which event the subsequent procedure will be as provided in § 1.96 and subsequent sections, a referred matter, after termination of joint-board jurisdiction, will be decided by the Commission or be made the subject of another officer's report on the record theretofore made or after such hearing or further hearing as may be required.

PLEADING SPECIFICATIONS GENERALLY

§ 1.15 *Typographical specifications generally.* Except as otherwise provided respecting applications (§ 1.38 (a)), exhibits (§ 1.84 (a)), and informal complaints (§ 1.24 (a)), all pleadings, documents, and papers to be filed under these rules shall be on opaque, unglazed, durable paper not exceeding 8½ by 11 inches. To permit of binding in covers of uniform size, margins of at least 1½ and 1 inch, respectively, shall be allowed on the left and right margins. Binding shall be on the left margin. Reproduction may be by printing, multilithing, multigraphing, mimeographing or by any other process, provided the copies are clear and permanently legible. Whiteline blue prints which can not be reproduced by photography are not desirable. If directly typewritten, or if in facsimile reproduction of typewriting, the impression must be on one side[2] of the paper and must be double-spaced, except that long quotations shall be single-spaced and indented. If printed, adequate leading and nothing less than 10-point type shall be used, except that 8-point type may be employed in footnotes and in tabular matter where printing limitations so require. A brief in excess of 50 pages, including cover pages, indexes, and appendixes, may not be typewritten.

§ 1.16 *Copies.*—(a) *Generally.* The original and 14 copies of every pleading, document, or paper permitted or required to be filed under these rules shall be furnished for the use of the Commission, except as a different number is required under paragraph (b) of this section, or as otherwise provided respecting: answers (§ 1.35 (c)); applications (§§ 1.38 (b) and 1.40 (c)); complaints; formal (§§ 1.26 and 1.37) and informal (§§ 1.24 (a) and 1.25 (d)); depositions (§ 1.64); exhibits (§§ 1.84 (c) and 1.86); modified and shortened procedure (§§ 1.44 (c) and 1.52); petitions in intervention (§ 1.72 (d)); protests in investigation-and-suspension proceedings (§ 1.42 (c)); replies (§ 1.23 (b)); and matters respecting oral argument (§ 1.98); subpenas (§ 1.56 (a)), time modification (§ 1.21 (b)), and transcript correction (§ 1.90 (b)).

(b) *In bankruptcy proceedings.* Except as otherwise provided in an application form or instruction (§1.38) and respecting exhibits (§1.84 (c)), the original and 19 copies of every pleading, document, or paper filed in a proceeding arising under the Uniform Bankruptcy Act shall be furnished for the use of the Commission.

§ 1.17 *Attestation.*— (a) *Practitioner's signature.* If a party is represented by a practitioner each pleading, document, or paper of such party shall be signed in ink by one such practitioner whose address shall be stated. The signature of a practitioner constitutes a certificate by him that he has read the pleading, document, or paper; that he is authorized to file it; that to the best of his knowledge, information, and belief there is good ground for it; that it is not interposed for delay; and that with respect to a complaint he files it with the distinct knowledge and specific consent of complainant. A pleading, document, or paper thus signed need not be verified or accompanied by affidavit except as otherwise provided respecting applications (§ 1.38), modified and shortened procedure (§§ 1.44 (c) and 1.50), and statements of claimed damages (§ 1.100).

(b) *When no practitioner's signature.* A pleading, document, or paper not signed by a practitioner must be signed in ink, the address of the signer shall be stated, and the facts alleged in a pleading must be verified under oath by the person in whose behalf it is filed. Signature and verification in such manner must be by at least one complainant if the pleading is a complaint. A pleading, document, or paper filed on behalf of a corporation or other organization authorized to make complaint under the act which is not signed by a practitioner must be signed in ink, and the facts alleged in a pleading must be verified by an executive officer of such corporation or organization.

§ 1.18 *Affirmation in lieu of oath.* Whenever under these rules an oath is required, an affirmation in judicial form will be accepted in lieu thereof.

§ 1.19 *Pleadings part of record.* Recitals of material and relevant facts in a pleading filed prior to oral hearing in any proceeding, unless specifically denied in a counterpleading filed under these rules, shall constitute evidence and be a part of the record without special admission or incorporation therein, but if request is seasonably made, a competent witness must be made available for cross examination on the evidence so included in the record.

§ 1.20 *Amendments.* Leave to file amendments to any pleading will be allowed or denied as a matter of discretion.

§ 1.21 *Time*—(a) *Computation.* In computing any period of time prescribed or allowed by these rules, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is Sunday or a legal holiday in the District of Columbia, in which event the period runs until the end of the next day which is neither a Sunday nor a holiday. A half holiday shall not be considered as a holiday.

(b) *Modification.* Except as to the maximum time periods provided by law or specified in these rules respecting informal complaints seeking damages (§ 1.25) and petitions for reconsideration (§ 1.101 (e)), any time period prescribed or permitted in these rules may, upon request and for cause, be modified by the Commission. The request must seasonably be filed in writing. If granted, the party making the request shall promptly so notify all parties to the proceeding and so certify to the Commission. The original only of the request and certificate need be filed with the Commission.

(c) *Five days additional.* If the general office of a person party to a proceeding, or office of the practitioner representing him, is located at or west of El Paso, Tex., Salt Lake City, Utah, or Helena, Mont., five days shall be added for all parties to the time periods specified in these rules when such rules are applied in any proceeding in which such person is a party.

§ 1.22 *Service; pleadings and papers to show*—(a) *Generally.* Except as otherwise provided in paragraph (b) of this section or as otherwise provided respect-

[2] The one-side provision shall not take effect until six months after the current state of war shall officially have been declared at an end. In the meantime, use of both sides of paper will be permitted.

ing applications (§ 1.38(b)), formal complaints (§ 1.34), informal complaints (§ 1.24(b)), and petitions in intervention (§ 1.72(d)), every pleading, document, or paper must, when filed, or tendered to the Commission for filing, include a certificate showing simultaneous service thereof upon all parties to the proceeding. Such service shall be made by delivery in person or by first-class mail or express, properly addressed with charges prepaid, one copy to each party. When any party is represented by a practitioner, service upon such practitioner will be deemed service upon the party.

(b) *Exceptions as to letters.* Copies of letters to the Commission relating to oral argument (§ 1.98), subpenas (§ 1.56(a)), and time modification (§ 1.21(b)) need not be served upon other parties to the proceeding.

§ 1.23 *Replies*—(a) *Time for filing.* Except that a reply to a reply is not permitted, and except as otherwise provided respecting answers (§ 1.35(c)), modified and shortened procedure (§§ 1.44(c) and 1.51), and briefs (§§ 1.92 and 1.93), an adverse party may file and serve a reply to any pleading permitted under these rules within 10 days after service thereof.

(b) *Copies.* The original of the reply should be accompanied by the same number of copies as required respecting the pleading to which the reply is responsive.

COMMENCEMENT OF PROCEEDINGS

§ 1.24 *Informal complaints not seeking damages*—(a) *Form and content.* Informal complaint may be by letter or other writing, and will be serially numbered and filed as of the date of its receipt. No form of informal complaint is suggested, but in substance the letter or other writing (original only need be filed except as provided in § 1.25 (d)) must contain the essential elements of a formal complaint as specified in §§ 1.28 and 1.30. It may embrace supporting papers.

(b) *Correspondence handling.* If the informal complaint appears to be susceptible of informal adjustment, a copy or a statement of the substance thereof will be transmitted by the Commission to each person complained of in an endeavor to have it satisfied by correspondence and thus obviate the filing of a formal complaint.

(c) *Discontinuance without prejudice.* A proceeding thus instituted on the informal docket is without prejudice to complainant's right to file and prosecute a formal complaint, in which event the proceeding on the informal docket will be discontinued.

§ 1.25 *Informal complaints seeking damages*—(a) *Actual filing required.* Notification to the Commission that an informal complaint may or will be filed later seeking damages is not a filing within the meaning of the statute except as provided in paragraph (e) of this section.

(b) *Content.* An informal complaint seeking damages, when permitted under the act, must be filed within the statutory period, and should contain such data as will serve to identify with reasonable definiteness the shipments or transportation services in respect of which damages are sought. Such complaint should state: (1) that complainant makes claim for damages, (2) the name of each individual claimant seeking damages, (3) the names of defendants against which claim is made, (4) the commodities, the rate applied, the date when the charges were paid, by whom paid, and by whom borne, (5) the period of time within which or the specific dates upon which the shipments were made, and the dates when they were delivered or tendered for delivery, (6) the points of origin and destination, either specifically or, where they are numerous, by definite indication of a defined territorial or rate group of the points of origin and destination and, if known, the routes of movement, and (7) the nature and amount of the injury sustained by each claimant.

(c) *Statement of prior claim.* If a complaint filed under paragraph (b) or (e) of this section contains a claim on any shipment which has been the subject of a previous informal or formal complaint to the Commission, reference to such complaint must be given.

(d) *Copies.* It is desirable that the original of an informal complaint seeking damages be accompanied by copies in sufficient number to enable the Commission to transmit one to each defendant named.

(e) *Special-docket proceedings.* Where the act provides for an award of damages for violation thereof and a carrier is willing to pay them, or to waive collection of undercharges, petition for appropriate authority should be filed by the carrier on the special docket in the form prescribed by the Commission. If the petition is granted an appropriate order will be entered. Such petition, when not filed in connection with an informal complaint pending before the Commission, must be filed within the statutory period and will be deemed the equivalent of an informal complaint and an answer thereto admitting the matters stated in the petition. If a carrier is unable to file such petition within the statutory period and the claim is not already protected from the operation of the statute by informal complaint, a statement setting forth the facts may be filed by the carrier within the statutory period. Such statement will be deemed the equivalent of an informal complaint filed on behalf of the shipper or consignee and sufficient to stay the operation of the statute.

(f) *Six months' rule.* If an informal complaint seeking damages cannot be disposed of informally, or is denied, or is withdrawn by complaint from further consideration, the parties affected will be so notified in writing by the Commission. The matter in such complaint will not be reconsidered unless, within six months after the date such notice is mailed, either a formal complaint as to such matter is filed, or it is informally resubmitted on an additional fact basis. Such filing or resubmission will be deemed to relate back to the date of the original filing, but reference to that date and the Commission's file number must be made in such resubmission or in the formal complaint filed. If the matter is not so resubmitted, or included in a formal complaint, as provided in this section, complainant will be deemed to have abandoned the complaint, and no complaint seeking damages based on the same cause of action will thereafter be placed on file or considered unless itself filed within the statutory period.

§ 1.26 *Formal complaints; copies*—(a) *Generally.* The original of each formal complaint, amended or supplemental formal complaint, or cross complaint, must be accompanied by copies in sufficient number to enable the Commission to serve one upon each defendant, including each receiver or trustee, and retain six copies in addition to the original.

(b) *Provision for State authorities.* If complaint is made under part II, or respecting State-made rates (§ 1.30 (b)), sufficient copies in addition to those required under paragraph (a) shall be furnished to permit the Commission to supply one to the appropriate authority in each of the States included in the scope of the complaint.

§ 1.27 *Formal complaints; joinder*—(a) *Causes of action.* Two or more grounds of complaint concerning the same principle, subject, or state of facts may be included in one complaint, but should separately be stated and numbered.

(b) *Complainants.* Two or more complainants may join in one complaint if their respective causes of action are against the same defendant or defendants and concern substantially the same alleged violation of the act and a like state of facts.

(c) *Defendants.* If complaint is made with respect to through transportation by continuous carriage or shipment, all persons subject to the act participating therein, and against which an order is sought, should be made defendants. If complaint is made of a classification or any provision thereof, ordinarily it will suffice to make defendants the persons operating one or more through routes between representative points of origin and destination.

(d) *Correct designation of parties.* The unabbreviated names of all parties complainant and defendant must be stated correctly.

§ 1.28 *Formal complaints; allegations generally.* A formal complaint should be so drawn as fully and completely to advise the parties defendant and the Commission in what respects the provisions of the act have been or are violated or will be violated, and should set forth briefly and in plain language the facts claimed to constitute such violation. If two or more sections or subsections of the act or requirements established pursuant thereto are alleged to be violated, the facts claimed to constitute violation of one section, subsection, or requirement should be stated separately from those claimed to constitute a violation of another section, subsection, or requirement whenever that can be done by reference or otherwise without undue repetition.

§ 1.29 *Formal complaints; when damages sought.* A formal complaint that includes a request for an award of damages should contain the information specified for an informal complaint seeking damages (§ 1.25, paragraphs (b) and (c)).

§ 1.30 *Formal complaints; discrimination, preference, and prejudice*—(a) *Generally.* A complaint that alleges the act is violated because of an undue or unreasonable preference or advantage, undue or unreasonable prejudice or disadvantage, or unjust discrimination should specify clearly the particular elements stated in the act[2] as constituting such violation, and the facts which complainant relies upon to establish it.

(b) *State-made rates.* A complaint that brings in issue any rate, fare, charge, classification, regulation, or practice, made or imposed by authority of any State, upon the ground that it violates provisions of the act which prohibit undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce and persons or localities in interstate or foreign commerce, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce, should bring in issue the justness and reasonableness of the rate, fare, charge, classification, regulation, or practice applicable to the interstate or foreign commerce involved in such complaint. Such complaint should also bring in issue the question as to what should be the rate, fare, or charge, or the maximum or minimum, or maximum and minimum, thereafter to be charged, and the classification, regulation, or practice that should be established so as to remove any such advantage, preference, prejudice, or such unjust discrimination..

§ 1.31 *Formal complaints; other specifications*—(a) *Tariff or schedule references.* The several rates, fares, charges, schedules, classifications, regulations, or practices of which complaint is made should be set out by specific reference to the tariffs or schedules in which they appear, whenever that is practicable.

(b) *States in which transportation occurs.* A formal complaint under part II should specifically name the States in and through which the transportation which gives rise to the complaint is performed.

(c) *Hearing place.* A formal complaint should be accompanied by a statement of the place at which hearing is desired.

§ 1.32 *Formal complaints; prayers for relief*—(a) *Generally.* A formal complaint in which relief for the future is sought should contain a detailed statement of the relief desired. Relief in the alternative or of several different types may be demanded, but the issues raised in the formal complaint should not be broader than those to which complainant's evidence is to be directed at the hearing.

(b) *Specific prayer for damages.* Except under unusual circumstances, and for good cause shown, damages will not be awarded upon a complaint unless specifically prayed for, or upon a new complaint by or for the same complainant which is based upon any finding in the original proceeding.

§ 1.33 *Amended and supplemental formal complaints.* An amended or supplemental complaint may be tendered for filing by a complainant against a defendant or defendants named in the original complaint, stating a cause of action alleged to have accrued within the statutory period immediately preceding the date of such tender, in favor of complainant and against the defendant or defendants.

§ 1.34 *Service of formal and cross complaints.* The Commission will serve formal complaints. It will also serve supplemental, amended, and cross complaints when it has granted leave to file such pleadings. Such service will be made personally upon a carrier or freight forwarder or upon an agent thereof designated for purposes of service, or by mail addressed to the carrier or freight forwarder or to the agent thereof at the address filed. If no agent has been designated, service may be made by posting in the office of the Secretary of the Commission, and if the defendant be a carrier subject to Part II of the act, by also posting in the office of the secretary or clerk of the motor-carrier regulatory board of the State wherein the motor carrier maintains headquarters. If the complaint involves only the lawfulness of rates, fares, charges, classifications, or practices, service in the manner indicated in the third sentence of this section may be made upon an attorney in fact of a carrier or freight forwarder who has filed a tariff or schedule in behalf of such carrier or freight forwarder, but such service will not be made upon a carrier subject to part I unless such carrier has failed to designate an agent for service in the city of Washington.

§ 1.35 *Answers and cross complaints to formal complaints*—(a) *Generally.* An answer may simultaneously be responsive to a formal complaint and to any amendment or supplement thereof. It should be drawn so as fully and completely to advise the parties and the Commission of the nature of the defense, including, if a departure from the requirements of section 4 (1) of the act is involved, the number of the particular application or order, if any, which protects such departure; and should admit or deny specifically and in detail each material allegation of the pleading answered. An answer may embrace a detailed statement of any counter proposal which a defendant may desire to submit.

(b) *Cross complaints.* A cross complaint alleging that other persons, parties to the proceeding, have violated the act or requirements established pursuant thereto, or seeking relief against them under the act, may be tendered for filing by a defendant with its answer.

(c) *Time for filing; copies.* Unless otherwise directed by the Commission, an answer to a complaint should be filed within 20 days after the day on which the complaint to which answer is filed was served. The original and six copies of an answer shall be filed with the Commission.

(d) *When issue joined.* If any defendant answers or fails to file and serve answer within the period specified in paragraph (c), issue thereby is joined as to such defendant.

§ 1.36 *Motions to make more definite and certain*—(a) *As to complaint.* Defendant may file with his answer, or with his statement under modified or shortened procedure, a motion that the allegations in the complaint be made more definite and certain, such motion to point out the defects complained of and the details desired.

(b) *As to answer.* No replication to the answer shall be filed, but any party may file, within 10 days after the filing of an answer, or, in the case of modified or shortened procedure, complainant may file with his statement in reply, a motion that the answer, or defendant's statement, as the case may be, be made more definite and certain, such motion to point out the defects complained of and the details desired.

§ 1.37 *Satisfaction of complaint.* If a defendant satisfies a formal complaint, either before or after answering, a statement to that effect signed by the opposing parties must be filed (original only need be filed), setting forth when and how the complaint has been satisfied.

§ 1.38 *Applications*—(a) *Forms and instructions.* An application filed with the Commission shall be prepared in accord with and contain the information called for in the form of application, if any, prescribed by the Commission, or any instructions which may have been issued by the Commission with respect to the filing of an application.

(b) *Copies; service.* Copies of an application shall be furnished in such number, and be filed and served in the manner and upon the persons specified in the form or instruction.

§ 1.39 *Applications; notice.* Appropriate notice of the filing of an application will be given by the applicant or by the Commission to the States, to State authorities, or to other persons as may be required by the form or instruction or by the act.

§ 1.40 *Protests against applications*—(a) *Content.* A protest against the granting of any application shall set forth specifically the grounds upon which it is made and contain a concise statement of the interest of protestant in the proceeding.

(b) *When filed.* Any protest shall be filed with the Commission promptly after the application is filed. If the proceeding be one respecting which the Commission has issued a notice advising the public of the filing of the application, the protest shall be filed within the time specified in such notice. Failure to file a protest shall not prejudice subsequent participation in the proceeding.

(c) *Copies; service.* A protest filed under this section shall be served upon applicant and, unless otherwise specified

[2] Special rate, rebate, drawback, or other device; and particular person, company, firm, corporation, association, port, port district, gateway, transit point, locality, region, district, territory, or description of traffic.

in the public notice, the original and two copies of the protest shall be filed with the Commission.

(d) *When rule disregarded.* An application may be set for hearing without awaiting the filing of a protest or of a reply thereto, and also may be disposed of without regard to the prior paragraphs of this section unless the act provides that the particular application may be granted only upon hearing.

§ 1.41 *Valuation proceedings; protests.* A protest of a tentative valuation shall contain a concise statement of the essential elements of protest with particular reference to the matters in the tentative valuation concerning which protest is made and shall include a statement of the changes therein desired by protestant. When practicable each object of protest should be set up as a separate item in a separately numbered paragraph. Each item of protest against land values or areas must state the valuation section and zone on the Commission's maps in which the land is located. When protestant claims that property owned or used has been omitted, a full description of such property and its location must be included in the protest.

§ 1.42 *Petitions for suspension of tariffs or schedules*—(a) *Content.* The protested tariff or schedule sought to be suspended should be identified by making reference to the name of the publishing carrier, freight forwarder, or agent, to the Interstate Commerce Commission number, and to the specific items or particular provisions protested. Reference should also be made to the tariff or schedule, and the specific provisions thereof, proposed to be superseded. The protest should state the grounds in support thereof, indicate in what respect the protested tariff or schedule is considered to be unlawful, and state what protestant offers by way of substitution.

(b) *When filed.* A protest against, and a prayer for suspension of, any tariff or schedule filed under the act ordinarily will not be considered unless made in writing, and filed with the Commission at least 10 days before the effective date of the tariff or schedule. In an emergency satisfactorily shown by protestant, and within the time limits herein provided, a telegraphic protest may be sent to the Commission and to the publishing carrier, freight forwarder, or agent, stating the grounds relied upon, but such telegraphic protest must immediately be confirmed by protest filed and served in accordance with this section.

(c) *Copies; service.* Seven copies of each protest or reply filed under this section must be filed with the Commission and one copy of the protest simultaneously be served upon the publishing carrier, freight forwarder, or agent, and upon other persons known by protestant to be interested.

(d) *Reply to protest.* A reply to a protest filed under this section should be filed and served promptly.

§ 1.43 *Service of investigation order; default where failure to comply.* An order instituting an investigation will be served by the Commission upon respondents. If within a time period stated in that order a respondent fails to comply with any requirement specified therein respondent shall be deemed in default and to have waived any further hearing. Thereafter the investigation may be decided without further proceedings.

SHORTENED AND MODIFIED PROCEDURE

§ 1.44 *Shortened procedure*—(a) *Consent; notice.* In shortened procedure (see § 1.5 (j)) the Commission will request all the parties thereto to advise the Commission within a time to be specified by it whether they consent to presentation under shortened procedure. Such advice should include, if the party is to be represented by a practitioner, the name and address of such practitioner. If all parties consent to the procedure, they will be advised that it will be followed.

(b) *Declination; hearing.* If any party declines to consent to shortened procedure, such declination shall not affect or prejudice the right or interest of such party. The proceeding will thereupon be conducted under modified procedure or be set for oral hearing as the Commission may direct. At the request of any party, received prior to service of an officer's report in a proceeding being conducted under shortened procedure, the Commission in its discretion may set the proceeding for oral hearing.

(c) *Other applicable rules.* The provisions for modified procedure in §§ 1.46 (a), 1.47, 1.48, 1.49, 1.50, 1.51, 1.52, and 1.54 shall also apply to shortened procedure. The time periods specified in § 1.51 shall begin to run from the date the Commission advises the parties that shortened procedure will be followed.

§ 1.45 *Modified procedure; how initiated*—(a) *Petition or Commission's initiative.* Modified procedure (see § 1.5 (k) will be ordered in a proceeding upon the Commission's initiative or upon its approval of a petition filed by any party that the modified procedure shall be observed.

(b) *Order directing modified procedure.* An order directing modified procedure will list the names and addresses of the persons who at that time are parties to the proceeding, and direct that they comply with the modified-procedure rules.

§ 1.46 *Modified procedure; effect of order*—(a) *Relief from answer rule.* Issuance of an order directing modified procedure shall relieve defendant from the obligation of answering as provided in § 1.35.

(b) *Default where failure to comply.* If within any time period provided in the modified-procedure rules a party fails to file a pleading required by those rules, or otherwise fails to comply therewith, such party shall be deemed to be in default and to have waived any further hearing. Thereafter the complaint may be disposed of without further notice to the defaulting party, and without other formal proceedings as to such party.

§ 1.47 *Modified procedure; intervention.* Persons permitted to intervene under modified procedure shall file and serve pleadings in conformity with the provisions relating to the parties in whose behalf they intervene.

§ 1.48 *Modified procedure; joint pleadings.* Parties having common interests shall arrange for joint preparation of pleadings filed under modified procedure.

§ 1.49 *Modified procedure; content of pleadings*—(a) *Generally.* A statement filed under the modified procedure after that procedure has been directed shall state the facts and include the exhibits upon which the party relies. In addition, defendant's statement and complainant's statement in reply shall specify those statements of fact of the opposite party to which exception is taken, and include a statement of the facts constituting the basis for such exception. Complainant's statement of reply shall be confined to rebuttal of the defendant's statement.

(b) *Exhibit identification.* In addition to being in compliance with paragraphs (a) and (b) of § 1.84, an exhibit which is part of any pleading filed under modified procedure shall serially be numbered and bear the notation, properly filled out, in the upper right-hand corner: "Complainant (Defendant) ----------, Exhibit No. ----------, Witness ----------"

(c) *Damages.* If an award of damages is sought the paid freight bills or properly certified copies thereof should accompany the original of complainant's statement when there are not more than 10 shipments, but otherwise the documents should be retained.

§ 1.50 *Modified procedure; attestation.* The facts asserted in any pleading filed under modified procedure must be sworn to by persons having knowledge thereof, which latter fact must affirmatively appear in the affidavit. Except under unusual circumstances, such persons should be those who would appear as witnesses orally to substantiate the facts asserted should hearing become necessary. The original of any pleading filed under modified procedure must show the signature, capacity, and impression seal, if any, of the person administering the oath, and the date thereof.

§ 1.51 *Modified procedure; when pleadings filed and served.* Within 20 days from the date of an order requiring modified procedure complainant shall serve upon the other parties a statement of all the evidence upon which it relies. Within 30 days thereafter defendant shall serve its statement. Within 10 days thereafter complainant shall serve its statement in reply. No further reply may be made by any party except by permission of the Commission.

§ 1.52 *Modified procedure; copies of pleadings.* The original and six copies of any pleading served under modified procedure shall be filed with the Commission.

§ 1.53 *Modified procedure; hearings*—(a) *Request for cross examination or other hearing.* If cross examination of any witness is desired the name of the witness and the subject matter of the

desired cross examination shall, together with any other request for oral hearing, including the basis therefor, be stated at the end of defendant's statement or complainant's statement in reply as the case may be.

(b) *Hearing issues limited.* The order setting the complaint for oral hearing, if hearing is deemed necessary, will specify the matters upon which the parties are not in agreement and respecting which oral evidence is to be introduced.

§ 1.54 *Modified procedure; subsequent procedure.* Procedure subsequent to that provided in the modified-procedure rules shall be the same as that in proceedings not handled under modified procedure.

NOTICE OF HEARING; SUBPENAS; DEPOSITIONS

§ 1.55 *Notice of hearing*—(a) *Assignment; service and posting of notice.* In those proceedings in which a hearing is to be held the Commission will, by order or otherwise, assign a time and place for hearing. Notice of such hearing will be posted in the office of the Secretary of the Commission, and will be served upon the parties and such other persons as may be entitled to receive notice under the act.

(b) *Change of assignment.* The Commission may confine the service of notice of a change of time or place assigned for hearing (other than by publication or posting), or of any adjourned, further, or supplemental hearing to those only who have indicated to the Commission a desire to be notified, at their own expense if telegraphic advice becomes necessary, of any such change.

§ 1.56 *Subpenas*—(a) *Request; particularity.* Unless directed by the Commission upon its own motion, a subpena to compel a witness to produce documentary evidence will be issued only upon petition, which must specify with particularity the books, papers, or documents desired, and the facts expected to be proved thereby. A request for issuance of a subpena other than to compel the production of documentary evidence may be made either by letter (original only need be filed with the Commission) or orally upon the record at a hearing.

(b) *Issuance.* A subpena will issue only upon signature by the Secretary or a member of the Commission.

(c) *Service.* The original subpena shall be exhibited to the person served, shall be read to him if he is unable to read, and a copy thereof shall be delivered to him by the officer or person making service.

(d) *Return.* If service of subpena is made by a United States marshal or his deputy, such service shall be evidenced by his return thereon. If made by any other person, such person shall make affidavit thereof, stating the date, time, and manner of service; and return such affidavit on, or with, the original subpena in accordance with the form thereon. In case of failure to make service the reasons for the failure shall be stated on the original subpena. The written acceptance of service of a subpena by the person named therein shall be sufficient without other evidence of return. The original subpena, bearing or accompanied by the required return, affidavit, statement, or acceptance of service, shall be returned forthwith to the Secretary of the Commission, or, if so directed on the subpena, to the officer presiding at the hearing at which the person subpenaed is required to appear.

(e) *Witness fees.* A witness who is summoned and responds thereto is entitled to the same fee as is paid for like service in the courts of the United States, such fee to be paid by the party at whose instance the testimony is taken at the time the subpena is served.

§ 1.57 *Deposition; preliminary*—(a) *When permissible.* The Commission will either upon its own initiative, or for good cause shown by a party to a proceeding, issue an order to take a deposition.

(b) *Officer before whom taken.* Within the United States or within a territory or insular possession subject to the dominion of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held. Within a foreign country a deposition may be taken before an officer or person designated by the Commission, or agreed upon by the parties by stipulation in writing to be filed with the Commission.

(c) *When taken.* Unless under special circumstances and for good cause shown, no deposition shall be taken within 10 days prior to the assigned date of the heaing in such proceeding, and when the deposition is taken in a foreign country it shall not be taken within 30 days prior to such date of hearing.

(d) *Fees.* A witness whose deposition is taken pursuant to these rules and the officer taking same, unless he be employed by the Commission, shall be entitled to the same fee paid for like service in the courts of the United States, which fee shall be paid by the party at whose instance the deposition is taken.

§ 1.58 *Depositions; petitions.* A petition requesting an order to take a deposition shall be filed with due regard to the time periods specified in § 1.57 (c) and shall set forth the name and address of the witness, the place where, the time when, the name and office of the officer before whom, and the cause or reason why such deposition should be taken.

§ 1.59 *Depositions; order; interrogatories*—(a) *Order.* If the petition requesting an order to take a deposition is granted which action may be taken without awaiting the possible filing of a reply, the Commission will serve upon the parties an order which will name the witness whose deposition is to be taken, and specify the time when, the place where, and the officer before whom the witness is to testify, but such time and place, and the officer before whom the deposition is to be taken, so specified in the Commission's order, may or may not be the same as set out in the petition.

(b) *Interrogatories.* In lieu of participating in the oral examination, parties served with the order for the taking of a deposition may promptly transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim, but it is not necessary that such interrogatories be served upon the party at whose instance the deposition is taken.

§ 1.60 *Depositions; recordation of testimony.* The officer before whom the deposition is to be taken shall observe the provisions respecting appearances (§ 1.71 (a)), and typographical specifications (§ 1.15), put the witness on oath, and shall personally, or by some one acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise to record the evidence.

§ 1.61 *Depositions; objections.* All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections.

§ 1.62 *Depositions; deponent's signature.* When the testimony is fully transcribed or otherwise recorded the deposition of each witness shall be submitted to him for examination and shall be read to or by him. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing, or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall state at the foot thereof the fact of the waiver or of the illness or absence of the witness, or the fact of the refusal to sign, together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless, on a motion to suppress, the Commission finds that the reasons given for the refusal to sign are sufficient to require rejection of the deposition in whole or in part.

§ 1.63 *Depositions; officer's attestation.* The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and that the officer is not of counsel or attorney for any of the parties, and that he is not interested in the event of the proceeding.

§ 1.64 *Depositions; return to Commission.* The officer shall securely seal the deposition in an envelope endorsed with the title of the proceeding, and shall promptly send the original and one copy thereof, together with the original and one copy of all exhibits, by registered mail to the Secretary of the Commission. The deposition must reach the Commission not later than 5 days before the date of the hearing at which it is to be offered as evidence.

§ 1.65 *Depositions; notice of filing.* The party taking the deposition shall

give prompt notice of its filing to all other parties.

§ 1.66 *Depositions; copies.* Upon payment of reasonable charges therefor, the officer before whom the deposition is taken shall furnish a copy of it to any interested party or to the deponent.

§ 1.67 *Depositions; inclusion in record.* At the oral hearing, if one is held, the deposition shall be offered in evidence by the party at whose instance it was taken. If not offered by such party, it may be offered in whole or in part by the adverse party. If only part of a deposition is offered in evidence by a party, an adverse party may require him to introduce all of it, which is relevant to the part introduced, and any party may introduce any other parts. Such deposition shall be admissible in evidence subject to such objections as to competency of the witness, or to the competency, relevancy, or materiality of the testimony as were noted at the time of taking of said deposition, or are made at the time it is offered in evidence.

HEARINGS

§ 1.68 *Prehearing conferences* — (a) *Purposes.* Upon written notice by the Commission in any proceeding, or upon written or oral instruction of an officer, parties or their attorneys may be directed to appear before an officer at a specified time and place for a conference, prior to or during the course of a hearing, or in lieu of personally appearing to submit suggestions in writing, for the purpose of formulating issues and considering:

(1) The simplification of issues;

(2) The necessity or desirability of amending the pleadings either for the purpose of clarification, amplification, or limitation;

(3) The possibility of making admissions of certain averments of fact or stipulations concerning the use by either or both parties of matters of public record, such as annual reports and the like, to the end of avoiding the unnecessary introduction of proof;

(4) The procedure at the hearing;

(5) The limitation of the number of witnesses;

(6) The propriety of prior mutual exchange between or among the parties of prepared testimony and exhibits; and

(7) Such other matters as may aid in the simplification of the evidence and disposition of the proceeding.

(b) *Facts disclosed privileged.* Facts disclosed in the course of the prehearing conference are privileged and, except by agreement, shall not be used against participating parties either before the Commission or elsewhere unless fully substantiated by other evidence.

(c) *Recordation and order.* Action taken at the conference, including a recitation of the amendments allowed to the pleadings, the agreements made by the parties as to any of the matters considered and defining the issues, shall be recorded in an appropriate order, unless the parties enter upon a written stipulation as to such matters, or agree to a statement thereof made on the record by the officer.

(d) *Objection to the order; subsequent proceedings.* If an order is entered a reasonable time shall be allowed to the parties to present objections on the ground that it does not fully or correctly embody the agreements reached at such conference. Thereafter the terms of the said order or modification thereof, the written stipulation, or statement of the officer, as the case may be, shall determine the subsequent course of the proceeding, unless modified to prevent manifest injustice.

§ 1.69 *Stipulations.* Apart from the procedure contemplated by the prehearing provisions (§ 1.68), and upon permission granted, the parties may in the discretion of the officer, by stipulation in writing filed with the Commission at any stage of the proceeding, or orally made at the hearing, agree upon any pertinent facts in the proceeding. It is desired that the facts be thus agreed upon so far as and whenever practicable.

§ 1.70 *Authority of officers.* An officer may grant leave to amend or to file any pleadings, or to intervene, upon request tendered at the hearing, but in no event shall an officer grant such leave if thereby the issues would be so narrowed as to make a refererd matter one which should properly be referred to a different officer. An officer shall have no power to decide any motion to dismiss the proceeding or other motion which involves final determination of the merits of the proceeding. The officer shall regulate the procedure in the hearing before him and take all measures necessary or proper for the efficient performance of the duties assigned him.

§ 1.71 *Appearances; standards of conduct*—(a) *Who may appear.* Any individual may appear for himself, and any member of a partnership party to any proceeding may appear for such partnership upon adequate identification. A bona fide officer, or a full-time employee of a corporation, association, or of an individual, may appear for such corporation, association, or individual by permission of the officer presiding at the hearing. A party also may be represented by a practitioner.

(b) *Standards of conduct.* All persons appearing must conform to the standards of conduct required by the code of ethics of the Association of Interstate Commerce Commission Practitioners. Failure to conform to those standards will be ground for declining to permit appearance in any proceeding before the Commission.

§ 1.72 *Intervention; petitions*—(a) *Content generally.* A petition for leave to intervene must set forth the grounds of the proposed intervention, the position and interest of the petitioner in the proceeding, and whether petitioner's position is in support of or opposition to the relief sought. If the proceeding be by formal complaint and affirmative relief is sought by petitioner, the petition should conform to the requirements for a formal complaint.

(b) *When filed.* A petition for leave to intervene in any proceeding should be filed prior to or at the time the proceeding is called for hearing, but not after except for good cause shown.

(c) *Broadening issues; filing.* If the petitioner seeks a broadening of the issues and shows that they would not thereby be unduly broadened, and in respect thereof seeks affirmative relief, the petition should be filed in season to permit service upon and answer by the parties in advance of the hearing.

(d) *Copies; service.* When tendered at the hearing, sufficient copies of a petition for leave to intervene must be provided for distribution as motion papers to the parties represented at the hearing. If leave be granted at the hearing, one additional copy must be furnished for the use of the Commission. When not tendered at the hearing, the original of the petition shall be accompanied by copies in sufficient number to enable the Commission to retain one for its own use after it has made such service, if any, as next mentioned. All petitions for leave to intervene not tendered at the hearing will be served by the Commission, and copies shall be furnished accordingly, except petitions for leave to intervene in application proceedings under part II, which shall be served by petitioners.

(e) *Disposition.* Leave will not be granted except on averments reasonably pertinent to the issues already presented and which do not unduly broaden them. If leave is granted the petitioner thereby becomes an intervener and a party to the proceeding.

§ 1.73 *Participation without intervention.* In an investigation proceeding, in a proceeding for the issuance of a certificate of convenience and necessity for the abandonment of a line of railroad or its operation, in an application proceeding involving a motor carrier filed under section 5 of the act, in application proceedings under parts II, III, and IV, and in a proceeding of any one of the characters herein enumerated when heard on a consolidated record with a complaint proceeding, but in no other proceeding, an appearance may be entered at the hearing without filing a petition in intervention or other pleading, if no affirmative relief is sought, if there is full disclosure of the identity of the person or persons in whose behalf the appearance is to be entered, if the interest of such person in the proceeding and the position intended to be taken are stated fairly, and if the contentions will be reasonably pertinent to the issues already presented and any right to broaden them unduly is disclaimed. A person in whose behalf an appearance is entered in this manner becomes a party to the proceeding.

§ 1.74 *Witness examination; order of procedure.* Witnesses will be orally examined under oath before the officer unless their testimony is taken by deposition or the facts are presented to the Commission in the manner provided under modified or shortened procedure. In formal-complaint, application, and investigation proceedings complainant, applicant, and respondent, respectively, shall open and close at the hearing. Interveners shall follow the party in whose behalf the intervention is made. The foregoing order of presentation may be varied by the officer, who also shall designate the order of presentation in any other type of proceeding, of any other party to any proceeding, or of parties to several proceedings being heard upon a consolidated record.

§ 1.75 *Evidence; admissibility generally.* Any evidence which would be admissible under the general statutes of the United States, or under the rules of evidence governing proceedings in matters not involving trial by jury in the courts of the United States, shall be admissible in hearings before the Commission. The rules of evidence shall be applied in any proceeding to the end that needful and proper evidence shall be conveniently, inexpensively, and speedily produced, while preserving the substantial rights of the parties.

§ 1.76 *Evidence; cumulative restriction.* The right is reserved to limit the number of witnesses whose testimony may be merely cumulative.

§ 1.77 *Evidence; prepared statements.* With the approval of the officer a witness may read into the record as his testimony, statements of fact or expressions of his opinion prepared by him, or written answers to interrogatories of counsel, provided that the statement shall not include argument; that before any such statement is read, the witness shall deliver to the officer, the reporter, and to opposing counsel as may be directed by the officer, a copy of such statement or of such interrogatories and his written answers thereto; and that the admissibility of the evidence contained in such statement shall be subject to the same rules as if such testimony were produced in the usual manner. Such approval ordinarily will be denied when in the opinion of the officer the memory or demeanor of the witness may be of importance.

§ 1.78 *Evidence; official records.* An official record or an entry therein, when admissible for any purpose, may be evidenced by an official publication thereof or by a copy attested by the officer having the legal custody of the record, or by his deputy, and accompanied with a certificate that such officer has the custody. If the office in which the record is kept is within the United States or within a territory or insular possession subject to the dominion of the United States, the certificate may be made by a judge of a court of record of the district or political subdivision in which the record is kept, authenticated by the seal of the court, or may be made by any public officer having a seal of office and having official duties in the district or political subdivision in which the record is kept, authenticated by the seal of his office. If the office in which the record is kept is in a foreign state or country, the certificate may be made by a secretary of embassy or legation, consul general, consul, vice consul, or consular agent or by any officer in the foreign service of the United States stationed in the foreign state or country in which the record is kept, and authenticated by the seal of his office. A written statement signed by an officer having the custody of an official record or by his deputy that after diligent search no record or entry of a specified tenor is found to exist in the records of his office, accompanied by a certificate as above provided, is admissible as evidence that the records of his office contain no such record or entry. This section does not prevent the proof of official records or of entry of lack of entry therein or official notice thereof by a method authorized by any applicable statute or by the rules of evidence.

§ 1.79 *Evidence; entries in regular course of business.* Any writing or record, whether in the form of an entry in a book or otherwise, made as a memorandum or record of any act, transaction, occurrence, or event, will be admissible as evidence thereof if it shall appear that it was made in the regular course of business, and that it was the regular course of business to make such memorandum or record at the time such record was made, or within a reasonable time thereafter.

§ 1.80 *Evidence; documents containing matter not material.* When material and relevant matter offered in evidence is in a document containing other matter not material or relevant, the offering party shall produce the document at the hearing, shall plainly designate the matter so offered, and shall accord to the officer and to participating counsel an opportunity to inspect it. Unless it is desired to read such matter into the record, and the officer so directs, true copies in proper form of the material and relevant matter taken from the document may be received as an exhibit, but other parties shall be afforded an opportunity to introduce in evidence, in like manner, other portions of such document if found to be material and relevant. The document itself will not be received.

§ 1.81 *Evidence; documents in Commission's files*—(a) *In general.* If any matter contained in a report or other document, not a tariff or schedule, open to public inspection in the files of the Commission is offered in evidence such report or other document need not be produced, but in other respects the provisions of § 1.80 will apply.

(b) *Tariffs and schedules; official notice in investigation proceedings.* If any matter contained in a tariff or schedule on file with the Commission is offered in evidence, such tariff or schedule need not be produced or marked for identification, but the matter so offered shall be specified with particularity in such manner as to be readily identified and may be received in evidence subject to check by reference to the original tariff or schedule. Official notice will be taken without offer or production of that portion of any tariff or schedule which is the subject matter of an order of investigation and suspension.

§ 1.82 *Evidence; records in other Commission proceedings.* If any portion of the record before the Commission in any proceeding other than the one on hearing is offered in evidence a true copy of such portion shall be presented for the record in the form of an exhibit unless:

(a) The party offering the same agrees to supply such copy later at his own expense, if and when required by the Commission; and

(b) The portion is specified with particularity in such manner as to be readily identified; and

(c) The parties represented at the hearing stipulate upon the record that such portion may be incorporated by reference, and that any other portion offered by any other party may be incorporated by like reference subject to (a) and (b); and

(d) The officer directs such incorporation. Any such portion so offered, whether in the form of an exhibit or by reference, shall be subject to objection.

§ 1.83 *Evidence; abstracts of documents.* When documents are numerous, such as freight bills or bills of lading, the officer may refuse to receive in evidence other than a limited number of such documents said to be typical. Instead he may instruct, if the proffer be for the purpose of proving damage, that introduction be deferred until there is opportunity to comply with § 1.100. If the proffer be for other purpose the officer may require the party in orderly fashion to abstract the relevant data from the documents, affording other parties reasonable opportunity to examine both the documents and the abstract, and thereupon offer such abstract in evidence in exhibit form.

§ 1.84 *Evidence; exhibits*—(a) *Generally.* Exhibits of a documentary character may have a maximum width of 22 inches by 12½ inches in height. Whenever practicable the sheets of each exhibit and the lines of each sheet should be numbered. If the exhibit consists of five or more sheets the first sheet or title-page should be confined to a brief statement of what the exhibit purports to show, with reference by sheet and line to illustrative or typical examples contained therein. The exhibit should bear an identifying number, letter, or short title which will readily distinguish it from other exhibits offered by the same party. It is desirable that, whenever practicable, rate comparisons and other evidence should be condensed into tables. Whenever practicable, especially in proceedings in which it is likely that many documents will be offered, all the documents produced by a single witness should be assembled and bound together, suitably arranged and indexed, so that they may be identified and offered as one exhibit. Exhibits should not be argumentative and should be limited to statements of fact, and be relevant and material to the issue, which can better be shown in that form than by oral testimony.

(b) *Reference to tariff authority, routes, and distances.* All exhibits showing rates, fares, charges, or other tariff or schedule provisions must, by appropriate Interstate Commerce Commission number reference, indicate the tariff or schedule authority therefor, and if distances are shown must also show the authority therefor and, by lines, highways, or waterways, and junction points, the routes over which the distances are

computed; except that the routes over which the distances are computed need not be shown when such distances are specifically published in a tariff or schedule lawfully on file with the Commission, or definitely ascertainable from a tariff or schedule on file with the Commission showing rates prescribed by the Commission and based on short-line distances, or short-highway distances, provided the exhibit makes specific reference to such tariff or schedule as provided by this section.

(c) *Copies.* Unless the officer shall otherwise direct, the original and one copy of each exhibit of a documentary character shall be furnished for the use of the Commission—original to be delivered to the reporter, and the copy to the officer. If the hearing be before a board, a copy of the exhibit shall be furnished to each member of the board, unless the board otherwise directs. Unless the officer for cause directs otherwise, a reasonable number of copies shall be furnished to counsel in attendance at the hearing. Unless the officer shall otherwise direct, in proceedings under the Uniform Bankruptcy Act, the original and three copies of every exhibit of a documentary character shall be furnished for use of the Commission—original to be delivered to the reporter, and the three copies to the officer.

(d) *Interchange prior to hearing.* Whenever practicable, the parties should interchange copies of exhibits or other pertinent material, or matter before or at the commencement of the hearing.

(e) *When excluded how treated.* In case an exhibit has been identified, objected to, and excluded, the officer will develop whether the party offering the exhibit withdraws the offer, and if so, permit the return of the exhibit to him. If the excluded exhibit is not withdrawn it should be given an exhibit number for identification and be incorporated in the record. Exhibit numbers once used for identification will not be duplicated thereafter.

§ 1.85 *Record in referred matter unaffected by a second reference.* If for any reason an order referring a matter to a particular officer is vacated and the matter referred to a different officer, any testimony already taken in such proceeding shall be part of the record along with any testimony which thereafter may be taken.

§ 1.86 *Evidence; filing of subsequent to hearing; copies.* Except as provided below, or as expressly may be permitted in a particular instance, the Commission will not receive in evidence or consider as part of the record any documents, letters, or other writings submitted for consideration in connection with any proceeding after close of the hearing, and may return any such documents to the sender. Before the close of a hearing the officer may, at the request of a party or upon his own motion, or upon agreement of the parties, require that a party furnish additional documentary evidence supplementary to the existing record, within a stated period of time. Documentary evidence thus to be furnished will not be assigned an exhibit number at the hearing, but the document will be given an exhibit number at the time of filing and the parties accordingly advised. Unless otherwise directed by the officer, the original and one copy of such submission shall be filed with the Commission.

§ 1.87 *Evidence; objections to.* Formal exception to a ruling of an officer at a hearing is unnecessary. It is sufficient that a party at the time the ruling is made or sought, make known to the officer the action which he desires the officer to take or his objection to the action of the officer and his grounds therefor. An objection not pressed in brief will be considered as waived.

§ 1.88 *Oral argument before officer.* If oral argument before the officer is desired, he should be so notified at or before the hearing and may arrange to hear the argument at the close of the testimony within such limits of time as he may determine, having regard to other assignments for hearing before him. Such argument will be transcribed and bound with the transcript of testimony, and will be available to the Commission for consideration in deciding the case. The making of such argument shall not preclude oral argument before the Commission and request therefor may be made as provided in § 1.98.

§ 1.89 *Adjournment of hearing.* A continuance may be granted if it is impossible to conclude a hearing within the time available, or for any reason a continuance is necessary or advisable, but a joint board shall not set a date and place for a continued hearing without first consulting the Commission. If consultation with the Commission is impracticable, the hearing shall be adjourned by the joint board to such time and place as the Commission subsequently shall determine.

§ 1.90 *Transcript of record*—(a) *Filing.* After the close of the hearing the complete transcript of testimony taken and the exhibits shall be filed with the Commission.

(b) *Corrections.* A suggested change in a transcript ordinarily will be considered only if offered not later than 10 days prior to the due date for opening briefs (§§ 1.92 and 1.93). If opening briefs are not to be filed, a suggested change will not be considered unless offered within 20 days after the date the transcript is filed with the Commission. A copy of the letter (the original only need be filed with the Commission) requesting the suggested change shall be served upon all parties of record and upon the official reporter.

(c) *No free copies.* No free copies of transcript will be furnished to any party to any proceeding.

BRIEFS; REPORTS; ORAL ARGUMENT

§ 1.91 *Briefs; content and arrangement*—(a) *Due date.* The due date of each brief must appear on its front cover or title page.

(b) *Table of contents; citations.* A brief of more than 20 pages shall contain on its front flyleaves a table of contents and points made with page references, the table of contents to be supplemented by a list of citations, alphabetically arranged, with references to the pages where they appear.

(c) *Sketch or chart.* In proceedings wherein misrouting or undue prejudice or preference are alleged, the complainant should include as part of the brief a small sketch or chart adequately reflecting the situation.

(d) *Evidence abstract.* A brief filed after a hearing should contain an abstract of the evidence relied upon by the party filing it, preferably assembled by subjects, with reference to the pages of the record or exhibit where the evidence appears. The abstract should follow the statement of the case and precede the argument. In the event the party elects not to include a separate abstract in his brief, he should give specific reference to the portions of the record, whether transcript or otherwise, relied upon in support of the respective statements of fact made throughout the brief.

(e) *Requested findings.* Each brief should include such requests for specific findings, separately stated and numbered, as the party desires the Commission to make.

(f) *Exhibit reproduction.* Exhibits should not be reproduced in the brief, but may, if desired, be shown, within reasonable limits, in an appendix to the brief. Analyses of such exhibits should be included in the abstract of evidence under the subjects to which they pertain.

§ 1.92 *Briefs; when officer's report is served.* In a proceeding which has been the subject of hearing, and in which an officer's report is to be prepared and served, which fact will be stated by the officer on the record, only one brief shall be filed by each party. The officer shall fix for all parties the same time within which to file briefs. Reply briefs are not permitted at this stage.

§ 1.93 *Briefs; when officer's report is not served.* If no officer's report is to be prepared and served, which fact will be stated by the officer, in a proceeding which has been the subject of hearing the officer may, subject to variation for cause shown, fix times for filing and serving the respective briefs as follows: for the opening brief, 30 days from the close of hearing; for the brief of any opposing party, 15 days after the date fixed for the opening brief; for reply brief, 10 days after the date fixed for the brief of the opposing party; or he may fix the same time for filing and serving of briefs of all parties. Where the same time is fixed, within 15 days after expiration of the time so fixed reply briefs may be filed, and such briefs must be confined strictly to reply and contain no new matter: *Provided, however,* That no reply brief may be filed in an investigation-and-suspension proceeding.

§ 1.94 *Briefs of interveners.* Briefs of interveners shall be filed and served within the time fixed for the brief of the party in whose behalf the intervention is made or as may be otherwise directed by the officer.

§ 1.95 *Officer's report; when and how served.* After expiration of the time set for filing briefs, if the proceeding be one in which a hearing has been held, the officer's report will be prepared and served by mailing a copy to each party. An officer's report prepared in a proceeding in which a hearing has not been held will be served by mailing a copy to each party of record and to any other persons not parties to the proceeding who are believed to have an interest in the proceeding.

§ 1.96 *Exceptions to officer's report*—(a) *Generally.* Exceptions to the officer's report with respect to statements of fact or matters of law must be specific and must be stated and numbered separately. If exception is taken to conclusions in the report, the points relied upon to support the exception must be stated and numbered separately. When exception is taken to a statement of fact contained in the report, reference also must be made to the page or part of the record relied upon to support the exception and a corrected statement must be incorporated.

(b) *When filed.* Within 20 days after service of the officer's report any party may file and serve exceptions thereto and reasons in support thereof.

(c) *Request for hearing.* If the proceeding is one in which no oral hearing has been held, any person not a party to the proceeding, but having an interest therein, may file and serve upon applicant, or complainant, as the case may be, exceptions to the officer's report and reasons in support thereof. A request for hearing may be included therein but the exceptions need not include a request for hearing if none is deemed necessary.

§ 1.97 *Effect of exceptions or absence thereof*—(a) *Upon report and recommended order.* The filing of exceptions to a recommended order operates to stay the effectiveness of the order and thereafter decision by the Commission will be made in due course. If no exception is filed to the recommended order and the Commission does not stay it, the recommended order becomes the order of the Commission upon expiration of the period for filing exceptions provided in § 1.96 (b), or of any postponement of such period, or postponement of the effective date of such order, and a notice stating that the recommended order has, giving the date, become the order of the Commission will be mailed to the parties by the Commission.

(b) *Upon proposed report.* A proposed report will not become the decision of the Commission through failure to file exceptions, but in the absence of exceptions or of ascertained error the officer's statement of the issues and of the facts ordinarily will be taken by the Commission as the basis of its decision.

§ 1.98 *Oral argument before Commission*—(a) *Request; how made.* If no officer's report is to be served, request for oral argument before the Commission must be made at the hearing or by letter (original only need be filed with the Commission) within 10 days after the hearing. If an officer's report is to be served, the request for oral argument must be included as part of the exceptions brief or reply thereto.

(b) *Request for time allotment.* If the petition is granted a notice will be served by the Commission upon the parties setting the date for the oral argument. At least 10 days before that date any party desiring to participate in the oral argument must make request by letter (original only need be filed with the Commission) for an allotment of time. Only those making request in this manner will be permitted to participate.

ORDER COMPLIANCE; DAMAGE STATEMENTS

§ 1.99 *Compliance with Commission orders* When in consequence of proceedings under the act, the Commission has by its order directed a defendant or a respondent to do or desist from doing a particular thing, such defendant or respondent must notify the Commission on or before the date upon which such order becomes effective whether or not compliance has been made therewith. If a change in rates or schedules is required the notification must be given in addition to the filing of proper tariffs or schedules, and must specify the Interstate Commerce Commission numbers of the tariffs or schedules so filed.

§ 1.100 *Statements of claimed damages based on Commission findings.* When the Commission finds that damages are due, but that the amount cannot be ascertained upon the record before it, the complainant should immediately prepare a statement showing details of the shipments on which damages are claimed, in accordance with the form No. 5. (See appendix). The statement should not include any shipment not covered by the Commission's findings, or any shipment on which complaint was not filed with the Commission within the statutory period. The filing of a statement will not stop the running of the statute of limitations as to shipments not covered by complaint or supplemental complaint. If the shipments moved over more than one route a separate statement should be prepared for each route, and separately numbered, except that shipments as to which the collecting carrier is in each instance the same may be listed in a single statement if grouped according to routes. The statement, together with the paid freight bills on the shipments, or true copies thereof, should then be forwarded to the carrier which collected the charges for verification and certification as to its accuracy. If the statement is not forwarded immediately to the collecting carrier for certification, a letter request from defendants that forwarding be expedited will be considered to the end that steps be taken to have the statement forwarded immediately. All discrepancies, duplications, or other errors in the statements should be adjusted by the parties and correct agreed statements submitted to the Commission. The certificate must be signed in ink by a general accounting officer of the carrier and should cover all of the information shown in the statement. If the carrier which collected the charges is not a defendant in the case its certificate must be concurred in by like signature on behalf of a carrier defendant. Statements so prepared and certified shall be filed with the Commission whereupon it will consider entry of an order awarding damages.

REHEARING; REARGUMENT; OR RECONSIDERATION

§ 1.101 *Petitions for rehearing, reargument, or reconsideration*—(a) *In general.* A petition seeking any change in a decision, order, or requirement of the Commission should specify whether the prayer is for reconsideration, reargument, rehearing, further hearing, modification of effective date, vacation, suspension, or otherwise.

(b) *Rehearing or further hearing.* When in a petition filed under this section opportunity is sought to introduce evidence, the evidence to be adduced must be stated briefly, such evidence must not appear to be cumulative, and explanation must be given why such evidence was not previously adduced.

(c) *Modification of effective date.* A petition under this section seeking only modification of the effective date of a decision, order, or requirement, or in the period of notice, or other period or date prescribed therein, must be filed seasonably, except that, in case of unforeseen emergency satisfactorily shown by petitioner, such relief may be sought informally by telegram or otherwise, provided like notice is simultaneously communicated to all parties of record.

(d) *Reconsideration.* If relief under this section other than under paragraphs (b) and (c) is sought, the matters claimed to have been erroneously decided and the alleged errors or relief sought must be specified with the particularity respecting exceptions as outlined in § 1.96 (a), as should also any substitute finding or other substitute requirement desired by petitioner.

(e) *Time for filing.* Except for good cause shown, and upon leave granted, petitions under this section must be filed within 30 days after the date of service of a decision or order granting an application in whole or in part, and within 60 days after the date of service of any other character of decision or order.

(f) *Successive petitions on same grounds, not entertained.* A successive petition under paragraph (d) of this section filed by the same party or parties, and upon substantially the same grounds as a former petition, which has been considered and denied by the entire Commission, or by an appropriate appellate division, will not be entertained.

§ 1.102 *Petitions not otherwise covered.* When the subject matter of any desired relief is not specifically covered by these rules, a petition seeking such relief and stating the reasons therefor may be served and filed.

By the Commission.

Secretary.

nent rules, particularly those referred to in the footnotes, should carefully be studied.]

No. 1. COMPLAINT [1]

Before the Interstate Commerce Commission

COMPLAINT

---

v.

[Insert without abbreviation the names of complainant and defendant (including each of the receivers, operating trustees, or other legal representatives of defendant), and whether a corporation, firm, or partnership, specifying the individual names of the parties composing the partnership; and the post-office address of any motor-carrier defendant.]

The Complaint of the above-named complainant respectfully shows:

I. That [complainant should here state nature and place of busines, also whether a corporation, firm, or partnership, and if a firm or partnership, the individual names of the parties composing the same.]

II. That the defendant above named is [here state whether: (a) carrier by railroad, express, motor vehicle (common or contract), water (common or contract), a freight forwarder, or otherwise; (b) the transportation is of property or passengers, or both; and (c) the transportation involves a freight forwarder or more than one type of carrier, specifying particulars] between points in the State of _____ and points in the State of _____ [a complaint under part II should specifically name the States in and through which the transportation which gives rise to the complaint is performed] and as such defendant is subject to the provisions of the Interstate Commerce Act.

III. That [state in this and subsequent paragraphs to be numbered IV, V, etc., the matter or matters intended to be complained of, naming every rate, fare, charge, classification, regulation, or practice the lawfulness of which is challenged, and also, if practicable, the points between which the rates, etc., complained of are applied. Where it is impracticable to designate each point, describe clearly the rate territory or rate group involved. Whenever practicable tariff or schedule reference should be given.]

[Where unlawful discrimination, preference, or prejudice is alleged the particular elements specified in the act as constituting such violation (see sections 2, 3, 4, 13, 216, 217, 218, 305, and 406) and the facts upon which complainant relies to establish the violation should be stated clearly. Where any provision of the act other than those just mentioned, or any requirement established pursuant to the act, is alleged to be violated, the pertinent statutory provision, or established requirement, together with the facts which are alleged to constitute the violation, should be stated. If two or more subsections of the act or requirements established pursuant thereto are alleged to be violated, the facts claimed to constitute violation of one subsection, or requirement, should be stated separately from those claimed to constitute a violation of another subsection, or requirement, wherever that can be done by reference or otherwise without undue repetition.]

X. That by reason of the facts stated in the foregoing paragraphs complainant has been subjected to the payment of rates [fares or charges, etc.] for transportation which were when exacted and still are (1) unjust and unreasonable in violation of section _____ of the Interstate Commerce Act, and (2) unjustly discriminatory in violation of section _____, and (3) unduly preferential or prejudicial in violation of section _____, and (4) in violation of the long-and-short-haul [or aggregate of intermediate rates] provision of section 4 thereof. [Use one or more of the allegations numbered (1), (2), (3), (4), or other appropriate allegation according to the nature of the complaint.] That [if recovery of damages is sought] complainant has been injured thereby to his damage in the sum of $ _____.

Wherefore complainant prays that defendant be required to answer the charges herein; that after due hearing and investigation an order be made commanding said defendant [and each of them] to cease and desist from the aforesaid violations of said act, and establish and put in force and apply in future to the transportation of _____ between the origin and destination points named in paragraph _____ hereof, in lieu of the rates [fares, or charges, etc.], named in said paragraph, such other rates [fares, or charges, etc.], as the Commission may deem reasonable and just [and also, if recovery of damages is sought, pay to complainant by way of reparation for the unlawful charges hereinbefore alleged the sum of $ _____, or such other sum as, in view of the evidence to be adduced herein, the Commission shall determine that complainant is entitled to an award of damages under the provisions of said act for violation thereof], and that such other and further order or orders be made as the Commission may consider proper in the premises.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service

PART 23—SOUTHWESTERN REGION NATIONAL WILDLIFE REFUGES

SAN ANDRES NATIONAL WILDLIFE REFUGE, NEW MEXICO

HUNTING REGULATIONS

Under authority of section 84 of the act of March 4, 1909, as amended by the act of April 15, 1924, 43 Stat. 98, the administration of which was transferred to the Secretary of the Interior on July 1, 1939, by Reorganization Plan No. II [1] (53 Stat. 1431), and in extension of section 12.9 of the regulations of December 19, 1940,[2] for the administration of national wildlife refuges under the jurisdiction of the Fish and Wildlife Service, the following regulations permitting and governing the hunting of deer in the San Andres National Wildlife Refuge, New Mexico, are made and prescribed:

§ 23.800 *Hunting of deer, San Andres National Wildlife Refuge, New Mexico.* Until further notice deer may be taken during the open season prescribed therefor by the State Game and Fish Commission of New Mexico on certain lands hereinafter described of the United States within the San Andres National Wildlife Refuge, New Mexico, under the following special provisions, conditions, restrictions, and requirements:

(a) No open season shall be declared on this described area in any year until after joint examination or consultation by the Fish and Wildlife Service, the Forest Service, and the Game and Fish Commission of the State of New Mexico. If such annual examination or consultation indicates there is a surplus of deer on the area which should be reduced in any year, the number of deer to be so removed shall be determined and agreed upon by the participating agencies.

(b) *Area open to hunting.* The following-described lands of the United States within the refuge shall be open to the hunting of deer; That part of the refuge common to the Jornada Experimental Range and bounded on the east by a line approximately one-half mile west of the rim of the San Andres Range to be flagged or otherwise suitably marked on the ground by the officer in charge.

(c) *Compliance with State laws and regulations.* Any person who hunts on the refuge shall have in his possession a valid State hunting license and a permit, if such license and permit are required, authorizing him to hunt deer. The license and permit shall be exhibited upon the request of any representative of the New Mexico Game and Fish Commission authorized to enforce the State Game Laws or of any representative of the Department of the Interior, the Department of Agriculture, or other authorized official. The permittee must comply in every respect with the state laws and regulations govering the hunting of deer and must upon request of any of the aforesaid representatives exhibit for inspection all game killed by him or in his possession.

(d) *Disorderly conduct; intoxication.* No person who is visibly intoxicated will be permitted to enter upon the refuge for the purpose of hunting, and any person who indulges in any disorderly conduct on the refuge will be removed therefrom by the officer in charge and dealt with as prescribed by law.

(e) *Entry upon refuge; civil liability.* Persons entering the refuge for the purpose of hunting, as permitted by these regulations, are subject to civil liability for injuring or killing any livestock or damaging any property thereon, and shall use such routes of travel as may be designated by suitable posting by the officer in charge and shall not otherwise enter upon the refuge.

(f) *Limitation on firearms and bullets.* Deer may be taken only by the use of rifled firearms. Regulation No. 57 of the New Mexico Game and Fish Laws and Regulations, promulgated March 10, 1934, section 5 providing that "No big game, except turkeys, shall be shot at, wounded, taken or killed with a steel, or hard pointed bullet," shall apply to the hunting of deer on the refuge.

(g) *Penalties.* Failure of any person hunting upon the refuge to comply with any of the conditions, restrictions or requirements of the regulations in this section will be sufficient cause for removing such person from the refuge and for refusing him further hunting privileges on the refuge.

(h) *State cooperation in management of the shooting area.* The provisions of the regulations in this section shall be incorporated in and be deemed to be a part of any agreement between the Director of the Fish and Wildlife Service and the State Game Commission of New Mexico for the regulation, management, and operation of the shooting area established hereunder.

OSCAR L. CHAPMAN,
Assistant Secretary.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. A-1016]

DISTRICT BOARD NO. 1—ALLEGHENY RIVER MINING CO.

ORDER CONTINUING TEMPORARY RELIEF

In the Matter of the Petition of District Board No. 1 for the Establishment of Price Classifications and Minimum

Prices, for all Shipments Except Truck, for a Mixture of the Coals of the Cadogan Mine (Mine Index No. 76), of the Allegheny River Mining Company with the Coals of Certain Other Mines in District No. 1, Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division by the Bituminous Coal Producers Board for District No. 1, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petitioner requested the establishment of temporary price classifications of "H" in Size Groups 1, 2, and 3 and "J" in Size Groups 4 and 5 for the coals of the Freebrook No. 7 Mine (Mine Index No. 664) of the Freebrook Corporation, the Loyal T. Henderson Mine (Mine Index No. 1491) of Loyal T. Henderson, the Orpha Mine (Mine Index No. 353) of the James Coal Mining Company, the Mohawk Mine (Mine Index No. 326) of the Mohawk Mining Company, the Radaker Mine (Mine Index No. 1921) of C. C. Radaker, when such coals are mixed with the coals of the Cadogan Mine (Mine Index No. 76) of the Allegheny River Mining Company and loaded over the Cadogan tipple.

Subsequent to the hearing in this matter before Examiner Joseph D. Dermody, the Freebrook Corporation, C. C. Radaker and Loyal T. Henderson requested that the classifications proposed for their respective mines for preparation and loading at the Cadogan tipple be withdrawn from consideration in this proceeding.

Upon recommendation by the Examiner, to which no exceptions were taken by any party to the proceeding, the Acting Director on June 8, 1942, ordered that commencing therewith the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck be, and thereby was, temporarily amended for a period of sixty (60) days by adding thereto a provision reading as follows:

When the coals of Mine Index No. 353 and 326 are mixed and loaded in the same car with coals of the Allegheny River Mining Company at Cadogan, Pennsylvania, the price to be applied to such mixture shall be the price listed for the coals of the mine in such mixture having the highest price classification.

On August 7, 1942, the Bituminous Coal Producers Board for District No. 1 requested that the temporary classifications established by the Order of the Acting Director dated June 8, 1942, in the above-entitled matter be continued for an additional period of sixty (60) days.

The undersigned finds that a reasonable showing of necessity has been made for the continuation of the temporary classifications established by the Order of the Acting Director dated June 8, 1942.

Now, therefore, it is ordered, That, commencing forthwith the temporary classifications established by the Order of the Acting Director dated June 8, 1942 in the above-entitled matter be continued for an additional period of sixty (60) days.

Dated: August 12, 1942.

[Docket No. B-309]

WM. HOWELLS AND T. A. HOWELLS, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

In the Matter of Wm. Howells and T. A. Howells, individually, and as co-partners, doing business under the name and style of Wm. Howells and T. A. Howells, code member.

A complaint dated July 1, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on July 7, 1942, by the Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Wm. and T. A. Howells, individually and as co-partners doing business under the name and style of Wm. and T. A. Howells, (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder and an amended complaint, dated July 27, 1942, in the above-entitled matter having been duly filed on July 31, 1942 (the complaint as amended hereinafter referred to as the "Complaint");

It is ordered, That a hearing in respect to the subject matter of such complaint be held on September 22, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Post Office Building, Canton, Ohio.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under section 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to section 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that Wm. Howells and T. A. Howells, doing business under the name and style of Wm. Howells and T. A. Howells, whose address is R. F. D. No. 5, Salem, Ohio, a code member, whose code membership became effective as of December 15, 1937, operating the Brookwood Mine, Mine Index No. 1400, located in Columbiana County, Ohio, in Subdistrict No. 4 of District No. 4, wilfully violated section 4 II (a) of the Act and Part 4 II (a) of the Code and Orders Nos. 307 and 309, promulgated by the Division on December 11, 1940 and January 14, 1941, respectively, by failing and refusing to file with the Statistical Bureau for District No. 4 for each month from January 1941 to June 1942, inclusive, within five (5) days after the end of each of said months, reports of all sales made during each of said months of coal produced at the above-named mine and shipped from said mine to various purchasers and copies of truck tickets, sales slips, invoices and listings of said sales as required by the respective provisions of said Orders Nos. 307 and 309.

Dated: August 12, 1942.

CLOVER SPLINT COAL COMPANY

ORDER GRANTING EXCEPTION

On June 27, 1942, the Clover Splint Coal Company, Koppers Building, Pittsburgh, Pennsylvania, hereinafter called the Protestant, filed a protest against the provisions of Maximum Price Regulation No. 120. In accordance with § 1300.33 of Procedural Regulation No. 1, the protest is being treated not only as such but also as a petition for amendment, adjustment, or exception filed pursuant to § 1340.207 of this regulation. For the reasons set forth in an opinion which has been issued simultaneously herewith and pursuant to the authority vested in the Administrator by the Emergency Price Control Act of 1942, and Procedural Regulation No. 1, [4] it is ordered:

(a) On and after June 27, 1942 sales of its 1" x ¼" and ¼" x 0" (Size Group 18) coals produced at its Closplint Mine (Mine Index No. 123), located at Closplint, Kentucky, in District 8, by the Clover Splint Coal Company may be made at the applicable maximum price subject to an agreement with the purchasers of such coals to adjust prices upon deliveries made during the pendency of its protest, in accordance with the disposition thereof.

(b) This Order No. 24 may be revoked or amended by the Price Administrator at any time, and, in any event, is to be effective only to the date upon which said petition is finally determined by the Price Administrator.

(c) Unless the context otherwise requires, the definitions set forth in § 1340.208 of Maximum Price Regulation No. 120 shall apply to the terms used herein.

(d) This Order No. 24 shall become effective August 13, 1942.

Issued this 12th day of August 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-577]

ILLINOIS IOWA POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 12th day of August, A. D., 1942.

Illinois Iowa Power Company, a registered holding company, having on July 13, 1942 filed an application or declaration (or both) with this Commission pursuant to the Public Utility Holding Company Act of 1935 and particularly sections 9 (a) and 10 of said Act, and Notice having been given of the filing thereof by publication in the FEDERAL REGISTER and otherwise as provided by Rule U-23 under said Act; and the application or declaration (or both) being concerned with the proposed acquisition by Illinois Iowa Power Company of the outstanding publicly held preferred stock of Kewanee Public Service Company, (Kewanee), an "associate company" of the applicant or declarant; and

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application or declaration (or both) and that said application shall not be granted or said declaration shall not become effective except pursuant to the further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and the Rules and Regulations thereunder be held on September 2, 1942 at 10:0 A. M., E. W. T., on that day at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day, the hearing-room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a Trial Examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given to such applicant or declarant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file notice to that effect with the Commission on or before August 27th, 1942.

It is further ordered, That, without limiting the scope of issues presented by said application or declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Availability of funds of Illinois Iowa Power Company and the propriety of utilizing such funds for the purposes outlined in the application;

(2) Analysis of the Property Account of Kewanee;

(3) Analysis of the past due note of Kewanee held by North American Light & Power Company and the open account from which such note originated;

(4) Analysis of Surplus Accounts of Kewanee to determine the propriety of charges and credits thereto;

(5) Analysis of the Depreciation Reserve and annual accruals thereto as set up on the books of Kewanee;

(6) The fairness of the proposed maximum price to be paid for said shares;

(7) The fairness of the proposed method of acquisition of said shares.

By the Commission.

THE GEORGIAN INCORPORATED

ORDER FOR HEARING AND DESIGNATING OFFICER TO TAKE TESTIMONY

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 12th day of August, A. D. 1942.

In the matter of proceeding under section 19 (a) (2) of the Securities Exchange Act of 1934, as amended, to determine whether the registration of The Georgian Incorporated Eight Per Cent Cumulative Class A Preference Stock $20 Par Value, should be suspended or withdrawn.

I. It appearing to the Commission:

That The Georgian Incorporated, a corporation organized under the laws of the State of Massachusetts, is the issuer of Eight Per Cent Cumulative Class A Preference Stock, $20 Par Value; and

That said The Georgian Incorporated registered such security on the Boston Stock Exchange, a national securities exchange, by filing on or about July 1, 1935, an application on Form 10 with the Exchange and with the Commission pursuant to section 12 (b) and (c) of the Securities Exchange Act of 1934, as amended, and pursuant to Rule X-12B-1, as amended, promulgated by the Commission thereunder, which registration became effective July 16, 1935, and has remained in effect to and including the date hereof; and

It further appearing to the Commission:

That Rule X-13A-1, promulgated pursuant to section 13 of said Securities Exchange Act of 1934, as amended, did and does require that an annual report for each issuer of a security registered on a national securities exchange shall be filed on the appropriate form prescribed therefor; and

That Rule X-13A-2, promulgated pursuant to section 13 of the Securities Exchange Act of 1934, as amended, did and does prescribe Form 10-K as the annual report form to be used for the annual reports of all corporations except those for which another form is specified, and that no other form was or is specified for use by the said The Georgian Incorporated; and

That said Rule X-13A-1 requires that said annual report be filed not more than 120 days after the close of each fiscal year or such other period as may be prescribed in the instruction book applicable to the particular form; that the Instruction Book for Form 10-K does not prescribe any period other than such 120 days; and that pursuant to said Rule X-13A-1 the annual report must be filed within such period unless the registrant files with the Commission a request for an extension of time to a specified date within six months after the close of the fiscal year; and

That said The Georgian Incorporated has a fiscal year ending December 31; that the annual report for its fiscal year ended December 31, 1941, was due to be filed not later than April 30, 1942; that no request for extension was filed by said The Georgian Incorporated; and that no annual report for the fiscal year ended December 31, 1941, was filed by July 1, 1942, within the maximum period allowable under the rule; and

II. The Commission having reasonable cause to believe:

That said The Georgian Incorporated has failed to comply with the provisions of section 13 of the Securities Exchange Act of 1934, as amended, and Rules X-13A-1 and X-13A-2 promulgated thereunder, in that (1) it has failed to file its annual report for the year ended December 31, 1941, within the time prescribed for filing said report, and (2) it has failed to file such annual report at any later date; and

III. It being the opinion of the Commission that the hearing herein ordered to be held is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Securities Exchange Act of 1934, as amended;

It is ordered, Pursuant to section 19 (a) (2) of said Act, that a public hearing be held to determine whether The Georgian Incorporated has failed to comply with section 13 of the Securities Exchange Act of 1934, as amended, and the Rules, Regulations and Forms promulgated by the Commission thereunder, in the respects set forth above; and if so, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months or to withdraw the registration of the Eight Per Cent Cumulative Class A Preference Stock, $20 Par Value, of said The Georgian Incorporated on said Boston Stock Exchange;

It is further ordered, Pursuant to the provisions of section 21 (b) of the Securities Exchange Act of 1934, as amended, that for the purpose of such hearing, Frank Kopelman, an officer of the Commission, is hereby designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take testimony and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law;

It is further ordered, That the taking of testimony in this hearing begin on the 10th day of September, 1942, at 10:00 A. M. at the Regional Office of the Securities and Exchange Commission, 82 Devonshire Street, Boston, Massachusetts, and continue thereafter at such time and place as the officer hereinbefore designated may determine.

By the Commission.

AUG 17 1942

The Tennessee Railroad and Public Utilities Commission and the City of Jellico, a municipal corporation under the laws of Tennessee, and E. S. Miller, James L. Hefferman, John W. Howe and M. A. Wheeler, residents of said City, having filed petitions requesting that a hearing be held with respect to the said matter, and said petitions having alleged the existence of certain claims on behalf of certain citizens of the City of Jellico against the assets of Tri-City Utilities Company, the alleged claims arising out of a rate reduction order of the Tennessee Railroad and Public Utilities Commission; and

The Commission having considered such petitions and the allegation contained therein, and it appearing to the Commission that it is appropriate and in the public interest and the interest of investors and consumers that a hearing be held with respect to said declaration and application and that said declaration shall not become effective or said application be granted except pursuant to further order of the Commission, and that at said hearing there be considered, among other things, the various matters hereinafter set forth;

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the rules of the Commission thereunder be held on September 1, 1942, at 10 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in room 318 will advise as to the room where such hearing will be held.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of issues presented by said application or declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the acquisition and retirement by Tri-City Utilities Company of its common stock from time to time will be detrimental to the public interest or the interest of investors and consumers;

(2) Whether terms or conditions are necessary to be imposed to protect the financial integrity or to safeguard the working capital of Tri-City Utilities Company and to insure compliance with the requirements of the Public Utility Holding Company Act of 1935 or any rules, regulations or orders promulgated thereunder;

(3) Whether any part of the funds which Tri-City Utilities Company proposes to use to acquire its common stock should be set aside for the satisfaction of claims asserted by the City of Jellico, Tennessee, and certain of its residents; and

(4) Generally, whether all actions proposed to be taken comply with the requirements of the Act, and rules, regulations or orders promulgated thereunder.

By the Commission.

REORGANIZED WILSON MINING CO.

ORDER FOR HEARING AND DESIGNATING OFFICER TO TAKE TESTIMONY

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 12th day of August, A. D., 1942.

In the matter of proceeding under section 19 (a) (2) of the Securities Exchange Act of 1934, as amended, to determine whether the registration of Reorganized Wilson Mining Company, assessable Common Stock, 10¢ par value, should be suspended or withdrawn.

I. It appearing to the Commission:

That Reorganized Wilson Mining Company, a corporation organized under the laws of the State of Nevada, is the issuer of Assessable Common Stock, 10¢ par value; and

That said Reorganized Wilson Mining Company registered such security on the San Francisco Mining Exchange, a national securities exchange, by filing on or about November 23, 1935, an application on Form 10 with the Exchange and with the Commission pursuant to section 12 (b) and (c) of the Securities Exchange Act of 1934, as amended, and pursuant to Rule X-12B-1, as amended, promulgated by the Commission thereunder, which registration became effective June 1, 1936, and has remained in effect to and including the date hereof; and

It further appearing to the Commission:

That Rule X-13A-1, promulgated pursuant to section 13 of said Securities Exchange Act of 1934, as amended, did and does require that an annual report for each issuer of a security registered on a national securities exchange shall be filed on the appropriate form prescribed therefor; and

That Rule X-13A-2, promulgated pursuant to section 13 of the Securities Exchange Act of 1934, as amended, did and does prescribe Form 10-K as the annual report form to be used for the annual reports of all corporations except those for which another form is specified, and that no other form was or is specified for use by the said Reorganized Wilson Mining Company; and

That said Rule X-13A-1 requires that said annual report be filed not more than 120 days after the close of each fiscal year or such other period as may be prescribed in the instruction book applicable to the particular form; that the Instruction Book for Form 10-K does not prescribe any period other than such 120 days; and that pursuant to said Rule X-13A-1 the annual report must be filed within such period unless the registrant files with the Commission a request for an extension of time to a specified date within six months after the close of the fiscal year; and

That said Reorganized Wilson Mining Company has a fiscal year ending December 31; that the annual report for its fiscal year ended December 31, 1941 was due to be filed not later than April 30, 1942; that the time for filing was extended to June 30, 1942, the maximum extension permitted by Rule X-13A-1; that the annual report for the fiscal year ended December 31, 1941 was not filed either within such extended period or at any later date; and

II. The Commission having reasonable cause to believe that:

The said Reorganized Wilson Mining Company has failed to comply with the provisions of section 13 of the Securities Exchange Act of 1934, as amended, and Rules X-13A-1 and X-13A-2 promulgated thereunder, in that (1) it has failed to file its annual report for the year ended December 31, 1941 within the time prescribed for filing said report, and (2) it has failed to file such annual report at any later date; and

III. It being the opinion of the Commission that the hearing herein ordered to be held is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Securities Exchange Act of 1934, as amended;

It is ordered, Pursuant to section 19 (a) (2) of said Act, that a public hearing be held to determine whether Reorganized Wilson Mining Company has failed to comply with section 13 of the Securities Exchange Act of 1934, as amended, and the Rules, Regulations and Forms promulgated by the Commission thereunder, in the respects set forth above; and if so, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months or to withdraw the registration of the Assessable Common Stock, 10¢ Par Value, of said Reorganized Wilson Mining Company on said San Francisco Mining Exchange;

It is further ordered, Pursuant to the provisions of section 21 (b) of the Securities Exchange Act of 1934, as amended, that for the purpose of such hearing, John G. Clarkson, an officer of the Commission, is hereby designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take testimony and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law;

It is further ordered, That the taking of testimony in this hearing begin on the 26th day of August, 1942, at 10:00 a. m. at the Regional Office of the Securities and Exchange Commission, 625 Market Street, San Francisco, California, and continue thereafter at such time and place as the officer hereinbefore designated may determine.

By the Commission.

EXECUTIVE ORDER 9220

[AUTHORIZING THE SECRETARY OF THE NAVY TO TAKE POSSESSION AND OPERATE THE PLANT OF THE GENERAL CABLE COMPANY AT BAYONNE, NEW JERSEY]

By virtue of the power and authority vested in me by the Constitution and laws of the United States, as President of the United States and Commander in Chief of the Army and Navy of the United States, it is hereby ordered and directed as follows:

The Secretary of the Navy is authorized and directed immediately to take possession of and operate the plant of the General Cable Company located at Bayonne, New Jersey, through and with the aid of such person or persons or instrumentality as he may designate, and, in so far as may be necessary or desirable, to produce the war materials called for by the Company's contracts with the United States, its departments and agencies, or as may be otherwise required for the war effort, and do all things necessary or incidental to that end. The Secretary of the Navy shall employ such employees, including a competent civilian advisor on industrial relations, as are necessary to carry out the provisions of this Order, and, in furtherance of the purposes of this Order, the Secretary of the Navy may exercise any existing contractual or other rights of said Company, or take such steps as may be necessary or desirable.

Possession and operation hereunder shall be terminated by the President as soon as he determines that the plant of the General Cable Company will be privately operated in a manner consistent with the war effort.

(b) "The Secretary" means the Secretary of Agriculture of the United States.

(c) "The Bureau" means the Bureau of Animal Industry of the United States Department of Agriculture.

(d) "Bureau representative" means any inspector or other person employed by the bureau who is authorized by the Chief of Bureau to do any work or perform any duty in connection with the arrest and eradication of tuberculosis, paratuberculosis, and Bang's disease (brucellosis) of animals.

(e) "Accredited veterinarian" means any veterinarian accredited by State and Bureau.

(f) "Destroyed" means condemned and destroyed by slaughter or by death otherwise.

§ 51.2 *Payments to owners for cattle destroyed.* Owners of cattle destroyed because they are affected with tuberculosis, paratuberculosis, or Bang's disease of cattle shall be paid an indemnity not to exceed one-third of the difference between the appraised value of each animal so destroyed and the value of the salvage thereof, ascertained in accordance with the provisions of §§ 51.3 and 51.6 hereof: *Provided, however,* That no such payment shall exceed $25 for any grade animal or $50 for any purebred animal: *And provided further,* That no such payment shall exceed the amount paid or to be paid by the State, Territory, county, or municipality where the animal shall be condemned.

§ 51.3 *Appraisal of cattle.* Cattle affected with tuberculosis, paratuberculosis, or Bang's disease shall be appraised by a Bureau representative or a representative of the cooperating State, Territory, county, or municipality in which they are condemned. When thus appraised, due consideration shall be given to their breeding value as well as to their dairy or meat value. Cattle presented for appraisal as purebreds shall be accompanied by their registration papers at the time of appraisal, or they shall be appraised as grades: *Provided, however,* That, if the cattle are less than three years old and unregistered, the Chief of Bureau may grant a reasonable time for their registration and the presentation of their registration papers to the appraiser. The Bureau may decline to accept any appraisal that appears to it to be unreasonable or out of proportion to the market value of similar cattle of a like quality. Appraisals shall not exceed any limit that may be set by the laws or regulations of the State, Territory, county, or municipality in which the cattle are condemned.

§ 51.4 *Report of appraisals.* Appraisals made under § 51.3 hereof shall be reported on forms furnished by the Bureau (T. E. Form 23 (revised)), which shall show the number of cattle, the age and value of each, the registration names and numbers of all purebred cattle and the amount paid or to be paid for each animal by the State, Territory, county, or municipality in which it was condemned. The T. E. Form 23 (revised) shall be signed by the appraiser or appraisers and approved by the Bureau inspector in charge and a duly authorized official of the cooperating State, Territory, county, or municipality. It shall also be signed by the owner of the animals, or his agent, certifying that the appraisal is accepted by him and that the amounts stated to be due him from the United States and the cooperating State, Territory, county, or municipality are correct. One copy of the T. E. Form 23 (revised) shall be submitted to the Bureau with the claim for compensation provided for in § 51.7 and one copy shall be retained by the Bureau inspector in charge who approves the claim. Additional copies may be furnished to officials of the cooperating State, Territory, county, or municipality and to the owner, upon request.

§ 51.5 *Time limit for slaughter.* Tuberculous, paratuberculous, or Bang's disease reacting cattle, for the elimination of which payment is to be made, shall be slaughtered within 15 days after the date of appraisal, except that the Bureau inspector in charge, for reasons satisfactory to him, may extend the period to thirty days and the Chief of Bureau, within his discretion, may extend it beyond thirty days.

§ 51.6 *Report of proceeds of marketing.* A report of the salvage derived from the sale of *each* animal slaughtered in accordance with these regulations shall be made on T. E. Form 24 (revised) which shall be signed by the purchaser or his agent, or by the selling agent handling the animals. If the animals are sold by the pound, the T. E. Form 24 (revised) shall show the weight, price per pound, gross receipts, expenses, if any, and net proceeds. If the animals are not sold on a per pound basis, the net purchase price of *each* animal must be stated on the T. E. Form 24 (revised) and an explanation showing how the amount received was arrived at must be submitted. In the event that the animals are not disposed of through regular slaughterers or through selling agents, the owner shall furnish, in lieu of the T. E. Form 24 (revised), an affidavit showing the amount of salvage obtained by him, and certify that said amount is all that he has received or will receive as salvage for said animal or animals. A certificate executed by the inspector in charge will be accepted in lieu of the owner's affidavit. The salvage shall be considered to be the net amount received for the animal after deducting freight, truckage, yardage, commissions, slaughtering charges, etc., but no charges for holding animals on the farm pending slaughter or for trucking by the owner of the animals shall be deducted, and no such charges will be paid by the Department. One copy of T. E. Form 24 (revised) or the affidavit or certificate of the inspector in charge, furnished in lieu thereof, shall be submitted to the Bureau with the claim and one copy shall be retained by the Bureau inspector in charge who approves the claim. Additional copies may be prepared and furnished to the State, Territory, county, or municipal authorities, if required by them.

§ 51.7 *Claims for compensation.* Claims for compensation for cattle destroyed on account of tuberculosis, paratuberculosis, or Bang's disease shall be presented on Standard Form 1034 (revised), or such other form as may be prescribed by the General Accounting Office, properly executed and accompanied by T. E. Form 23 (revised), and by T. E. Form 24 (revised) or the affidavit or certificate in lieu of T. E. Form 24 (revised) authorized by § 51.6.

§ 51.8 *Claims not allowed.* Claims for compensation for cattle destroyed on account of tuberculosis, paratuberculosis, or Bang's disease shall not be allowed if any of the following circumstances exists:

(a) If the claimant has failed to comply with any of the requirements of these regulations.

(b) If the existence of either disease in the cattle was not determined as the result of a tuberculin, johnin, or agglutination test applied by a Bureau veterinarian, a cooperating, regularly employed, State, Territorial, county, or municipal veterinary inspector, or an accredited veterinarian.

(c) If the existence of either disease in the cattle was determined as the result of a tuberculin, johnin, or agglutination test applied by an accredited veterinarian and specific instructions for the administration of such test had not previously been issued to such veterinarian in writing by the proper State and Federal authorities.

(d) If the cattle are classified as tuberculous or paratuberculous, unless they have reacted to the tuberculin or johnin test or reveal lesions of either disease upon autopsy.

(e) If, at the time of their condemnation the cattle were not in a State, Territory, county, or municipality in which cooperative tuberculosis, paratuberculosis, or Bang's disease eradication work was being conducted.

(f) If the claim is not to be paid in cooperation with, and supplementary to payments to be made by, the State, Territory, county, or municipality in which said cattle were condemned.

(g) If any part of the claimant's herd has not been tested under Federal and State supervision for the eradication of tuberculosis, paratuberculosis, or Bang's disease.

(h) If the premises occupied by the cattle have not been properly cleaned and disinfected with a disinfectant permitted by the Bureau in accordance with recommendations of the proper State or Bureau official.

(i) If the cattle are steers, unless they are work oxen, or if they are bulls and are not purebred.

(j) If the cattle were destroyed on account of tuberculosis or paratuberculosis, unless they were marked for identification by branding the letter "T" on the left jaw, not less than 2 nor more than 3 inches high, and unless a metal tag bearing a serial number and the inscription "U. S. B. A. I. Reactor" or a similar State reactor tag shall have been suitably attached to the left ear of each animal.

(k) If the cattle were destroyed on account of Bang's disease, unless they were marked for identification by branding the letter "B" on the left jaw, not less than 2 nor more than 3 inches high, and unless a metal tag bearing a serial number and the inscription "U. S. B. A. I. Reactor, B. D.," or a similar State reactor tag shall have been suitably attached to the left ear of each animal.

(l) If the cattle reacted positively to the agglutination blood test for Bang's disease and, at any time after they became 8 months old, they had been vaccinated with any vaccine made from or through the agency of Brucella microorganisms; or if they reacted positively to such test and they had been vaccinated with such a vaccine when they were 8 months old or less, unless 18 months had elapsed between the date of vaccination and the date of reaction.

(m) If the cattle are calves under 6 months old which have reacted only to the agglutination blood test for Bang's disease.

(n) If there is substantial evidence that the owner or his agent has in any way been responsible for any attempt unlawfully or improperly to obtain indemnity funds for such cattle.

§ 51.9 *Part 53 not applicable.* No claim for compensation for cattle destroyed on account of tuberculosis, paratuberculosis, or Bang's disease shall hereafter be paid or allowed under the regulations contained in Title 9, Chapter 1, Subchapter B, Part 53, Code of Federal Regulations [B.A.I. Order 237], but all such claims shall be presented and paid pursuant to and in compliance with regulations contained in this order.

Done at Washington this 13th day of August 1942.

MISCELLANEOUS AMENDMENTS

Sections 19.47–1, 19.52–1, 19.53–1, 19.56–1 (a), 19.235–1 (b), and 19.236–1 (b) Regulations 103 amended: Returns by corporations not in existence throughout an annual accounting period, time for filing corporation returns and paying the tax for a fractional part of a year.

PARAGRAPH 1. Regulations 103 [Part 19, Title 26, Code of Federal Regulations, 1940 Sup.] are amended as follows:

(A) By changing the fourth sentence of § 19.47–1, relating to returns for periods of less than twelve months, to read as follows:

The requirements with respect to the filing of a separate return and the payment of tax for a part of a year are the same as for the filing of a return and the payment of tax for a full taxable year closing at the same time, except as otherwise provided in § 19.53–1 and § 19.56–1 (a).

(B) By striking the first sentence of § 19.53–1, relating to the time for filing returns, and inserting in lieu thereof the following:

Returns of income (except in the case of nonresident alien individuals, as to which see section 217, and foreign corporations, as to which see section 235, and except in the case of a return by a corporation for a fractional part of a year) must be made on or before the 15th day of the third month following the close of the taxable year. The return by a corporation (other than a nonresident foreign corporation) for a fractional part of a year must be filed on or before the 15th day of the third full calendar month following the close of the fractional part of a year, except that, upon a showing by the taxpayer of unusual circumstances, the Commissioner may prescribe a later time for the filing of the return. In such a case, the time prescribed by the Commissioner shall not be later than the 15th day of the third month following (1) the close of the calendar year in which or with which such fractional part of a year ends or (2) the close of the 12th month ending after the beginning of such fractional part of a year, whichever is earlier.

(C) By inserting immediately after the first sentence in § 19.56–1 (a), relating to the date on which tax shall be paid, the following:

In the case of a return by a corporation (other than a nonresident foreign corporation) for a fractional part of a year, the tax is to be paid on or before the last day prescribed for the filing of such return (see § 19.53–1).

(D) By inserting immediately after the first sentence in parentheses in § 19.235–1 (b), relating to the time and place for filing returns for resident foreign corporations, the following:

If the return is for a fractional part of a year, it shall be filed at the time prescribed in § 19.53–1.

(E) By inserting immediately after the first sentence of § 19.236–1 (b), relating to the date on which tax shall be paid by resident foreign corporations, the following:

If the return is made for a fractional part of a year, the tax shall be paid at the time prescribed in § 19.56–1 (a).

PAR. 2. Section 19.52–1 of such Regulations 103 is amended by inserting immediately after the fourth sentence thereof the following:

If a corporation was not in existence throughout an annual accounting period (either calendar year or fiscal year), and if the fractional part of a year during which it was in existence ended after June 30, 1941, then the corporation is required to make a return for that fractional part of a year during which it was in existence. A corporation is not in existence after it ceases operations and is dissolved, retaining no assets.

(Sections 47, 52, 53, 56, 62, 235, 236 and 3791 (b) of the Internal Revenue Code (53 Stat. 26, 27, 28, 31, 32, 79, and 467; 26 U.S.C., sections 47, 52, 53, 56, 62, 235, 236, and 3791 (b).)

TITLE 29—LABOR

Chapter V—Wage and Hour Division

PART 624—MINIMUM WAGE RATES IN THE RAILROAD CARRIER INDUSTRY

WAGE ORDER

In the matter of the recommendations of Industry Committee No. 44 for minimum wage rates in the Railroad Carrier Industry.

Whereas on April 4, 1942, pursuant to section 5 of the Fair Labor Standards Act of 1938, hereinafter called the Act, the Administrator of the Wage and Hour Division of the United States Department of Labor, by Administrative Order No. 147, appointed Industry Committee No. 44 for the Railroad Carrier Industry, herein called the Committee, and directed the Committee to recommend minimum wage rates for the Railroad Carrier Industry in accordance with section 8 of the Act; and

Whereas the Committee included four disinterested persons representing the public and a like number of persons representing the employees in the Railroad Carrier Industry, and a like number representing employers in the Industry, and each group was appointed with due regard to the geographical regions in which the Railroad Carrier Industry is carried on; and

Whereas on April 29, 1942, after investigation of conditions in the Industry, the Committee filed with the Administrator a report containing its recommendations for a 40 cent per hour minimum wage rate in the Railroad Carrier Industry; and

Whereas after notice published in the FEDERAL REGISTER on June 23, 1942, Major Robert N. Campbell, the Presiding Officer designated by the Administrator, held a public hearing upon the Committee's recommendations at New York, New York, on July 15, 1942, at which all interested persons were given an opportunity to be heard; and

Whereas the complete record of the proceeding before the Presiding Officer was transmitted to the Administrator; and

Whereas although all persons appearing at said public hearing before the Presiding Officer were given leave to file briefs on or before August 5, 1942, no briefs were filed; and

Whereas the Administrator, upon reviewing all the evidence adduced in this proceeding and giving consideration to the provisions of the Act, with special reference to sections 5 and 8, concludes that the Committee's recommendations for the Railroad Carrier Industry, as defined in Administrative Order No. 147 are made in accordance with law, are supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of section 8 of the Act; and

Whereas, the Administrator has set forth his decision in an opinion entitled "Findings and Opinion of the Administrator in the Matter of the Recommendations of Industry Committee No. 44 for a Minimum Wage Rate in the Railroad Carrier Industry," dated this day, a copy of which may be had upon request addressed to the Wage and Hour Division, 165 West 46 Street, New York, New York.

Now, therefore, it is ordered, That:

Sec.
624.1 Approval of recommendations of industry committee.
624.2 Wage rate.
624.3 Posting of notices.
624.4 Definition of railroad carrier industry.
624.5 Effective date.

AUTHORITY: §§ 624.1 to 624.5, inclusive, issued under sec. 8, 52 Stat. 1064; 29 U.S.C. 208.

§ 624.1 *Approval of recommendations of industry committee.* The Committee's recommendations are hereby approved.

§ 624.2 *Wage rate.* Wages at a rate of not less than 40 cents an hour shall be paid under section 6 of the Act by every employer to each of his employees in the Railroad Carrier Industry who is engaged in commerce or in the production of goods for commerce.

§ 624.3 *Posting of notices.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the Railroad Carrier Industry shall post and keep posted in a conspicuous place in each department of each of his establishments where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor, and shall give such other notice as the Division may from time to time prescribe.

§ 624.4 *Definition of railroad carrier industry.* The railroad carrier industry to which this order shall apply is hereby defined as follows:

For the purpose of this order the term "railroad carrier industry" means the industry carried on by any express company, sleeping car company or carrier by railroad, subject to Part I of the Interstate Commerce Act, and by any company which is directly or indirectly owned or controlled by one or more such carriers or under common control therewith, and which operates any equipment or facility or performs any service (except trucking service, casual service and the casual operation of equipment or facilities) in connection with the transportation of passengers or property by railroad, or the receipt, delivery, elevation, transfer in transit, refrigeration or icing, storage, or handling of property transported by railroad, and by any receiver, trustee, or other individual or body, judicial or otherwise, when in the possession of the property or operating all or any part of the business of any such company or carrier by railroad: *Provided, however,* That the term "railroad carrier industry" shall not include the industry carried on by any street, interurban, or suburban electric railway, unless such railway is operating as a part of a general steam-railroad system of transportation, but shall not exclude any part of the general steam-railroad system of transportation now or hereafter operated by any other motive power.

§ 624.5 *Effective date.* This wage order shall become effective August 31, 1942.

Signed at New York, N. Y., this 13th day of August, 1942.

L. METCALFE WALLING,
Administrator.

[Amendment 1 to Limitation Order L–70, as Amended]

Section 1141.1 *Limitation Order L–70*,[1] as Amended, paragraph (g) is hereby amended to read as follows:

(g) *Emergency reserves and replacements.* (1) In those areas in which the provisions of Exhibit "B" are in effect, any service station which makes deliveries of motor fuel for official use in vehicles or boats owned or operated by the United States Army or the United States Navy, which deliveries are not a normal part of such service station's regular business, shall be entitled to replacement from his supplier of the amount thereof and may accept delivery of such replacement in addition to the monthly quota for such service station.

(2) In the States of Oregon and Washington:

(i) In addition to the delivery of that supply of motor fuel which is permitted under paragraphs (d) and (k) (1), a supplier shall deliver a quantity of motor fuel sufficient to permit any service station supplied by him to maintain the minimum necessary reserve specified in paragraph (g) (2) (ii).

(ii) In addition to that supply of motor fuel which is permitted under paragraphs (d) and (k) (1), a service station shall accept delivery of and maintain motor fuel in a quantity equal to 25 percent of the total motor fuel storage capacity of such service station, or 500 gallons, whichever is the lesser.

(iii) Such minimum necessary reserve may be delivered by any service station only upon a direction of the Army, the Navy, the Office of Civilian Defense, the Office of Petroleum Coordinator for War or the Director General for Operations, in the following words and signed manually:

PART 1233—THERMOPLASTICS

[Supplementary Order M–154–a]

§ 1233.2 *Supplementary Order M–154–a*—(a) *Definition.* For the purpose of this order "polyvinyl butyral" means polyvinyl butyral resin formed by the reaction of butyraldehyde with a hydrolized polymer of vinyl acetate.

(b) *Restriction on disposition of butyral.* No person shall use, process or deliver polyvinyl butyral except as follows:

(1) Pursuant to the terms of a contract, subcontract or order for polyvinyl butyral or products made therefrom, where such polyvinyl butyral or such products are to be delivered to, or incorporated into any material to be delivered to, the United States Army, Navy, Coast Guard, Maritime Commission, or War Shipping Administration, or the Government of any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or the Government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies and Protectorates, and Yugoslavia; or

(2) For research purposes: *Provided*, That no delivery of polyvinyl butyral for research purposes shall be made except on orders bearing preference ratings of A–2 or higher; *and provided further*, That no person may accept delivery of more than one hundred (100) pounds of polyvinyl butyral in any one calendar month for research purposes; or

(3) Pursuant to specific authorization of the Director General for Operations.

(c) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. [Supplementary Order M–154–b]

§ 1233.3 *Supplementary Order M–154–b*—(a) *Definition.* For the purpose of this order "methyl methacrylate" means any polymer of the esters of acrilic and methacrylic acid.

(b) *Restrictions on disposition of methyl methacrylate sheet scrap.* Ex-

cept as otherwise specifically authorized by the Director General for Operations, no person shall sell or deliver scrap resulting from the cutting or fabricating of methyl methacrylate sheets except for the purpose of reprocessing such scrap into methyl methacrylate sheets.

(c) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Intra-company deliveries.* The prohibitions and restrictions of this order with respect to deliveries of methyl methacrylate scrap shall apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C.—Ref.: M-154-b. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. PART 1288—POWER, STEAM, AND WATER AUXILIARY EQUIPMENT

[Schedule II—Limitation Order L-154]

STEAM SURFACE CONDENSERS

§ 1288.3 *Schedule II to Limitation Order L-154*[1]—(a) *Definitions.* For the purpose of this schedule:

(1) "Producer" means any person who produces, manufactures, processes, fabricates, or assembles steam surface condensers.

(2) "Steam surface condenser" means any tube and shell steam condenser used in land installations which employs water in its circulating system to condense the steam exhausted from a prime mover or from the jets of a steam jet air pump.

(3) "Admiralty metal" and "Muntz metal" mean those alloys so designated, respectively, in A. S. T. M. specification B111-40T.

(b) *Restrictions on materials.* The following restrictions on materials are hereby established for the manufacture of steam surface condensers:

(1) No producer shall install or incorporate, or accept delivery of for the purpose of installing or incorporating, in any steam surface condenser, whether such condenser be new or used,

(i) Tube sheets which contain any copper, copper base alloy, or nickel, or tube sheets which are tin-coated;

(ii) Tubing which contains any cupronickel alloy;

(iii) Tubing which is tin-coated;

(iv) Tubing which contains any copper or copper base alloy except:

(*a*) Tubing constituted entirely of Muntz metal or of an alloy containing a lower percentage of copper than Muntz metal and no tin in a condenser designed to employ normal fresh water in its circulating system; or

(*b*) Tubing constituted entirely of Admiralty metal or of an alloy containing a lower percentage of copper than Admiralty metal and no tin in a condenser designed to employ brackish or salt water in its circulating system;

(v) Any other part, (such as, but not limited to, bolts, bracing, ferrules, or baffles in the water passages or steam spaces) which contains any copper or copper base alloy.

(2) Nothing herein contained shall prevent the delivery or use of tubing, tube sheets, or other parts, which were in process or fully fabricated five days after the issuance of this schedule.

Chapter XI—Office of Price Administration

PART 1309—COPPER

[Maximum Price Regulation 202]

BRASS AND BRONZE ALLOY INGOT

In the judgment of the Price Administrator the prices of brass and bronze alloy ingot have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of brass and bronze alloy ingot prevailing between October 1 and October 15, 1941 and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Act.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 202 is hereby issued.

AUTHORITY: §§ 1309.151 to 1309.165, issued under Pub. Law 421, 77th Cong.

§ 1309.151 *Prohibition against dealing in brass or bronze alloy ingot at prices above the maximum.* On and after August 19, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver, and no person in the course of trade or business shall buy or receive any brass or bronze alloy ingot at a price higher than the maximum price established for such ingot by Appendix A (§ 1309.165), and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided, however,* That contracts for the sale of brass or bronze alloy ingot entered into in writing prior to July 10, 1942, at prices not in excess of the prices established by the General Maximum Price Regulation[2] may be carried out in accordance with their terms if the seller, prior to September 1, 1942, delivers such ingot to the buyer's plant or warehouse or to a carrier not owned or controlled by the seller for transportation to the buyer's plant or warehouse.

§ 1309.152 *Sales for export.* The maximum price at which a person may export brass or bronze alloy ingot shall be determined in accordance with the provisions of Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.

§ 1309.153 *Adjustable pricing.* Any person may offer, or agree to adjust, or fix, prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In any appropriate situation where a petition for amendment, adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1309.154 *Less than maximum prices.* Lower prices than the maximum prices established by this Maximum Price Regulation No. 202 may be charged, demanded, paid or offered.

§ 1309.155 *Records.* (a) Every sale of brass or bronze alloy ingot on and after August 19, 1942, shall be invoiced by the seller. The original invoice shall be delivered to the buyer with the brass or bronze alloy ingot, and shall state: (1) the date of delivery, (2) the names and addresses of the buyer and seller, (3) the ingot identification number or, in the case of a brass or bronze alloy ingot not given an ingot identification number, the exact alloy composition, including any impurities or physical specifications, (4) the quantity in pounds ordered and delivered, and (5) the price per pound and the total amount payable by the buyer, showing separately the transportation costs if such costs exceed 0.25¢ per pound and if the excess is payable by the buyer.

(b) On and after August 19, 1942, every buyer of brass or bronze alloy ingot shall preserve for inspection by the Office of Price Administration for a period of at least two years, the original, and every seller of brass or bronze alloy ingot shall so preserve a copy, of each invoice required to be furnished by paragraph (a) of this section.

§ 1309.156 *Reports.* (a) On or before September 10, 1942, and on or before the tenth day of each month thereafter, each producer of brass and bronze alloy ingot shall submit to the Office of Price Administration a report showing all deliveries of brass and bronze alloy ingot for the preceding calendar month. Such report shall list the deliveries in pounds opposite each ingot identification number in Appendix A and the deliveries in pounds opposite the nominal specification of each brass or bronze alloy ingot not given an identification number in Appendix A.

(b) On or before the first day of the second calendar month following the close of each quarter of his fiscal year beginning with the first quarter ending after August 19, 1942, each producer of brass or bronze alloy ingot who has not filed OPA Form B—Interim Financial Report, covering such accounting period shall furnish to the Office of Price Administration his balance sheet and profit and loss statement covering such accounting period as normally prepared for his own use, except that the profit and loss statement must show the profit of such producer before federal income and excess profits taxes.

(c) Persons affected by this regulation shall also submit such other reports to the Office of Price Administration as it may from time to time require.

§ 1309.157 *Certificates of analysis.* Any seller who has customarily given a buyer a certificate of analysis shall continue to do so. Upon request from the buyer, any seller, regardless of previous custom, shall give the buyer a certificate of analysis signed by the seller, or a duly-authorized partner, officer or employee of the seller, or by a recognized independent testing laboratory, showing the exact chemical analysis of the ingot, including all relevant impurities, except that if the maximum price of the ingot is determined on the basis of physical specifications, such certificate shall show the relevant physical properties of the ingot.

§ 1309.158 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 202 shall not be evaded whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, brass or bronze alloy ingot, alone or in conjunction with any other commodity, or by use of any commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement, trade understanding or otherwise.

§ 1309.159 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 202 are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 202 or any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1309.160 *Petition for amendment.* Persons seeking modification of any provisions of this Maximum Price Regulation No. 202 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1309.161 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 202 supersede the provisions of the General Maximum Price Regulation with respect to the sales and deliveries for which maximum prices are established by this Regulation.

§ 1309.162 *Definitions.* (a) When used in this Maximum Price Regulation No. 202, the term:

(1) "Person" includes an individual, corporation, partnership, association or any other organized group of persons or legal successor or representative of any of the foregoing and includes the United States or any agency thereof or any other Government or any of its political subdivisions or any agency of the foregoing.

(2) "Carload lot" means the minimum quantity of brass or bronze alloy ingot

*Ingots to be sold at the price indicated for these ranges of alloy content must have lead at least ½ of 1% higher than tin.
†No addition for phosphorus may be made to the price of this alloy.
‡Where no specific impurity limitations are stated, the customary impurity limitations shall prevail.

(c) *Maximum prices for sales or deliveries in carload lots of brass or bronze alloy ingot not included in paragraph* (a). (1) The maximum price for any grade of brass or bronze alloy ingot, other than a grade for which a maximum price is established in paragraph (b) of this section, shall be a price hereafter approved by the Administrator.

(2) Pending such approval by the Administrator, any person may sell or deliver, and any person may buy or receive, any such ingot at the price submitted for approval. If, however, the Administrator disapproves the price submitted, the contract price shall be revised downward to the maximum price which the Administrator shall approve, and if any payment has been made at a price higher than that so approved, the seller shall refund the excess: *Provided, however,* That the price submitted by the seller for approval shall be deemed to be approved unless the Administrator specifically disapproves such price and establishes an approved maximum price within fifteen days from the date on which the report required in paragraph (c) (3) of this section is received by the Office of Price Administration or, if further information is requested from the seller within such fifteen-day period, then within fifteen days from the date on which all such information is received by the Office of Price Administration.

(3) On and after August 19, 1942, the seller of any such ingot, regardless of whether the seller has previously sold or delivered brass or bronze alloy ingot of such alloy content at a price approved by the Office of Price Administration, shall (i) report every such sale to the Office of Price Administration, Washington, D. C., within five days from the date thereof, stating (a) the quantity sold, (b) the alloy content, including specific mention of any impurity limitations and physical specifications where relevant, (c) the proposed price, in carload lots, and (ii) provide such other information concerning the manufacture or sale of such ingot, including the name of the buyer, as may be requested by the Office of Price Administration in order to determine the proper maximum price of such ingot.

(d) *Maximum prices for sales and deliveries in less than carload lots.* A premium of ¼¢ per pound may be added to the maximum prices established in paragraphs (b) and (c) of this § 1309.165 for a sale and delivery of brass and bronze alloy ingot in less than a carload lot.

(e) *Credit terms.* The maximum prices established by this regulation shall not be increased by any charges for the extension of credit, and shall be reduced by ½ of 1% for payment within ten days after delivery.

Issued this 13th day of August 1942.

LEON HENDERSON,
Administrator.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Amendment 24 to Revised Tire Rationing Regulations[1]]

TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

Section 1315.804 (c) is amended, and a new subparagraph (5) is added to § 1315.803 (d) as set forth below:

[1] 7 F.R. 1027, 1089, 2106, 2107, 2541, 2633.

Transfers and Deliveries of New Tires and Tubes, Retreaded or Recapped Tires and Camelback

§ 1315.803 *Permitted and prohibited deliveries of camelback.* * * *

(d) *Other transfers.* * * *

(5) *To retreaders for Army.* Notwithstanding the provisions of § 1315.803 (c), any manufacturer or dealer in camelback may (without certificate) transfer camelback for use on tires owned by the United States Army to any retreader or recapper who either has a prime contract with the War Department to retread or recap such tires or has a subcontract with the prime contractor, but only when the following conditions are first satisfied.

(i) the retreader or recapper who is a prime contractor shall make out a purchase order in duplicate showing upon its face the number or other identification of his prime contract with the War Department, and shall forward one copy to the manufacturer or dealer in camelback, and shall retain one copy in his files;

(ii) the retreader or recapper who is a subcontractor shall make out a purchase order in triplicate and shall submit one copy to the manufacturer or dealer in camelback, another copy to the prime contractor who shall approve the order in writing and forward it to the manufacturer or dealer in camelback, and shall retain the third copy in his files;

(iii) When the manufacturer or dealer is also the retreader or recapper, he shall make out a requisition order setting forth the amount of camelback withdrawn and the date of withdrawal, and shall retain it in his files.

(iv) A manufacturer or dealer in camelback shall file a separate monthly report within fifteen days from the end of each calendar month for each retreader or recapper to whom he has made any transfer of camelback pursuant to this paragraph (d) (5) (i) or (ii). Such report shall be filed with the Regional Office of the Office of Price Administration serving the area in which the retreader or recapper is located and shall set forth the name and address of the prime contractor and the name and address of the subcontractor, if any, the numbers and dates of the purchase orders, and the amount and date of each shipment of camelback during such calendar month. When the manufacturer or dealer is also the retreader or recapper, he shall make out and file a similar report, stating the numbers and dates of the requisition orders, the amount of camelback used during the month, the dates when the retreaded or recapped tires were shipped, and the number of such tires.

§ 1315.804. *Transfer of new tires or tubes, retreaded or recapped tires, or camelback to certain governmental agencies, to manufacturers of new vehicles, and for export.* * * *

(c) *Receipt.* Any person who makes any transfer pursuant to paragraphs (a) or (b) of this section, shall obtain a receipt from the purchaser upon OPA Form No. R–12 (Revised): *Provided, how-*

of one or more grades, as set forth in the tariffs of the railroads, upon which the lowest carload rate from the point of shipment to the buyer's receiving point is based.

(3) "Brass or bronze alloy ingot" means any alloy ingot (except such hardeners and deoxidizers as are suitable for use only with other materials in the production of castings) in the composition of which the weight of copper metal is 50% or more of the total weight of the ingot. (4) "Ingot identification number" means the number appearing in the column most near the left-hand margin of the tables in § 1309.165(b).

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used in this Maximum Price Regulation No. 202.

§ 1309.163 *Geographical applicability.* The provisions of this regulation shall apply to the forty-eight states of the United States and to the District of Columbia.

§ 1309.164 *Effective dates.* Maximum Price Regulation No. 202 (§§ 1309.151 to 1309.165) shall become effective August 19, 1942.

§ 1309.165 *Appendix A: Maximum prices for brass and bronze alloy ingot—*

(a) *Delivery charges.* The maximum prices herein established for brass and bronze alloy ingot include transportation costs to any destination within the continental United States, not exceeding 25 cents per hundredweight. Actual transportation costs in excess of those so included may be charged to, and paid by, the buyer.

(b) *Maximum prices for sales or deliveries in carload lots:*

ever, That a manufacturer who makes any transfer of new tires, tubes, or camelback pursuant to the same paragraphs, need not obtain such form from the purchaser, except when the transfer is made or originates from premises on which the manufacturer performs retail or distributive functions.

(1) OPA Form No. R–12 (Revised) may be obtained from any Local Board and will also be distributed through appropriate governmental agencies. The form shall consist of four parts. Part A shall be mailed to the Regional Office of the Office of Price Administration serving the area in which the seller is located within fifteen (15) days from the end of each calendar month in which deliveries or shipments of tires, tubes, or camelback have been made. Part B shall be used as a basis for replenishing stocks in accordance with the transfer provisions of §§ 1315.801 (d), 1315.802 (c), and 1315.803 (c), whichever is appropriate; any person who retreads or recaps Army tires shall not use OPA Form No. R–12 (Revised) to replenish the camelback so used, but upon obtaining that form from the United States Army shall forward Part B thereof together with Part A to the Regional Office of the Office of Price Administration. Part C shall be retained by the seller as his record of the transaction in accordance with the record keeping requirements of these regulations. Part D shall be retained by the purchaser as his record.

[Amendment 12 to Rationing Order 2A [1]]

NEW PASSENGER AUTOMOBILES RATIONING REGULATIONS

A new paragraph (o) is hereby added to § 1360.372, as set forth below:

Persons Eligible to Acquire New Passenger Automobiles by Transfer With Certificates

§ 1360.372 *Eligibility classification.* * * *

(o) Any member of the Army or Navy of the United States who requires a new passenger automobile which will be used principally for transportation between his residence and his post of duty (but not for transfers from post to post), or on official business, where no military vehicle is available.

(1) No certificate shall be issued under this paragraph unless the applicant presents with his application a statement from his commanding officer which sets forth the following:

(i) The application is for a new passenger automobile required for necessary transportation between residence and post of duty (but not for transfers from post to post) or on official business;

(ii) no quarters can be provided for the applicant at his post of duty or where his work is to be performed, or that the applicant's duties require frequent traveling on official business;

(iii) no other practicable means of transportation are available and that no military vehicle can be supplied for the applicant's use;

(iv) the commanding officer will take all reasonable steps to insure,

(*a*) that the applicant will limit his use of the vehicle to the purpose for which the application is made except for minimum incidental use for necessary personal purposes other than pleasure traveling; and

(*b*) that every effort is made by the applicant to transport as many passengers as possible, consistent with the capacity of the vehicle.

(2) The Board shall issue a certificate under this paragraph only if the conditions of subparagraph (1) are complied with and, in addition, if it is satisfied that the use of a new passenger automobile is necessary for the accomplishment of the purpose for which the applicant needs a new passenger automobile, and that no other practicable means of transportation are available.

In the State of Oklahoma, the Counties of Cleveland and McClain.

§ 1388.1332 *Necessity.* The necessity for the stabilization or reduction of rents for defense-area housing accommodations in the defense-rental area designated in § 1388.1331 is as follows:

The designated area is the location of establishments of the armed forces of the United States. An increase in employment is about to take place in the area. Such an increase in employment reflecting the expansion of war activities threatens to result in increased demands for rental housing accommodations by persons residing in the area.

Defense activities in the designated area threaten to result in an increase in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942. As war activities continue to expand, the demand for housing accommodations will become more extensive, and rent increases and threatened rent increases will materialize unless prevented. Accordingly, it is necessary that rents for such housing accommodations in the designated area be reduced or stabilized.

§ 1388.1333 *Recommendations.* It is the judgment of the Price Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the defense-rental area designated in § 1388.1331 inconsistent with the purposes of the Act. Accordingly, the Price Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within the designated area on or about March 1, 1942. The Price Administrator has considered, so far as practicable, relevant factors deemed by him to be of general applicability, including fluctuations in property taxes and other costs. It is the judgment of the Price Administrator that the recommendations hereinafter set forth are generally fair and equitable and will effectuate the purposes of the Act.

Recommendations with reference to the stabilization or reduction of rents for housing accommodations within the designated defense-rental area are as follows:

(a) The maximum rent for housing accommodations rented on March 1, 1942 should be the rent for such accommodations on that date. Appropriate provision consistent with such maximum rent date should be made for the maximum rent for housing accommodations not rented on March 1, 1942. In appropriate cases, including those relating to new construction or substantial changes of housing accommodations, provision consistent with the Emergency Price Control Act of 1942 should be made for the determination, adjustment, and modification of maximum rents of housing accommodations, but in principle such rents should not be greater than the rents generally prevailing for comparable accommodations in the Norman Defense-Rental Area on March 1, 1942.

(b) Appropriate provision should be made with respect to the restraint of evictions and other actions relating to the recovery of possession.

(c) Appropriate provision should be made to prevent the circumvention or evasion of maximum rents by any method whatever.

§ 1388.1334 *Maximum rent regulation.* If within sixty days after the issuance of this designation and rent declaration, rents for housing accommodations within the defense-rental area designated in § 1388.1331 have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the foregoing recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

§ 1388.1335 *Effective date.* This designation and rent declaration (§§ 1388.1331 to 1388.1335, inclusive) shall become effective August 13, 1942.

Issued this 13th day of August 1942.

PART 1499—COMMODITIES AND SERVICES

[Maximum Price Regulation 165]

CONSUMER SERVICE

The title and preamble are amended, and §§ 1499.101 to 1499.121, inclusive, are renumbered and amended to read as set forth below:

[Maximum Price Regulation 165 as amended]

SERVICES

In the judgment of the Price Administrator the prices of services generally have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942.

In the judgment of the Price Administrator the maximum prices established by this regulation, which apply with certain exceptions to all services not otherwise subject to regulation, are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act.

So far as practicable the Price Administrator has given due consideration to prices prevailing between October 1 and 15, 1941, and to relevant factors of general applicability. So far as practicable the Price Administrator has consulted with representatives of trade and industry.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, this Maximum Price Regulation No. 165 as amended—Services is hereby issued.

AUTHORITY: §§ 1499.101 to 1499.124 inclusive, issued under Pub. Law 421, 77th Cong.

NOTE: The meaning of certain provisions and terms of Maximum Price Regulation No. 165 as amended is further explained and defined in § 1499.116. The explanations and definitions are set forth in alphabetical order. The terms explained and defined are in quotation marks the first time they appear in the text.

§ 1499.101 *Prohibition against dealing in services above maximum prices.* On and after July 1, 1942, regardless of any contract or other obligation:

(a) *Sales.* No "person" shall "sell" or supply any of the "services" set forth in paragraph (c) of this section at a price higher than the maximum price permitted by this Maximum Price Regulation No. 165 as amended.

(b) *Purchases.* No person in the course of trade or business shall buy or receive any of the services set forth in paragraph (c) of this section at a price higher than the maximum price permitted by this Maximum Price Regulation No. 165 as amended: *Provided,* That the provisions of this paragraph (b) of this section shall not be applicable to any "war procurement agency" or any contracting or paying finance officer thereof, and any such agency or contracting or paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, with respect to any matter covered by this Maximum Price Regulation No. 165 as amended.

(c) *Services covered.* This Maximum Price Regulation No. 165 as amended shall apply to all rates and charges for the following services, except when such services are rendered as an employee:

§ 1499.102 *Maximum prices for services; General provisions.* Except as otherwise provided in Maximum Price Regulation No. 165, as amended, the seller's maximum price for any service to which this Maximum Price Regulation No. 165, as amended, is applicable shall be:

(a) The highest price charged during March 1942 (as defined in this section) by the seller—

(1) For the same service; or

(2) If no charge was made for the same service, for the similar service most nearly like it;

Provided, however, That if the seller in computing his prices during March 1942 regularly used a rate or a "pricing method" including specific charges for particular items in the service rendered, the price resulting from proper application (i) of the highest such rate in effect during March 1942 or (ii) of such pricing method, using the highest charges in effect during March 1942, shall be deemed to be the highest price charged by the seller during that month for any service to which the rate or pricing method was then applicable or by usual trade practice would have been applicable had the

service been offered in March, 1942, and shall be the seller's maximum price for any such service; or

(b) If the seller's maximum price cannot be determined under paragraph (a), the highest price charged during March 1942 (as defined in this section) by the "most closely competitive seller of the same class"—

(1) For the same service; or

(2) If no charge was made for the same service, for the similar service most nearly like it; or

(c) If the seller's maximum price cannot be determined under paragraphs (a) or (b) of this section, a price determined by applying the rate, or the pricing method and charges, regularly used by the seller for any other service or type of service which he supplied during March 1942, which price, however, shall not exceed a combination of the following items:

(1) An item for cost of direct labor used in supplying the service for which a price is sought, computed on a basis no higher than the highest wage rate which the seller had in effect for each type of employee during March 1942, or if he had no wage rate in effect during such month, the highest wage rate which his competitors in the same area had in effect for each type of employee during March 1942, plus

(2) An item for cost of materials used in supplying the service for which a price is being determined, computed on a basis no higher than the maximum prices, for purchase by the seller, established for such material by the Office of Price Administration, or if no maximum price has been established, then the highest price which the seller, or a purchaser of the same class, had to pay for such material in the month of March 1942, plus

(3) The margin over such cost for direct labor and materials (i. e., subparagraph (1) plus subparagraph (2)) equal, as a percentage of cost, to the average margin over direct labor and material cost which was figured on the service or type of service for which a price was charged by the seller during March 1942, and which accounted for a greater portion of the seller's gross income from services than any other service during March 1942, less

(4) All discounts and other allowances granted during March 1942 to a purchaser of the same class.

Within ten days after determining the maximum price under this paragraph the seller shall report such price to the "appropriate Field Office of the Office of Price Administration" upon Form No. 265:1. Such Form shall be duly filled out in duplicate and may be copied from the Form contained in Appendix A (§ 1499.122) of this Maximum Price Regulation No. 165, as amended, or secured from the appropriate Field Office of the Office of Price Administration. The Price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(d) If the seller did not supply any service during March 1942, and if the service to be priced is not the same as or similar to any service supplied during that month by a competitive seller of the same class, and if such service cannot be priced under § 1499.103 of this Maximum Price Regulation No. 165, as amended, a price approved by the Office of Price Administration. Application for such approval shall be made on Form 265:3 contained in Appendix C (§ 1499.-124) of this Maximum Price Regulation No. 165, as amended, and shall be filed in duplicate with the appropriate field office of the Office of Price Administration. The application shall contain (1) "an appropriate description and identification" of the service for which a price is being reported; (2) a statement of the reasons why it can not be priced except under this paragraph (d); and (3) a statement of the proposed maximum price, setting forth separately the amount included for labor, the amount for materials, and the amount for overhead and profit. Unless the Office of Price Administration or an authorized representative thereof shall, by order mailed to the applicant within 10 days from the date of filing the application, disapprove the maximum price as reported, such price shall be deemed to have been approved, subject to disapproval or adjustment at any time by the Office of Price Administration.

(e) *Similar services subsequently sold.* Any maximum price determined under paragraphs (c) and (d) of this § 1499.103 shall be the maximum price for all services subsequently sold by the seller which are the same as or similar to the service for which a maximum price has been so determined, without regard to subsequent changes in cost. A report on Form 265:1 must be filed only for the sale of a service the price of which is not regularly computed by the same pricing method as that already set forth in a Form 265:1 previously filed by the seller with the Office of Price Administration and not adjusted by the Office of Price Administration. A report on Form 265:3 need be filed only for the sale of services the price of which is not the same as the price of the same or a similar service already set forth in a Form 265:3 previously filed by the seller with the Office of Price Administration and not disapproved or adjusted by the Office of Price Administration.

Highest Price Charged During March 1942

For the purposes of this Maximum Price Regulation No. 165, as amended, the highest price charged by a seller during March 1942 shall be:

(1) The highest price which the seller charged for a service "supplied" by him during March 1942; or

(2) If the seller supplied no such service during March 1942, his highest "offering price" for supply during that month:

The "highest price charged during March 1942" shall be the highest price charged by the seller during such month to a "purchaser of the same class":

Provided, however, That if the seller did not supply the service to be priced, and had no offering price for such service, to a purchaser of the same class, it shall be the highest price charged by the seller to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers; and

Provided, further, That if, prior to April 1, 1942, the seller raised his prices for the supply of a service to his classes of purchasers generally, and if, during March 1942, he supplied such service at the higher price to at least one class of purchasers, the highest price charged during March 1942 for each class of purchaser—

(i) To which the service was not supplied during March 1942 at the higher price, and

(ii) To which the service was not supplied during March 1942 at a lower price after the price rise, unless supplied pursuant to a firm commitment entered into before such price rise

shall be the seller's highest offering price for supply to such class of purchaser during March 1942, or, if he had no such offering price for supply to a particular class of purchaser during March 1942 the highest price charged by the seller during March 1942 to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers.

No seller shall evade any of the provisions of this Maximum Price Regulation No. 165, as amended, by changing his customary allowances, discounts, or other price differentials.

No seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the supply of any service, than the seller required purchasers of the same class to pay during March 1942 in sales of the same or similar types of services.

Similar Services

One service shall be deemed similar to another service if the first has the same use and purpose as the second and belongs to a type which would ordinarily be supplied for the same or substantially the same price.

§ 1499.103 *Maximum prices for seasonal services*—(a) *Services subject to seasonal variations in price.* If the seller of a service has had a regularly established "seasonal" variation in price for the same service or for a similar service, the seller's maximum price shall be the highest price charged [1] during the corresponding season of the year from March 1, 1941 to February 28, 1942 inclusive, for the same service or the similar service most nearly like it, plus an amount equal to that price multiplied by the percentage increase in the cost of living between the last period [2] of the corresponding season and March 1942.[3]

(b) *Services not performed by the seller in March 1942, and performed by him regularly only during one season of the year March 1, 1941 to February 28, 1942.* If the seller of a service did not perform such service in March 1942, and if such service falls within a class of services performed by him regularly only during one season of the year March 1, 1941, to February 28, 1942, the seller's maximum price shall be the highest price charged by him for the same service or the similar service most nearly like it during the last period [2] previous to March 1942 in which such service was supplied or offered, plus an amount equal to that price multiplied by the percentage increase in the cost of living between that last period and March 1942.[3]

(c) *Maximum price for seasonal services not previously supplied by the seller.* The seller's maximum price for a service which falls within a class of services having a regularly established seasonal variation in price, or performed regularly during only one season of the year March 1, 1941, to February 28, 1942, if the seller did not sell or offer to sell the same or a similar service in the corresponding season of the year March 1, 1941, to February 28, 1942, shall be the maximum price of the most closely competitive seller of the same class for the same or a similar service, determined under this § 1499.103.

(d) *Reports.* Within ten days after determining a maximum price under this § 1499.103 the seller shall report such price to the appropriate field office of the Office of Price Administration upon Form No. 265:2. Such form shall be duly filled out in duplicate and may be copied from the form contained in Appendix B (§ 1499.123) of this Maximum Price Regulation No. 165 as amended, or secured from the appropriate field office of the Office of Price Administration. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(e) *Similar services subsequently sold.* Any maximum price determined under paragraphs (a), (b), or (c) of this section shall be the maximum price for all services subsequently sold by the seller which are the same or similar to the service for which a maximum price had been so determined without regard to subsequent changes in cost. A report on Form 265:2 must be filed only for the sale of a service the price of which is not regularly computed by the same rate, or the same pricing method and charges, already set forth in, or not the same as or similar to a service for which a price has already been set forth in, a Form 265:2 previously filed by the same seller with the Office of Price Administration and not adjusted by the Office of Price Administration.

§ 1499.104 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after April 28, 1942, and the transferee carries on the business, or continues to supply the same type of services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferer would have been subject if no such transfer had taken place, and his obligations to keep records sufficient to verify such prices shall be the same. The transferer shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation No. 165 as amended.

§ 1499.105 *Federal and State taxes.* Any tax upon, or incident to, the supplying of a service, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such service and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during the base period.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price in the "base period" the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 165 as amended.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum prices under Maximum Price Regulation No. 165 as amended.

(b) *As to a tax or increase in a tax which becomes effective after the base period.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1499.106 *Less than maximum prices.* Lower prices than those established by Maximum Price Regulation No. 165 as amended may be charged, demanded, paid, or offered.

SERVICES EXCEPTED FROM THIS REGULATION

§ 1499.107 *Services excepted from Maximum Price Regulation 165 as amended.* The provisions of this regulation shall not apply to the services excepted from the General Maximum Price Regulation [4] by Supplementary Regulation No. 11 [4] to the General Maximum Price Regulation and any amendments thereto, in so far and for such time as such services are thereby excepted.

RECORDS AND REPORTS

§ 1499.108 *Base-period records and reports.* Every person selling services for which, upon sale by that person, maximum prices are established by Maximum Price Regulation No. 165 as amended shall:

(a) Preserve for examination by the Office of Price Administration all his existing "records" relating to the prices which he charged, the rates, or the pricing methods and charges which he used for such of those services as he supplied during March 1942, or during the applicable base period, his offering prices for supply of such services during such month, or period, and an appropriate description and identification of such services;

(b) Prepare on or before September 1, 1942, to the full extent of all available

[1] The term "highest price charged" when used in § 1499.103 shall be given the same meaning as that set forth in § 1499.102 above except that the "base period" shall be used in place of the month of March 1942.

[2] *Percentage increase in cost of living: The percentage used shall be as follows for the applicable period:*

Percentage	Period
12.9% (.129)	Mar. 1, 1941, to Apr. 14, 1941, inc.
11.8% (.118)	Apr. 15, 1941, to May 14, 1941, inc.
11.1% (.111)	May 15, 1941, to June 14, 1941, inc.
9.3% (.093)	June 15, 1941, to July 14, 1941, inc.
8.5% (.085)	July 15, 1941, to Aug. 14, 1941, inc.
7.6% (.076)	Aug. 15, 1941, to Sept. 14, 1941, inc.
5.7% (.057)	Sept. 15, 1941, to Oct. 14, 1941, inc.
4.6% (.046)	Oct. 15, 1941, to Nov. 14, 1941, inc.
3.7% (.037)	Nov. 15, 1941, to Dec. 14, 1941, inc.
3.4% (.034)	Dec. 15, 1941, to Jan. 14, 1942, inc.
2.1% (.021)	Jan. 15, 1942, to Feb. 14, 1942, inc.
1.2% (.012)	Feb. 15, 1942, to Feb. 28, 1942, inc.

information and records and thereafter keep for examination by any person during ordinary business hours, a statement showing:

(1) The highest prices which he charged for services supplied during March 1942 for which prices were regularly quoted in that month together with an appropriate description and identification of such services;

(2) The rate, if any, or the pricing method and charges, if any, regularly used during March 1942; and

(3) All his customary allowances, discounts, and other price differentials in effect during March 1942.

A duplicate of this statement shall be filed, on or before September 10, 1942, with the appropriate "War Price and Rationing Board of the Office of Price Administration."

(c) If a seller of a service sells any service not the same as or similar to a service sold by him in March 1942, or not priced by the same rate, or pricing method and charges as he regularly used in March 1942, a statement identical with that required by paragraph (b) of this section shall be prepared, kept and filed as required by that paragraph, except that:

(1) The statement shall set forth the date on which the service was first sold; the maximum price, or the rate, or the pricing method and charges, used by the seller, including all customary allowances, discounts, or other price differentials, to determine the maximum price of the service; and the manner in which this maximum price, rate, or pricing method and charges was determined, including the name of the most closely competitive seller of the same class, if the determination of the price involved such a seller;

(2) The date for the preparation and keeping of such statement shall be September 1, 1942, or ten (10) days after the first sale of the service, whichever is later.

(3) The date for the filing of such statement shall be September 10, 1942, or twenty (20) days after the first sale of the service, whichever is later; and

(4) Such a statement need be prepared and filed only for the sale of a service the price of which is not regularly computed by the same rate, or the same pricing method and charges, already set forth in, or not the same as or similar to a service for which a price has already been set forth in, a statement previously prepared and filed by the same seller.

§ 1499.109 *Non-disclosure of base-period records.* Any person, other than a person "selling at retail," who claims that substantial injury would result to him from making the statement provided for in § 1499.108 (b) or (c) of this regulation available to any other person, need only file the statement with the appropriate War Price and Rationing Board of the Office of Price Administration, accompanying it with an affidavit that disclosure would result in substantial injury. The information contained in such statements will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of Maximum Price Regulation No. 165 as amended.

§ 1499.110 *Sales slips and receipts.* Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each service sold and the price received for it.

§ 1499.111 *Licensing*—(a) *License required.* A license as a condition of selling is hereby required of every person now or hereafter selling any service for which a maximum price is established by this Maximum Price Regulation No. 165 as amended or by any other price regulation of the Office of Price Administration.

(b) *License granted.* Every person now or hereafter selling any service for which a maximum price is established by this Maximum Price Regulation No. 165 as amended or by any other price regulation of the Office of Price Administration is hereby granted a license as a condition of selling any such service. The provisions of the regulation or of any price regulation of the Office of Price Administration to which this section is now or may hereafter become applicable, shall be deemed to be incorporated in the license hereby granted and any violation of any provision so incorporated shall be a violation of the provisions of said license. Such license shall be effective on July 1, 1942, the effective date of this regulation, or when any person becomes subject to the maximum price provisions of this or any other such price regulation, and shall, unless suspended in accordance with the provisions of the Emergency Price Control Act of 1942, continue in force so long as and to the extent that this or any other such price regulation, or any amendment or supplement thereto, remains in effect.

(c) *Licensing section of General Maximum Price Regulation superseded.* This section supersedes the provisions of § 1499.16 of the General Maximum Price Regulation insofar as said section may be applicable to persons selling any service.

§ 1499.112 *Registration of licensees.* Every person hereby licensed may be required to register with the Office of Price Administration at such time and in such manner as the Administrator may hereafter by regulation prescribe.

§ 1499.113 *Penalties.* Persons violating any provision of Maximum Price Regulation No. 165 as amended are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, and proceedings for the suspension of licenses.

PROCEDURE FOR ADJUSTMENT OR AMENDMENT

§ 1499.114 *Applications for adjustment by sellers.* (a) Any seller who finds that the maximum price of a service established for him under the provisions of §§ 1499.102 or 1499.103 is abnormally low in relation to the maximum prices of the same or similar services established for other sellers, and that this abnormality subjects him to substantial hardship, may file an application for adjustment of that maximum price in accordance with Temporary Procedural Regulation No. 5[5] issued June 23, 1942, by the Office of Price Administration. (b) Any seller, who finds that the maximum price of a service established for him under the provisions of §§ 1499.102 or 1499.103 subjects him to substantial hardship because of cost increases (i) incurred between February 1, 1942, and April 27, 1942, not reflected in the prices which are established for him under the above provisions, including any increase subsequent to April 27, 1942, resulting from a collective bargaining contract or other wage agreement which contract or agreement (i) was entered into on or prior to April 27, 1942, and (ii) provides for an unconditional increase in wage rates of a fixed amount or percent, and (2) where such cost increases threaten the continued supply of the service, may file an application for adjustment of that maximum price in accordance with Temporary Procedural Regulation No. 5[5] issued June 23, 1942, by the Office of Price Administration. Such application, if filed with respect to sales other than retail sales, shall contain a statement setting forth in detail the effect that, in the applicant's opinion, the granting of the relief sought would have upon the retail price level of the particular service, together with all of the facts upon which applicant relies in support of this opinion. The Price Administrator, or his authorized representative, may deny in whole or in part any such application which, in his judgment, will increase the level of retail prices for the particular service. (c) Any person seeking relief, for which no provision is made in the foregoing paragraphs (a) and (b) of this section, from a maximum price established under this Maximum Price Regulation No. 165 as amended, may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1,[6] and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant, together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of Maximum Price Regulation No. 165 as amended to eliminate the danger of inflation.

[6] 7 F.R. 971, 3663.

§ 1499.115 *Petitions for amendment.* Any person seeking a modification of any provision of Maximum Price Regulation No. 165 as amended or an adjustment not otherwise provided for may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1[6] issued by the Office of Price Administration.

§ 1499.116 *Definitions and explanations.* (a) When used in Maximum Price Regulation No. 165 as amended:

(1) "Appropriate description and identification" means a complete listing of the specifications, process, and other characteristics of the service, or of the various grades of services.

(2) "Appropriate field office of the Office of Price Administration" means district office for the district (or in the absence of such district office, the state office for the State) in which is located the seller's place of business from which his sales are made.

(3) "Appropriate War Price and Rationing Board" means the War Price and Rationing Board for the area in which is located the seller's place of business from which the services are offered for sale.

(4) "Base period" means: (a) for prices determined under § 1499.102, March, 1942; and (b) for prices determined under § 1499.103, the season or period prior to March, 1942, with reference to which the seller's maximum price is determined.

(5) "Most closely competitive seller of the same class." "Seller of the same class" means a seller (i) performing the same function (for example, manufacturing, distributing, retailing, processing, storing, installing, or repairing), (ii) of similar type (for example, cash and carry, pick-up and delivery, chain store, specialty shop, cut-rate store), (iii) dealing in the same type of service, and (iv) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (*a*) is selling the same or a similar service, and (*b*) is closely competitive in the sale of such service, and (*c*) is located nearest to the seller.

(6) "Offering price" means the price quoted in the seller's price list, or, if he had no such price list, the price which he regularly quoted in any other manner, or the price determined by the rate, or the pricing method and charges, which the seller regularly used. But "offering price" shall not include a price intended to withhold a service from the market, or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

(7) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(8) "Pricing method" means the formula by which the seller figures his price for any service, whether such formula is disclosed to the purchaser or is merely the seller's device for figuring cost of labor and materials, other costs, and margin of profit.

(9) "Price regulation" means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any order issued pursuant to any such regulation or schedule.

(10) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for services for sales to different purchasers or kinds of purchasers (for example, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(11) "Records" includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(12) "Rental" means any leasing of a commodity except where the lease is a substitute for a conditional sale, chattel mortgage, or other security device in connection with an instalment sale, or except where the lease contains a provision giving the lessee an option to buy the leased commodity at a stipulated price from which all or a portion of the payments made as rent are to be deducted.

(13) "Sale at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user. Sales to farmers shall be considered sales at retail.

(14) "Season" or "seasonal" means any division of the year into periods of one or more months or portions thereof for pricing purposes, such division being based upon regular and recurrent differences in demand for or supply of the service or materials or in the costs of doing business.

(15) "Sell" includes sell, rent, supply, dispose, barter, exchange, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "seller," "buy," "purchase" and "purchaser" shall be construed accordingly. Nothing in this Maximum Price Regulation No. 165 as amended shall be construed to prohibit the making of a contract to sell service at a price not to exceed the maximum price at the time of supply.

(16) "Seller" includes a seller of any service. Where a seller supplies services through more than one selling unit, other than salesmen making sales at uniform prices, each separate place of business of the seller shall be deemed to be a separate seller, except that for the purposes of § 1499.111 of this Maximum Price Regulation No. 165 as amended, the owner of the business shall be considered the seller regardless of the number of separate places of business he owns.

(17) "Service" shall include any and all of those services listed in § 1499.101 (c), and shall include any commodity or article sold in connection with the sale of a particular service.

(18) "Sold" and "supplied." A service shall be deemed to be "sold" or "supplied" when completed, except that rental services and storage services shall be deemed to be sold or supplied when the rental or storage period begins.

(19) "War procurement agency" includes the Department of the Navy, the Lend-Lease Section of the Procurement Division of the Treasury Department, the Office of Scientific Research and Development, the United States Maritime Commission, the War Department, the War Shipping Administration or any agency of the foregoing.

§ 1499.117 *Exclusions.* This Maximum Price Regulation No. 165, as amended, shall not apply, and the General Maximum Price Regulation shall not apply, to:

(a) *Developmental contracts and subcontracts.* (1) This Maximum Price Regulation No. 165, as amended shall not apply, and the General Maximum Price Regulation shall not apply, to any sale of a service performed pursuant to a contract or subcontract certified in writing to the Office of Price Administration by any war procurement agency or any duly authorized officer thereof as being developmental: *Provided*, That a report is filed pursuant to paragraph (2) of this § 1499.117 (a). For the purpose of this section, a contract is deemed to be "developmental" during such period, not to exceed ninety days as is required for the selection of a particular service by the purchaser or for the accumulation of sufficient operating experience by the seller or supplier to permit a fair estimate of the cost of rendering such service, or both. After the Office of Price Administration shall have determined after consultation with the appropriate war procurement agency that the period, not to exceed ninety days, necessary for development has expired, and has in writing so notified such agency and the supplier of such service, this Maximum Price Regulation No. 165, as amended shall apply to all subsequent sales or performances of such services performed thereafter.

(2) Within ten days after entering into any such developmental contract or subcontract, the supplier of such service shall file a report with the Office of Price Administration, Washington, D. C., containing a summary of the terms of the contract or subcontract including all pricing provisions, a short statement of the service plan of which this contract is part, and an estimate of the expected duration of such developmental work. For any such contract or subcontract in effect on August 19, 1942, such report shall be filed prior to September 9, 1942.

(b) *Secret contracts.* (1) This Maximum Price Regulation No. 165, as amended, shall not apply, and the General Maximum Price Regulation shall

[6] 7 F.R. 971, 3663.

not apply, to any sale of a service pursuant to a contract or subcontract which is deemed to be a "secret" contract and is so certified to the Office of Price Administration by any war procurement agency or any duly authorized officer thereof. Such certification shall set forth the date of the "secret" contract and its number or other designation. After the Office of Price Administration shall have received notice from the certifying agency that such contract is no longer deemed to be secret, this Maximum Price Regulation No. 165, as amended, shall apply to all subsequent sales of such service performed thereafter.

(c) *Emergency purchases.* (1) This Maximum Price Regulation No. 165, as amended, shall not apply, and the General Maximum Price Regulation shall not apply, to any sale of a service pursuant to any emergency purchase by any war procurement agency or any duly authorized officer thereof of such service for immediate performance: *Provided*, That, if the total price exceeds five hundred dollars, a report is filed pursuant to paragraph (2) of this § 1499.117 (c).

(2) Within ten days after making any such emergency purchase in the amount of more than five hundred dollars at a price which is known or suspected by the purchaser to be in excess of the maximum price which would otherwise be applicable, any person making such purchase on behalf of any war procurement agency shall file a report with the Office of Price Administration, Washington, D. C., certifying that such purchase was made in a situation in which it was imperative to secure the immediate performance of the service and in which it was impossible to secure, or unfair to require, immediate performance at the applicable maximum price and setting forth (i) the name and address of the seller or supplier; (ii) date of purchase; (iii) date of performance; (iv) appropriate description and identification of the service performed; (v) amount or quantity of service performed; (vi) price at which supplied; (vii) a brief statement of the facts giving rise to the emergency situation which necessitated the purchase at a price higher than the applicable maximum price.

§ 1499.118 *Privileges accorded to certain Governments.* The privileges accorded to the United States or any agency thereof by § 1499.117 hereof shall apply to the government of any country whose defense the President deems vital to the defense of the United States under the terms of the act of March 11, 1942, entitled "An Act to Promote the Defense of the United States," or to any agency of such government.

§ 1499.119 *Applicability.* The provisions of Maximum Price Regulation No. 165, as amended, shall be applicable to the continental United States and the District of Columbia, but shall not be applicable to the territories and possessions of the United States.

§ 1499.120 *Effect of other price regulation.* The provisions of this Maximum Price Regulation No. 165, as amended, except §§ 1499.111 and 1499.112, shall not apply to any sale of services other than those services set forth in § 1499.101 (c), nor to such of those services for which a maximum price is in effect under the provisions of any "price regulation" other than the General Maximum Price Regulation, issued or which may be issued by The Office of Price Administration, except as otherwise provided in any such price regulation.

§ 1499.121 *Effective date.* All of the provisions of the Maximum Price Regulation No. 165, as amended (§§ 1499.101 to 1499.124 inclusive), shall become effective August 19, 1942.

§ 1499.122 *Appendix A: Form 265:1.*

REPORT OF A MAXIMUM PRICE FOR A NON-SEASONAL SERVICE

AUTHORITY: §§ 2.1 to 2.6, inclusive, issued under Pub. Law 647, 77th Cong.

DEFINITIONS

§ 2.1 *Terms.* Unless otherwise clearly indicated, the following terms shall have the meaning hereinafter defined:

(a) "Act" means Title II, subheading "Education and Training, Defense Workers (National Defense)" of the "Labor-Federal Security Appropriation Act, 1943", Public Law 647, 77th Congress, 2d Session, approved July 2, 1942.

(b) "Subdivision" refers to the indicated subdivision of the Act.

(c) "Commissioner" means the United States Commissioner of Education.

(d) "Director" means the officer in the United States Office of Education acting under the Commissioner's supervision to whom he delegates powers, duties, and functions and who is accordingly charged by the Commissioner with the chief responsibility for carrying out the particular war training program involved. All delegation of powers, duties, and functions under the Act is and shall remain subject to the right of the Commissioner to resume at his discretion any of the powers, duties, and functions delegated.

(e) "Director of Defense Training" means the officer appointed by the Federal Security Administrator to direct and supervise the various defense training activities of the constituent units of the Federal Security Agency. This officer is also the Chief, Training Division, War Manpower Commission.

(f) "State" includes the several States, District of Columbia, Hawaii, Alaska, Puerto Rico and any other qualified public authority.

(g) "State agency" means an agency of a State, subdivision thereof or other public agency operating public educational facilities.

(h) "Local agency" means a subdivision of a State, or other public agency participating in a State plan under the control and supervision of a State agency.

(i) "Public employment office registers" means the registers maintained by the United States Employment Service and the register maintained by the United States Civil Service Commission, except in Puerto Rico, where it means the register maintained by the Employment Service of the Insular Department of Labor of Puerto Rico.

(j) "College" means a degree-granting college or a university whose educational property is exempt from taxation by virtue of the provisions of the special or general law under which it is organized and operates or a public degree-granting educational institution. Degree-granting as used herein shall mean that the institution, in recognition of satisfactory completion of a curriculum of four years or longer beyond high school graduation, granted during the academic year 1940–41 or 1941–42 degrees with a major in one or more of the following fields: engineering, chemistry, physics, or production supervision.

(k) "Courses of college grade" refers to the character and content of the course and not to an institution and indicates an academic standard customarily required of college and university students in the same field.

(l) "Courses of less than college grade" refers to the character and content of the course and not to an institution and indicates a course, the content of which is determined by occupational rather than by academic standards and has as an objective, employment in an occupation for which training of college grade is not customarily required.

(m) "Cost of courses" means all expenditures necessary for organization, administration, supervision, instruction, and maintenance and operation of plant in conducting the courses pursuant to an approved plan. It may include expenses for such items as personal services; supplies and material; heat, light and power; travel; transportation of trainees; physical examination of instructors and trainees; insurance, including workmen's compensation; contributions to teachers' retirement plans; communications, including postage; maintenance and repair of equipment; replacement of parts; necessary printing and duplicating; books and other instructional material when such material is necessary as part of the instruction; necessary additional space and equipment; and national and regional coordination. Cost of courses does not include items of expense the incurrence of which is not necessitated by activities under war training plans. For example, it does not include items of expense which an agency, school, or college incurs in the normal operation of its plant or would have incurred regardless of whether it had conducted courses under the Act.

(n) "Occupations essential to war production" means occupations approved as essential to war production by the Chairman of the War Manpower Commission or the person to whom he delegates the function of approving such occupations. Occupation refers to a payroll job rather than to an industry.

COURSES CONDUCTED BY STATE AGENCIES UNDER SUBDIVISION (1) OF THE ACT

§ 2.2 *Provisions of the Act.* Subdivision (1) provides $94,000,000 for the cost other than for equipment of vocational courses of less than college grade provided by State agencies and by vocational schools exempt from Federal income tax by reason of their educational character and also by private schools and other private facilities where equipment for training is available. Not to exceed five million dollars of this amount is available for rental of necessary additional space. Courses include those supplementary to employment, preemployment courses, and refresher courses. Courses supplementary to employment are those designed to train workers who are currently engaged in occupations essential to war production or closely related occupations. Preemployment courses are those designed to prepare for such occupations. Refresher courses are those designed to develop and revive skills on the part of workers who may have had some training or skill in an occupation essential to war production. Unemployment is not a condition of eligibility for entrance into courses. Preemployment and refresher trainees must be selected from public employment office registers.

The First Deficiency Appropriation Act, 1942, Public Law 463, 77th Congress, 2nd Session, Title I under the heading "Federal Security Agency," subheading, "Office of Education," provides $10,000,000 to be available until June 30, 1943, for payment to State agencies for the acquisition by them of equipment to be used under plans approved by the Director in giving courses provided under subdivision (1).

§ 2.3 *Purpose of requirement of State plans.* The basic condition to the approval of courses, acquisition of equipment, rental of space, and payment of the budgeted costs thereof from the foregoing appropriations is the submission of agency proposals in conformity with underlying plans of the State agency, as approved by the Director. The purpose of this requirement in the Act is to insure continued and mutual understanding at the State and Federal levels that the courses and training thereby provided as well as all other activities of the State in connection with the war production training program are maintained in close harmony and effective coordination with the development of the war production program as a whole.

The content of State plans and the reporting procedures thereunder should be sufficiently comprehensive in detail to permit of an accurate evaluation of the State's contribution in terms of current procedures and placements. State plans should be formulated in such a way as to show the most effective use that can be made of the available training facilities within each State as well as of those that can be made available with reasonable expenditure of time and money.

For this purpose State Boards for Vocational Education upon consultation with State Advisory Committees hereinafter referred to are to submit new plans or to confirm, amend or extend existing plans as may be necessary to bring them into conformity with the Act and these regulations.

§ 2.4 *Survey of facilities.* Each State plan should contain, as may be required by the Director, evaluative statements or survey of the principal facilities and resources of the State both in use and available for use for vocational training within the contemplation of the foregoing provisions and should from time to time and as may be required by the Director indicate the feasibility and probable costs of providing additional space and equipment so as to expand facilities of the State for vocational training purposes in accordance with the ascertained needs of the national program of war production. The Director may also require any other information deemed necessary to make the most effective allocation of funds to the various States.

In the case of any State whose law provides for separate schools to serve separate population groups, the plan should provide that all proposals, whether for the conduct of courses or for the acquisition of additional space or equipment, will state such facts and circumstances as will serve to indicate that approval thereof is consistent with the requirement of the Act that to the extent needed for trainees of each such group equitable provisions shall be made for facilities and training of like quality.

§ 2.5 *Bases of administration, coordination and supervision.* State plans should develop the following bases of administration, coordination and supervision:

(a) *State Board for Vocational Education.* The basic jurisdiction of the State Board for Vocational Education as the authority responsible for phases of the training program within the State and the use of the State's training facilities is recognized. Each State plan shall indicate the designation or appointment of a State Director of Vocational Training for War Production Workers who shall be a full-time employee of the State Board for Vocational Education qualified in the field of vocational education. The State plan shall provide that his appointment shall be subject to the approval of the Director and that he shall carry out the policies of the State Board and assume responsibility for the preparation and submission of State plans, reports, budgets and accounting in compliance with all State and Federal requirements.

(b) *Advisory committees.* In order that the proper coordination of training programs with labor and industry may be assured, State plans for vocational training for war production workers shall provide for the establishment and utilization of State and local representative advisory committees. These committees shall be composed of an equal number of representatives from management and from labor. The representatives shall be selected from lists of nominees submitted by bona fide labor organizations and employer groups in response to written requests from the proper State or local school authorities. Representatives of other interested groups or agencies, whose cooperation is essential to the successful operation of the program, shall serve as consultants to the committees.

The State plans for vocational training for war production workers shall also provide for counsel and advice from individual craft organizations representing the occupations for which classes are organized. This may be done through the use of either craft committees or authorized craft consultants to the general local advisory committees.

Each State may provide suitable procedures for participation of the agency in the enrollment and dispatch of workers to other training centers within or without the State whenever this course offers the most expeditious and economical method of coordinating supply and demand of training facilities. Such transfers should be made only after clearance has been effected through the United States Employment Service.

(c) *Employment service.* The United States Employment Service has the general responsibility for utilizing its facilities in the effort to ascertain the supply and demand of all types of labor and skills needed in the war production program, and for this purpose to report the data affecting demand and supply of labor and labor market developments on the basis of its contacts and experience, and to report deficiencies in available labor and labor skills with specific data as to number, dates needed and job specifications that must be met in all areas of the United States. State and local Directors of Vocational Training for War Production Workers assume the responsibility for seeing that such data, including the specific needs within the areas which they service, are utilized and reflected in proposals for courses except as otherwise ordered by the Director of Defense Training.

The responsibility for making applications for approval of courses rests with the local public school authorities conducting the vocational training program for war production workers and the responsibility for approving such courses rests with the State Director of Vocational Training for War Production Workers.

In order to facilitate and further implement the functioning of the employment service in this respect all refresher and pre-employment enrollments, transfers of enrollees and specifications of the training of enrollees shall be reported to the local employment manager according to a regular schedule for such reporting. In like manner the vocational schools shall report regularly to the employment service all material facts known to them in relation to the placement of trainees other than through the employment service itself.

(d) *Training for excess needs.* The following rules shall apply to the situation in which local facilities for training are found insufficient to meet the demands placed upon them, or when after due canvass the supply of trainees appears inadequate to meet the call upon the community or area for a particular order or skills. In either event the State Director of Vocational Training for War Production Workers will take appropriate steps to meet the deficiency either by submitting proposals for the acquisition of additional space and equipment for

training purposes or to the extent feasible by cooperative utilization of facilities possessed by other communities available to meet the deficiency. In either case the facts and proposals shall be fully reported to the Director.

When over-all shortages in particular occupations develop because of pending war production contracts, war production training may be authorized in any community in excess of locally reported need. In order to meet needs determined on a national basis such training should be given only pursuant to express arrangement and authorization by the Director of Defense Training. The purpose of such procedure should be to create a reservoir of workers with initial skills in selected occupations. Courses will be designed to give specific training for specific jobs in war production industries.

(e) *General requirements and standards.* Within these general requirements the plan shall provide for the submission of courses in accordance with such detailed forms and procedures as may be provided by the Director, including accompanying budgets or estimates of costs subject to such revisions as he may require for approval thereof. The plan shall provide that all courses shall be conducted under the detailed supervision and direction of the State Director of Vocational Training for War Production Workers and with due observance of the standards established by him for such instruction. The plan shall include a statement of the qualifications of instructors and detailed methods and procedures employed in the selection and enrollment of trainees. The Director may make such investigations, examination, and inspection thereof and of the conditions under which courses are conducted as may be expedient or necessary and may require the maintenance of such standards in respect of the content of the several courses, the qualifications of the instructors thereof, the selection of trainees, the time within which such courses must be given or completed, and the adoption of such procedures as may serve to assure effective use of Federal funds.

§ 2.6 *Provision for additional space and equipment.* All proposals for the rental of additional space and acquisition of equipment shall be made on the forms and in accordance with detailed specifications to be provided by the Director. The Director may prescribe by rule or otherwise those items of expenditure which constitute cost of equipment. Title to equipment which is purchased from funds made available pursuant to the Act shall be in the State for use and subject to transfer as required by the Director for war production training as long as the need exists. Where such equipment is placed in buildings not owned by the State, suitable measures shall be taken to safeguard the continued availability of the equipment for the aforementioned purposes.

§ 2.7 *Disposition of products manufactured in courses.* Articles made in war production training courses from supplies furnished by Federal funds may be disposed of in such a manner as will best carry out the purpose of the Act. Such articles may be used in the conduct of the training program if suitable or they may be dismantled to furnish raw materials for further training or otherwise disposed of with the appoval of and in a manner provided by the State Board for Vocational Education.

§ 2.8 *Reports and audits.* Each State plan shall provide that the State agency will make such reports in such form and containing such information as the Director may from time to time require and comply with such provisions as he may from time to time find necessary to assure the correctness and verification of such reports.

For this purpose plans shall provide for the maintenance at the State level of such accounts and supporting documents as will serve to permit an accurate and expeditious determination to be made at any time of the status of the Federal grants, including the disposition of all moneys received and the nature and amount of all charges claimed to lie against the respective Federal authorizations.

Estimates of cost of courses and of additional space and equipment as well as final statements thereof subject to audit and verification as aforesaid shall be submitted in such form and at such times as the Director may indicate. Such fiscal reports and detailed statistical statements of the enrollments, training transfers, placements and other details of the State's activities shall be furnished monthly or at such other times and subject to such supplementation as the Director may require and shall be sufficient to enable the Commissioner to transmit to Congress quarterly reports of this war production training program as required by the terms of the Act.

§ 2.9 *Courses by private vocational schools.* Courses given under subdivision (1) of the Act in private vocational schools and in other private facilities where equipment is available shall be included in the State plan and conducted thereunder unless the Director shall determine that circumstances warrant submission of an institutional plan or form of contract or both.

§ 2.10 *Certification for payment.* After approval of the State plan certification for payment to the officer authorized under State law to act as custodian of funds provided under this Act will be made at such time or times as the certifying officer may specify. Funds paid to a State under the Act shall be held and disbursed according to the fiscal policies and procedures of the State: *Provided, however,* That the Director may make rules with respect to the custody and disposition of such funds as may be deemed reasonably necessary to safeguard their availability and use in the war production training program.

COURSES CONDUCTED BY COLLEGES UNDER SUBDIVISION (2) OF THE ACT

§ 2.11 *Provisions of the Act.* Subdivision (2) of the Act provides $30,000,000 for the cost of short courses of college grade provided by colleges and designed to meet the shortage of engineers, chemists, physicists and production supervisors in fields essential to the national war program pursuant to plans which may provide for regional coordination of the war training program of the participating colleges and provides that not to exceed 20 per centum of the amount allotted to any school shall be allotted to it for expenditure for purchase and rental of additional equipment and leasing of additional space.

§ 2.12 *National Advisory Committee.* To assure guidance in the formulation of policies and procedures in the administration of the war training program, the Commissioner is authorized to designate a National Advisory Committee with whom he may consult at such times as he deems advisable. Each of the several professions for which training is provided in the Act shall be represented on the committee. Proper expenditures by such committee members shall constitute a permissible item in the cost of courses by the respective colleges to which the committee members are attached.

§ 2.13 *Regional coordination.* For the better achievement of the purposes of the Act, there may be defined and established regional areas adapted to the purposes of coordinating war training activities and there may be designated for each such region an adviser who is associated with one of the colleges within such region and whose functions shall be to assist in coordinating war training in the colleges within the region, and with the war needs of government and industry, to the extent and in the manner prescribed by the Director. The functions of the regional adviser may include among others the following: assembly of facts and data bearing upon the need for professional personnel of the above description; necessary contacts with governmental and industrial agencies or institutions within the region; liaison between the different colleges within the region; and consultation with representatives of the United States Office of Education in negotiations relating to or arising out of proposals for specific courses in colleges within the regional area. Proper expenditures by such advisers shall constitute a permissible item in the cost of courses conducted by the respective colleges to which they are attached.

§ 2.14 *Determination of needs.* It shall be the duty of the Director to assemble from time to time from the reports of the regional advisers, the findings of the National Advisory Committee, and from all other sources available to him the relative needs for professional training authorized by the Act. Approval of courses shall be determined on the basis of these findings.

§ 2.15 *College plans.* Each participating college shall as a condition to its participation submit for approval a plan pursuant to which courses are to be conducted. Such plans shall be subject to revision from time to time, and shall be formulated with the view to the most effective utilization of college facilities carrying out the war training program.

Such college plans as thus revised and approved from time to time shall include the following:

(a) Each plan shall indicate that the college is exempt from taxation with respect to its educational property and has authority to receive and administer Federal funds. The Director may require presentation of such additional facts and verification as he may from time to time deem necessary to substantiate the qualifications of the institution for carrying out its approved plan.

(b) The plan shall be executed in the name of the college by its duly authorized officer. It shall designate an institutional representative who shall coordinate all activities at the college under its approved plan, and shall serve as the liaison officer between the college and Federal officials and between the college and other participating colleges. Among other things he shall be authorized to conduct negotiations with the Director, to assume responsibility for making reports, and to assure representation of his college on the regional committee. The plan shall also contain provisions which will enable the college to comply with any arrangements for regional coordination arising under § 2.13. It shall indicate the college official authorized to receive and receipt for Federal funds.

(c) Such plan shall indicate to the extent required by the Director the facilities available to the college for war training within the Federal authorization, including both staff and physical equipment. The plan may provide for the utilization by the college of facilities of other public or private agencies and institutions. In no event, however, may any course be given for which the college does not assume full responsibility for the scope, content, and standards of instruction, and the actual direction and control of activities under the plan in all important substantive and procedural aspects. The plan shall provide that all courses shall be of college grade.

(d) Within these general requirements the plan shall provide for the submission of proposals for courses in accordance with such forms and procedures as may be provided from time to time by the Director. Approval of any proposal shall be subject to the further action of the Director who may require the course to be discontinued subject to such reimbursement for expenditures made or incurred by the college as he may determine to be equitable, or provide for the continuance thereof subject to such conditions as he may deem essential to effectuate the purposes of the national program. The Director may likewise make such investigations, examination, and inspection thereof and of the conditions under which courses are given as may be expedient or necessary, and may require the maintenance of such standards and the adoption of such procedures as may serve to assure effective use of Federal funds.

(e) The plan shall further provide that any equipment purchased from Federal funds provided by the Act shall be held available at all times for use in war training courses, and shall be subject to disposition by the Director for use elsewhere in the program. For these purposes title to equipment shall be held by the college or its nominee. The total amount expended by the college chargeable to Federal funds for purchase and rental of additional equipment and leasing of additional space for use under its approved plan shall not be in excess of 20 per centum of the total expenditures of such college under the approved plan.

(f) *Reports and audits.* Each plan shall provide that the college will make such reports in such form and containing such information as the Director may from time to time require and comply with such provisions as he may from time to time find necessary to assure the correctness and verification of such reports.

For this purpose the plan shall provide for the maintenance by the college of such accounts and supporting documents as will serve to permit an accurate and expeditious determination to be made at any time of the status of the Federal grant, including the disposition of all moneys received and the nature and amount of all charges claimed to lie against the Federal authorization.

To provide reimbursement for costs that cannot reasonably be accounted for separately, the college may, subject to prior approval by the Director, charge to the cost of courses a percentage of definitely ascertainable costs. Any such percentage and the basis for application must be justified by such evidence as the Director may require.

Estimates of the cost of courses and of additional space and equipment as well as final statements thereof, subject to audit and verification as aforesaid, shall be submitted in such form and at such times as the Director may require. Such fiscal reports and detailed statistical statements of the enrollments, training, transfers, placements and other details of the college's activities under the plan shall be furnished monthly or at such other times and subject to such supplementation as the Director may require and shall be sufficient to enable the Commissioner to transmit to Congress quarterly reports of the war training program as required by the provisions of the Act.

§ 2.16 *Certification for payment.* Upon approval of the plan, certification for payment to the college official authorized to receive and receipt for Federal funds will be made at such time or times as the certifying officer may specify. Funds thus certified and paid shall be held by such official and expended in accordance with the regulations of the college which are applicable to other college funds: *Provided, however,* That the Director may make rules with respect to the custody and disposition of such funds as may be deemed reasonably necessary to safeguard their availability and use in the war training program.

COURSES CONDUCTED BY STATE AGENCIES UNDER SUBDIVISION (3) OF THE ACT

§ 2.17 *Provisions of the Act.* Subdivision (3) provides $15,000,000 for the cost of vocational courses of less than college grade and related instruction provided by State agencies for out-of-school rural persons who have attained the age of seventeen and who, if unemployed, have filed a registration card with the United States Employment Service. Such courses are hereinafter referred to as rural war production training. The appropriation is also available for nonrural persons who otherwise meet the foregoing requirements, and whose training is not feasible under subdivisions (1) and (2) of the Act. Not to exceed 20 per centum of the appropriation is available for purchase and rental of equipment and rental of necessary additional space. Subdivision (3) authorizes vocational courses in the production of farm commodities and in the repair, operation and construction of farm machinery and equipment as may be necessary to meet the needs of farmers in obtaining the production of goals of those farm commodities designated from time to time in the "Food for Freedom" program and promulgated by the Secretary of Agriculture. The training may also include subjects related to war production occupations with a view to developing general manipulative skills in such trades as woodworking and auto shop work. All vocational courses conducted under subdivision (3) are limited to a list of courses having prior approval of the Chairman of the War Manpower Commission or the person to whom he delegates the function of approving such courses.

§ 2.18 *Purpose of requirement of State plans.* The basic condition to the approval of courses, acquisition of equipment, rental of space and payment of the budgeted costs thereof from the foregoing appropriation is the submission of agency proposals in conformity with underlying plans of the State agency, as approved by the Director. The purpose of this requirement in the Act is to insure continued and mutual understanding at the State and Federal levels that the courses and training thereby provided as well as all other activities of the State in connection with this rural war production training program are maintained in close harmony and effective coordination with the development of the war production program as a whole.

The content of the State plan and the reporting procedures thereunder shall be sufficiently comprehensive in detail to permit of an accurate evaluation of the program. State plans shall be formulated in such a way as to show the most effective use that can be made of the available training facilities within each State as well as of those that can be made available with reasonable expenditure of time and money. For this purpose State Boards for Vocational Education are to submit new plans or to amend existing plans as may be necessary to bring them into conformity with the Act and these regulations.

§ 2.19 *Survey of facilities.* Each State plan shall contain, as may be required by the Director, evaluative statements or survey of the principal facilities and resources of the State both in use and available for use for the rural war production training program. The Director may also require any other in-

formation deemed necessary to make the most effective allocation of funds to the various States.

In the case of any State whose law provides for separate schools to serve separate population groups, the plan shall provide that all proposals, whether for the conduct of courses or for the acquisition of additional space or equipment, will state such facts and circumstances as will serve to indicate that approval thereof is consistent with the requirement of the Act that to the extent needed for trainees of each such group equitable provisions shall be made for facilities and training of like quality.

§ 2.20 *Bases of administration, coordination and supervision.* State plans should develop the following bases of administration, coordination and supervision:

(a) *State Board for Vocational Education.* The basic jurisdiction of the State Board for Vocational Education as the authority responsible for phases of the training program within the State and the use of the State's training facilities is recognized. Each State plan shall indicate the designation or appointment of a State Director of Rural War Production Training who shall be a full-time employee of the State Board for Vocational Education qualified in the field of vocational education. The State plan shall provide that his appointment shall be subject to the approval of the Director and that he shall carry out the policies of the State Board and assume responsibility for the preparation and submission of State plans, reports, budgets and accounting in compliance with all State and Federal requirements.

(b) *Employment service.* The United States Employment Service has the general responsibility for utilizing its facilities in the effort to ascertain the supply and demand of all types of labor and skills needed in the war production program, and for this purpose to report the data affecting demand and supply of labor and labor market developments on the basis of its contacts and experience, and to report deficiencies in available labor and labor skills with specific data as to number, dates needed and job specifications that must be met in all areas of the United States. State Directors of Rural War Production Training assume the responsibility for seeing that such data, including the specific needs within the areas which they service, are utilized and reflected in proposals for courses except as otherwise ordered by the Director. The responsibility for making applications for approval of courses rests with the local public school authorities conducting the rural war production training program and the responsibility for approving such courses rests with the State Director of Rural War Production Training.

In order to facilitate and further implement the functioning of the employment service in this respect, specifications of the training of the unemployed enrollees shall be reported to the local employment manager according to a regular schedule for such reporting. In like manner the vocational schools shall report regularly to the United States Employment Service all material facts known to them in relation to the placement of trainees other than through the United States Employment Service itself.

(c) *Supervision of courses.* The rural war production training program has been planned to meet a number of predetermined needs. In meeting those needs it has been planned to utilize the training facilities available in the various rural communities having Departments of Vocational Agriculture as well as other suitable facilities available in communities not having Departments of Vocational Agriculture. To insure that the program is operated efficiently in meeting these predetermined needs, State plans shall include provisions for adequate supervision by qualified supervisors on both State and local levels.

(d) *General requirements and standards.* Within these general requirements State plans shall include provisions for the submission to the Director, of applications for approval of courses in accordance with such detailed forms and procedures as may be provided from time to time by the Director, including accompanying budgets or estimates of costs. As a condition of his approval of such courses and budgets, the Director may require revisions thereof deemed essential to the foregoing purposes.

The Director may make or cause to be made such investigation, examination and inspection of courses and of the conditions under which they are given as may be expedient or necessary, and may formulate standards with respect to the conduct of such courses, the qualifications of teachers, supervisors and Directors thereof, the selection of trainees, and in other respects in keeping with these regulations.

§ 2.21 *Certification for payment.* After approval of the State plan certification for payment to the officer authorized under State law to act as custodian of funds provided under this Act will be made at such time or times as the certifying officer may specify. Funds paid to a State under the Act shall be held and disbursed according to the fiscal policies and procedures of the State: *Provided, however,* That the Director may make rules with respect to the custody and disposition of such funds as may be deemed reasonably necessary to safeguard their availability and use in this training program.

§ 2.22 *Provisions for additional space and equipment.* All expenditures for the rental of additional space, both for instructional purposes and for supervision, must have prior approval by the Director. Except when specifically approved by the Director, all expenditures for the purchase or rental of equipment shall be for the purpose of completing instructional equipment of a school shop already partially equipped. The additional equipment purchased from these funds must be that necessary to accommodate the number of persons enrolled for whom it is found desirable to provide instruction. Title to equipment which is purchased from funds made available pursuant to subdivision (3) of the Act shall be in the State for use and subject to transfer as required by the Director in rural war production training as long as the need exists. Where such equipment is placed in buildings not owned by the State, suitable measures shall be taken to safeguard the continued availability of the equipment for the aforementioned purposes.

§ 2.23 *Disposition of products manufactured in courses.* Articles made in rural war production training courses from supplies furnished by Federal funds may be disposed of in such a manner as will best carry out the purpose of the Act. Such articles may be used in the conduct of the training program if suitable or they may be dismantled to furnish raw materials for further training or otherwise disposed of with the approval of and in a manner provided by the State Board for Vocational Education.

§ 2.24 *Reports and audits.* Each State plan shall provide that the State agency shall make reports in such form and containing such information as the Director may from time to time require and that the State shall comply with such provisions as the Director may find necessary to assure the correctness and verification of such reports.

For this purpose plans shall provide for the maintenance at the State level of such accounts and supporting documents as will serve to permit an accurate and expeditious determination to be made at any time of the status of the Federal grants, including the disposition of all moneys received and the nature and amount of all charges claimed to lie against the respective Federal authorizations.

Estimates of cost of courses and of additional space and equipment, as well as final statements thereof, subject to audit and verification as aforesaid, shall be submitted in such form and at such times as the Director may require. Fiscal reports and detailed statistical statements of training, enrollments, transfers, placements, and other details of the State's activities shall be furnished monthly or at such other times and subject to such supplementation as the Director may require and shall be sufficient to enable the Commissioner to transmit to Congress, quarterly, reports required by the Act.

GENERAL PROVISIONS

§ 2.25 *Labor resources.* Unless otherwise indicated the following provisions are applicable to war training programs under the Act.

(a) *Discrimination.* The Act provides that no trainee in courses conducted pursuant to subdivisions (1), (2), and (3) of the Act shall be discriminated against because of sex, race, or color and it is also provided that the selection of trainees shall be based upon the existing and anticipated need for war workers and where separate schools are required by law for separate population groups, to the extent needed for trainees of each such group, equitable provisions shall be made for facilities and training of like quality.

Executive Order No. 8802 of June 25, 1941, as amended, reaffirms the policy of the United States that there shall be no discrimination in the employment of workers in war industries or in the government because of race, creed, color, or national origin. It orders that all departments and agencies of the government of the United States concerned with vocational and training programs for war production shall take measures to assure that such programs are administered without discrimination because of race, creed, color, or national origin. It requires provisions in government contracts for carrying out this policy and establishes in the War Production Board a Committee on Fair Employment Practice to investigate complaints of discrimination in violation of the provisions of the order and to take appropriate steps to redress valid grievances. The Committee is also empowered to recommend to the several departments and agencies of the Government and to the President all measures which may be deemed by it necessary or proper to carry out the provisions of the order. All training programs under the provisions of the Act shall be so conducted as to carry out the policies and provisions of this order.

(b) *Women workers.* In considering the eligibility of women for courses recognition should be given to the policies adopted by the War Manpower Commission to promote the employment of women as the general labor market tightens. Training of women, however, must take into consideration the ability of such women to secure presently or in the future employment in occupations essential to the war program.

(c) *Shortage of farm labor.* State plans should take into consideration the possibility of a shortage of farm labor in certain regions in which national policy requires an expansion of production. Agricultural as well as non-agricultural needs should be considered.

§ 2.26 *Continued operation under plans pursuant to Public Law 146.* Insofar as they are not inconsistent with the policies expressed in these Regulations, existing plans for courses under all subdivisions of the Act under which State agencies and colleges are operating pursuant to the Labor-Federal Security Appropriation Act of 1942 (55 Stat. 476) Public Law 146, 77th Congress, 1st Session, may furnish the basis under which courses under this Act are conducted. Where these regulations would require changes or additions, time will be allowed by the Commissioner or the designated Director to enable the cooperating agencies to comply with such requirements without impairing the use of funds for carrying on the war training program under existing plans.

DRAWBACK—EXTENSION OF PERIOD FOR USE OF SUGAR

Acting under the authority vested in him by section 318, Tariff Act of 1930, the President, on August 7, 1942, issued a proclamation declaring an emergency to exist and authorizing the Secretary of the Treasury to extend to three years the time prescribed in section 313 (b), Tariff Act of 1930, for the use of sugar in the manufacture or production of articles, in any case in which the time prescribed in such section has not expired. The proclamation is published below for your information and guidance. [Here follows Proc. 2566; 7 F.R. 6157.]

Pursuant to the authority conferred upon the Secretary of the Treasury by the proclamation, the period of one year prescribed in section 313 (b), Tariff Act of 1930, for the use of sugar in the manufacture or production of articles is hereby extended to three years.

The extension herein granted is not applicable in any case in which the one-year period prescribed in section 313 (b) expired before August 7, 1942, the date on which the proclamation was issued. No extension of the three-year period for exportation prescribed in section 313 (h), Tariff Act of 1930, is authorized in the proclamation. (Sec. 313, 318, 46 Stat. 694, 696; 19 U.S.C. 1313, 1318. HERMAN SANDERS, CODE MEMBER

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A written complaint having been filed herein on July 5, 1941 by the Bituminous Coal Producers Board for District No. 13, as complainant, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), alleging wilful violation by Herman Sanders, Monteagle, Tennessee, code member in District No. 13, of the Act, of the Bituminous Coal Code (the "Code"), and rules and regulations thereunder; and

An Order having been issued herein on July 9, 1942 revoking and cancelling the code membership of said Herman Sanders, effective fifteen (15) days from the date of said Order; and

Said Order of Cancellation and Revocation having been duly served on July 13, 1942 on said Herman Sanders; and

Said Herman Sanders having filed with the Division, as provided in section 5 (c) of the Act, his application dated August 1, 1942 for restoration to code membership to become effective simultaneously with the effective date of said cancellation and revocation of his code membership; and

It appearing from said application that said Herman Sanders has paid to the Collector of Internal Revenue at Nashville, Tennessee, on July 22, 1942, the sum of $509.95, pursuant to said Order dated July 9, 1942, as a condition

precedent to the restoration of his code membership;

Now, therefore, it is ordered, That said application of Herman Sanders, dated August 1, 1942, be, and it hereby is, granted.

It is further ordered, That said restoration of the code membership of Herman Sanders be effective as of the effective date of said cancellation and revocation of his code membership.

DISTRICT BOARD No. 8

[Docket No. A-1567]

NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 8 for a change in the price classifications and minimum prices for rail and truck shipments for the coals of certain mines in Bell, Knox, and Whitley Counties, Kentucky, Claiborne County, Tennessee, and Wyoming County, West Virginia, District No. 8.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is Ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on October 14, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles S. Mitchell or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petition of intervention shall be filed with the Bituminous Coal Division on or before October 7, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a petition filed with the Division by District Board No. 8 requesting changes in the price classifications, minimum prices for rail and truck shipments, seam and county designations for the coals of certain mines in Bell, Knox, and Whitley Counties, Kentucky, Claiborne County, Tennessee, and Wyoming County, West Virginia, District No. 8, including, among other things, increases and decreases in effective minimum prices.

DISTRICT BOARD No. 3

NOTICE OF AND ORDER FOR HEARING AND ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of District Board No. 3 for a change in price classifications and minimum prices for the coals of Sunset Mine, Mine Index No. 776, of J. A. Jackson, and the Franklin Mine, Mine Index No. 243, of H. S. Glenn, District No. 3.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on September 15, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to peform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before September 8, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a petition filed with the Division by District Board No. 3 requesting that the price classification of "F" in Size Groups 1 to 10, inclusive, now established for the coals of Sunset Mine, Mine Index No. 243, be changed to "DE" in Size Groups 1–6, inclusive, and "DF" in Size Groups 7–10, inclusive, and that the price classification of "B" in Size Groups 11–16, inclusive, be established. It appears that the temporary price classifications and minimum prices requested to be established are higher than the price classifications and minimum prices now established for the coals of these mines, that price classifications and minimum prices for additional size groups are requested, and that a hearing will be necessary in order to determine if these changes should be made permanent. It further appears, however, that an adequate showing of necessity has been made for the granting of temporary relief establishing temporary price classifications and minimum prices for the coals of the above-named mines as requested.

It is, therefore, ordered, That pending final disposition of the above-entitled matter, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 3, For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the schedule marked "Supplement R", annexed hereto and hereby made a part hereof.[1]

Dated: August 13, 1942.

[P. & S. Docket No. 1510]

ESSEX COUNTY COOP CO.

ORDER OF SUSPENSION

In re Seymour Berkowitz and Elsie Landskroner, copartners, trading as the Essex County Coop Company, respondents.

On August 5, 1942, Seymour Berkowitz and Elsie Landskroner, copartners, trading as the Essex County Coop Company, filed with the Secretary a schedule of rates and charges, effective August 15, amendatory of Tariff No. 1 which was filed January 9, 1942, the effect of which is to increase the rates and charges for the rental of coops from 55 cents to 58½ cents in the designated cities of Newark, New Jersey, Jersey City, New Jersey, and New York, New York, and there is reason to believe that the increase proposed by such new schedule is not justified and is unreasonable.

It is concluded that a proceeding under Title III of the Packers and Stockyards Act, 1921, as amended, 7 U.S.C. 1940 ed. 181, should be had for the purpose of determining the reasonableness and lawfulness of the rates and charges set forth in Amendment No. 1 to Tariff No. 1 and that pending a hearing and decision in such proceeding, the amended tariff should be suspended and its use deferred.

It is further concluded that a hearing should be had for the purpose of determining the lawfulness of all rates and charges of the respondents and of any rule, regulation, or practice affecting such rates and charges and whether any stockyard service is rendered by the respondent without making a lawful charge therefor.

It is therefore ordered, That the operation and use of the tariff filed by the respondents on August 5, effective August 15, 1942, and designated as Amendment No. 1 to Tariff No. 1 shall be and it is hereby suspended and its use deferred until the expiration of 30 days beyond the time when such tariff would otherwise go into effect.

Done at Washington, D. C. this 13th day of August 1942. Witness my hand and the seal of the Department of Agriculture.

KANSAS CITY, MISSOURI, MARKETING AREA

HEARING ON HANDLING OF MILK

Proposed amendments to tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Kansas City, Missouri, Marketing Area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the applicable rules of practice and procedure thereunder (6 F.R. 6570, 7 F.R. 3350), notice is hereby given of a hearing to be held in the United States Court House, 811 Grand Avenue, Kansas City, Missouri, beginning at 10:00 a. m., c. w. t., August 21, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Kansas City, Missouri, marketing area.

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture. Evidence will be received at the hearing relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate and which may require revision in the event any of the proposed amendments are to be made effective. The amendments which have been proposed are as follows:

A. Proposed by the Pure Milk Producers Association of Greater Kansas City and the Bates County Milk Producers Association:

1. Delete § 913.1 (a) (3) and substitute therefor the following:

(3) The term "producer" means any person who produces milk which is purchased or received by a handler. It is provided that a handler who buys milk from producers shall pool his own farm production as a producer.

The term "graded producer" means any person, who with respect to the regulations applicable to milk to be used for consumption as milk or cream in the marketing area, (i) under supervision of the health department of Kansas City, Kansas; Leavenworth, Kansas; Excelsior Springs, Missouri; Independence, Missouri or Kansas City, Missouri or (ii) under a permit issued by either the Kansas State Board of Health or the Missouri State Board of Health, produces milk which is purchased or received at a plant of a handler, or which a cooperative association caused to be delivered from such person's farm to a plant from which no milk is disposed of as Class I milk or Class II milk in the marketing area, for the account of such cooperative association.

2. Delete § 913.1 (a) (4) and substitute therefor the following:

(4) The term "handler" means any person who, on his own behalf or on behalf of others, purchases or receives milk or cream at his plant from producers, association of producers, his own farm production, other handlers, or any other source, all or a portion of which is disposed of as Class I milk or Class II milk in the marketing area.

A handler who received no milk from producers other than his own farm production and who sold or disposed of no Class I milk or Class II milk to other than the ultimate consumer shall be exempt from the provisions of §§ 913.4, 913.7, 913.8, 913.9, 913.10, 913.11: *Provided*, That (i) the maintenance, care, and management of the dairy animals and other resources necessary to produce the milk on his own farm is the personal enterprise of and at the personal risk of such person in his capacity as a producer and (ii) the processing, packaging and distribution of the milk is the personal enterprise of and at the personal risk of such person in his capacity as a handler: *And provided further*, That such handler may sell or dispose of bulk milk as Class III milk to another handler or to a plant from which no milk is disposed of as Class I milk or as Class II milk in the marketing area.

It is still further provided, That the term "handler" shall include any cooperative association with respect to the milk of any graded producer which such cooperative association causes to be delivered to a plant from which no milk is disposed of as Class I or as Class II milk in the marketing area for the account of such cooperative association.

3. Renumber § 913.1 (a) (5), (6), (7), (8), (9), and (10) as § 913.1 (a) (6), (7), (8), (9), (10), and (11).

4. Add as § 913.1 (a) (5) the following:

(5) The term "ultimate consumer" means a person who purchases milk or cream for use only in his own household.

5. Delete § 913.3 (a) and substitute therefor the following:

(a) *Basis of classification.* All milk and milk products purchased or received by each handler, including the milk of a graded producer which a cooperative association caused to be delivered from such producer's farm to a plant from which no milk is disposed of as Class I milk or as Class II milk in the marketing area,

for the account of such cooperative association, shall be classified by the market administrator in the classes set forth in paragraph (b) of this section.

6. Delete § 913.3 (b) and substitute therefor the following:

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of bottled skim milk, fluid milk containing less than 6 percent butterfat, except such milk as is accounted for pursuant to subparagraphs (2) and (3) of this paragraph and all milk not accounted for pursuant to subparagraphs (2) and (3) of this paragraph.

(2) Class II milk shall be all milk disposed of in the form of flavored milk or flavored milk drinks, creamed buttermilk, creamed cottage cheese, aerated cream, eggnog, and milk or cream (both sweet and sour) containing 6 percent butterfat or more, except such milk as is accounted for pursuant to subparagraph (3) of this paragraph.

(3) Class III milk shall be all milk; used to produce butter, cheese (other than creamed cottage cheese), evaporated milk, condensed milk, ice cream, and powdered whole milk; used for starter churning, wholesale baking, and candy making purposes; accounted for as salvage from products where the recovery of fat is impossible; not accounted for but not in excess of 3 percent of the total receipts of milk from producers.

(4) Class IV milk shall be all milk which a cooperative association caused to be delivered from a graded producer's farm to a manufacturing plant from which no milk is disposed of as Class I milk or as Class II milk in the marketing area, for the account of such cooperative association.

7. Delete § 913.4 and substitute therefor the following:

§ 913.4 *Minimum prices*—(a) *Class prices.* Each handler shall pay producers, at the time and in the manner set forth in § 913.9, for milk purchased or received from them not less than the following prices:

(1) *Class I milk.* The price per hundredweight of Class I milk during each delivery period shall be the price determined pursuant to subparagraph (5) of this paragraph plus 90 cents, or the Class IV price plus 90 cents, whichever price is higher.

(2) *Class II milk.* The price per hundredweight of Class II milk during each delivery period shall be the price determined pursuant to subparagraph (5) of this paragraph plus 65 cents, or the Class IV price plus 65 cents, whichever price is higher.

(3) *Class III milk.* The price per hundredweight of Class III milk during each delivery period shall be the price of Class IV milk plus 40 cents or the price determined pursuant to subparagraph (5) of this paragraph plus 40 cents, whichever is higher.

(4) *Class IV milk.* The price per hundredweight of Class IV milk during each delivery period shall be the highest price ascertained by the market administrator to have been quoted for ungraded milk of the same butterfat content received during such delivery period by any one of the three following plants: The Meyer Sanitary Milk Company at its plant at Valley Falls, Kansas; the Franklin Ice Cream Company at its plant at Tonganoxie, Kansas; and the Milk Producers Marketing Company at its plant at Kansas City, Kansas.

(5) *Determination of foundation price of Class I and Class II milk.* The market administrator shall compute and announce on or before the 5th day of the delivery period the arithmetical average of the prices per hundredweight reported to the United States Department of Agriculture as being paid all farmers for milk of 3.8 percent butterfat content delivered f. o. b. plant during the immediately preceding delivery period at the following plants and places:

Borden Company, Mt. Pleasant, Mich.
Carnation Company, Sparta, Mich.
Pet Milk Company, Hudson, Mich.
Pet Milk Company, Wayland, Mich.
Pet Milk Company, Coopersville, Mich.
Borden Company, Greenville, Wis.
Borden Company, Black Creek, Wis.
Borden Company, Orfordville, Wis.
Carnation Company, Chilton, Wis.
Carnation Company, Berlin, Wis.
Carnation Company, Richland Center, Wis.
Carnation Company, Oconomowoc, Wis.
Carnation Company, Jefferson, Wis.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Belleville, Wis.
Borden Company, New London, Wis.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

8. Add a new § 913.4 (a) (6):

Butterfat differential to handlers. If any handler has purchased or received milk from producers containing more or less than 3.8 percent butterfat, such handler shall add or deduct, per hundredweight of milk, for each one-tenth of one percent butterfat above or below 3.8 percent, an amount computed as follows: Divide the price of Class IV milk, as ascertained by the market administrator, by 3.8, and divide the result by 10.

9. Delete § 913.6 (a), (b), and (d) and redesignate paragraph (c) as paragraph (a).

10. Delete the third proviso of § 913.7 (a) and substitute therefor the following:

Provided further, That if any such milk received at such plant located outside the marketing area is sold or disposed of to another handler, the volume of such milk shall not be used in the determination pursuant to (1) of the first proviso of this paragraph.

11. Delete in § 913.7 (b) (1) the phrase "(1) For delivery periods from the effective date hereof to and including December 31, 1941:" and substitute therefor the following: (1) For the delivery periods excepting April, May, and June of each year:

12. Delete in § 913.7 (b) (2) the phrase "(2) For delivery periods subsequent to December 31, 1941, subject to subparagraph (3) of this paragraph:" and substitute therefor the following: (2) For the delivery periods of April, May and June of each year:

13. Delete § 913.7 (b) (3).

14. Delete § 913.8 (a) and substitute therefor the following:

(a) *Determination of base.* For the delivery periods of April, May and June of each year, the base of each graded producer shall be a quantity of milk calculated by the market administrator in the following manner: multiply by the applicable figure computed pursuant to subparagraphs (1), (2), or (3) of paragraph (b) of this section adjusted by paragraph (c) of this section by the number of days during such delivery period on which milk was received from such graded producer.

15. Delete § 913.8 (b) and substitute therefor the following:

(b) *Determination of base.* (1) Effective for the delivery periods of April, May, and June of each year, the daily base of each graded producer, who regularly delivered milk to a handler during the entire next previous delivery periods of October, November, December, and January, shall be computed by the market administrator from reports submitted by the handlers pursuant to § 913.5 from the best information available in the following manner:

(i) Determine for each graded producer who regularly delivered milk to a handler during the entire next previous delivery periods of October, November, December, and January, the average daily delivery of milk to a handler, for the period from the next previous October 1 to and including January 31. This result shall be known as the graded producer's daily base.

(2) Effective for the delivery periods of April, May, and June of each year, the daily base of each graded producer, who did not regularly deliver milk to a handler during the entire next previous delivery periods of October, November, December, and January, but who began regular deliveries of milk to a handler, subsequent to October 1 and previous to March 1, shall be computed by the market administrator from reports submitted by the handlers pursuant to § 913.5 or from the best information available in the following manner:

(i) Determine for each such graded producer, the average daily delivery of milk to a handler, for each delivery period of April, May, and June, and (ii) multiply by 70 percent. This result shall be known as the graded producer's daily base.

(3) In case a handler who distributes within the marketing area milk of his own production ceases to act as a handler and who begins regular deliveries of milk to a handler, the daily base of such graded producer shall be computed by the market administrator in the following manner: determine the average daily Class I milk and Class II milk produced and disposed of during the three months next preceding the date of his ceasing to act as a handler.

16. Delete § 913.8(c) and substitute therefor the following:

(1) In case a graded producer sells or delivers to a handler milk not of his own production as being milk of his own production, the amount to be paid such graded producer for all milk sold or delivered to a handler by such graded producer during such delivery period shall be the price of Class IV milk for such delivery period pursuant to § 913.4 (a) (4) and such milk shall not be included in the computation pursuant to § 913.8 (b) (1).

(2) A base of a graded producer may be transferred to the surviving spouse or a direct heir, upon written request of such person to the market administrator on or before the fifth day following the delivery period when such transfer is to be effective and if accompanied by an affidavit with respect to such graded producer's death.

(3) A landlord who rents on a crop-share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. Likewise, the tenant who rents on a crop-share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by tenant and landlord, the daily base shall be divided between the joint owners according to the ownership of the cattle, if and when such joint owners terminate the tenant and landlord relationship.

(4) A graded producer, whether landlord or tenant of a farm, may retain his base when moving his entire herd of cows from one farm to another farm: *Provided,* That at the beginning of tenant and landlord relationship the allotted base of each tenant and landlord shall be a combined base and may be divided only if such relationship is terminated.

17. Insert in (i) of § 913.9 (a) (1) between the words "to" and "producers" the word "graded".

18. Insert in (i) of § 913.9 (a) (2) between the words "to" and "producers" the word "graded".

19. Amend such other sections as may be necessary because of the above proposed amendments.

B. Proposed by Handlers:

1. Amend § 913.2 by adding a new § 913.2 (c) (6).

(6) Promptly notify all handlers when any handler's reports of sales or accounts are 30 days or more past due.

2. Amend § 913.10 (a) by inserting after the word "period," in line 6 the phrase "except milk purchased in bottles or from a handler's own production."

C. Proposed by Dairy and Poultry Branch, Agricultural Marketing Administration, United States Department of Agriculture:

1. Revise in § 913.1 (a) the meaning of the term "Secretary" to include any person who may be authorized to exercise the powers and perform the duties of the Secretary.

2. Revise § 913.3 (c) so as to specify with greater particularity the basis of classification of milk, particularly with respect to interplant movements of milk.

3. Add a paragraph to § 913.3 establishing upon whom the burden of proof of classification of milk shall rest.

4. Add a paragraph to § 913.3 setting forth the manner in which the market administrator shall compute the amount of milk in each class.

5. Add a paragraph to § 913.3 providing for a method of reconciling the utilization of milk by classes with receipts of milk from producers.

6. Revise § 913.5 so as to provide that reports by handlers whose sole sources of supply are receipts from other handlers or from own farm production shall be in a form and at a time elected by the market administrator and so as to further provide the nature of the reports which are to be verified, the manner of verification, and the responsibilities of the handlers in connection with such verification.

7. Add a paragraph to §913.6 providing the method and manner of payment for milk received by handlers from sources determined as other than producers or other handlers.

8. Add a paragraph to §913.6 providing for payment to producers for milk or butterfat in excess of receipts apparent on the basis of handlers' reports.

9. Revise § 913.7 with respect to the manner in which the market administrator shall compute the net pool obligations of handlers and the uniform prices.

10. Revise §913.11 so as to make it fully apparent that handlers are subject to administrative assessment on all milk handled.

11. Add a new section, as follows:

Agents. The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Copies of this notice of hearing and of Order No. 13, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1019 South Building, Washington, D. C., or may be there inspected.

To determine whether on or about October 22, 1941: (a) the antenna tower of the station was illuminated in accordance with the specifications supplied by the Commission, pursuant to § 303 (q) of the Communications Act of 1934, as amended, § 3.45, Federal Communications Commission's Rules, and § 6 of the Standards of Good Engineering Practice; (b) the transmitter proper and the associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of § 3.46, Federal Communications Commission's Rules and the Standards of Good Engineering Practice issued pursuant thereto; (c) the license of the operator on duty at the transmitter was posted in a conspicuous place, as required by § 2.52, Federal Communications Commission's Rules; and (d) the station logs were maintained in accordance with § 3.404, Federal Communications Commission's Rules.

4. To determine whether: (a) the transmitter operator failed to sign the log upon going off duty September 11, 21, and 22, 1941 and October 18, 1941, in violation of § 3.404, Federal Communications Commission's Rules and (b) whether entries for "program and carrier off" were made September 7 and 11, 1941, and October 18, 1941, as required by § 3.404, Federal Communications Commission's Rules.

5. To determine whether the applicant failed to reply to an "Official Notice (Form 793)" dated November 4, 1941, within three days after the receipt thereof, as required by Section 1.391, Federal Communications Commission's Rules.

6. To determine whether the licensee, its officer, directors, and stockholders, or the station management and personnel, are technically qualified to continue the operation of Station WMIS.

7. To determine the financial qualifications of the licensee to continue the operation of Station WMIS.

8. To determine whether Station WMIS has been operated at all times in accordance with the rules and regulations of the Federal Communications Commission and the Standards of Good Engineering Practice issued pursuant thereto.

9. To determine whether the granting of this application would serve public interest, convenience and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows: Natchez Broadcasting Company, Radio Station WMIS, City Bank & Trust Building, 407 Franklin Street, Natchez, Mississippi.

P. K. EWING (WGRM)

NOTICE OF HEARING

In re application of P. K. Ewing (WGRM), dated July 26, 1941, for renewal of license; class of service, broadcast; class of station, broadcast; location, Greenwood, Mississippi; operating assignment specified: Frequency, 1,240 kc; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for a consolidated hearing with the applications of WDSU, Incorporated, Docket No. 6331; WDSU, Incorporated, Docket No. 6332; and Natchez Broadcasting Company, Docket No. 6333, for the following reasons:

1. To determine whether on or about November 8, 1937, the station was operating within the limits of 50 cycles above and 50 cycles below the assigned frequency in accordance with the requirements of Rule 144.

2. To determine whether on or about November 22, 1937, the transmitter proper and associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of Rule 132, and Interpretations of Good Engineering Practice issued pursuant thereto.

3. To determine whether on or about December 11, 1937: (a) the transmitter proper and the associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of Rule 132, and Interpretations of Good Engineering Practice issued pursuant thereto; (b) the modulation monitor was installed and in operation at the station as required by Rule 139 (b); (c) the operating power of the station was maintained in exact accordance with the licensed power as required by Rule 142; (d) the station had installed and in operation an approved frequency monitor as required by Rule 145; and (e) the operating logs of the station truly and accurately reflected the operating conditions of the station, as required by Rule 172.

4. To determine whether: (a) on or about November 17, 1938, the transmitter proper and the associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of Rule 132, and the Interpretations of Good Engineering Practice issued pursuant thereto; (b) on or about October 24 to November 16, 1938, the nighttime operating power of the station was computed in accordance with Rule 136 and maintained in exact accordance with the licensed power as required by Rule 142; (c) on or about October 2 to October 22, 1938, the operating power of the station was maintained in exact accordance with its licensed power as required by Rule 142; (d) on or about October 26 to November 17, 1938, the modulation monitor was installed and in operation at the station as required by Rule 139 (b); and

(e) on or about November 17, 1938, the antenna ammeter in use at the station was the same as that specified in the application for construction permit or prior to said date had been changed or replaced without authority of the Commission, in violation of Rule 143.

5. To determine whether on or about July 19, 1939: (a) the transmitter proper and the associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of Rule 132, and Interpretations of Good Engineering Practice issued pursuant thereto; (b) the transmitter was capable of delivering satisfactorily the authorized power with modulation of 85% with not over 10% combined audio frequency harmonics generated by the transmitter as required by Rule 139 (a); and (c) the plate volt meter, plate ammeter, and antenna ammeter were the same as those described in the application for renewal of license dated March 29, 1939, or whether prior to July 19, 1939, these instruments were changed or replaced without the authority of the Commission in violation of Rule 143.

6. To determine whether on or about October 21, 1939, suitable facilities for the transmitter operator's welfare and comfort were provided as required by § 3.46, Federal Communications Commission's Rules (section 12 (d) (2) Standards of Good Engineering Practice).

7. To determine whether on or about November 9, December 14, 1939, and February 8, 1940, the station was operated within the limits of 50 cycles above and 50 cycles below the assigned frequency in accordance with the requirements of § 3.59, Federal Communications Commission's Rules.

8. To determine whether on or about July 26, 1940: (a) the program logs of the station were maintained in accordance with § 3.404; and (b) suitable facilities were provided for the transmitter operator's welfare and comfort in accordance with § 3.46, Federal Communications Commission's Rules (section 12 (d) (2) Standards of Good Engineering Practice).

9. To determine whether on or about December 11, 1940, suitable facilities were provided for the transmitter operator's welfare and comfort in accordance with § 3.46.

10. To determine whether the licensee replied to an "Official Notice (Form 793)" dated December 11, 1940, within three days after the receipt thereof as required by § 1.391, Federal Communications Commission's Rules.

11. To determine whether on or about June 18, 1941: (a) proper entries were made in the station's operating log between 12:00 o'clock noon and 1:15 P. M. as required by § 3.404, Federal Communications Commission's Rules; (b) the station logs were properly signed by the operators as required by § 2.55, Federal Communications Commission's Rules; (c) the operating power was maintained within the tolerance limits of 105% and 90% of the power specified in the license, as required by § 2.80, Federal Communications Commission's Rules; (d) the transmitter proper and the associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of § 3.46, Federal Communications Commission's Rules and the Standards of Good Engineering Practice issued pursuant thereto; (e) suitable facilities were provided for the transmitter operator's welfare and comfort in accordance with § 3.46, Federal Communications Commission's Rules (section 12 (d) (2), Standards of Good Engineering Practice); (f) the operating power of the station was computed by using the direct method of power determination as required by § 3.51, Federal Communications Commission's Rules; (g) the station was being operated in such a manner as was consistent with good quality of transmission and good broadcast practice as required by § 3.55, Federal Communications Commission's Rules; (h) the painting and lighting specifications for the tower were posted as required by § 3.401, Federal Communications Commission's Rules; (i) there was a licensed operator on duty at the transmitter at about 1:15 P. M., Central Standard Time, as required by § 3.402, Federal Communications Commission's Rules, and section 318 of the Communications Act of 1934, as amended; and (j) whether the program logs were maintained in accordance with § 3.404, Federal Communications Commission's Rules.

12. To determine whether on or about October 25, 1941: (a) the transmitter proper and associated transmitting equipment of the station were designed, constructed, maintained and operated in accordance with the provisions of § 3.46, Federal Communications Commission's Rules and the Standards of Good Engineering Practice issued pursuant thereto; (b) suitable facilities were provided for the transmitter operator's welfare and comfort in accordance with the provisions of § 3.46, Federal Communications Commission's Rules (section 12 (d) (2) of the Standards of Good Engineering Practice); and (c) frequency monitor in operation at the station had stability and accuracy of at least five parts per million as required by § 3.60, Federal Communications Commission's Rules.

13. To determine whether the licensee answered an "Official Notice (Form 793)" dated November 5, 1941 within three days after the receipt thereof as required by § 1.391, Federal Communications Commission's Rules.

14. To determine whether applicant is financially qualified to continue the operation of Station WGRM.

15. To determine whether the applicant or the station management and personnel are technically qualified to continue the operation of Station WGRM.

16. To determine whether Station WGRM has been operated at all times in accordance with the rules and regulations of the Federal Communications Commission and the Standards (or interpretations) of Good Engineering Practice issued pursuant thereto.

17. To determine whether the granting of this application would serve public interest, convenience and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC-38]

LISTING AND CERTIFICATE OF COAL TAR COLORS

NOTICE OF HEARING

Notice of public hearing for the purpose of receiving evidence upon which a regulation may be promulgated amending "Regulations Under the Federal Food, Drug, and Cosmetic Act for the Listing of Coal-tar Colors, Certification of Batches Thereof and Payment of Fees for Such Service", by the listing of an additional coal-tar color.

In accordance with the Federal Food, Drug, and Cosmetic Act of 1938, sections 504, 604, and 701 [21 U.S.C., sections 354, 364, 371 (1940 ed.)], and in accordance with the Coal Tar Color Regulations heretofore promulgated [4 F.R. 1922], as amended, notice is hereby given to all interested persons that a public hearing will be held beginning at 10 A. M. on Tuesday, September 15, 1942, in Room 3106, South Building, Department of Agriculture, between 12th and 14th Streets, SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which the Administrator of the Federal Security Agency may determine whether he shall promulgate a regulation further amending such Coal Tar Color Regulations by the listing of an additional coal-tar color, and what the provisions of any such amendment should be.

All interested persons are invited to attend and to offer relevant and material evidence either in person or by representative. In lieu of personal appearance, affidavits may be presented at any time prior to the opening of the hearing by delivery to the Presiding Officer, Joseph L. Maguire, Room 2242, South Building, Department of Agriculture. Such affidavits must be submitted in quintuplicate, and, if relevant and material, may be received and made a part of the record at the hearing, but the Administrator will consider the lack of adequate opportunity for cross-examination in determining the weight to be given to statements contained therein. Interested persons will be permitted to examine the affidavits offered and to file counter-affidavits.

The suggested amendment is subject to adoption, rejection, amendment or modification by the administrator in whole or in part as the evidence adduced at the hearing may require.

The hearing will be conducted in accordance with the "Rules of Practice for Hearings Required under the Federal Food, Drug, and Cosmetic Act", published in the FEDERAL REGISTER, June 26, 1940 [5 F.R. 2379].

Mr. Joseph L. Maguire is hereby designated as representative of the Administrator and as Presiding Officer to conduct in place of the Administrator the said hearing, with full power to administer oaths and affirmations, and to do all things necessary and appropriate for the proper conduct of such hearing.

SUGGESTED AMENDMENT TO THE REGULATIONS FOR THE LISTING OF COAL-TAR COLORS, CERTIFICATION OF BATCHES THEREOF, AND PAYMENT OF FEES FOR SUCH SERVICE

The regulations under the Federal Food, Drug, and Cosmetic Act for the listing of coal-tar colors, certification of batches thereof, and payment of fees for such service are hereby further amended:

By adding to the colors listed in § 135.05 the following:

EXT D&C Yellow No. 6

[General Maximum Price Regulation—Order 13 Under Supplementary Regulation 1[1]]

LORRAINE FIBRE MILLS, INC.

DISAPPROVAL OF REGISTRATION

An opinion in support of this order has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The following company applied for registration and approval of the Office of Price Administration in order that its sales and deliveries might be excepted from the provisions of the General Maximum Price Regulation pursuant to § 1499.26 (b) (1) of Supplementary Regulation No. 1: Lorraine Fibre Mills, Inc., 430 Bond Street, Brooklyn, New York.

Due consideration has been given to the application for registration and approval of Lorraine Fibre Mills, Inc. and it has been found that said company does not meet the requirements of § 1499.26 (b) (1) of Supplementary Regulation No. 1. Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered:

(a) That the said application for registration and approval of Lorraine Fibre Mills, Inc., 430 Bond Street, Brooklyn, New York, be, and the same is, denied and disapproved.

(b) This Order No. 13 shall become effective August 14, 1942.

Issued this 13th day of August 1942.

RAILROAD RETIREMENT BOARD.

STATUS OF CUPPLES STATION, ST. LOUIS, MO.

NOTICE OF HEARING

Pursuant to regulations under the Railroad Unemployment Insurance Act (45 U.S.C. 1940 ed. 351-367), Part 319, §§ 319.42 et seq.,[1] the following orders have been issued:

ORDER AWARDING BENEFITS

In accordance with the determination of the issues presented and passed upon in my opinion of July 17, 1940, L-40-351, as supplemented by my memorandum of April 2, 1941, L-41-156, and as approved by the Board April 8, 1941, B. O. 41-159, and holding that Cupples Station of St. Louis, Missouri, as a separable and identifiable enterprise of Washington University, was on August 29, 1935 and thereafter has been a carrier by railroad subject to part I of the Interstate Commerce Act and, as such, an employer under the Railroad Retirement Acts and the Railroad Unemployment Insurance Act:

Benefits are hereby awarded to all individuals whose compensation, earned in the service of said Cupples Station exclusively or in addition to compensation earned in the service of other covered employers, is $150 or more in the applicable base year, such benefits to be determined in accordance with section 2 (a) of the Railroad Unemployment Insurance Act by including compensation earned in the service of said Cupples Station, and to be payable for any days of unemployment established in accordance with the Railroad Unemployment Insurance Act and applicable regulations: *Provided, however*, That all benefits paid pursuant to this award shall be paid subject to a right of recovery thereof as provided in section 5 (c) of the Railroad Unemployment Insurance Act.

Order entered and award of benefits made pursuant to authority vested in me by Regulations § 319.40, this 19th day of June, 1942.

LESTER P. SCHOENE,
General Counsel.

ORDER REOPENING DETERMINATION AND DESIGNATING EXAMINER

Pursuant to Regulations §§ 319.42 and 319.45 all issues determined by my opinion of July 17, 1940, L-40-351, as supplemented by my memorandum of April 2, 1941, L-41-158, and as approved by the Board April 8, 1941, B. O. 41-159, relating to the employer status of Cupples Station of St. Louis, Missouri, are hereby reopened for further consideration and proceedings pursuant to Regulations Part 319, and for the conduct of such proceedings Mr. Paul M. Johnson is designated to serve as examiner, with all powers, duties and functions accruing to such examiner pursuant to such designation under Regulations Part 319. The examiner shall arrange for a hearing at the earliest date meeting the convenience of parties in interest, and shall notify all parties properly interested in any issue involved in the proceeding of the reopening of the determination and of their rights to participate in the proceeding and to present evidence and argument.

LESTER P. SCHOENE,
General Counsel.

JUNE 19, 1942.

Pursuant to the above orders, notice is hereby given that a hearing will be held Wednesday, August 26, 1942, at 10:00 a. m., in Room 206, Main Post Office, St. Louis, Missouri, on the question whether the said Cupples Station was on August 29, 1935, and thereafter, an employer under the Railroad Retirement Acts and the Railroad Unemployment Insurance Act.

Cupples Station, Washington University, the individuals who have been awarded benefits on the basis of pay earned in the service of Cupples Station, and all other parties properly interested may participate in the hearing and will be afforded an opportunity to present evidence and to make arguments before the Examiner.

In preparation for, and in the conduct of, said hearing, the Examiner is authorized to require and compel the attendance of witnesses, administer oaths, take testimony, and make all necessary investigations. A record will be kept of all evidence presented, orally or in writing, at said hearing. The evidence presented orally will be under oath. The Examiner may require that copies of all exhibits admitted in evidence at the hearing be furnished by the party offering the same to all other parties participating or entering an appearance in the proceeding.

Dated: August 11, 1942.

PAUL M. JOHNSON,
Examiner.

WILLIAMSTOWN WATER COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of August, A. D. 1942.

Williamstown Water Company, a wholly-owned subsidiary company of Greenwich Water System, Inc., both subsidiary companies of American Water Works and Electric Company, Incorporated, a registered holding company, having filed a declaration pursuant to section 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-46 promulgated thereunder regarding the payment of a partial liquidating dividend of $100,000 by Williamstown Water Company to its only stockholder, Greenwich Water System, Inc., and

Such declaration having been filed on July 21, 1942 and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit the said declaration pursuant to Rule U-46 to become effective, and finding that the requirements of section 12 (c) are satisfied, and being satisfied that the effective date of such declaration should be advanced:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24 that said declaration be, and hereby is, permitted to become effective forthwith.

By the Commission.

WAR MANPOWER COMMISSION.

[Directive No. IX]

DAY-CARE OF CHILDREN OF WORKING MOTHERS

COORDINATION OF FEDERAL PROGRAMS

Directive to certain Government departments and agencies, to develop, integrate and coordinate Federal programs for the day-care of children of working mothers.

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139,[1] establishing the War Manpower Commission, and having found, after consultation with the members of the War Manpower Commission, that existing and anticipated requirements for workers in essential activities render necessary the employment of large numbers of women, that among such women may be found many mothers of young children, that no woman responsible for the care of young children should be encouraged or compelled to seek employment which deprives her children of her essential care until after all other sources of labor supply have been exhausted, but that if such women are employed, adequate provision for the care of such children will facilitate their employment, and that the measures hereinafter set forth will promote the effective mobilization and maximum utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. The Office of Defense Health and Welfare Services, in consultation with such departments and agencies of the Federal Government as it may deem appropriate, shall:

(a) Promote and coordinate the development of necessary programs for the day-care of children of mothers employed in essential activities;

(b) Determine, either directly or through such Federal departments and agencies as it may designate, areas in which such programs of day-care should be promoted, and the respective responsibilities of the Federal departments and agencies concerned in the development of such programs; and

(c) Take such action as may be necessary or appropriate to assure the effectuation of all such programs.

II. The United States Employment Service shall prepare, keep current and make available to the Office of Defense Health and Welfare Services, data reporting its best estimates with respect to the number of working mothers with young children, and the anticipated requirements of essential activities for the employment of such mothers, by periods and areas.

III. The Work Projects Administration in the Federal Works Agency, the Children's Bureau in the Department of Labor, the Office of Education in the Federal Security Agency, the Bureau of Public Assistance in the Social Security Board in the Federal Security Agency, the Farm Security Administration in the Department of Agriculture, the Federal Public Housing Authority in the National Housing Agency and every other Federal department or agency carrying on child day-care programs or programs related thereto shall make available to the Office of Defense Health and Welfare Services reports with respect to such day-care programs or programs related thereto, carried on by such department or agency, and shall take such action as may be necessary or appropriate to insure the integration and coordination, through the Office of Defense Health and Welfare Services, of all Federal programs for the day-care of children of working mothers and otherwise to carry out the purposes of this directive.

IV. This directive may be cited as the "Directive to Develop, Integrate and Coordinate Federal programs for the Day-Care of Children of Working Mothers."

TITLE 10—ARMY: WAR DEPARTMENT

Chapter X—Areas Restricted for National Defense Purposes

[General Orders No. 26]

PART 101—CONTROL OF FLYING WITHIN THE VITAL AIR DEFENSE AREAS

Headquarters Eastern Defense Command and First Army, Governors Island, New York.

JULY 16, 1942.

§ 101.1 *Eastern Defense Command and First Army.* (a) War Department Circular, dated March 11, 1942, subject: "National Policy of Air Defense Regulations and General Flight Rules", establishes within the Eastern Defense Command, the "Eastern Air Defense Zone", which comprises the air space extending along the Atlantic Coast from the United States—Canadian border to Key West, Florida, thence north along the west coast of Florida to the Apalachicola River, and from the shore line extending 200 miles seaward and 150 miles inland. Said circular prescribes further that: "Additional special restrictions within active defense zones may be imposed by responsible defense commanders as military or naval situations demand". Pursuant to authority of said circular, these regulations are issued as necessary to make possible an effective defense against enemy air attack.

(b) That portion of the Eastern Air Defense Zone east of the line: Weston, Maine; Sebago, Maine; Crafton, Massachusetts; Pawling, New York; Sussex, New Jersey; Pottsville, Pennsylvania; Middleburg, Virginia; Franklin, Virginia; Corolla, North Carolina and the area extending 200 miles to sea is designated a "Vital Air Defense Area", hereinafter referred to as the Area, within which the operation of aircraft is prohibited or is authorized subject to the conditions prescribed herein or hereafter. That portion of the Eastern Air Defense Zone not included in the above defined Area will be covered in future regulations.

(c) The following activities jeopardize the air defense of the Area. They shall be discontinued at the earliest practicable date:

(1) Civil flying training, including Civil Pilot Training Schools.

(2) Civil photographic, news, commuting, pleasure, and other miscellaneous civil flights.

(3) Army and Navy primary, basic, and advanced flying training, other than operational training.

(d) All other flying, Army, Navy and Civil, within the area, is restricted to that which is necessary to the war effort. On local flights, aircraft shall remain as close to the airport as practicable, and in all cases within five miles of its center. For these local flights, no flight plan is required.

(e) (1) All aircraft intending to fly outside a five (5) mile radius from the

center of the airport shall submit a flight plan and receive approval thereof before take-off. (For exceptions, see paragraph (j) (2) of this section.) In flight they shall adhere strictly to the flight plan as approved, and shall comply with all rules governing flights which are or may be prescribed by the Civil Aeronautics Administration. The flight plan shall contain the following data:

(i) Local flight plan number.

(ii) The aircraft identification number or the name of the governmental service in which the aircraft is employed, if so employed, or the name of the carrier operator and the trip number, if engaged in a scheduled air transportation service.

(iii) The type of aircraft involved and the number of aircraft making the flight, if the aircraft are in formation.

(iv) The name of the pilot, or the flight commander if the aircraft are in formation.

(v) The point of departure of the particular flight for which such plan is being filed.

(vi) The proposed cruising altitude or altitudes.

(vii) The point of first intended landing.

(viii) The proposed cruising airspeed.

(ix) The radio equipment carried in the aircraft. (If no radio—NORDO; if radio receiver only—RONLY; if two-way radio, a statement of transmitter frequency to be used.)

(x) The proposed time of departure. (The time of departure shall be considered as the time when the aircraft leaves the ground.)

(xi) The estimated elapsed time until arrival on the ground at the point of first intended landing. (For scheduled operation, the first stop to be made, together with additional stops if requested by an airway traffic control center.)

(xii) The alternate airport, if the flight is to involve instrument flight.

(xiii) The route and any other pertinent information which the pilot deems useful for control purposes or which may be requested by an airway traffic control center.

(xiv) Purpose of flight or mission.

(2) The flight plan shall be submitted to the Regional Information Center in whose area the flight originates for approval as prescribed in paragraph (e) (1) of this section.

(f) The airways for a distance of thirty miles in all directions from the following radio range stations are narrowed to a width of six miles: Portland, Maine; Boston, Massachusetts; Providence, Rhode Island; Hartford, Connecticut; Elizabeth, New Jersey; Philadelphia, Pennsylvania; Washington, D. C.; Norfolk, Virginia; Charleston, South Carolina. All civil air carriers operating within thirty miles of the above named radio range stations shall make certain that no passenger can see the ground until the aircraft has landed or has reached a point beyond this thirty mile limit.

(g) Each flight originating outside the Area shall enter the Area on a civil airway, proceed along the airways to the point nearest the destination, then proceed direct to the destination. Each flight departing the Area shall proceed direct to the point on the airways nearest the point of departure, then proceed along the airways until outside the Area.

(h) Aircraft on point to point flights within the Area, other than those on missions in defense of the Area, shall follow the civil airways except when the Regional Commander concerned determines that the route between the point of origin and the destination is so circuitous as to render such procedure impracticable. Requests for exceptions in these instances shall be made at the time of filing flight plans.

(i) when an "alert" or "air raid alarm" is ordered, the following restrictions shall govern all non-combat airplanes, and combat airplanes other than those directed by competent military or naval authority to intercept or attack the enemy:

(1) Airplanes on the ground shall remain on the ground.

(2) Airplanes flying locally shall land immediately.

(3) Airplanes flying on flight plans shall land, turn back or proceed as directed by the Commanding General, Fighter Command.

(j) (1) All aircraft authorized, under the provisions of paragraph (d) of these regulations, to operate within a five mile radius of the airport, shall first obtain a clearance from the appropriate Army, Navy or Civil authority before take-off. The clearing authority shall maintain a record of clearances and, upon request, shall furnish the Commanding General, Fighter Command, with data concerning the number of airplanes flying within the five mile radius.

(2) Army and Navy emergency flights, as defined in paragraph 14*a* (4), WD Cir., March 11, 1942, may take off without an approved flight plan when necessary. The Commander responsible for the dispatch of the flight shall report flight plans data without delay to the Regional Information Center concerned by direct line, if available; otherwise through the CAA communications.

(3) Emergency variation from the approved flight plan which affects the route, altitude, or time in excess of ten minutes, shall be reported without delay by radio to the nearest Army, Navy or CAA Airways Communications station for transmission to the nearest Regional Information Center, except when such transmission will jeopardize the successful completion of the mission.

(k) No person or agency, other than the Commanding General, Fighter Command, may establish channels of air traffic, restricted air areas, prohibited air areas, danger zones, identification stations; nor issue instructions, restrictions, or regulations governing air traffic within the described Area.

(l) Authority to order blackouts and to suspend radio broadcasts and other radio emissions is hereby delegated to the Commanding General, Fighter Command.

(m) All persons, military or civilian, except members of antiaircraft artillery units, are prohibited from firing at any aircraft, balloon, or dirigible, or at any parachutists, unless it or he be first positively identified as enemy.

NOTE: Antiaircraft artillery units have separate specific instructions to govern their actions.

(n) Aircraft violating the regulations in this section will be intercepted and forced to the ground by pursuit aircraft. Disciplinary action will be taken against military personnel. Civilian personnel involved will be prosecuted.

By command of Lieutenant General Drum.

[SEAL] KENNETH P. LORD,
Brigadier General, G. S. C.,
Chief of Staff.

Confirmed:

J. A. ULIO,
Major General,
The Adjutant General.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration

[Docket No. FDC-27]

PART 27—CANNED FRUIT: DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY AND FILL OF CONTAINER

CANNED FRUIT COCKTAIL

By virtue of authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act, 52 Stat. 1046 and 1055, 21 U.S.C. secs. 341 and 371; the Reorganization Act of 1939, 53 Stat. 561 ff., 5 U.S.C. sec. 133-133r; and Reorganization Plans No. I (53 Stat. 1423, 4 F.R. 2727) and No. IV (5 F.R. 2421); and upon the basis of evidence received at the hearing herein: the following order is promulgated hereby.

The regulations hereby promulgated shall become effective on the ninetieth day following the date of publication of this order in the FEDERAL REGISTER. (52 Stat. 1046, 53 Stat. 561ff; 21 U.S.C., sec. 341; 5 U.S.C., sec. 133-133r; and Reorganization Plans Nos. I and IV, 4 F.R. 2727, 5 F.R. 2421).

QUALITY

Findings of Fact

1. The use of canned fruit cocktail for cocktail, salad, and dessert purposes makes an appetizing appearance a relatively important factor in its quality.

2. Insofar as the appearance of canned fruit cocktail is not controlled by natural factors it is largely dependent upon the size and shape of the units of peach, pear and pineapple; upon the absence from the food of cracked or crushed grapes or grapes from which the cap stems have not been removed; upon the absence of peach, pear, grape and cherry ingredient from blemishes; and upon the uniformity of color of the units of cherry ingredient, when artificially colored cherries are used.

3. Canned fruit cocktail is not of good quality when the units of peach, pear and pineapple are too large for use as a cocktail or dessert or are not of reasonably uniform shape. Such defects impair the utility and appearance of the food. The presence of an excessive number of small units tends to make the product unsightly and to increase the difficulty of heat processing, with resulting disintegration. The size and shape of grapes and of the units of the cherry ingredient are controlled by the natural dimensions of the fruits, and are not sufficiently variable to affect adversely the quality of the product.

4. Throughout the life of the product the units of peach, pear, and pineapple when diced have been diced in machines in which the cutting knives are ordinarily set at one-half inch intervals. Such machines do not always cut units to perfectly uniform size, and the heat processing results in a small amount of shrinkage in the size of the units.

5. The diced units of peach, pear and pineapple are sifted and sorted to remove those which are too large, too small, or misshapen.

6. When cut and sorted in the customary manner such units are usually about one-half inch in each dimension, but there are occasional units having one or more dimensions as great as three-fourths inch. There are also many units having one or more dimensions as small as five-sixteenths inch.

7. When the units of pineapple are sectors rather than dice, they are prepared from rings as such rings are commonly cut for canning. The length and thickness of the sectors is determined by the size of the rings.

8. The sectors of pineapple ordinarily conform to the following dimensions: The length of the outside arc is more than $\frac{3}{8}$ inch but is not more than $\frac{3}{4}$ inch; the thickness is more than $\frac{5}{16}$ inch but is not more than $\frac{1}{2}$ inch; the length (measured along the radius from inside arc to outside arc) is more than $\frac{3}{4}$ inch but not more than $1\frac{1}{4}$ inch.

9. It is impossible in the exercise of due care under good manufacturing practices to avoid some units of peach, pear and pineapple which fail to conform to the specifications set forth in findings 6 and 8 because of the irregularity of the natural shape of the fruits and because of the impracticability of completely efficient sorting. In addition, when the units are heated in the can, some breakage results. For these reasons a tolerance on units of peach, pear and pineapple which do not conform to such measurements is necessary.

10. The experience of the fruit cocktail canning industry over a period of years demonstrates that where due care is exercised under good commercial practices, not more than 10 percent by weight of the units of pineapple will fail to conform to such specifications for size. A convenient and accurate method of determining whether the diced units fall below five-sixteenths inch in edge dimensions is to determine whether they pass through the meshes of a sieve designated as five-sixteenths inch in table I of "Standard Specifications for Sieves" published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards.

11. When the units of peach, pear, and pineapple conform to such tolerance, canned fruit cocktail is of acceptable quality to consumers generally in respect of the shape and size of such units for the reason that such units are reasonably uniform in size and shape and are acceptable for the customary uses of the food. When the units do not conform to such tolerance, the food is inferior in quality and frequently would not serve the purposes for which it is bought.

12. Canned fruit cocktail is not of good quality when significant quantities of peel remain on the units of peach and pear since adhering peel on such units is unsightly and unpleasant to eat.

13. Peach peel and pear peel are ordinarily easily removed in their entirety in the preparation of the units of fruit for canning.

14. Occasionally, even when due care is exercised under good manufacturing practices, some adhering peel will escape attention in the hand-sorting of the units and for this reason a tolerance on adhering peel is necessary.

15. The experience of the industry demonstrates that a reasonable tolerance for adhering peel on the units of peach and pear in canned fruit cocktail which can be met by the exercise of due care under good manufacturing practices, is not more than one square inch for each pound of such fruit. For the purpose of applying this tolerance, the weight of such units of peach or pear is computed as that proportion of the weight of the net contents of the container which the weight of such drained units bears to the total weight of fruit drained from the container.

16. When the units of peach and pear conform to such tolerance on adhering peel canned fruit cocktail is of acceptable quality to consumers generally in respect of freedom from adhering peel for the reason that such units are relatively free from peel and are acceptable for the customary uses of the food. When the units do not conform to such tolerance the food is inferior in quality and frequently would not serve the purposes for which it is bought.

17. When the units of peach, pear, grape and the cherry ingredient are blemished with scab, hail injury, scar tissue, discoloration, or other abnormalities, they are unappetizing and canned fruit cocktail containing them is not of good quality. Freedom from a substantial number of blemished units of peaches, pears or grapes and of 15 percent of blemished units of the cherry ingredient is a reasonable tolerance for canned fruit cocktail which can be met by the exercise of due care under good manufacturing practices.

18. Some peaches, pears, grapes and cherries are so blemished in their natural condition. Such blemished fruits are ordinarily removed by hand-sorting both by the producer of the fruit and the fruit cocktail manufacturer, but removal cannot be accomplished with absolute efficiency. For this reason a tolerance on blemished units of peach, pear, grape and the cherry ingredient is necessary.

19. The experience of the industry has demonstrated that a tolerance of 20 percent of blemished units of peaches, pears or grapes and of 15 percent of blemished units of the cherry ingredient is a reasonable tolerance for canned fruit cocktail which can be met by the exercise of due care under good manufacturing practices.

20. When the units of peach, pear, grape and the cherry ingredient conform to such tolerance on blemished units, canned fruit cocktail is of acceptable quality to consumers generally in respect of freedom from blemishes on such units for the reason that such units are relatively free from blemishes and are acceptable for the customary uses of the food. When the units do not conform to such tolerance, the food is inferior in quality and frequently would not serve the purposes for which it is bought.

21. When the grapes in canned fruit cocktail are crushed or cracked to the extent of being severed into two parts, the canned fruit cocktail is unsightly and unappetizing. Freedom from such grapes is a significant factor in consumers' preferences among canned fruit cocktails.

22. If not carefully handled mature grapes crush easily. Such crushed grapes are ordinarily segregated and discarded, along with grapes which are so cracked, prior to the time they are placed in the can. In the hand-sorting of the fruit, however, some crushed grapes escape attention. Heat-processing of canned fruit cocktail so as to prevent spoilage unavoidably cracks some of the grapes into two parts after they are packed in the container. For these reasons a tolerance on crushed grapes and grapes so cracked is necessary.

23. The experience of the industry has demonstrated that by the exercise of due care under good manufacturing practices not more than 10 percent of the grapes in the finished canned fruit cocktail are cracked to the extent of being severed into two parts or crushed to the extent that their normal shape is destroyed, and that a tolerance of 10 percent of such cracked and crushed grapes is a reasonable tolerance on such grapes for canned fruit cocktail.

24. When the units of grape conform to such tolerance the canned fruit cocktail is of acceptable quality to consumers generally in respect of freedom from crushed and cracked grapes for the reason that the food is reasonably free from blemishes on pineapple are not a significant occurrence in the canning of canned fruit cocktail.

25. Grapes are attached by a small cap stem to the larger stem of an entire bunch. When a grape is removed from the bunch, the cap stem frequently remains attached to the grape. Such stems are inedible and unsightly and their presence is a significant factor in consumers' preference among canned fruit cocktails.

26. Canned fruit cocktail which contains any significant quantity of grapes with attached cap stems is not of good quality.

27. It is the practice in the industry to remove such cap stems by the use of a stemming machine, followed by inspection and hand removal. Even under careful supervision such operation involves occasional oversights which make a tolerance on attached cap stems necessary.

28. The experience of the industry demonstrates that by the exercise of due care under good manufacturing practices, not more than 10 percent of the grapes in the finished canned fruit cocktail have their cap stems attached, and that a tolerance of 10 percent of grapes with attached cap stems is a reasonable tolerance on such grapes for canned fruit cocktail.

29. When the grapes conform to such tolerance on attached cap stems canned fruit cocktail is of acceptable quality to consumers generally in respect of freedom from grapes with attached cap stems for the reason that it is reasonably free from cap stems and is acceptable for all the customary uses of fruit cocktail. When it does not conform to such tolerance the food is inferior in quality and frequently would not serve the purposes for which it is bought.

30. If the units of cherry ingredient in canned fruit cocktail are artificially colored and each unit is not evenly colored, the appearance of the canned fruit cocktail is impaired and its desirability is lessened. Uniformity of distribution of color on each unit of the cherry ingredient is a significant factor in consumer's preference among fruit cocktails.

31. Artificial coloring does not contribute the same intensity of color to all cherries and for this reason a tolerance on cherries other than uniformly red in color is necessary.

32. Under normal canning operations not more than 15 percent of the cherries remaining after they have been handgraded are other than uniformly red in color, and a tolerance of 15 percent is a reasonable tolerance on artifically colored cherries other than uniformly red in color.

33. When the artificially colored cherry ingredient conforms to such tolerance canned fruit cocktail is of acceptable quality to consumers generally because its appearance is not materially below standard in quality in any respect, a statement on the label as follows: "Below Standard in Quality. Good Food—Not High Grade", is a simple, informative and adequate statement of that fact. Because the food is a mixture of several fruits it is not practicable to state on the label in what particular the food falls below standard in quality. Such statement serves its purpose when it appears on the label in the following manner and form:

The statement "Below Standard in Quality Good Food—Not High Grade" is printed in two lines of Cheltenham bold condensed caps. The words "Below Standard in Quality" constitute the first line, and the second immediately follows. If the quantity of the contents of the container is less than 1 pound, the type of the first line is 12-point, and of the second, 8-point. If such quantity is 1 pound or more, the type of the first line is 14-point, and of the second 10-point. Such statement is enclosed within lines, not less than 6 points in width, forming a rectangle. Such statement with enclosing lines, is on a strongly contrasting, uniform background, and is so placed as to be easily seen when the name of the food or any pictorial representation thereof is viewed, wherever such name or representation appears so conspicuously as to be easily seen under customary conditions of purchase.

Upon the basis of the foregoing detailed findings of fact, it is found that the promulgation of the following regulation fixing and establishing a standard quality for canned fruit cocktail, canned cocktail fruits, canned fruits for cocktail, and specifying the manner and form of a label statement of substandard quality, will promote honesty and fair dealing in the interest of consumers; and that it gives consideration to and makes due allowance for the differing characteristics of the several varieties of the fruits present in canned fruit cocktail.

Regulation

§ 27.041 *Canned fruit cocktail, canned cocktail fruits, canned fruits for cocktail—Quality; label statement of substandard quality.* (a) The standard of quality for canned fruit cocktail is as follows:

(1) Not more than 20 percent by weight of the units in the container of peach or pear, or of pineapple if the units thereof are diced, are more than $\frac{3}{4}$ inch in greatest edge dimension, or pass through the meshes of a sieve designated as $\frac{5}{16}$ inch in Table I of "Standard Specifications for Sieves", published March 1, 1940, in L. C. 584 of the National Bureau of Standards, U. S. Department of Commerce. If the units of pineapple are in the form of sectors, not more than 20 percent of such sectors in the container fail to conform to the following dimensions: The length of the outside arc is not more than $\frac{3}{4}$ inch but is more than $\frac{3}{8}$ inch; the thickness is not more than

[1] *Supra.*

½ inch but is more than 5/16 inch; the length (measured along the radius from the inside arc to the outside arc) is not more than 1¼ inches but is more than ¾ inch.

(2) Not more than 10 percent of the grapes in a container containing ten grapes or more, and not more than one ten grapes, is cracked to the extent of being severed into two parts or is crushed to the extent that their normal shape is destroyed.

(3) Not more than 10 percent of the grapes in a container containing ten grapes or more, and not more than one grape in a container containing less than ten grapes, has the cap stem attached.

(4) There is present in the finished canned fruit cocktail not more than one square inch of pear peel per each one pound of drained weight of units of pear plus the weight of a proportion of the packing medium which is the same proportion as the drained weight of the units of pear bears to the drained weight of the entire contents of the can. Such drained weights shall be determined by the method prescribed in § 27.042.

(5) There is present in the finished canned fruit cocktail not more than one square inch of peach peel per each one pound of drained weight of units of peach plus the weight of a proportion of the packing medium which is the same proportion as the drained weight of units of peach bears to the drained weight of the entire contents of the can. Such drained weights shall be determined by the method prescribed in § 27.042.

(6) Not more than 15 percent of the units of cherry ingredient, and not more than 20 percent of the units of peach, pear, or grape, in the container is blemished with scab, hail injury, scar tissue or other abnormality.

(7) If the cherry ingredient is artificially colored, the color of not more than 15 percent of the units thereof in a container containing six units or less, is other and of not more than one unit in a container containing six units or less, is other than evenly distributed in the unit or other than uniform with the color of the other units of the cherry ingredient.

(b) If the quality of canned fruit cocktail falls below the standard prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard quality specified in § 10.020 (a), in the manner and form therein specified.

FILL OF CONTAINER

Findings of Fact

1. Canned fruit cocktail is purchased and used by consumers primarily for its fruit content although the liquid present is a necessary and valuable adjunct; and the quantity of fruit units present is a significant factor in consumers' preference among canned fruit cocktails.

2. The maximum quantity of fruit units which can be placed in each size of container is limited by the undesirable effects of forcing too large a quantity of fruit units into the container. Such undesirable effects are that when the quantity of fruit units present is too large, the quantity of liquid present must be so limited that the length of time required for heat-processing would be unduly extended, and this excessive processing would frequently disintegrate the units of fruit and would often damage their flavor and color. In addition sufficient space for enough liquid adequately to sweeten the fruit cocktail would not be available in the case of sweetened canned fruit cocktails.

3. A quantity of fruit units which may be placed in the container under all ordinary circumstances without detrimental effect on the fruit is such quantity as results in a drained weight of units of fruit of not less than 65 percent by weight of the water capacity of the container. Such quantity represents the amount of fruit by weight which experienced producers regard as the maximum quantity of fruit which can always be present, upon the basis of observation and test of a large number of cans of fruit cocktail.

4. The weight of water which a container will hold is a convenient method of specifying the capacity of the container and is well-known to canners generally. The method for determining the water capacity of containers prescribed in §10.010 (a) of the general regulations under the Federal Food, Drug, and Cosmetic Act, as follows, gives accurate, reliable and uniform results under all conditions:

(1) In the case of a container with lid attached by double seam, cut out the lid without removing or altering the height of the double seam.

(2) Wash, dry, and weigh the empty container.

(3) Fill the container with distilled water at 68° Fahrenheit to 1/8 inch vertical distance below the top level of the container, and weigh the container thus filled.

(4) Subtract the weight found in (2) from the weight found in (3). The difference shall be considered to be the weight of water required to fill the container.

In the case of a container with lid attached otherwise than by double seam, remove the lid and proceed as directed in clauses (2) to (4) inclusive, except that under clause (3) fill the container to the level of the top thereof.

5. In order that uniform determinations may be made it is necessary that a fixed method for determining the weight of fruit present be prescribed. A method which gives accurate, uniform, and reliable results under all normal conditions, and which is well-known to canners generally is as follows:

Tilt the opened container so as to distribute the contents evenly over the meshes of a circular sieve which has been previously weighed. The diameter of the sieve is 8 inches if the quantity of contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves", published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and drained fruit. The weight so found, less the weight of the sieve, shall be considered to be the total weight of drained fruit.

6. Containers of canned fruit cocktail which contain fruit units in a quantity less than 65 percent by weight of the water capacities of the containers, as determined by the foregoing methods, are not so filled as to promote honesty and fair dealing in the interest of consumers in the absence of a label statement that they are below standard in fill.

7. When canned fruit cocktail is below standard in fill of container the statement on the label, "Below Standard in Fill" is a simple, understandable, and adequate statement of that fact when appearing on the label in the following manner and form:

The statement "Below Standard in Fill" is printed in Cheltenham bold condensed caps. If the quantity of the contents of the container is less than 1 pound, the statement is in 12-point type; if such quantity is 1 pound or more, the statement is in 14-point type. Such statement is enclosed within lines, not less than 6 points in width; forming a rectangle. Such statement with enclosing lines, is on a strongly contrasting, uniform background, and are so placed as to be easily seen when the name of the food or any pictorial representation thereof is viewed, wherever such name or representation appears so conspicuously as to be easily seen under customary conditions of purchase.

Upon the basis of the foregoing detailed findings of fact it is found that the promulgation of the following regulation fixing and establishing a standard of fill of container for canned fruit cocktail, canned cocktail fruits, canned fruit for cocktail, and specifying the manner and form of a label statement of substandard fill of container will promote honesty and fair dealing in the interest of consumers.

Regulation

§ 27.042 *Canned fruit cocktail, canned cocktail fruits, canned fruits for cocktail—Fill of container; label statement of substandard fill.* (a) The standard of fill of container for canned fruit cocktail is a fill such that the total weight of drained fruit is not less than 65 percent of the water capacity of the container, as determined by the general method for water capacity of containers prescribed in § 10.010 (a). Such total weight of drained fruit is determined by the following method:

Tilt the opened container so as to distribute the contents evenly over the meshes of a circular sieve which has been previously weighed. The diameter of the sieve is 8 inches if the quantity of contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves", published March 1, 1940, in L.C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and drained fruit. The weight so found, less the weight of the sieve, shall be considered to be the total weight of drained fruit.

(b) If canned fruit cocktail falls below the standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard fill specified in § 10.020 (b), in the manner and form therein prescribed.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

[Docket No. A-1382, Part II]

ASSIGNMENT OF AN ADDITIONAL SHIPPING POINT FOR COALS OF DEER STRIP MINE

Findings of fact, conclusions of law, memorandum opinion and order in the matter of the petition of the Bituminous Coal Producers Board for District No. 2 for assignment of an additional shipping point for the coals of the Deer Strip Mine, Mine Index No. 491, in District No. 2 for rail shipment.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on March 30, 1942, by the Bituminous Coal Producers Board for District No. 2 ("District Board No. 2"), pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The original petition requested changes in freight origin group numbers and shipping points for the coals of certain mines in District No. 2 for rail shipment, and assignment of additional shipping points for the coals of certain other mines in District No. 2. On April 21, 1942, 7 F.R. 3259, the Acting Director issued an order granting temporary relief and conditionally providing for final relief for all mines involved, except Mine Index No. 491. On April 23, 1942, the Acting Director issued an order separating from and designating as Docket No. A-1382, Part II, that portion of the former docket relating to Mine Index No. 491.

A petition of intervention was filed on May 12, 1942, by the Bituminous Coal Producers Board for District No. 3 ("District Board No. 3"). Petitions of intervention were also filed on April 20 and May 16, respectively, by the following code members in District No. 2: The Butler Consolidated Coal Company ("Butler") and the Deer Field Coal Company ("Deer Field").

After due notice to interested persons, a hearing in this matter was held on May 19, 1942, before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by petitioner and by all intervenors. Preparation and filing of a report by the Examiner was waived, and the record was thereupon submitted to the undersigned.

Petitioner requests that the price classifications and minimum prices now effective for the coals of the Deer Strip Mine, Mine Index No. 491, of the Deer Field Coal Company, when shipped on the Bessemer & Lake Erie Railroad ("B&LE") from Bairdford, Pennsylvania, be made effective also for such coals when shipped over the Baltimore & Ohio Railroad ("B&O"), from Gibsonia, Pennsylvania. The Deer Strip Mine is located in Allegheny County, Pennsylvania. This mine now possesses loading facilities on the B&LE at Bairdford, Pennsylvania, about one and one-half miles from the mine workings. The distance from the mine to the requested additional loading point at Gibsonia, Pennsylvania, is about four miles. The road from the mine to the loading facilities is a macadam state highway; no other railroads are crossed.

The port on Lake Erie to which the B&LE gives Deer Strip coals access is Conneaut, Ohio. The bulk of the output of the Deer Strip Mine that has been shipped by rail has moved in the past to Conneaut. Deer Strip coals cannot move to Fairport Harbor, Ohio, over the B&LE. J. S. Carr, Secretary-Treasurer of Deer Field, testified that a distributor to whom the Carr Coal Company (of which company Carr is the majority stockholder) has shipped 30,000 tons of coal through Fairport Harbor during each of the two preceding summers, has agreed to take all the coal that the companies associated with Carr can provide. The source of this tonnage moving to Fairport Harbor was the Carr No. 1 Mine, Mine Index No. 313, located near Universal, Pennsylvania. Carr testified that, because of an increased demand for coal in the Pittsburgh area, it was not believed that the Carr No. 1 Mine could provide the Fairport customer with more than 50 percent of the tonnage that it had provided him in previous years. If the Deer Strip Mine had loading facilities on the B&O, it could help to meet the demand for cargo coal for shipment through Fairport Harbor which the Carr No. 1 Mine cannot fully satisfy.

Carr further testified that Deer Field was negotiating for the purchase of additional stripping equipment for the Deer Strip Mine. If this equipment were obtained, he estimated that the "maximum average capacity," of the mine would be increased from 350 tons a day to 1,000 or 1,200 tons a day. The record shows that ability to ship over the B&O would open up new outlets for Deer Strip coals.

Both District Board No. 3 and Butler opposed the granting of the relief asked for. District Board No. 3 claimed that granting relief would put at an undue competitive disadvantage those producers in District No. 3 who ship coal over the B&O for lake movement. Substantially the same claim was made by Butler in so far as the competitive opportunities of its Wildwood Mine, Mine Index No. 242, are concerned. Both intervening parties maintained that the right to ship from two loading points on two railroads would enable the Deer Strip Mine to obtain, during a shortage of railroad cars, a car supply in excess of its capacity to ship. It was argued by witnesses for both intervenors that an appreciable shortage of cars for lake shipment has prevailed on the B&O for some time. But Witness D. T. Buckley, Chairman of District Board No. 3, admitted, however, that assignment of the B&O loading point at Gibsonia to the Deer Strip Mine would operate to reduce only to a negligible extent the number of cars available to other B&O shippers.

Again, it was claimed by witness Duffy, Traffic Manager of Butler, that permitting the Deer Strip Mine to ship over the B&O would unduly prejudice competitors of that mine because such permission would enable it to reach markets from which it has hitherto been barred, but to which markets certain mines competing with the Deer Strip Mine—and, especially, the Wildwood Mine—have had access. Deer Strip coals have not moved to certain points in Market Areas 7 and 11 apparently because of differentials in freight rates to those points favoring shippers over the B&O as against shippers over the B&LE. Duffy pointed out that the Deer Strip Mine now enjoys advantageous differentials in freight rates on the B&LE to certain other markets as against B&O shippers. He argued that the Deer Strip Mine should not be allowed to enjoy the advantageous differentials which prevail on both railroads. There is no merit in this argument. Permitting the Deer Strip Mine to ship over the B&O will, of course, not enable it to ship to points within Market Areas 7 and 11 at lower freight rates than those at which the Wildwood Mine or other mines now shipping on the B&O must ship. Granting the relief asked for will not serve to disrupt fair competitive opportunities. It will simply give the Deer Strip Mine an opportunity to compete. The Act does not require stifling of competition.

Witness Duffy further contended that possession in the Deer Strip Mine of a shipping point on the B & O was not necessary to a satisfactory marketing of coals produced at that time, and at others with which witness Carr is associated. It was admitted by Carr that 95 percent of the winter output, and 50

that possession of an additional loading point on the B&O at Gibsonia will not involve an uneconomical movement of coals produced at the Deer Strip Mine. Possession of a second loading point will not disrupt the fair competitive opportunities of other producers in District No. 2 or in other districts. Under these circumstances, the undersigned is of the opinion that it is proper to assign to the Deer Strip Mine, Mine Index No. 491, of the Deer Field Coal Company, an additional loading point which will be on the Baltimore & Ohio Railroad at Gibsonia, Pennsylvania. Shipments from this loading point as well as from that at Bairdford, Pennsylvania, will be governed, of course, by the applicable rates assigned to Freight Origin Group No. 46.

Now, therefore, it is ordered, That effective fifteen (15) days from the date hereof § 322.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, and § 322.9 (*Special prices—(c) Railroad fuel*) is amended by adding thereto Supplement R–II, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: August 5, 1942.
